No. 6.. Report of the Council of the Agricultural and Arts Association for the year 1884. (*Printed.*)

No. 7.. Report of the Fruit Growers' Association for the year 1884. (*Printed.*)

No. 8.. Correspondence and Papers relating to the Northerly and Westerly parts of Ontario. (*Printed.*)

CONTENTS OF PART III.

No. 9.. Report of the Commissioners appointed to inquire into and investigate certain charges of a conspiracy to corrupt, and of attempts to bribe certain members of the Legislature, with the evidence taken and documents. (*Printed.*)

CONTENTS OF PART IV.

No. 10.. Return from the Records of the Elections to the Legislative Assembly since the last Return in 1884, shewing:—(1) The number of Votes polled for each Candidate in each Electoral District in which there was a contest. (2) The majority whereby each successful Candidate was returned. (3) The total number of Votes polled in each District. (4) The number of votes remaining unpolled. (5) The number of names on the Voters' Lists in each District. (6) The population of each District as shewn by the last census. (*Printed.*)

No. 11.. Report on Lunatic and Idiot Asylums for the year ending 30th September, 1884. (*Printed.*)

No. 12.. Report upon the Common Gaols, Prisons and Reformatories for the year ending 30th September, 1884. (*Printed.*)

No. 13.. Report of the Ontario Agricultural College and Experimental Farm for the year 1884. (*Printed.*)

CONTENTS OF PART V.

No. 14.. Report of the Librarian of the Legislative Assembly on the state of the Library. (*Printed.*)

No. 15.. Estimates for the year 1885. (*Printed.*)

No. 16.. Public Accounts for the year 1884. (*Printed.*)

No. 17.. Report of the Commissioner of Public Works for the year 1884. (*Printed.*)

No. 18... Return shewing:—(1) The amount voted by this House for expenditure on each particular Colonization Road in the Province during the year 1883, with the conditions (if any) attached to such grant. (2) The amount actually expended on each of such roads, with the dates when the work thereon was commenced and completed. (3) The roads upon which the $20,000, placed at the disposal of the Government for "Short New Roads and Repairs," has been expended, with copy of report recommending such expenditure or other application therefor, date of appropriation, dates of commencement and completion of the same, and conditions (if any) attached to such grant. (*Printed.*)

No. 19.. Reports of the Inspector of Division Courts for the years 1883 and 1884. (*Printed.*)

No. 20.. Return of copies of all Orders in Council for the sale or disposal of timber or timber berths or lands in the Thunder Bay District, or regulating the sale or disposal thereof, and of copies of all Orders in Council fixing the dues or fees to be paid in respect of such timber, and the bonus or purchase money to be paid for such timber lands or berths, or the right to cut the timber therefrom, and also of copies of all Orders in Council or regulations relating to such lands; the timber thereon, and the rate of bonus or dues to be paid in respect thereof, and also for a map or sketch shewing the area of the said district. (*Printed.*)

No. 21.. Return shewing the name of the Caretaker, Wood Ranger, or other officer of the Government (if any) in charge of the Crown Lands and timber at Rondeau Point; the salary or other remuneration (if any) paid such officer, and the amount collected by such officer (if any) for timber or ornamental trees sold, to the 31st December, 1883. (*Not printed.*)

No. 22.. Return shewing in detail the timber lots or berths in the Thunder Bay Districts which have been sold or disposed of, with the names of the persons to whom the same have been sold or disposed of; the area of each such lot or berth; the price paid therefor; the rates of dues to be paid in respect of the timber to be cut therefrom, and the names of the present owners of such lots or berths, and shewing also which (if any) of the lots upon which such rights to cut timber have been granted have been sold, and, if so, to whom, and the present owners of such lots, so far as the information is in the possession of the Department. (*Printed.*)

No. 23.. Return shewing the total number of School Sections in the Province in which the Government Grant has been withheld since 1880; giving the reasons therefor in each case, and copies of any correspondence in the Education Department bearing upon the subject. (*Not printed.*)

No. 24.. Return shewing the name of each Colonization Road on which Provincial money has been expended since July, 1867; its length in miles; the constituency or constituencies in which it is situated; the amount expended on it in each year, distinguishing between amounts for repairs and amounts for construction of new road, giving the length of road constructed. (*Printed.*)

No. 25.. Return shewing in detail the expenditures made in the Townships of Hungerford, Elzevir and Seymour, and the Village of Campbellford respectively, by the authority of the Provincial Board of Health and the Local Board of Health, or otherwise, during the late small-pox epidemic that prevailed in these localities, with the number of cases and deaths, and the length of time the epidemic prevailed; the ages of the patients, and the number of such who have been vaccinated or re-vaccinated. (*Printed.*)

No. 26.. Return of the number of Hotel and Saloon Licenses authorized to be granted in the Town of Peterborough, for the year 1883-4, under the Crooks' Act, and the number of such Licenses actually granted. (*Not printed.*)

No. 27.. Return of:—(1) Copies of the information and evidence submitted to, and taken before Mr. P. McCurry, Stipendiary Magistrate of Parry Sound, at the instance of the Parry Sound Lumber Company, against Henry May, James May, William Micklam, William Brown, ——— Crawford and William Brand, or any of such persons, on a charge of alleged breach of agreement, by the said persons, or some of them, with the said Parry Sound Lumber Company, upon which information and evidence the said persons, or some of them, were convicted and sentenced by the said Stipendiary Magistrate to imprisonment, and actually imprisoned, notwithstanding the provisions of the Dominion Act, 40 Vic., cap. 35, which abolishes imprisonment or any summary remedy in any such cases between master and servant. (2) A copy of the written agreement entered into with the said Company by the said persons or any of them, if the same, or a copy thereof, was filed with the said Stipendiary Magistrate. (3) A copy of all correspondence by or with the said Magistrate, in reference to the said convictions, with any person or persons. (*Not printed.*)

No. 28.. Supplementary Return shewing:—(1) The several lots in the Townships of Tudor, Wollaston, Limerick and Faraday, in the County of Hastings, which have been sold, located, disposed of or applied for since January 1st, 1880. (2) The dates of the said sales; the persons to whom sold; the prices paid and the terms of payments. (3) The dates of the several applications for the purchase or location of said lots. (*Printed.*)

No. 29.. Papers respecting the case of Dr. John Francis Dowling, Member for the South Riding of Renfrew. (*Printed.*)

No. 30.. Report of the Commissioner of Crown Lands for the year 1884. (*Printed.*)

No. 31.. Return shewing in detail all sums paid or claimed for specimens of minerals or other products of the District of Algoma during the past year, for exhibition in Ontario or elsewhere, with the names of all persons by whom and to whom such payments were made, or by whom such claims were made, together with all papers, documents or communications conferring upon any person or persons authority to collect such exhibits, and all reports or communications made to the Government or any member or officer thereof by such person or persons. (*Not printed.*)

No. 32.. Return of copies of all correspondence between the Government of Ontario and the Government of the Dominion, respecting the Dominion Liquor License Act of 1883. (*Printed.*)

No. 33.. Order in Council commuting the fees of His Honour Judge Dean of Victoria. (*Not printed.*)

No. 34.. Statement of the Officers of the Toronto General Trusts Company, of its funds, properties and securities, required by 32 Vic., cap. 83, sec. 13. (*Not Printed.*)

CONTENTS OF PART VI.

No. 35.. Report of the Provincial Secretary on the working of the Tavern and Shop License Acts, for the year 1884. (*Printed.*)

No. 36.. Report of the Department of Immigration for the year 1884. (*Printed.*)

No. 37.. Return of copies of all Orders in Council and Departmental Regulations respecting the authorization or publication of School Text Books, subsequent to those already brought down; also, a copy of any agreement or bond entered into by James Campbell & Son, or William Warwick, with the Government, or any member thereof, for the publication of the old school readers, and a copy of any agreement or bond entered into between publishers and the Government, or any member thereof, or with the Chief Superintendent of Education, or Council of Public Instruction, for the publication of the new school readers; also, copies of all correspondence between the Minister of Education or other member or officer of the Government and any individual or firm, respecting the authorization or publication of School Text Books since 1st June, 1880; also, Return shewing the cost incurred up to the present in the preparation of the new School Readers recently authorized, specifying the different items of which the sum is made up, and the persons to whom the several amounts have been paid or are payable; also, a statement of the amounts that will yet have to be paid to complete the work; also, Return of copies of all Reports or recommendations of the Central Committee respecting the withdrawal of authorization from the Royal and Canadian Readers, and the preparation, authorization, and publication of a New Series of Readers. (*Printed.*)

No. 38.. Report on the Institution for the Education of the Deaf and Dumb for the year ending 30th September, 1884. (*Printed.*)

No. 39.. Report upon the Hospitals of the Province for the year ending 30th September, 1884. (*Printed.*)

No. 40.. Report on the Institution for the Education of the Blind for the year ending 30th September, 1884. (*Printed.*)

No. 41.. Report on the Houses of Refuge and Orphan and Magdalen Asylums aided by the Province, for the year ending 30th September, 1884. (*Printed.*)

No. 42.. Return shewing all Provincial Railways (Ontario), which were by the legislation of the Parliament of Canada of 1883 declared to be Dominion Railways. The mileage of each said Railway. The amount paid to each by the Provincial Government and by the Municipalities respectively. (*Printed.*)

No. 43.. Return of copies of all correspondence, papers and documents relating to the estreated bail bonds of one Lyons, committed for trial by the Police Magis-

trate of St. Thomas, on a charge of burglary, or larceny, in the possession of the Honourable the Attorney-General, or in his Department. (*Not printed.*)

No. 44.. Return from Queen's Printer as to the disposal of the Sessional Statutes for the year 1884. (*Not printed.*)

No. 45.. Return of copies of all correspondence and other papers which may have passed between the Government of Ontario and the Governments of the Dominion and Quebec, touching the final settlement of the financial affairs of the late Province of Canada, except so far as already brought down. (*Printed.*)

No. 46.. Annual Statement for the twelve months ending 30th June, 1884, of Upper Canada College. (*Not printed.*)

No. 47.. Return of the names of all persons who have made application to the Department of Education through the Public School Inspectors in each County, for permits to teach for the years 1882 and 1883; the names of persons to whom such permits have been granted; the date of such permits; date of cancellation and dates of renewal, if renewed. (*Not printed.*)

No. 48.. Return furnishing the full text of the judgment of the Judges of the Queen's Bench Division of the High Court of Justice, on the Demurrer in the case of the Queen *vs.* Bunting and others. (*Printed.*)

No. 49.. Return shewing the indebtedness of any Municipality to the Government, whenever the same may be in arrears for over one year, either on account of principal or interest. (*Printed.*)

No. 50.. Statement of the Fees and emoluments received by the Registrars of Ontario for the year 1884, made in accordance with the provisions of the R. S. O., cap. 111, sec. 97, and 43 Vic., cap. 3, sec. 2, with which are contrasted receipts of same nature in 1882 and 1883. (*Printed.*)

No. 51.. Return shewing the Text Books authorized by the Education Department in Geography, Grammar, and English History, and now used in the Public Schools of this Province. (*Printed.*)

No. 52.. Return shewing in detail as to each Municipality:—(1) The amount of the original indebtedness of any Municipality to the Province under the Ontario Drainage Act. (2) The number and amounts of the rent charges originally payable in respect thereof. (3) The sum paid on account thereof. (4) The amounts in arrear for such rent charges. (5) The amount of rent charges yet to mature. And also a return of all correspondence and communications between any member or officer of the Government and any one on behalf of the said Municipalities as to the said arrears, or the reduction thereof, where any such reduction has been made, or of the claim of the Government in respect thereof, and also of all Orders in Council reducing or readjusting the indebtedness of any of the said Municipalities, and also shewing the amount of reduction in each case. (*Printed.*)

No. 53.. Return shewing the names of teachers on the superannuation list; the date of their superannuation; the amount received by each; their place of abode at the time of superannuation, and by whom their superannuation was recommended. (*Not printed.*)

No. 54.. Return of copies of all correspondence with reference to the application of Henry S. Mitchell to be appointed Notary Public. (*Not printed.*)

No. 55.. Return from each Registry Office, giving, for the final nine months of the year 1884, the following particulars :—(1) Number of absolute transfers and amount of fees received therefor. (2) The number of mortgages and the amount received therefor. (3) The number of discharges of mortgages and the fees received therefor. (4) The number of leases and the fees received therefor. (5) The number of wills and probates and the fees received therefor. (6) The number of patents and the fees received therefor. (7) The number of assignments of mortgage and the fees therefor. (8) The number of powers of attorney and the fees received therefor. (9) The number of bonds and agreements for sale of land and the fees received therefor. (10) The number of searches and abstracts and the fees received therefor. (11) The fees received for registering certificates, by-laws, plans and other instruments and services not enumerated and the fees received therefor. (12) Total amount received for registry fees. (13) The amount of surplus (if any) payable to the County. (*Printed.*)

No. 56.. Return of copies of Extracts, etc., from the Reports and Proceedings of the Special Committees appointed by the Imperial House of Commons in the years 1876 and 1877 to enquire whether it might be expedient to render employers liable for injuries occasioned to their servants, etc., and a copy of a letter addressed by Lord Justice Bramwell to Sir Henry Jackson, a member of said Committee, with respect to the matters inquired into by said Committees. (*Printed.*)

No. 57.. Report of the Inspector of the Elgin House of Industry and Refuge for the year ending 1st November, 1884, as required by section 460 of the Consolidated Municipal Act, 1883. (*Not printed.*)

No. 58.. Return of copies of all correspondence between the Government and the Council of University College respecting the admission of women to that institution, and shewing :—(1) The number of women attending classes in University College up to the date of the Return, distinguishing between matriculated and non-matriculated students, and between residents and non-residents of Toronto. (2) The number of women taking honour work in each Department in each year of the curriculum. (3) The amount spent by the Government and the College Council, as the result of the admission of women, with the objects for which it was spent. (4) The number of women undergraduates in each year of the Toronto University course; and (5) The number who have passed successfully in any of the groups of subjects at the local examinations for women, held under the auspices of the University, distinguishing between the first, second and third examinations. (*Printed.*)

No. 59.. Return shewing the number of licenses granted for the keeping of Private Lunatic Asylums for the years 1882, 1883, and 1884; the names of all persons obtaining such licenses, and the date of their issue. (*Not printed.*)

No. 60.. Return of copies of all correspondence between William Coe and the Crown Lands Department, relating to lands sold to him in the year 1883; also, for a copy of the Report of the Commissioner of Crown Lands to the Lieutenant-Governor in Council on the sale made in such year 1883; also a copy of the Order in Council confirming such sale; also, as a supplementary return presented to the House during the present Session states the terms of said sale were cash, a statement of dates of payments made on account of said sale. The above Return to apply only to lands sold in the Townships of Wollaston, Limerick, Faraday and Tudor, in the County of Hastings. (*Printed.*)

No. 61.. Return of all papers, documents and correspondence to or from the Government or any member thereof, since the first day of March, 1884, to the present time, respecting the conduct of Samuel Stanley Peck, Esquire, Stipendiary Magistrate and Division Court Judge for the Provisional County of Haliburton, at the Municipal elections held on the fifth day of January last, in the Township of Minden, and subsequently thereto, and of any official or other information respecting the citizenship of the said Peck, and of any communication respecting the debt of the said S. S. Peck to the said Provisional County whilst treasurer thereof. (*Printed.*)

No. 62.. Abstract of Returns of Receipts, Expenditures, Assets and Liabilities, for the year 1884, of the Municipalities of the Province of Ontario, made by Clerks of Municipalities pursuant to 43 Vic., cap. 24, sec. 6, with the population of each Municipality. (*Printed.*)

No. 63.. Return of copies of all correspondence between the Department of Education and the Inspector of the County of Dufferin or the Trustees of School Section No. 1, East Luther, or any other person, relating to the Division of the said School Section. (*Not printed.*)

No. 64.. Return shewing the number of certificates of Railway Annuities and the amounts of the same which have been either sold or exchanged for any portion of the outstanding Railway Scrip, as authorized under the provisions of cap. 31, 47 Vic.; to whom sold or with whom exchanged; the terms upon which such sale or exchange was effected, and when sold; the date of the receipt of the money therefor. Also a copy of the advertisement asking for tenders, with copies of all tenders received in response thereto. (*Printed.*)

No. 65.. Return of copies of a certain memorandum or scheme with regard to a Federation of the other Universities and Colleges in Ontario with University College, and of all reports or resolutions of the governing bodies of the University of Toronto and other Universities or Colleges in relation thereto, and copies of any other documents affecting the proposed Federation. (*Printed.*)

No. 66.. The Bursar's Statement of Cash Transactions of the University of Toronto and University College, for the year ending 30th June, 1884. (*Printed.*)

No. 67.. Return giving a statement of all the real property belonging to the Endowment Fund of Toronto University, University College, and Upper Canada College, and the value thereof, and of all other property, namely: Debentures, Mortgages; Bank Stock; Balances that may be due on Sales of Land; Cash Balances in Banks; and any cash that may be in hand as on the 31st June, 1884; the income derived from the said property for the years 1883 and 1884, with the expenditure of the same for the same period; a clear statement shewing the kind of educational work that Upper Canada College is doing in excess or advance of what any well equipped High School is doing or can do. (*Printed.*)

No. 68.. Return shewing the amount spent in scholarships, bursaries, exhibitions and prizes in Toronto University, University College and Upper Canada College during the ten years ending 1883-4, distinguishing between those on public and those on private foundations, and in the case of the University between those granted in the different faculties of Arts, Law and Medicine. Also, amount paid annually, *per* student, by fees in each of the above classes. (*Printed.*)

No. 69.. Return shewing the names of all companies or associations incorporated under chapter 167 of the Revised Statutes, since the year 1877, with the dates and places of incorporation, and particularly the objects of incorporation thereof respectively. The names and like particulars as to companies or associations incorporated since the year 1877 under chapter 158 of the Revised Statutes, being the Act respecting co-operative associations. (*Printed.*)

CONTENTS OF PART VII.

No. 70.. Report of the Provincial Board of Health for the year 1884. (*Printed.*)

No. 71.. Return of copies of all regulations directed and appointed by the Lieutenant-Governor in Council, under authority of the Act respecting the Expenses of the Administration of Justice in Criminal Matters, Revised Statutes, chapter 86, for the examination, auditing, vouching and approving of such expenses as are paid out of the Consolidated Fund in accordance with said Act. (*Not printed.*)

No. 72.. Return shewing the lots in the Township of Harvey, in the County of Peterborough, which, while under license for the cutting of timber, have been sold since the first day of January, 1880, with a statement of the date when the right to cut timber under such license would cease in consequence of such sale. Also, the name or names of the license holders whose license covered such lands. (*Not printed.*)

No. 73.. Report of the Dairymen's Association of Western Ontario for the year 1884. (*Printed.*)

No. 74.. Return of copies of all applications made to the Provincial Government for aid to Railways since the passage of the Dominion Act of 1883, declaring Provincial Railways to be for the benefit of Canada, with copies of all correspondence relating to such applications. (*Not printed.*)

No. 75.. Return of all correspondence between the Crown Lands Department, or any officer thereof, and any other person, with reference to the dues charged by timber limit holders to actual settlers upon lots on which they have not been formally located. (*Not printed.*)

No. 76.. Return to an Address, of the fourteenth day of March, 1884, for copies of all Orders in Council passed under the authority of the General Mining Act, creating, extending, adding to, or diminishing mining divisions. (*Printed.*)

No. 77.. Report of the Secretary and Registrar of the Province for the year 1884. (*Printed.*)

No. 78.. Return of all market fees and market rents, salaries of market clerks, with rates of fees now charged and any changes of fees known to the Department since the passing of the Act relating to Market Fees, being 45 Vic., cap. 24. (*Not printed.*)

No. 79.. Return of all correspondence between the Crown Lands Department, or any officer thereof, and any other person, with reference to the opening up for settlement of the Townships of Himsworth and North Nipissing, or any part of them, and also, of all petitions, reports or Orders in Council on the subject; also, for copies of all petitions or applications to the Crown Lands Department for a supply of timber for the purposes of a local mill there, and of all correspondence between the Department and any other person on the subject. (*Not printed.*)

No. 80.. Statement of the Assets, Liabilities, Revenue, Expenditure, etc., of the several Municipalities in the Province, as made by the Clerks of the Municipalities for the year 1883. (*Not printed.*)

No. 81.. Return of copies of all reports made to the Government by Directors of Joint Stock Road Companies for the year 1884, under sec. 146, cap. 152, of the Revised Statutes, as amended by ss. 6 and 7, cap. 25, 47 Vic., and a Return shewing the date of construction of all toll roads in the Province, the number of toll-gates maintained thereon, the rate *per* mile charged as tolls, and specifying the amount of the original capital stock, and the amount of the present stock, with the reasons for an increase, if any, in each case; also a Return shewing the toll roads which have been abolished in the Province, or on which the collection of tolls has ceased, and the manner and terms of their abolition, or the reasons why tolls have ceased to be collected. (*Not printed.*)

No. 82.. Statement in detail of the Receipts and Expenditures on account of the Mercer Estate for the year 1884. (*Printed.*)

No. 83.. Tabulated Analysis of Reports of Electoral, District and Township Agricultural Societies and of Horticultural Societies for the year 1883. (*Not printed.*)

No. 84.. Report of the Bureau of Industries for the Province for the year 1884. (*Printed.*)

No. 85.. Detailed Statement of all Bonds and Securities registered in the Provincial Registrar's Office during the year 1884. (*Not printed.*)

No. 86.. Return shewing what sums have been paid to George R. Patullo on any account whatever since first January, 1883, with the dates of the payment thereof and the purpose for which such payments were made. (*Printed.*)

No. 87.. Return of copies of all correspondence and other documents relating to the cancellation of location of lot number 33 in the first concession of Snowden, in the Provisional District of Haliburton, and of all correspondence and documents relating to the sale or re-location of the same lot. (*Not printed.*)

No. 88.. Return of all correspondence between the Municipal Council of the Township of Roxborough, or any member or officer thereof, and the Provincial Secretary, or any officer of his Department, with reference to the claim made by the License Board of Stormont upon the said Municipality for payment of fifty dollars towards the expenses of enforcing the Temperance Act of 1864 in the Township of Roxborough. Also, shewing the amount demanded from each Municipality in which the said Act was in force for each of the years 1882, 1883 and 1884, and the amount paid in respect of such demand. Also, shewing how the said sum of fifty dollars demanded from the said Township of Roxborough is made up. (*Not printed.*)

No. 89.. Report of the Inspector of Legal Offices, for the year 1884. (*Printed.*)

No. 90.. Report of the Entomological Society of Ontario for the year 1884. (*Printed.*)

No. 91.. Return shewing the several Lots in the Townships of Belmont, Methuen, Anstruther, Galway and Cavendish, in the County of Peterborough, and of the Townships of Cardiff, Monmouth, Snowden, Lutterworth and Glanmorgan, in the Provisional County of Haliburton, which have been sold,

located, disposed of, or applied for, otherwise than under the "Free Grant and Homestead Act," since the first day of January, 1880; also, the dates of the said sales, the persons to whom sold, the prices paid, and terms of payment; also, the dates of the several applications for the purchase, location, and terms of location of said lots. (*Not printed.*)

No. 92.. Return of the names of all persons appointed or employed for the collection of Statistics other than Vital Statistics in connection with any Department of the Provincial Government; the places of residence of such persons, the salary or other remuneration paid or given to them; the dates during which they were employed; the instructions, if any, given to such persons, and a statement shewing the cost of compiling such statistics, such Return to embrace the years 1883 and 1884. (*Not printed.*)

REPORT

OF THE

LIBRARIAN OF THE LEGISLATIVE ASSEMBLY

OF THE

PROVINCE OF ONTARIO.

To the Honorable the Legislative Assembly of the Province of Ontario:

The Report of the Librarian respectfully sheweth—

That during the past year the gross number of volumes has been largely increased, partly by purchase and partly by exchanges and donations. Several valuable works of an historical kind have been procured on account of the boundary investigation, and these will henceforth be at the service of writers on Canadian history who resort to early documents and authorities for their facts. The Canadian historical collection, though now large, is by no means so complete as it ought to be. There are many well known works which find no place as yet on our shelves, and though we are constantly adding to our collection of pamphlets, there are many still to be picked up which would prove of the greatest service to the future historian.

During the year something has been done to complete our collection of public documents from the other Provinces of the Dominion, and especially from those which have had for many years a system of responsible and parliamentary government. The legislative and administrative experience detailed in them is well calculated to afford material for comparisons which cannot fail to be useful in the work of legislation.

A similar remark applies to the public documents of the United States, and still more to those of the particular states lying nearest to this Province. That the assistance thus afforded is mutual, is shown by a recent request from the capital of Michigan for copies of the Ontario Statutes relating to ditches and water courses, a subject then before the State Legislature. The number of documents sent to this library through the Smithsonian Institute at Washington was, as usual, very large, and many of these volumes contain a great amount of useful information. There is need of a good index in this connection, but a partial substitute might be found in numerous references in a catalogue of the library.

The need of such a catalogue is very urgent. Something has been done during the year to arrange the plan of an elaborate manuscript catalogue, but so much time was consumed in ascertaining the best mode of procedure, that the work of entering titles and and cross references has hardly been begun. The plan recommended is what is known as the card system, which is now very generally used in the United States, and to some extent also in England. On this plan the entries are on separate cards of suitable size, which are perforated and strung on wires, so that a strictly alphabetical arrangement can be maintained. The wires are arranged in drawers in cabinets, the whole being under the perfect control of the librarian, while readily accessible to those who wish to search for books. For a library as extensive as this, there should be at least one hundred thousand entries, each important work being entered several times, and each important subject, in books treating of more than one, being similarly dealt with. For example,

Pollock's "Essays in Jurisprudence and Ethics" should appear in its proper place under the name of the author, several of whose works are in the Library. It should appear also under the title "Jurisprudence," and under the title "Ethics." And, lastly, it should appear under such titles of important essays as "Oath of Allegiance," "Commercial Law," "Partnership Law," "Case Law," "Employers' Liability," &c. Only by means of such an elaborate system of references can the great resources of the Library be utilized to the fullest advantage in connection with the work of legislation.

The chief donations during the year were (1) a set of the collected works of the late Dr. Sibson of London, England, presented by his widow; (2) a finely bound volume of the transactions of the City of Montreal for 1883; (3) the annual volume of the "Coöperative Wholesale Society" of Great Britain for 1884; (4) "Shanty, Forest and River Life in the Backwoods of Canada," presented by the author, Rev. Joshua Fraser; and (5) A "Reply to Mill on the Subjection of Women," presented by the author, D. McCaig, Esq.

Considerable additions were made during the past few months to the series of periodicals, the most important of those, completed by the purchase of back volumes, being the *Fortnightly Review* and the *Atlantic Monthly*. It is hoped that opportunities may offer of completing other valuable series during the current year at a moderate cost.

The meeting of the American Library Association, which should have taken place in Toronto, in August, 1884, was postponed till August, 1885, on account of the meeting of the British Association at Montreal during the same month. That the development of Public Libraries will, from the presence of such a body, receive a decided impetus is beyond doubt, and it is highly desirable that, with a view to such a meeting, this Library should be put in as good a condition as our defective surroundings will permit.

Respectfully submitted.

WILLIAM HOUSTON,
Librarian.

Toronto, Jan. 1st, 1885.

ESTIMATES

OF THE

PROVINCE OF ONTARIO,

FOR THE

FINANCIAL YEAR ENDING 31st DECEMBER,

REPORT

OF THE

COMMISSIONER OF PUBLIC WORKS

FOR THE

PROVINCE OF ONTARIO,

FOR THE YEAR ENDING 31st DECEMBER, 1884.

To His Honour the Honourable JOHN BEVERLEY ROBINSON,

Lieutenant-Governor of the Province of Ontario, etc.

I respectfully submit the usual annual report of the operations of the Department of Public Works for the year ending the 31st of December, 1884.

The various works in connection with the expenditure in respect of the Public Buildings and Institutions of the Province, are referred to in the report of the Architect, etc., of the Department, a copy of which is hereto attached.

The report of the Engineer, also hereto annexed, contains the details of the works connected with the construction and maintenance of locks, dams, slides, etc., the applications for aid by Municipalities for drainage purposes, and the extension of Railways during the year.

Very respectfully submitted,

C. F. FRASER,

Commissioner, etc.

DEPARTMENT OF PUBLIC WORKS, ONTARIO,
December 31st, 1884.

REPORT

OF

THE ARCHITECT, ETC.

Department of Public Works, Ontario,
Toronto, December, 31st, 1884.

Sir,—I have the honour to submit the following report :—

GOVERNMENT HOUSE.

The usual repairs were made during the year.

It was found necessary to re-cover and otherwise refit such of the furniture as had been in use for several years.

Several new articles of furniture and furnishings were also required, and were provided from time to time.

Some of the bed-rooms were re-papered and painted.

The grounds have been kept in good order.

PARLIAMENT AND DEPARTMENTAL BUILDINGS.

Tenders were received for the additions required to the out buildings, the lowest, being that of Mr. A. J. Brown, was accepted, and the work has been completed in a satisfactory manner, in accordance with the Plans and Specifications.

The usual repairs required for the buildings were attended to, and the necessary articles of furniture and furnishings were supplied according to requirement.

The grounds have been kept in order, and the fences repaired where necessary.

Additional accommodation for Committee rooms during the session of the Legislature are still urgently required.

ASYLUM FOR THE INSANE, TORONTO.

The roofs of the main buildings and hospitals were thoroughly repaired. Except for ordinary annual repairs these roofs have not been touched since they were re-constructed, under my directions, twenty-five years ago.

On examination, the galvanized iron of the deck roofs was found to be much rusted, though water-tight. A coating of patent roofing paint was given to all the roofs, and it is expected that the iron will be protected from further rust for some years.

The slating, eave-troughs and down pipes were also fully repaired, and with the exception of a few trifling leaks from flashings alongside of the division walls, the roofs are reported to be quite water tight.

ASYLUM FOR THE INSANE, LONDON.

The additional building for religious services was completed and furniture provided according to instructions. The building has lately been used for the intended purpose, and has been found suitable in every respect.

Tenders were received for re-fitting the laundry drying room, the lowest, being that of Thos. Green & Co., of London, was accepted. The work was completed in a satisfactory manner.

ASYLUM FOR THE INSANE, HAMILTON.

The new laundry and kitchen were fully completed and occupied in the early part of the year. The flooring of the old kitchen and hall was taken up, and a new concrete floor was constructed by means of the labour of the Asylum patients, the cement having been provided by the department.

Tenders for the heating apparatus for the cottage for acute cases were received in the early part of the year, the lowest being that of Messrs. McKelvey & Birch, Kingston, which was accepted. The work was completed in October last, and the cottage was occupied early in November.

The water supply-pipe from the engine house on Queen street to the Asylum buildings had to be repaired on several occasions, and a careful examination of the pipe when uncovered, shews that it will be necessary to construct a new supply-pipe at an early date.

ASYLUM FOR THE INSANE, KINGSTON.

The cottage for chronic cases was occupied in the early part of the year, and the work has been found satisfactory in every respect.

The new water pipe from the pumps to the tank in the attic of the main building, was completed during the summer without interfering with the usual supply to the institution, the old pipe not having been disturbed.

According to your instructions I accompanied the Inspector of Prisons, &c., and the Chairman of the Provincial Board of Health, on the 17th of June last, in their examination as to the sanitary condition of the Asylum buildings, when certain improvements were recommended which were fully reported and approved. These improvements, consisting of the re-construction of some of the drains and water-closets in the main building and medical superintendent's residence, the construction of ventilating pipes to the main drains, and sundry other alterations have been carried out and fully completed.

ASYLUM FOR IDIOTS, ORILLIA.

With the exception of some trifling repairs connected with the water supply and steam boilers, there has been no further expenditure for this institution.

REFORMATORY FOR BOYS, PENETANGUISHENE.

The outlet of the original kitchen drain has been diverted to the main sewer previously constructed from the outside water-closets, to the bay on the north, as recommended in the Medical Officer's report.

An examination of the sanitary condition of this building was made by the Chairman and Secretary of the Provincial Board of Health early in the present year, and certain alterations and improvements to the water closets and the ventilation of the drains were recommended, which, having been reported on and approved, were carried out according to directions.

ANDREW MERCER REFORMATORY FOR FEMALES, TORONTO.

Tenders were received for the construction of an addition to the laundry at the south end, and for a shed in airing-yard, Girl's Refuge, the lowest being that of George Hillam, was accepted. The shed in the airing yard has been completed for some time past, and the works connected with the addition are still in progress, but will soon be finished.

The water-closets throughout have been altered, in order to reduce the great waste of water, and to improve the sanitary condition of the building. Each water-closet is now supplied from a separate cistern connected with the main cistern in the building, which is kept full from the city waterworks. By this means the great pressure of the city mains is taken off the separate supply to each water-closet, reducing the cost of repairs to taps, preventing waste of water, and introducing the latest improvements in water-closets.

CENTRAL PRISON, TORONTO.

The reconstruction of the north workshop, which were injured by fire as reported last year, was proceeded with in the early part of the year, and has been completed for some time.

The work, with the exception of the slating, etc., was done by Prison labor in a very substantial and workmanlike manner, to my entire satisfaction, and within the amount appropriated.

An addition at the west end was constructed, which is represented by the Contractors for Prison Labor to be of much advantage to them in the prosecution of their works.

A new one hundred-horse power engine has been placed in the engine-room, and the three boilers in this building have been re-set, and otherwise repaired and improved.

The three boilers in the south workshop are now connected with the steam heating apparatus for the main building and shops.

The machinery, shafting and pullies were repaired after the fire, and were refixed.

The works are now in full operation.

DEAF AND DUMB INSTITUTE, BELLEVILLE.

The filtering tank at the bay has been completed, and the water supply to the Institution is now pumped through the tank.

The water for drinking purposes is still procured from the well on the east side of the grounds.

The alteration of the water-closets is now in progress and will soon be completed. The new closets will be on the new hopper principle, each closet will be supplied by a separate cistern, to prevent waste of water, and the whole will be thoroughly ventilated

BLIND INSTITUTE, BRANTFORD.

Some alterations have been made in the steam-heating supply to the additions for water-closets, which have been carried out by the Engineer of the Institute, under the Principal's directions.

The duplicate pump for the water supply was placed in the engine-house, and has proved quite satisfactory.

AGRICULTURAL COLLEGE, GUELPH.

The Cheese Factory building has been altered to a Creamery, and fitted up under the superintendence of the Permanent Clerk of Works. The Creamery has been in operation since October last.

The stairway in the Laboratory was constructed, the floors of the main building have been repaired and laid with hardwood.

The ice-house was constructed in the rear of the laundry building.

The above work was done by workmen employed by the day, the materials having been purchased by the Clerk of Works in charge, and the work is satisfactory in every respect.

Tenders were received for the construction of two cottages, one of them a double cottage, for laborers; the lowest being that of E. Mulroney, Guelph, was accepted, and the work will soon be completed, under the superintendence of the Permanent Clerk of Works.

EDUCATIONAL DEPARTMENT AND NORMAL SCHOOL, TORONTO.

The roof over the Lecture Hall was renewed by covering the same with galvanised iron, and was satisfactorily done.

The floors in the Model Schools were renewed and sundry alterations made, as required by the Minister of Education.

The walls and woodwork of the Education Department and Model Schools were repainted.

The foundation walls to the Gardener's House were built, and frame work of building lined on the outside with brick.

The water-closets and drains were repaired, all being now in good order.

NORMAL SCHOOL, OTTAWA.

The usual repairs to the buildings were attended to, the reconstruction of the stone gable on the north side of the Model School, which was carried away by snow from the roof, being the most important portion of the expenditure.

Some alterations in the Model Schools and additions to the furniture were made as reported on, and approved.

The plank walks leading to the Model School yards were repaired.

The roofs were repaired, and sundry improvements in the front building were made owing to changes, ordered by the Minister of Education; all of which were reported on and approved.

SCHOOL OF PRACTICAL SCIENCE, TORONTO.

The hot air apparatus was repaired and is now in an efficient condition. Complaints have been made from time to time that the mode of heating, as adopted, owing to objections to the use of steam or hot water boilers by the Observatory authorities, at the time this building was constructed, is unsatisfactory, and that considerable damage is done by frost to the chemicals in the Laboratories.

Requests have been made that either steam or hot water should be introduced in order to prevent further damage.

I would recommend the hot water system as the most suitable for this building, and if approved an appropriation would have to be made for the purpose.

The roofs, which were covered with tin, having proved defective, were leaking throughout, and have been repaired with Sparham Cement, which has answered the purpose.

OSGOODE HALL, TORONTO.

The works connected with the additional offices were completed in October last, and have now been occupied for some time. The furniture and fittings of the new Court-room are in course of construction, and will soon be completed.

Tenders were received for a new boiler house; that of Mr. John Forin, of Belleville, being the lowest, was accepted.

Also for two new steam boilers and mains; that of Messrs. Keith & Fitzsimmons Toronto, being the lowest, was accepted.

These contracts have been completed in a satisfactory manner, and are in full operation.

The Judges' apartments in the northern portion of the building were papered and painted. Furniture and furnishings were provided as required.

ALGOMA DISTRICT.

The expenditure for repairs to the Court House and Gaol, Sault Ste. Marie, and to the Lock-ups in Manitoulin Island, has been of a moderate character.

THUNDER BAY DISTRICT.

According to instructions I accompanied the Inspector of Prisons, etc., to Port Arthur in June last, and inspected the buildings in connection with the proposed additions to the Court House and Gaol. The additions required being of a more extensive character than at first contemplated, it was necessary to make a careful examination and measurement of the buildings previously erected, in order that suitable plans could be prepared and submitted for tender.

We also visited Fort William, eight miles distant, in order to gain information as to the proposed site to be provided by the Municipality of Neebing. As the site had not been determined, the plans of course had to be prepared in the usual manner, presuming that the site would be satisfactory.

Tenders were received for the additions to the Court House and Gaol at Port Arthur, and for the Lock-up at Fort William, the tender of Messrs. J. & E. Dickenson, of Hamilton, being the lowest for the former building, and that of Mr. J. White, of Ottawa, for the latter. Both of these tenders were accepted.

The expenditure for repairs in this District has been of a trifling character.

MUSKOKA DISTRICT.

The Court-room and Lock-up at Huntsville was completed and occupied in September last, the work having been done in a satisfactory manner, under the superintendence of the Permanent Clerk of Works.

Furniture and furnishings were required for the Court-room and Lock-up, which were duly reported and approved, all having been completed.

The expenditure for repairs has been trifling.

PARRY SOUND DISTRICT.

The expenditure for repairs to buildings in this District has been trifling for the year.

NIPISSING DISTRICT.

The expenditure in this District has been of a trifling character, consisting of slight repairs.

UNORGANIZED TERRITORY.

The expenditure on account of the Court-room and Lock-up at Rat Portage has been for furniture, and some alterations made in the basement under the directions of the Stipendiary Magistrate.

MISCELLANEOUS.

Niagara River—*Fence Along the Bank.*

The fence along the bank has proved satisfactory for the intended purpose, having been the means already of saving life.

A stone wall in front of Mr. S. Davis' Museum, about 60 feet in length, fell down in the spring, and as he does not intend to reconstruct it, the fence should be continued across it.

Brock's Monument.

The fence enclosing the grounds below the monument being in an unsatisfactory condition was repaired during the summer. The repairs will last for some years. The work was done in a very satisfactory manner by Mr. Kirkland, who tendered for the work at a moderate price.

Some repairs and improvements were made to the walls around the monument to prevent further injury.

An open shed for shelter for the convenience of visitors is much required and would be appreciated by them.

I have the honour to remain,
Your obedient servant,
KIVAS TULLY,
Architect, etc.

Hon. C. F. FRASER,
Commissioner of Public Works,
Ontario.

REPORT

OF THE

ENGINEER OF PUBLIC WORKS.

Department Public Works Ontario,

Toronto, 31st December, 1884.

Hon. C. F. Fraser, *Commissioner of Public Works* :—

Sir,—I have the honour to submit the following report on the construction and maintenance of Public Works, and the extension of railway and drainage systems throughout the Province, during the year ending this 31st day of December, A.D. 1884.

MUSKOKA LAKES WORKS.

At Bala, owing to settlement of the piers which support the guide boom above the dam, it was necessary to take one of them down to the surface of low water, where the timbers were levelled off, the old ones replaced, and the pier built an additional height of three feet and filled with stone ; two other piers were also levelled up, and some additional filling put in.

The roadway bridge over the southerly channel has been provided with a new chord-piece, and the floor planking renewed and repaired where required.

The slide piers in the northerly channel, which were much worn at the corners by logs and timber passing through, have been dressed off, and pieces of oak fitted on and fastened with one-inch wrought iron rag bolts. Some planking on the face of the piers has also been renewed, and four new windlasses and frames provided for raising and lowering the stop-logs.

GULL AND BURNT RIVER WORKS.

Oblong Lake Dam.

The stop-log dam at the northerly outlet of this lake on Lot No. 8, in the 6th Concession of the Township of Harburn, has been re-constructed.

The dam is 92 feet 6 inches in length, 17 feet in height, and 20 feet in width, and is provided with a stop-log opening 16 feet in width, and 10 feet in depth, with the necessary platform, logs, windlasses, &c., required for regulating the water, and a slide 42 feet in length and 16 feet in width.

The dam at Elliott's Falls, on the Gull River, has been supplied with five new stop-logs, and a guide boom 130 feet in length and 2 feet in width, placed in the river above. Repairs have also been made to the side dam below, and a boom 96 feet in length and 2 feet in width placed above the slide opening.

LAKE NIPISSING DREDGING.

This work was resumed in the month of May of the present year, and proceeded with until the 18th of August, when a channel had been excavated through the shoal at the mouth of Sturgeon River, about 2,000 feet in length, 40 feet in width, and an average depth of 2 feet, and as the work which provision had been made for was then completed, the dredge and scows were taken across the lake and laid up at the steamboat landing on South River.

When the dredging ceased there was a depth of about 7 feet of water in the channels at the mouths of both the Sturgeon and South Rivers, and it was then thought that ample provision had been made for navigation purposes at all seasons of the year, but I have since been informed that the water became unusually low, in consequence of which considerable difficulty was experienced in getting the steamer through these channels before the close of the season.

In the early part of each season the public suffer considerable inconvenience in consequence of the steamer being unable to pass out of or enter South River, owing to the large quantities of saw-logs which are collected and boomed at the mouth for lengthened periods by the lumbermen.

The difficulty can be overcome by the excavation of a channel from a point on the river a considerable distance up stream, through a narrow neck of land to Fish Bay, which would enable the steamer to enter the river and proceed to Nipissing village at all times without encountering any very serious obstructions. It is, therefore, very desirable that provision should be made for this work in the estimates for the coming year.

MAINTENANCE OF LOCKS, DAMS, AND SWING BRIDGES.

The following improvements and repairs have been made out of this appropriation during the present year :—

Mary's and Fairy Lakes Works.

A swing bridge has been constructed across the canal above the lock, to replace the lift-bridge which had become out of repair and very difficult to work.

Some minor repairs have been made to the bridge across the river a short distance above, and the piers and floor planking of the bridge in the village of Huntsville have also been repaired.

The dam adjacent to the lock has been supplied with six new stop-logs : and a stop-log sill and the floor planking of the slide opening, which were torn out while the drives of timber were passing through during the past summer, have been replaced.

Port Sydney Dam, at the outlet of Mary's Lake, has been supplied with eight new stop-logs, and one new windlass.

Works at Port Carling.

The foundation timbers of the swing bridge have been renewed and the bridge supplied with an improved turntable, which will greatly facilitate its working.

A bank of gravel and boulders, which obstructed one of the stop-log openings in the dam, has been removed, and some bolts which had become displaced in the lock-gates were refixed, by using the diving apparatus.

Works on Balsam River.

The slide opening in the dam has been supplied with two new stop-logs, and some planking in the slide renewed and the entire flooring refastened with 2½-inch oak trenails.

Some of the planking on the lock walls has been renewed, two bolts replaced in the gates, and several obstructions removed from the chamber, diving apparatus being used for the purpose. Repairs were also made to the swing bridge.

WORKS ON SCUGOG RIVER.

In order to stop a rather serious leakage in the lock at Lindsay, a portion of the planking was removed and a quantity of concrete put under the upper mitre sill and platform, when the planking was replaced and renewed where required, the work being done by a diver.

Some of the planking on the lock walls has also been renewed, but the entire structure is now in such a decayed condition that provision for its reconstruction should be made in the estimates for the coming year.

The turn-tables of the swing bridges have been supplied with four new wheels and the bridges repaired and repainted.

The swing bridge south of Lindsay has also been repainted, the turn-table supplied with two new wheels and a shaft, and the southerly abutment rebuilt from low water up.

Lock at Young's Point.

Repairs have been made to the balance beams of this lock and, on two occasions a quantity of gravel, which interfered with the working of the lock, was removed from the chamber by a diver.

WORKS ON GULL AND BURNT RIVER WATERS.

Hawk Lake—Dam and Slide.

This dam has been supplied with six new stop-logs, and wedge pieces have been spiked on the sides of the slide opening to prevent the lower stop-log posts from being injured by saw-logs. The floor planking of the slide has also been repaired, and a glance-pier 40 feet in length, 8 feet in width and 4 in height, constructed a short distance below the dam.

Crab Lake—Dam and Slide.

The apron at the foot of this slide was carried away while a drive of square timber was passing through. The timber was unusually large, and the slide having a great incline, it came down with sufficient force to break the floor and destroy the entire apron. The damage was repaired at once, in order to allow the drives following to pass, but to prevent a re-occurrence, the slide will require to be raised to reduce the gradient, and extended a distance of about 80 feet. The dam has been supplied with one new stop-log.

Dam and Slide at Workman's Mills.

This dam has been supplied with three new stop-logs and the stop-log posts repaired.

Repairs have also been made to the flooring of the slide and apron, and a quantity of rock has been blasted and removed from the bed of the river, below the works.

Eagle Lake Dam.

The stop-log posts and platform have been repaired and the dam supplied with four new stop-logs, and gravelled to make it water-tight.

Racketty Creek—Dam and Slide.

Some new stop-logs have been provided for this dam, and the lower end of the slide replanked, and the apron repaired.

Devil's Lake—Dam and Slide.

This dam has been supplied with six new stop-logs, and the slide repaired by renewing some of the flooring and foundation timbers.

Works on Bear Creek.

These works consist of a series of dams and slides which have been constructed to facilitate the running of timber down this creek into the Burnt River.

During the present year six new stop-logs have been provided for the dams.

Considerable damage was done to the dam at the outlet of Little Bear Lake owing to the water being prevented from escaping, by persons driving the creek, until it had risen to an unusual height, causing a wash out at the westerly end of the dam. This damage has been repaired, and to prevent a re-occurrence the crib work has been extended to the solid rock bank.

Kenesis Lake Dam.

The stop-log platform of this dam has been repaired, and the dam gravelled and supplied with two new windlasses and one stop-log.

The dams at the outlets of Grace, Otter, Redstone and Horse Shoe Lakes, and the dam across the Gall River at Norland have also been repaired, and supplied with new stop-logs as required.

The following are the lockmasters' returns of the lockages made at the different locks during the present year:

Balsam River Lock—61 steamboats, 44 small boats, 21 scows, 26 cribs of timber, and 215,686 saw-logs and pieces of square timber.

Lindsay Lock—226 steamboats, 172 scows, and 155 cribs of timber.

Mary's and Fairy Lakes Lock—470 steamboats, 26 small boats, 21 scows and 2 cribs of timber.

Young's Point Lock—330 steamboats, 73 scows, 154 cribs of timber and 1,400 saw-logs.

Port Carling Lock—1,439 steamboats, 348 small boats, 99 scows, and 76 cribs of timber.

MAGANETAWAN WORKS.

The progress made on these works during the present year has not been what I had reason to anticipate.

As stated in my report for 1883, operations were commenced in the month of December of that year, and the rock excavation continued until the latter part of March following, when the spring freshet came on overflowing the cofferdams, and rendering the suspension of operations, for the time being, a necessity.

Up to this time the Contractor had been unable to arrange to his satisfaction for the supply of the timber required for the construction of the work, and as the season was then too far advanced to admit of his procuring it at a reasonable rate, he decided to make application to the Department for an extension of the time allowed him for the completion of his contract, so as to enable him to procure it during the winter of 1884–85.

An extension of one year was granted him on certain conditions, and he is now, I understand, negotiating for the supply required, and intends resuming the rock excavations at a date which will give him ample time to complete the contract within the additional period allowed.

Although the progress made on the portion of these works under contract has been less than I had calculated upon, the season has not been allowed to pass without considerable work, required in connection with the navigation of these waters, being done by the Department.

A dam has been constructed at the outlet of Ah-mic Lake on Lot No. 12, in the 8th Concession of the Township of Croft, so as to enable the water of the lake to be regulated as will be required by the lock at Maganetawan.

The dam is 157 feet in length, 12 in width, and about 8 feet in height, with three stop-log openings in same 25 feet in width and 6 feet in depth each, and is provided with all necessary platforms, stop-logs, windlasses, &c.

In order to avoid injuriously affecting the low-lying lands in the vicinity by the construction of this dam, a quantity of rock was excavated to enable the stop-log openings to be made about equal in area to the natural outlet of the lake.

As it was necessary to close the northerly outlet of Se-Se-be Lake with a coffer-dam during the construction of the lock works, and as it is intended that after these works are completed the greater portion of the water shall pass out of the lake through the southerly outlet, a channel about 20 feet in width has been excavated through a point at the head of the falls so as to allow the flood water to escape, and also to facilitate the running of timber. A quantity of boulders which interfered considerably with the discharge of the water during freshets, and which also prevented the steamer from reaching the present wharf during low water, have been removed out of the channel a short distance above the falls, and some boulders which interfered with navigation below "Burk's Falls" have been blasted and removed out of the river.

LAKE COUCHICHING WORKS.

An appropriation of $5,000 was granted last session for such services at the outlets of Lake Couchiching as would be deemed necessary, in order to allow the waters of both Lakes Couchiching and Simcoe to subside to summer level within a reasonable time each year.

If this can be accomplished without seriously interfering with vested rights, many acres of at present almost valueless land will be rendered fit for cultivation. Both before and since the appropriation was granted considerable correspondence has passed between the Department and the different parties interested, but after careful examination and consultation with these parties, it was decided to merely remove the artificial obstructions from the eastern and western outlets, and see what effect this would have.

Operations were accordingly commenced in the latter part of September, coffer-dams being put in at each outlet so that a thorough examination could be made. The work was carried out under a Departmental officer, and the obstructions, consisting of timber, stones, &c., removed, care being taken to remove nothing but what, in the opinion of the officer in charge, was of an artificial character.

NATION RIVER WORKS.

The excavation through the ledge of limestone rock known as the "Pitch Off," which forms an obstruction across the Nation River about one and a-half miles above the village of Plantagenet, was continued during the present year.

Operations were resumed in the early part of July and the work proceeded with until the early part of October, when the excavation was well advanced, but owing to high water it was found impossible to complete it at a reasonable cost, consequently the coffer-dams were again removed out of the river, the tools stored away, and the work left for completion at a more favorable time.

A re-vote will therefore require to be taken, to enable this improvement to be again proceeded with and completed during 1885.

LANDING PIER AT PORT ELGIN.

An appropriation of $1,000.00 was granted last session to assist in the reconstruction of the landing pier at this village. The Department was notified during the month of July that the work had been completed, and upon an inspection being made it was found very satisfactory, consequently the amount voted was paid to the Treasurer of the municipality.

DES JOACHIMS RAPIDS BRIDGE.

The bridge across the Ottawa River at this point is now nearly completed, and the construction of an approach on the Ontario side has recently been attended to by the Department.

The work consisted of the formation of an embankment to fill up the space to the height of the bridge floor, between the shore pier and the natural bank of the river, and the construction of a road to a point about one-half mile from the bridge, where connection is made with an outlet to the existing highway, known as "the old portage."

Considerable blasting had to be done in order to remove rocky obstructions which would interfere with traffic, but the material excavated was all required in the formation of the embankment adjoining the bridge.

DRAINAGE WORKS.

During the present year applications have been received and aid granted to the following Townships under the "Ontario Municipal Drainage Aid Act," viz: Ops, Ekfrid, Warwick, Dunwich, Colchester N., Plympton, Mosa, Brooke, Tilbury East, Richmond, Moore, Amaranth, Dawn, Elderslie, Mara, Bosanquet, Turnberry, Brock, Chatham, Stephen and Eastnor.

EXTENSION OF RAILWAYS IN 1884.

The following are, as far as could be ascertained, the details of the work done on the different railways under construction, during the present year :—

Erie and Huron Railway.

At the close of 1883, this railway was reported as completed from Rondeau Harbour to Wallaceburgh, a distance of $39\frac{74}{100}$ miles.

During the present year, two short extensions of the line have been made, one at Rondeau, 626 feet, and the other at Wallaceburgh, 621 feet in length, making the total length of the extension 1,247 feet, or $\frac{23}{100}$ of a mile.

In order to facilitate the transfer of freight between vessels and the railway, wharves, upon which the cars are run, have also been constructed at both terminal points, the one at Rondeau being 619 feet, and the other at Wallaceburgh, 433 feet in length, both being about 20 feet in width and constructed upon piles.

The total length of the railway is now, therefore, $39\frac{97}{100}$ miles, but I understand a further extension is contemplated and is altogether likely to be proceeded with at an early date.

Kingston and Pembroke Railway.

This railway was reported on as completed to Clyde Lake at the close of 1882, the distance northerly from Kingston being $80\frac{33}{100}$ miles. Since that time construction work has been steadily proceeded with, and was sufficiently advanced on the first December of the present year to enable construction trains to be run to Renfrew, where connection is made with the Canadian Pacific Railway.

The total length of the line from Kingston to Renfrew is about 103 miles.

I understand a branch has also been constructed during the present year, from a point on the main line, distant about $6\frac{3}{4}$ miles northerly from the Mississippi River, to an iron mine in the locality.

The length of the branch, which runs in an easterly direction, is at present about four miles, but I am informed a further extension is intended.

Northern and Pacific Junction Railway.

This railway, formerly known as the "Ontario and Pacific Junction," has been projected for several years. The line is intended to extend from the present terminus of

the Northern and North-Western at Gravenhurst to "La Vause," which is situated about four miles north of South-East Bay, Lake Nipissing, and about four miles west of Thorncliffe Station, on the C. P. R., the total length being about 111½ miles.

I am informed the survey has been completed, and that construction work was commenced about the 1st September last, and has been so vigorously prosecuted that about 40 miles have since been graded, 10 of which extend continuously from Gravenhurst, the remainder being done at different points along the line.

It is expected the first ten miles northerly from Gravenhurst will be completed and opened for traffic about the first of May next, and a further distance of 24 miles to Huntsville about the first of September following, and the remaining portion to "La Vause" about the first May, 1886.

Napanee, Tamworth and Quebec Railway.

At the close of 1883 the construction of this railway was reported on as being well advanced, and I am informed the line was completed and opened for traffic from Napanee to Tamworth on the 2nd of July last.

The Company, I understand, intend extending the road frrm Tamworth in a northwesterly direction to Bogart, where connection will be made with the Ontario and Quebec division of the C. P. R., and from there to Bridgewater, where connection will be made with the Midland, thence northward to the Central Ontario Railway.

Ontario and Quebec Railway.

This railway now forms a portion of the system known as the "Canadian Pacific." Its construction was commenced in 1881, and the work so vigorously and ably prosecuted that the entire line from its junction with the Credit Valley at Carlton, about four miles west of Toronto, to Perth, being a distance of about 199 miles, were completed and opened for passenger traffic during the month of August of the present year.

Stratford and Huron Railway.

This railway was completed ready to be opened for traffic to Wiarton on the 29th of June, 1882, but the line has since been extended along the shore of "Colpoy's Bay" for a distance of $\frac{79}{100}$ of a mile, where a dock with a substantial freight shed thereon has been erected, and the necessary sidings laid down to facilitate the transhipment of freight and passengers.

Central Ontario Railway.

Construction work continued on this railway until the 1st September of the present year, when the line was completed and opened for traffic from Trenton northward to "Coe Hill," in the Township of Wollaston, a distance of 74 miles.

MILEAGE OF RAILWAYS.

The following revised statement to the close of 1884, gives in detail the mileage on each railway in Ontario, distinguishing between those constructed prior to and after Confederation, but exclusive of the portion of the Canadian Pacific west of South-East Bay, Lake Nipissing:—

No.	NAME OF RAILWAY.	TERMINAL POINTS.		Completed prior to Confederation, July, 1867.	Completed since Confederation.	At present under construction, or contract.
		From.	To	Length in Miles.	Length in Miles.	Length in Miles.
1	Grand Trunk Railway—Main Line	Eastern Boundary of Province	Point Edward	457		
2	" " " Buffalo and Lake Huron Branch	Fort Erie	Goderich	158		
3	" " " London Branch	St. Marys	London	23		
4	" " " Galt and Doon Branch	Galt and Doon	Berlin	7	4.5	
5	Great Western Railway—Main Line	Suspension Bridge	Detroit	229		
6	" " " Toronto Branch	Hamilton	Toronto	39.5

RETURN

To an Order of the House, that there be laid before the House a Return showing (1) The amount voted by the House for expenditure on each particular Colonization Road in the Province during the year 1883, with the conditions (if any) attached to such grant. (2) The amount actually expended on each of such roads, with the dates when the work thereon was commenced and completed. (3) The roads upon which the $20,000, placed at the disposal of the Government for "Short New Roads and Repairs," has been expended, with copy of report recommending such expenditure or other application therefor, date of appropriation, dates of commencement and completion of the same, and conditions (if any) attached to such grants.

By Command,

ARTHUR S. HARDY,

Provincial Secretary.

Provincial Secretary's Office,

Toronto, February 3rd, 1885.

RETURN showing: (1) The amount voted by this House for expenditure on each particular Colonization Road in the Province during the year 1883, with the conditions (if any) attached to such grant. (Copy No. 1.)

From Letter to C. F. Aylsworth.

Dated 16th August, 1883.

. . . . Appropriations have been asked for the following works which, with the others, you will examine. . . . :—

Brudenel and Sebastopol Road	$500
Bagot and Admaston Road	800

(Copy No. 2.)

From Letter to J. Sharpe, from Assistant Commissioner.

Dated 10th September, 1883.

I am directed by the Commissioner to advise you that he will grant the sum of $300 for expenditure upon the road allowance between concessions 8 and 9 of Armour, upon the representation of the Superintendent of Roads, that such a work is necessary in order to render the bridge built last year by Mr. Menzies available for traffic. . . . .

(Copy No. 3.)

Letter of J. Boyd.

Dated 23rd September, 1883.

Being asked by a number of settlers living to the north-east of Big Basswood Lake, in the Townships of Wells and Gladstone, who have no outlet whatever, I would recommend that a sum of $150 be granted to open a road on the east side of Big Basswood Lake.

(Copy No. 4.)

From Letter of D. M. Card.

Dated 10th April, 1883.

. . . . I have examined the Brunel Bridge, which is located here, and is reported in a very dangerous state. . . . . $100 or so will make repairs necessary. I will bring plan of bridge to office and give my opinion to the Superintendent of Roads. and get his opinion. . . . .

(Copy No. 5.)

From Letter of H. M. Deroche.

Dated 17th May, 1883.

Re Colonization Roads in Addington. . . . . At least $200 ought to be expended in repairing the bridge over Cross Lake, in Kennebec. . . . . There ought also to be $200 expended in repairing the Clare River Bridge. . . . . There

ought also to be $500 (as I wrote you before) expended on the "Eagle Hill." . . . . Also a new road should be opened up from the Addington Road, south of the Ontario and Quebec Railway west, and I would like at least $500 expended on it this year. . . . . This would open up a section of country suitable for settlement, where settlers are going in, and would be a great help to this section. . . . . I would also ask a grant on the Anglesea Road of $400. . . . . A grant of $400 to the Vennachar Road. . . . .

(Copy No. 6.)

From Private Letter of J. C. Miller.

Dated 21st June, 1883.

. . . . Can you spend $200 from the Contingent Fund to extend the Carling Road one mile, which is much needed to let out some of our best settlers there? . . .

(Copy No. 7.)

From John Boyd's Report.

Dated 21st August, 1883.

By request of a number of settlers of the Township of Coffin, I went out to that township on Thursday, and found a large number of good settlers complaining very badly of the way they were treated about roads. . . . . I proceeded from the 1st concession of the Township of Coffin, between 10 and 11 (where Mr. Proctor left off work two years ago); thence to the line between 3rd and 4th concessions; thence west on that line through Coffin and Coffin Additional, reaching the road from Sault Ste. Marie to Bruce Mines, and found a good location for a road through a lot of fine settlers; going to Bruce Mines the bush is so long, and hanging over the road, a man can hardly get along on foot; there is a very bad hill about fourteen miles from Bruce Mines (on Sault Ste. Marie Road) that is washed away all down the centre, so that teams cannot pass either way until repaired; also bad culverts between Ottertail Lake and Bruce Mines requiring fixing; also a bad hill. . . . . Bridge in dangerous condition between lots 6 and 7 in the 14th concession of Township of Plummer: a team got through same while I was there. . . . . Dempster's Mill Bridge is in a very dangerous state, and the strong current has almost washed away the two end abutments, and, if it were repaired when the water is raised at the mill, it would never be safe. . . . . I saw Mr. Proctor, and he agrees with me that a new bridge will be the cheapest. . . . . I recommend, in conjunction with Mr. Proctor, making a pile bridge as the cheapest, utilizing the sound old stringers and the covering. . . . . I took measurements, and can use all the old timber. . . . . The cost of same would be about $400. . . . . I await your instructions to proceed with its construction. . . . . I would also recommend the building of that road into Coffin. . . . . $300 will put the road far enough to satisfy the settlers, who agree to turn out . . . . and give help to push them through. . . . . To cover the bridge and fill a hill in the Township of Plummer, between 6 and 7 in 4th concession, $100. . . . . Also $100 on Sault Ste. Marie Road, west of Ottertail Lake, to fill hill, and cut away some of the brush. Also $50 on the road from Ottertail Lake to Bruce Mines, to repair the hill, fix some dangerous culverts, and a little bridge. . . . .

(*Copy No. 8.*)

From J. Boyd's Report.

Dated 19th August, 1883.

"I have examined and would recommend an appropriation of $150 to open a road from the Great Northern Road, between lots 5 and 6, northward in Coffin Additional Township. . . . . "

(*Copy No. 9.*)

From J. Boyd's Report.

Dated 16th September, 1883.

I have examined Clark's Bridge (Thessalon River), and find it in a dangerous state; no stone in the piers, and in danger of being carried away by the freshets. I, therefore, recommend an appropriation of $150, to fill piers with stone and repair the bridge.

(*Copy No. 10.*)

From J. W. Bettes, Dated 4th June, 1883, Asking the Following Appropriations, viz.:—

Parry Sound Road—to repair from Parry Sound Road to Wilcox's, twelve miles	$500 00
McDougall & Foley—from work done by C. Nevill to Christie Road	300 00
McDougall & Foley—from Christie Road to McNaught's	200 00
Short Road—from Northern Road to Short's Mill, one and a-half miles	200 00
Bridge across Deep Water River, near Northern Road	50 00
Northern Road—to Gordon settlement, two miles	200 00

(*Copy No. 11.*)

From J. Boyd, Dated 19th August, 1883, with Sketch of Bridge Enclosed.

. . . . Would recommend that a pile bridge be built north of the old bridge, and in a direct line with the present Government Road. . . . .

(*Copy No. 12.*)

From Letter of W. Harris.

Dated Day Mills, 13th August, 1883.

. . . . I have made one and three-quarter miles west of Day Mills. I am now going to make all I can east of the mills, but $500 is too small a sum to do much with; however, we are thankful for it. Mr. Proctor is coming up from Thessalon to the boundary of Day; there will be then one and a quarter miles between us. Is there any way for me to get $100 more, in order to join the roads together? The settlers would help make the road. I would engage to finish out the one and a quarter miles for $100; then we shall have a road straight through to Thessalon. . . . .

(*Copy No. 13.*)

From J. Boyd's Report.

Dated 24th September, 1883.

I have examined the town line, between Day and Bright, and find a number of settlers there with no means of outlet, owing to a very bad swamp which they have to cross. I would recommend an appropriation of $50 to build a crossing on that line. There are other small expenditures necessary to be made, ... of which I will send you account of expenditure. . . . .

(*Copy No. 14.*)

From Letter of Assistant Commissioner to J. F. Dowling.

Dated 10th July, 1883.

. . . The Commissioner is also willing to make special grants to the following, viz.:—

Eganville and Foy Road	$600 00
Eganville and Douglas Road (from 4th Chute to Douglas)	500 00

(*Copy No. 15.*)

From Letter of Assistant Commissioner to F. O. Fauquier.

Dated 2nd August, 1883.

In compliance with your request, and upon the representation of the Superintendent of Roads, of the necessity for a bridge over Fisher's Creek, on the Cardwell Junction Road, I am directed by the Commissioner to inform you that he has granted such a sum as may be sufficient for the above purpose. . . . .

(*Copy No. 16.*)

From J. Boyd's Report.

Dated 10th September, 1883.

. . . . I have examined Great Northern Road, from Bruce Mines to Sault Ste. Marie, and have found it in a very bad state of repair, being overgrown with brush, many culverts broken up, and the road almost impassable, and would, therefore, recommend about $650 appropriation to repair the same. . . . .

(*Copy No. 17.*)

From Petition of John Lambert and Thirty-four others, of St. Joseph Island.

. . . . We, the undersigned petitioners, beg . . . . $600 or $700 for the purpose of opening that portion of the Huron concession between the Stilton Road and the "Encampment." . . . .

(*Copy No. 18.*)

From Letter of D. M. Card.

Dated September 3, 1883.

I have examined the bridge at Hunter's Bay, on Muskoka Road, and find the abutments in a very dangerous state, as well as the approach at the west end. . . Repairs will cost between $80 and $100, which will be governed by the success in procuring timber. Also seen the Melissa Bridge (referred to in same letter), which I found in a dangerous state. . . . . About $175 for new planking, handrail, etc., is required. . . . . I have explained the mode of repairing both these structures to B. Wickett, provided the Department orders the repairs.

(*Copy No. 19.*)

From Petition of a Large Number of Residents of Eastnor Township, Forwarded to the Department by John Gillies.

Dated 19th July, 1883.

. . . . Your petitioners gratefully acknowledge previous grants from the Government for the road between Lion's Head and town line of Lindsay. . . . . Owing to forest fires, portions of the aforesaid road were destroyed. . . . . Repairs commenced in 1881, but have remained unfinished to date, thereby rendering travel difficult, it being the main road. . . . Repairs would cost about six hundred dollars ($600). . . .

(*Copy No. 20.*)

From D. M. Card's Report.

Dated 15th August, 1883.

. . . . I have this day visited the Junction No. 2 Road, with Mr. Jordan, and several of the hills referred to by him are in a fearful state; also the bridge I told you of, opposite Maple Lake, near Edgington, in a bad state, and totally unfit for travel; this will all require to be made new. . . . .

(*Copy No. 21.*)

From J. Boyd's Report.

Dated 28th August, 1883.

I have examined, and beg to recommend an appropriation of fifty dollars to crossway a bad swamp opposite lot 5, in the 5th concession, Township of Johnson.

(*Copy No. 22.*)

From Letter of A. J. O'Neil.

Dated Huntsville, 31st May, 1883.

. . . . A grant of a sum of $500 to grade a road to the west side of Sand Lake, Township of Proudfoot. The chopping was done three years ago, during the expending of Government relief funds, and we have been promised its completion every year since. . . . .

(*Copy No. 23.*)

From J. Boyd's Report.

September 9th, 1883.

. . . . I have located a road from Bruce Mines to McBeth's Bay, called Lake Shore Road, through a well-settled section of country, who have never had any money granted for roads in that part of the district, and have no road to get out. I would, therefore, recommend that the sum of $300 be granted on this road, in order that they may have at least a winter road this season. . . . .

(*Copy No. 24.*)

From Letter of A. Stiller.

Dated 18th April, 1883.

I again beg to inform you that the bridge on the Lorimer Lake Road is in an impassable condition, and we have no other way of getting in or out, and there is a great deal of travel on it. Last spring I had to repair the bridge at my own expense; this spring the lumbermen have the Harris Locks dam shut, and the bridge is all afloat, and we have no redress but suffer consequences. . . . .

(*Copy No. 25.*)

From Letter of B. P. Morgan, St. Joseph Island.

Dated 8th June, 1883.

Having moved from Sarnia, and built a saw-mill, and grist-mill in course of erection, on Lot 13, Con. D, and there being no road to said mills, makes it very inconvenient for the people to get in or out, I beg to ask your kind consideration of the matter in helping to build a road from the Centre, or Richard's, Road, it being only half a mile in all. There is about eighty rods to turnpike. The total cost would not exceed $250. . . .

(*Copy No. 26.*)

From Letter of J. Frazer Rae.

Dated Toronto, 13th October, 1883.

As chairman of the Lake Superior Native Copper Company, which possesses a tract of land, covering ten square miles, at Mamainse, on Lake Superior, I have to request your favourable consideration to the following application:

"The above company has conducted mining operations for nearly two years, and employ a large staff on the spot. It is the purpose of the company to dispose of the land suited for agricultural purposes to settlers. At present, however, the operations of the company, especially in winter, are impeded, owing to the absence of proper communication with Sault Ste. Marie by land.

"A road, or rather a trail, has been made from the Sault to Batchewaning Bay. It would be of great service for the colonization of that region if the latter road were improved, and continued eastward a distance of about twelve miles to the Lake Superior Company's property at Mamainse. . . . ."

(*Copy No. 27.*)

From J. Boyd's Report.

Dated September 6th, 1883.

. . . . I have examined, and recommend an appropriation of $300 upon McPhail's Valley Road, for repairing the same.

(*Copy No. 28.*)

From J. Boyd's Report.

Dated September 17th, 1883.

. . . . Being asked by a number of the settlers on the west side of Thessalon Road to locate a road from Thessalon to McBeth's Bay, thence to connect with the Lake Shore Road, and to open the same for a winter road, I recommend that $200 be granted for the purpose. . . . .

(*Copy No. 29.*)

Petition of Residents and Free Grant Locatees of the Township of Prince, Algoma, Forwarded by R. A. Lyon, with Letter.

Dated January 15th, 1883.

"That the settlers . . . are badly off for want of a main leading road through the settlement.

"That what roads they have have been built solely by individual enterprise and exertion. . . . .

"That the Council of the Municipality of Sault Ste. Marie has built a road from the town of Sault Ste. Marie through the adjoining township of Korah. . . . . Your petitioners pray that your Department will be pleased to grant a sum of not less than $800 to continue said road. . . . . ."

(*Copy No. 30.*)

From Letter of Assistant Commissioner to J. Myers.

Dated 17th August, 1883.

I have to inform you that the Commissioner has, upon your recommendations and those of the Superintendent of Roads, granted $500 to the South Macaulay Road, with the understanding that no special outlay be necessary for plant. It is, therefore, the present intention to select an overseer, who is now at work, to do the above after finishing that already in hand. . . . .

(*Copy No. 31.*)

From Letter of Hugh Mann.

Dated Woodstown, 1st September, 1883.

. . . . I wish to place before you the position of one or two school roads in our township, and to ask you to appropriate a small sum for each to be laid out this fall. . . . . The Stisted Swamp Road (No. 1) has had a small amount laid out on it already, but the appropriation for this year for some reason or other is being overlooked. . . . . The road, two and a half miles in length, is of great importance to settlers as a means of reaching mills, stores, markets, etc., which they cannot do now, as the road is utterly useless. $300 would make it a road that would answer all purposes. . . . .

Road No. 2 is one and a quarter mile of swamp on town line between Stephenson and Stisted; this road shortens the distance from south of this township to Huntsville nearly one-half. It would prove a great convenience if this one and a quarter mile were opened. . . . . $200, I think, would do it. . . . . .

No. 3 road. The work here required is on Stisted (No. 2) Road. . . . . Work stopped last year at the banks of Black Creek, which creek we now ask to be bridged, as, like the other two roads, stopped just when their usefulness begins. . . . . .

The Council, I may state, is willing to supplement a grant of $75 or $100 from the Government with a similar amount, and will build such a bridge as will answer all purposes until we are able to build a better. . . . . Without being finished, the said roads do not meet the result intended. . . . . .

ANNUAL REPORT

OF THE

INSPECTOR OF DIVISION COURTS

FOR THE

PROVINCE OF ONTARIO,

FOR THE YEAR

1883.

Printed by Order of the Legislative Assembly.

Toronto:
PRINTED BY GRIP PRINTING AND PUBLISHING CO., FRONT STREET.
1885.

ANNUAL REPORT

OF THE

INSPECTOR OF DIVISION COURTS

FOR THE

PROVINCE OF ONTARIO,

FOR THE YEAR 1883.

OFFICE OF THE INSPECTOR OF DIVISION COURTS,
TORONTO, *December, 1884.*

TO THE HONOURABLE JOHN BEVERLEY ROBINSON,
Lieutenant-Governor of the Province of Ontario.

MAY IT PLEASE YOUR HONOUR:

I have the honour to submit the following Report upon the Division Courts for the Province of Ontario, for the year ending the 31st day of December, 1883.

The business in these Courts for the year shows a very decided increase over the business of 1882.

Table A, which gives the statistics for the year, has been prepared with care, and will be found to be correct, except in so far as it is affected by the few instances in which no returns have been made. This, however, will not affect the grand totals to any appreciable extent.

For the purpose of making comparisons of the business of the year with others preceding it easy and convenient, the grand totals for the years 1880, 1881 and 1882 are given under their respective headings at the foot of the table. All complaints against officers of these Courts, and I regret to have to say they have been as numerous as in the preceding year, received proper attention. Want of prompt attention to make returns, and in some instances improper holding of suitors' moneys, have been the chief sources out of which these complaints have arisen.

Heretofore the difficulty in getting proper returns from the clerks and bailiffs in time to enable me to report during the next session of the Legislature after the close of the year covered by these returns, has prevented me from doing so, but for the future I hope to be able to make these reports within a month after the close of the year, and while the Legislative Assembly is still in session.

Corrected lists of the names of clerks and bailiffs, with the post office address of each, and also the limits of the divisions as established in their several counties and districts, will be found respectively in tables B, C and D.

I have the honour to be,

Your Honour's obedient servant,

J. DICKEY,
Inspector of Division Courts.

TABLES.

TABLE A.

RETURN of Division Court Business from the First day of January to the Thirty-first day of December, A.D. 1883, inclusive, shewing :—

THE NAME OF COUNTY, UNITED COUNTIES OR DISTRICT.	The number of Divisions in each County, United Counties or District.	The number of Suits entered, exclusive of Transcripts of Judgments and Judgment Summonses in each County, United Counties or District.	The amount of Claims entered, exclusive of Transcripts of Judgments and Judgment Summonses in each County, United Counties or District.	The number of Transcripts of Judgments received from other Courts, in each County, United Counties or District.	The amount of Claims received by Transcripts of Judgments, from other Courts, in each County, United Counties or District.	The number of Judgment Summonses issued in each County, United Counties or District.	The total amount of Suitors' money paid into Court in each County, United Counties or District.	The total amount of Suitors' money paid out of Court in each County, United Counties or District.	The number of Suits entered where the amount claimed exceeds $100 in each County, United Counties or District.	The number of actions for Tort where the amount claimed exceeds $40, in each County, United Counties or District.	The number of actions of Replevin where the value of the goods or other property or effects distrained, taken or detained, exceeds the sum of $40 in each County, United Counties or District.	The number of Jury Trials by Juries summoned in each County, United Counties or District.	The amount paid to Jurors summoned in each County, United Counties or District.	The number of Jury Trials by Jurors, called in pursuance of Sec. 122 of "The Division Courts Act," in each County, United Counties or District.	The amount payable to Treasurer for "Division Court Jury Fund" in each County, United Counties or Districts.	The amount of Fees and Emoluments payable to the Honorable the Treasurer for the use of the Province in each County, United Counties or District.	The number of instances in which the Judge has allowed costs to be taxed for Counsel, Attorney or Agents' Fees under Section 16 of "The Division Courts Act, 1880."	The amount of costs so taxed.

TABLE D.

DIVISION COURTS AND THE LIMITS OF THE RESPECTIVE DIVISIONS IN THE PROVINCE OF ONTARIO.

DISTRICT OF ALGOMA.

1.—Bounded west by Thunder Bay District, 87th parallel of west longitude, and east by Barr River, including all the islands in front.

2.—Bounded west by Barr River, and east by Serpent River, including St. Joseph's and Cockburn Islands.

3.—Bounded west by Serpent River, and east by the eastern boundary of the District, including that part of the Island of Manitoulin lying north of the line between the 6th and 7th concessions of the Township of Sheguindah, the 4th and 5th concessions of the Township of Bidwell, and the 6th and 7th concessions to the line between lots number 17 and 18 in the Township of Billings, together with all the islands in front, except Barrie Island and that part of Manitoulin not described as above.

4.—Consisting of all that part of Manitoulin lying east of Manitowaning and South Bays, and south of the line between the 6th and 7th concessions of Sheguindah, the 4th and 5th concessions of Bidwell, the 6th and 7th concessions of Billings to the line between lots 17 and 18, thence southerly along said line to Lake Mindemoya, thence south-westerly along the shore of the said lake to the town line between Billings and Carnarvon, thence westerly along the said line and through the Township of Campbell, between the 6th and 7th concessions to the westerly boundary thereof, thence southerly along said boundary to the shores of Lake Huron.

5.—Being composed of all that part of Manitoulin Island not contained in Divisions 3 and 4, and of Barrie Island.

COUNTY OF BRANT.

1.—The City of Brantford and that part of the Township of Brantford not included in the other divisions hereinafter described.

2.—The Town of Paris, and that part of South Dumfries west of the line between lots 18 and 19, and that part of the first concession of the Township of Brantford lying west of a continuation of the last-mentioned line.

3.—The remainder of the Township of South Dumfries and of the first concession of the Township of Brantford.

4.—The ten northern concessions of the Township of Burford, and that part of the 2nd, 3rd, 4th and 5th concessions of the Township of Brantford west of the line between lots numbers 10 and 11, and that portion of the Kerr Tract west of a continuation of the last-mentioned line.

5.—The Township of Oakland, the four southern concessions of the Township of Burford, and lots numbers 1 to 5 inclusive, in the ranges east and west of the Mount Pleasant Road, in the Township of Brantford, adjoining the Township of Oakland.

6.—The Townships of Onondaga and Tuscarora and that part of the Township of Brantford lying south of the main road from Brantford to Hamilton, and east of Fairchild's Creek.

COUNTY OF BRUCE.

1.—The Town of Walkerton, the Township of Carrick, and all the Township of Brant south of the line between the 11th and 12th concessions.

2.—The Village of Teeswater, all the Township of Culross, and that part of the Township of Greenock lying south of the line between the 11th and 12th concessions and Village of Lucknow, and all of Kinloss Township not in No. 9.

3.—The Town of Kincardine, and that part of the Township of Kincardine lying south of a line drawn between the 9th and 10th concessions.

4.—The Village of Paisley and that part of the Township of Brant lying north of a line drawn between the 11th and 12th concessions of the Township of Brant.

All the Township of Elderslie except lots 16 to 36, both inclusive, in concessions 12, 13 and 14 of said Township.

All the Township of Greenock lying north of a line drawn between concessions 11 and 12 of said Township.

Lots 26 to 35, both inclusive, in the 8th, 9th, 10th, 11th, 12th, 13th and 14th concessions of the Township of Bruce; and that part of the Township of Saugeen lying east of a line between lots 28 and 29, and south of the production of the town line between the Townships of Arran and Elderslie to the Saugeen River.

5.—All Saugeen Township not included in No. 4, all that part of the Township of Arran lying west of a line between lots 10 and 11 and north of Arran Lake and the outlet of said lake, and that part of the Township of Amabel lying south of the 10th concession of Amabel, and the Villages of Port Elgin and Southampton.

6.—The village of Tiverton, and that portion of Kincardine Township north of a line drawn between concessions 9 and 10 in said Township, and all the Township of Bruce except that part included in No. 4.

7.—That part of the Township of Elderslie not included in No. 4, and that part of Arran Township not included in No. 5, and the Village of Tara.

8.—The Village of Wiarton, the Township of Albemarle, and that part of the Township of Amabel lying north of a line between the 9th and 10th concessions.

9.—All the Township of Huron and that part of the Township of Kinloss, described as follows:—

Commencing at the boundary line between said Townships of Huron and Kinloss at a point at which the blind line between the 12th concession of said Township of Kinloss and the third range south of the Durham Road in the said Township of Kinloss commences; thence in an easterly direction along said blind line to the westerly side of the Goderich Gravel Road, or the 10th side line of said Township of Kinloss; thence along

said 10th side line in a southerly direction to the boundary line of the County of Huron; thence in a westerly direction along said last-mentioned boundary to the said line between Huron and Kinloss aforesaid; thence northerly along said last-named boundary line to the place of beginning.

10.—All of the Townships of Eastnor, Lindsay and St. Edmunds.

COUNTY OF CARLETON.

1.—Comprising all the City of Ottawa, and the Township of Gloucester, to lots 15 inclusive, Rideau front and concessions 1 to 6 inclusive, Ottawa front and the Islands in the Ottawa River opposite thereto.

2.—All the Township of Goulbourn; the 8th, 9th and 10th concessions of the Township of Marlborough; all that portion of the Township of Nepean, south of the River Goodwood; and the 4th, 5th and 6th concessions thereof, north of the same river, to the boundary line between lots 20 and 21 in the last-mentioned concessions.

3.—All the Township of Huntly, and all the Township of March, except lots 1 to 5 inclusive, in concessions 1, 2, 3 and 4 thereof.

4.—All the Townships of Fitzroy and Torbolton.

5.—All the Township of North Gower; Long Island in the Rideau River and the 1st, 2nd, 3rd, 4th, 5th, 6th, and 7th concessions of the Township of Marlborough.

6.—All the Township of Osgoode; the 6th, 7th and 8th concessions Ottawa front, and from lots 16 to 30, inclusive, of the Rideau front of the Township of Gloucester.

7.—All the Township of Nepean, except the City of Ottawa and the part of the said township lying south of the River Goodwood, and concessions 4, 5 and 6 north of said River Goodwood to the boundary line between lots 20 and 21 in said last-mentioned concessions, and including also lots 1 to 5, inclusive, in concessions 1, 2, 3 and 4, in the Township of March.

COUNTY OF DUFFERIN.

1.—The Town of Orangeville, the Township of East Garafraxa, and all that portion of the Township of Amaranth lying south of the southerly boundary of lot number 26, in each concession of the Township of Amaranth.

2.—The Village of Shelburne, the Township of Melancthon and all that portion of the Township of Amaranth lying north of the southerly boundary of lot number 26, in each concession of the Township of Amaranth.

3.—The Township of Mulmur.

4.—The Township of Mono.

5.—The Township of East Luther.

COUNTY OF ELGIN.

1.—The Townships of Bayham, Malahide and South Dorchester.

2.—The Townships of Southwold and Yarmouth (except the City of St. Thomas).

3.—The City of St. Thomas.

4.—The Townships of Aldborough and Dunwich.

COUNTY OF ESSEX.

1.—Town of Sandwich and Township of Sandwich West.

2.—Town of Amherstburg and Townships of Malden and Anderdon.

3.—The Village of Kingsville, and all that part of the Township of Gosfield not included in Division No. 8.

4.—The Township of Colchester South, and all that part of Colchester North, south of the 9th concession, exclusive of the said concession and the lots on both sides of Malden Street.

5.—Township of Mersea and Village of Leamington.

6.—Belle River and the Township of Tilbury West and Rochester.

7.—Town of Windsor and Township of Sandwich East and Maidstone, north of the Middle Road.

8.—All that part of the Township of Maidstone lying south of the Middle Road; so much of Sandwich East as is south of Talbot Street, including the lots on both sides of said street to Nos. 306 and 307; all of Colchester north of the 9th concession, including said concession and lots on both sides of Malden Street and all that part of Gosfield lying north of concession 6, and extending as far east from the limits between Gosfield and Colchester as lot No. 12, including such lot in each concession north of concession 6, inclusive.

COUNTY OF FRONTENAC.

1.—City of Kingston, Townships of Garden Island, Wolfe Island, Howe Island and part of the Township of Pittsburg.

2.—Cataraqui, comprising the Township of Kingston and the Village of Portsmouth.

3.—Loughboro' comprising the Townships of Loughboro' and Bedford.

4.—Verona, comprising the Township of Portland and the townships in rear of County.

5.—Sunbury, comprising the Townships of Storrington and part of the Township of Pittsburg.

COUNTY OF GREY.

1.—The Town of Owen Sound; the Village of Brooke; and the Townships of Darby, Keppel, Sarawak and Sydenham.

2.—The Town of Durham, and the Townships of Bentinck, Egremont, Normanby and Glenelg, except the part of Glenelg being composed of the ranges of lots lying parallel to the Toronto and Sydenham Road, which ranges form part of the Fifth Division.

3.—The Town of Meaford, the Township of St. Vincent and the west half of the Township of Euphrasia.

4.—The Township of Collingwood, the east half of Euphrasia and the east half of the Township of Osprey.

5.—The Townships of Artemesia and Proton; the west half of Osprey and that part of Glenelg consisting of the ranges of lots lying parallel to the Toronto and Sydenham Road.

6.—The Townships of Holland and Sullivan.

COUNTY OF HALDIMAND.

1.—All the Township of Seneca, except the first and second concessions, the Young Tract, and the property of the late Richard Martin and the late Robert Wier; all the Township of Oneida, except the first range north of the Cayuga line; the Dennis Tract, and the lots southerly of said tract.

2.—The whole of the Township of North Cayuga, except that portion thereof lying north-east of side line between lots 12 and 13; the first and second concessions of the Township of Seneca, excepting that portion thereof lying north-east of the side line between lots 12 and 13; the Young Tract and the lands of the late Robert Wier and the late Richard Martin, Esquires; the first range of Oneida north of Cayuga line; also the Dennis Tract and river lots lying south.

3.—The Townships of Moulton, Sherbrooke and Dunn, including the Village of Dunnville.

4.—The Townships of South Cayuga and Rainham.

5.—The Township of Canboro, and those portions of North Cayuga and Seneca not included in the other divisions.

6.—The Township of Walpole.

COUNTY OF HALIBURTON.

1.—The Townships of Glamorgan, Snowdon, Lutterworth, Minden, Anson, Stanhope, Hindon, Sherborne and McClintock.

2.—The Townships of Dysart, Guilford, Havelock, Livingstone, Lawrence, Eyre, Harburn, Dudley, Monmouth, Cardiff, Harcourt, Bruton, Clyde and Nightingale.

COUNTY OF HALTON.

1.—All that portion of the Township of Trafalgar from the line between the 5th and 6th concessions of the New Survey west to the township line, and from the line between lots 18 and 19 in the Old Survey, also westerly to the town line.

2.—The remaining part of the Township of Trafalgar east of the limits of division No. 1.

3.—The five easterly concessions of the Township of Esquesing.

4.—The six westerly concessions of the Township of Esquesing.

5.—The Township of Nassagaweya.

6.—The Township of Nelson.

COUNTY OF HASTINGS.

1.—To comprise the City of Belleville.

2.—To comprise all that part of the Township of Sidney which lies east of the line between lots No. 6 and 7 in the several concessions, and south of the 9th concession.

3.—The Township of Tyendenaga, except that part called Deseronto.

4.—The Township of Hungerford.

5.—All that part of the Township of Sidney which lies to the north of the 8th concession, and to the east of Lot No. 6 in each concession north of the 8th concession, and all that part of the Township of Rawdon which lies to the south of the 9th concession, and that part of the Township of Huntingdon south of the 6th concession.

6.—The Townships of Madoc, Tudor, Limerick, excepting that part lying north of the 10th concession, and also that part lying west of lots 25 in the different concessions, south of the 11th concession of said Township, and including all that part of the Township of Huntingdon north of the 5th concession of said Township.

7.—The Village of Deseronto.

8.—The Township of Thurlow.

9.—The Town of Trenton, and all that part of the Township of Sidney which lies to the west of lot No. 7 in each of the concessions of the said township, including Mill Island.

10.—The Township of Marmora Lake, and all that part of the Township of Rawdon which lies to the north of the 8th concession.

11.—The Townships of Elzevir, Grimsthorpe, Cashel, excepting that part of Cashel lying north of the 10th concession of said Township.

12.—The Townships of Wollaston, Faraday, Herschel, McClure, Wicklow, Bangor, Carlow, Monteagle, Dungannon, Mayo and all that part of the Township of Cashel lying north of the 10th concession of said Township, and all those parts of the Township of Limerick lying north of the 10th concession, and west of lot No. 25 in the several concessions in said Township of Limerick.

COUNTY OF KENT.

1.—The First Division Court to consist of the Town of Chatham and that part of the Township of Dover East and West to the south of the 12th and 13th concession line of the Township of Dover East; that part of the Township of Chatham south of the 12th and 13th concession line, and west of the side road between lots 12 and 13, from the first mentioned 12th and 13th concession line to the 5th and 6th concession line, and all south of the said 5th and 6th concession line of said Township; that part of the Township of Harwich, north of 5th and 6th concession line by the eastern boundary; that part of the Township of Raleigh north of the 16th concession west to the side road between lots 12 and 13 north to the 6th and 7th concession line, and all of the said Township north of the said last-mentioned line, and that part of the Township of Tilbury East, north of the 4th concession.

2.—The Second Division to consist of that part of the Township of Howard south of the 2nd and 3rd concession line by the eastern boundary (known as the Botany Road) and that part of the Township of Orford south of the 10th and 11th concession line of said Township.

3.—The Third Division to consist of all that part of the Gore of Camden lying west of the 10th and 11th concession line, and that part of the Township of Camden lying west of the side line between lots 6 and 7; the Village of Dresden, and that part of the Township of Chatham north of the 5th and 6th concession line, and east of the side road between lots 12 and 13.

4.—The Fourth Division to consist of that part of the Township of Harwich south of the 5th concession by the eastern boundary, and south of the third concession by the western boundary, and that part of Raleigh south of the 15th concession and east of the side road between lots 12 and 13, and the road to the Lake shore through lot 147 on the Talbot road.

5.—The Fifth Division to consist of the Village of Wallaceburg, the Gore of Chatham, and that part of the Township of Chatham north-west of the 12th and 13th concession line and west of the side road between lots 12 and 13, and that part of Dover East lying north of the 12th and 13th concession side road.

6.—The Sixth Division to consist of that part of the Township of Howard north of the Botany road aforesaid, and of that part of the Township of Orford, north of the 10th and 11th concession line, the Township of Zone, the Town of Bothwell, the Village of Thamesville, and that part of the Gore of Camden east of the 10th and 11th concession line, and that part of the Township of Camden east of the side line between lots 6 and 7.

7.—The Seventh Division to consist of that part of Tilbury East, south of the 3rd concession, The Township of Romney, and that part of the Township of Raleigh south of the 6th and 7th concession line and west of the side road between lots 12 and 13, in the said township, and the road through lot 147 on Talbot road.

COUNTY OF LAMBTON.

1.—The external boundaries of the Township of Sarnia.

2.—The external boundaries of the Township of Warwick.

3.—The external boundaries of the Townships of Euphemia and Dawn.

4.—The external boundaries of the Township of Sombra.

5.—The external boundaries of the Township of Plympton.

6.—The external boundaries of the Township of Bosanquet.

7.—The external boundaries of the Township of Moore.

8. The external boundaries of the Township of Enniskillen.

9.—The external boundaries of the Township of Brooke.

COUNTY OF LANARK.

1.—The Townships of Drummond, Bathurst, South Sherbrooke, Burgess North, and that part of the Township of Elmsley North, north of the Rideau River, within the County of Lanark and west of lot No. 12, in each concession.

2.—The Townships of Lanark, Dalhousie, Darling, Lavant and North Sherbrooke.

3.—The Township of Beckwith, and the first six lots in the first seven concessions of the Township of Ramsay.

4.—The Township of Montague and that part of the Township of North Elmsley, from lot No. 1 to lot No. 12, in each concession, both inclusive.

5.—The Township of Pakenham.

6.—The Township of Ramsay, with the exception of the first six lots on the first seven concessions of the said township.

UNITED COUNTIES OF LEEDS AND GRENVILLE.

1.—To consist of the 1st, 2nd, 3rd, 4th, 5th, 6th and 7th concessions and broken front of the Township of Elizabethtown, and the concession roads between them.

2.—To consist of the 1st, 2nd, 3rd, 4th and 5th concessions, and broken front and that part of the 6th, 7th and 8th concessions from the town line of Edwardsburgh to lot number 18 inclusive of the Township of Augusta and the concession roads between them.

3.—To consist of the 1st, 2nd, 3rd, 4th and 5th concessions and broken front of the Townships of Leeds and Lansdowne respectively, and the concession roads between them.

4.—To consist of the Township of South Gower, the Township of Oxford from the west side line of lot numbers 11 in all the concessions to the eastern boundary of the township, and the gore of land between South Gower, Oxford and Edwardsburgh.

5.—To consist of the Township of Wolford (except the 7th and 8th concessions and the allowance for road between them), lots numbers 1 to 10 inclusive in the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th and 8th concessions of the Township of Oxford and the allowance of roads within and between them.

6.—To consist of the Townships of Bastard and Burgess, and those parts of the Townships of Leeds and Lansdowne on the north side of the rear of the 5th concession in each respectively.

7.—To consist of the Townships of Kitley and Elmsley.

8.—To consist of the Townships of North Crosby and South Crosby.

9.—To consist of that part of the Townships of Escott and Yonge, in rear of the 4th concession of Yonge, and in rear of the 6th concession of Escott; that part of the Township of Elizabethtown in rear of the 7th concession and west of lots number 18 in the 8th, 9th, 10th and 11th concessions, and the allowances for roads embraced therein.

10.—To consist of the Township of Edwardsburgh.

11.—To consist of that part of the Township of Augusta in rear of the 5th concession and west of lots numbers 18 in the 6th, 7th and 8th concessions; the whole of the 9th and 10th concessions of the Township of Augusta; the Gore between the Townships of Oxford, Wolford and Augusta; that part of the Township of Elizabethtown in rear of the 7th concession and east of the commons between lots numbers 18 and 19 in the 8th, 9th and 10th concessions; the 7th and 8th concessions of the Township of Wolford; lots numbers 1 to 10 inclusive in the 9th and 10th concessions of the Township of Oxford, and the allowances for roads embraced therein.

12.—To consist of the 1st, 2nd, 3rd and 4th concessions and broken front of the Township of Yonge; the 1st, 2nd, 3rd, 4th, 5th and 6th concessions and broken front of the Township of Escott, and the allowances for roads embraced therein.

The said 1st, 2nd, 3rd and 12th divisions shall respectively embrace and comprehend within their limits those portions of the River St. Lawrence, and islands therein, within the exterior side lines of which such portions of said river and islands would lie and be if such exterior side lines were produced and extended in that direction to the utmost limits of the Province of Canada.

COUNTY OF LENNOX AND ADDINGTON.

1.—Town of Napanee; Township of Richmond; all that part of North Fredericksburgh and Adolphustown lying north of Hay Bay; and all that part of North Fredericksburgh lying north of Big Creek.

2.—Comprises 1st concession of Ernesttown, the Village of Bath, the Township of Amherst Island, and the 2nd, 3rd and 4th concessions of the said Township of Ernesttown from the west limits thereof to the west limit of lot No. 21 in each concession.

3.—Township of South Fredericksburgh, and all that part of North Fredericksburgh and Adolphustown not included in Division No. 1.

4.—1st, 2nd and 3rd concessions of the Township of Camden and the Village of Newburgh.

5.—All that part of the Township of Camden not included in Division No. 4.

6.—All that part of the Township of Ernesttown not included in the limits of Division No. 2.

7.—Townships of Sheffield, Kalador, Anglesea, Abinger, Effingham and Denbigh.

COUNTY OF LINCOLN.

1.—The Town and Township of Niagara.

2.—The Township of Grantham, (including the City of St. Catharines, the Village of Merriton and Port Dalhousie,) and the Township of Louth.

3.—The Townships of Caistor and Gainsborough, and the 9th concession of the Township of Grimsby, including the 1st and 2nd ranges as part of the said concession.

4.—The Village of Grimsby and Beamsville; the Township of Clinton and the Township of Grimsby, except the 9th concession and the 1st and 2nd included as part of the said 9th concession.

COUNTY OF MIDDLESEX.

1.—The City of London, with that portion of the Township of London lying south of the line between the 4th and 5th concessions, and east of the line between lots 12 and 13, and south of the River Thames; and with that portion of the Township of Westminster lying west of the main road leading south from Clark's Bridge, across the Thames; north to the line between the 1st and 2nd concessions; and westerly to the line between lots 42 and 43, and extending northerly to the River Thames; and also including the Village of London West.

2.—The Village of Parkhill and Ailsa Craig, the Townships of East Williams and West Williams, and that portion of the Township of Lobo lying north of the line between the 11th and 12th concessions; and east of the line between lots number 12 and 13.

3.—The Townships of McGillivray and Biddulph, and the Village of Lucan.

4.—The Township of Delaware, with that portion of the Township of Westminster west of the line between lots 30 and 31, in the 2nd concession; then southerly on the line between lots 20 and 21, to the southerly limit of the Township, including all west of said line; and also including all that portion of the front of said Township of Westminster lying west of the line between lots number 42 and 43, not included in the first division; with that portion of the Township of Caradoc lying south of the line between the 5th and 6th concessions, to the River Thames; and with that portion of the Township of Lobo lying south of the line between the 6th and 7th concessions, to the River Thames.

5.—The Townships of Ekfrid and Mosa, including the Villages of Wardsville, Newbury and Glencoe.

6.—The Townships of Adelaide and Metcalfe; the Town of Strathroy, with that portion of the Township of Caradoc lying north of the line between the 3rd and 4th concessions; with that portion of the Township of Lobo which lies north of the 6th concession, and west of the line between lots 12 and 13 of the said township.

7.—The Township of North Dorchester, north and south of the River Thames; that portion of the Township of West Nissouri which lies south of the line between lots 14 and 15; and with that portion of the Township of Westminster lying south of the line between the 1st and 2nd concessions, and east of the line between lots 30 and 31, in the 2nd concession, and thence east of the line between lots 20 and 21, continued south to the southerly limit of the said Township of Westminster.

8.—All that portion of the Township of London which lies north of the line between the 4th and 5th concessions; that portion of the Township of Lobo which lies north of the line between the 6th and 7th concessions, and east of the line between lots 12 and 13, to the line between the 11th and 12th concessions; and with all that portion of the Township of West Nissouri which lies north of the line between lots numbers 14 and 15.

9.—The Town of London East: that part of the Township of London lying south of the line between the 4th and 5th concessions, and east of the side-road between lots 12 and 13; and that part of the Township of Westminster lying north of the line between the 1st and 2nd concessions, and east of the main road leading south from Clark's bridge across the Thames.

DISTRICT OF MUSKOKA.

1.—The Village of Bracebridge and the Townships of Macaulay, McLean, Ridout, Monck and Cardwell, concessions 1, 2, 3, 4, 5, 6, 7, 8 and 9, in the Townships of Stephenson, Bruce and Franklin, and that part of the Township of Watt, situated east of lot 21, in the several concessions thereof; and concessions 7, 8, 9, 10, 11, 12 and 13, in the Townships of Muskoka and Draper.

2. The Village of Gravenhurst; the Townships of Morrison, Ryder and Oakley, and concessions 1, 2, 3, 4, 5 and 6, of the Townships of Muskoka and Draper.

3.—The Village of Huntsville: the Townships of Stisted, Chaffey and Sinclair; and concessions 10, 11, 12, 13 and 14, in the Townships of Stephenson, Brunel and Franklin.

4.—The Townships of Wood, Medora and Humphrey, and that part of the Township of Watt situated west of lot 21, in the several concessions thereof.

DISTRICT OF NIPISSING.

1.—First Division to be composed of all the District of Nipissing which is not included within the limits of the Second Division as hereinafter described.

2.—Second Division to be composed of the Townships of Sabine, Lyell, Airy, Murchison and Robinson, and the Townships of Widdifield and Ferris, and all the territory in the said District of Nipissing lying east of the western boundary of the Township of Widdifield, due north to the northern boundary of the District of Nipissing.

COUNTY OF NORFOLK.

1.—The Gore of the Township of Woodhouse, and all that part of said township lying west of the side line between lots 5 and 6, together with that part of the 4th, 5th and 6th concessions lying west of the side line between lots 12 and 13, including that part of the Town of Simcoe within the same.

2.—The Township of Townsend.

3.—The Township of Windham.

4.—The Township of Middleton.

5.—The Township of Charlotteville.

6.—The Township of Walsingham.

7.—The Township of Houghton.

8. All that part of the Township of Woodhouse not included in Division No. 1, viz.: all that part of the 1st, 2nd and 3rd concessions lying east of the side line between lots 5 and 6, and that part of the 4th, 5th and 6th concessions lying east of the said line between lots Nos. 12 and 13 in said township.

UNITED COUNTIES OF NORTHUMBERLAND AND DURHAM.

1.—Townships of Cartwright and Darlington and Town of Bowmanville.

2.—Township of Clarke and Village of Newcastle.

3.—Township of Hope and Town of Port Hope.

4.—Townships of Cavan, Manvers, South Monaghan and Village of Millbrook.

5.—Township of Hamilton and Town of Cobourg.

6.—Townships of Haldin and and Alnwick.

7.—Township of Cramahe and Village of Colborne.

8.—Township of Brighton and Village of Brighton.

9.—Township of Percy and Village of Hastings.

10.—Township of Murray.

11.—Township of Seymour and Village of Campbellford.

COUNTY OF ONTARIO.

1.—Including the Townships of Whitby and East Whitby and the Towns of Whitby and Oshawa.

2.—The Township of Pickering.

3.—The Townships of Reach and Scugog and the Village of Port Perry.

4.—The Townships of Uxbridge and Scott and the Village of Uxbridge.

5.—The Township of Brock and the Village of Cannington.

6.—The Township of Thorah, and all that part of the Township of Mara lying south of the line between the 4th and 5th concessions.

7.—All that part of the Township of Mara lying north of the line between the 4th and 5th concession thereof, and the Township of Rama.

COUNTY OF OXFORD.

1.—Comprises the Town of Woodstock, the Townships of Blanford, East Zorra, East Oxford, and that part of the Township of North Oxford situated east of lot 16, and that part of West Oxford lying east of lot No. 7 to the Stage Road, thence on the north side of the Stage Road to where the said road intersects the Township of East Oxford.

2.—Comprises the Township of Blenheim.

3.—Comprises the Township of West Zorra and East Nissouri.

4.—Comprises the Township of North Norwich and South Norwich and the Village of Norwich.

5.—Comprises all those portions of the Townships of North Oxford and West Oxford not comprised in the 1st Division; the Town of Ingersoll, and those portions of the 1st and 2nd concessions of the Township of Durham west of the middle Town line.

6.—Comprises the Town of Tilsonburg, and all that portion of the Township of Durham not included in the 5th Division.

DISTRICT OF PARRY SOUND.

1.—The Village of Parry Sound and the Townships of Foley, McDougall, Cowper and Darling, and all that portion of the district lying to the west of the east boundary of Carling, produced to the French River.

2.—The Townships of McKellar, Croft, Hagarman, Ferguson, and all that portion of the district lying between the east boundary of Ferrie and the west boundary of Ferguson, produced to the French River.

3.—The Townships of Humphrey, Christie, Monteith, and Conger.

4.—Townships of McMurrich, Perry and Armour.

5.—Townships of Spence, Chapman, Ryerson, Strong, and the Townships east of Strong, and all that portion of the district lying to the east of the west boundary of Chapman, produced to the French River.

COUNTY OF PEEL.

1.—Town of Brampton, Township of Chinguacousy and northern division of Township of Toronto Gore.

2.—Village of Streetsville, Township of Toronto, and southern division of Township of Toronto Gore.

3.—Township of Caledon.

4.—Village of Bolton, Township of Albion.

COUNTY OF PERTH.

1.—To consist of all that part of the Township of North Easthope, west of the line between lots 25 and 26, and south of the road between the 8th and 9th concessions, and all that part of the Township of South Easthope, west of the side line between lots 25 and 26; all that part of the Township of Downie and Gore, north and east of the concession line between the 10th and 11th concessions and the Oxford road; and all the Township of Ellice, from the 1st to the 13th concessions, inclusive.

2.—To consist of all that part of the Township of Fullarton not included in Division No 3, and the Townships of Hibbert and Logan.

3.—To consist of that portion of the Township of Downie west of the Oxford road and south of the concession line between the 10th and 11th concessions; the Township of Blanchard; all that part of the Township of Fullarton, comprising the 13th and 14th concessions, and south of a road leading from the Mitchell road, between lots 24 and 25, east to lot 3 in the 10th concession; thence east along the line between the 10th and 11th concessions to the town line.

4.—To consist of that part of the Township of North Easthope east of the line between lots 25 and 26, and north to the 8th concession inclusive, with the 9th and 10th concessions; all that part of the Township of South Easthope not included in Division No. 1.

5.—To consist of the Township of Mornington, and all that part of the Township of Elma, from lots No. 53 to 72, both numbers inclusive, of the first concession, and from lots No. 27 to No. 36, both numbers inclusive, in and from the second to the eighteenth concessions, both concessions inclusive, of said Township of Elma; and concessions 14, 15, and 16 of the Township of Ellice, and concessions 11th, 12th, 13th and 14th of the Township of North Easthope.

6.—To consist of the Township of Wallace, and all that part of the Township of Elma, from the 1st concession to the 18th concession, both concessions inclusive, and comprising lots Nos. 1 to 52, both inclusive, of the 1st concession, and lots No. 1 to No. 26, inclusive, from the 2nd to the 18th concessions, both concessions inclusive.

COUNTY OF PETERBOROUGH.

1.—Composed of the Town of Peterborough, the Village of Ashburnham, the Townships of North Monaghan and Ennismore, and all that part of the Township of Harvey lying west of Pigeon Lake and south of Bobcaygeon; and all the Township of Smith lying south of the 7th concession; and all the Township of Otonabee lying west of the 8th concession and north of lots 21 from the said 8th concession to the western boundary of said Township of Otonabee; and all the Township of Douro lying south of lots numbered 11; and that part of the Township of Dummer, lying south of lots numbered 11 and west of the 5th concession.

2.—Composed of the Townships of Asphodel, Belmont and Methuen, and that part of the Township of Dummer, lying east of the 4th concession and south of lots numbered 11.

3.—Composed of all that part of the Township of Otonabee lying east of the 9th concession; and that part of said Township of Otonabee lying south of lots numbered 22 and west of the 8th concession.

4.—Composed of all that part of the Township of Smith lying north of the 6th concession; and all that part of the Township of Douro lying north of lots numbered ten; and all that part of the Township of Dummer lying north of lots numbered ten; and also of the Village of Lakefield and of the Township of Galway; and all the Township of Harvey, except that portion lying west of Pigeon Lake and south of Bobcaygeon.

5.—Composed of the Townships of Burleigh, Cavendish, Anstruther and Chandos.

UNITED COUNTIES OF PRESCOTT AND RUSSELL.

1.—Comprises the whole of the Township of Longueuil, the municipality of the Village of L'Orignal, and the first concession of the Township of Caledonia.

2.—Comprises all that part of the Township of West Hawkesbury, extending from the front of the third concession to the rear of the said township.

3.—Comprises the whole of the Township of East Hawkesbury.

4.—Comprises the Township of North Plantagenet, and that part of the Township of South Plantagenet lying north of the Nation River.

5. Comprises the whole of the Township of Cumberland.

6.—Comprises the whole of the Township of Russell.

7.—Comprises the two front concessions of the Township of West Hawkesbury, and the municipality of Hawkesbury Village within the same.

8.—Comprises the Township of Caledonia (excepting the 1st concession of the said township), and also that portion of the Township of South Plantagenet lying south and east of the Nation River.

9.—Comprises the whole of the Township of Alfred.

10.—Comprises the whole of the Township of Clarence.

11.—Comprises the whole of the Township of Cambridge.

COUNTY OF PRINCE EDWARD.

1.—The Town of Picton, the 2nd and 3rd concessions "Military Tract," from the west line of lot No. 13, eastward; Gore "G": 1st and 2nd concessions north of the carrying place; 1st concession south-east of the carrying place, and 2nd concession north of Black River, including Gore "K" and "L" and McCan Gores, all in the Townships of Hallowell; Block "I," the concessions north and east of East Lake and Gore "B," in the Township of Athol, and the 1st and 2nd concessions south of the Bay of Quinte, and Gore "A," in the Township of North Marysburgh, and 1st concession south-west of Green Point, to the end of Carman's Point in Sophiasburgh.

2.—The Township of South Marysburgh and the southern part of Athol, commencing at the outlet of East Lake, thence down to the head of the lake, thence down the base line between the 1st concession south and the 1st concession north of East Lake, till it strikes the township line of Hallowell, thence down said township line till it strikes South Marysburgh.

3.—The Township of Sophiasburgh, together with Big Island, excepting the 1st concession south-west of Green Point to the end of Carman's Point.

4.—All that part of the Township of Ameliasburgh lying east of the line between lots Nos. 86 and 87 in the 1st, 2nd, 3rd and 4th concessions of said township, including Huff's Island.

5.—That part of the Township of Hillier not included in the 7th Division, also the 1st and 2nd concessions north of West Lake, and west of lot No. 7 in said concession, and that part of Irwin Gore lying north of and west of lot No. 7, in the 2nd concession, and the west part of the 2nd concession produced west of lot No. 74 in that concession in the Township of Hallowell.

6.—Block (IV.) four, concession south side of West Lake, 1st concession "Military Tract," 2nd and 3rd concessions of said Tract west of lots No. 13 in those concessions, Gore "E," 1st and 2nd concessions north of West Lake and east of lot No. 6 in those concessions; the Gerow Gore and that part of Irwin Gore not included in Division No. 5, and all that part of the 2nd concession produced east of lot No. 75 in the Township of Hallowell.

7.—All that part of the Township of Ameliasburgh lying west of the line between lots Nos. 86 and 87, in the 1st, 2nd, 3rd and 4th concessions of said Township; all that part of the 4th and 5th concessions of the Township of Hillier west of the line between lots Nos. 86 and 87, and the 3rd concession west of the line between lots Nos. 22 and 23, with that part of the 2nd concession lying north of Pleasant Bay in the said Township of Hillier.

8.—All the point lying east of the west line of Martsland's Gore, the concession north of Smith's Bay and Waupoos Island in the Township of North Marysburgh.

COUNTY OF RENFREW.

1.—Comprising the Town of Pembroke, the Townships of Pembroke, Stafford, Alice, Petewawa, Buchanan, Rolph, Wylie, McKay, Fraser, Head, Clara and Maria, and all that part of the Township of Wilberforce from the 18th to the 25th concessions, both inclusive; and also all those parts of the 14th, 15th, 16th and 17th concessions of same Township of Wilberforce, lying north of Snake River and east of Lake Dore.

2.—Comprising all that part of the Township of Westmeath, lying east and north of the Muskrat Lake and River, and all those parts of the Township of Ross from the 5th to the 9th concession, both inclusive, east of Muskrat Lake, and from the 7th to the 13th, (of the other) concessions of Ross, both inclusive, of the said Township of Ross.

3.—Comprising the Village of Renfrew, and the Townships of Horton and Admaston.

4.—Comprising the Village of Arnprior and the Township of McNab.

5.—Comprising the Townships of Bagot, Blythfield, Brougham and Matawatchan.

6.—Comprising the Townships of Grattan, Sebastopol, South Algona, North Algona, and all that part of the Township of Wilberforce, from the 1st to the 17th concessions, both inclusive, excepting those parts of the 14th, 15th, 16th and 17th concessions of same Township of Wilberforce lying north of Snake River and east of Lake Dore.

7.—Comprising the Township of Bromley, and all that part of the Township of Westmeath west of Muskrat Lake, and all those parts of the Township of Ross, from the 1st to the 4th concessions, both inclusive, east of Muskrat Lake, and from the 1st to the 6th of the other concessions, both inclusive, of the said Township of Ross.

8.—Comprising the Townships of Brudenell, Radcliff, Raglan, Lyndoch, Griffith, Hagarty, Sherwood, Jones, Richards and Burns.

COUNTY OF SIMCOE.

1.—The Town of Barrie, the Township of Vespra, except that portion lying west of the Nottawassaga River; that portion of the Township of Oro lying west of the 3rd concession and south of lots Nos. 13 in the 1st and 2nd concessions; that portion of the Township of Innisfil lying east of lots Nos. 5 in the 6th, 7th and 8th concessions, and that portion lying north of the 8th concession; that portion of the Township of Essa lying north of lots Nos. 19 in the 7th, 8th, 9th, 10th and 11th concessions.

2.—The Village of Bradford; the Township of West Gwillimbury, excepting thereout lots Nos. 1, 2, 3, 4 and 5 in the 14th and 15th concessions; the Township of Innisfil, except that portion lying north of the 5th concession, and excepting also lots Nos. 1, 2, 3, 4 and 5 in the 1st, 2nd, 3rd, 4th and 5th concessions.

3.—The Township of Tecumseth, except concessions 12, 13, 14 and 15; the Township of Adjala, except that portion lying north of lots Nos. 25 in the 8th concession thereof.

4.—The Town of Collingwood, the Village of Stayner, that portion of the Township of Nottawasaga lying north of lots Nos. 18 in the twelve concessions thereof; that portion of the Township of Sunnidale lying north of the 8th concession; that portion of the Township of Flos lying west of the Nottawasaga river; the Islands in Lake Huron contiguous to the Township of Nottawasaga.

5.—The Township of Flos, except that portion lying west of the Nottawasaga River; the Township of Medonte, except that portion lying east of the 10th concession.

6.—The Town of Orillia, the Townships of North Orillia, South Orillia, and Matchedash; that portion of the Township of Medonte lying east of the 10th concession; that portion of the Township of Tay lying east of the 10th concession; the Islands in Lakes Huron and Simcoe contiguous to the townships and portions of townships above described, lying wholly or for the most part opposite thereto.

7.—The Township of Nottawasaga, except that portion lying north of lots Nos. 18, in the 12th concession thereof; the Township of Sunnidale, except that portion lying north of the 8th concession; that portion of the Township of Vespra lying west of the Nottawasaga River; that portion of the Township of Essa lying north of lots Nos. 19, in the 1st, 2nd, 3rd, 4th, 5th and 6th concessions; that portion of the Township of Tossorontio lying north of lots Nos. 20 in each of the seven concessions thereof.

8.—The Township of Essa, except that portion lying north of lots Nos. 19 in each of the 11 concessions thereof; the Township of Tossorontio, except that portion lying north of lots Nos. 20 in each of the seven concessions thereof; that portion of the Township of Innisfil, being composed of lots Nos. 1, 2, 3, 4 and 5, in the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th and 8th concessions; the 12th, 13th, 14th and 15th concessions of the Township of Tecumseh; lots Nos. 1, 2, 3, 4 and 5 in the 14th and 15th concessions of the Township of West Gwillimbury; that portion of the Township of Adjala lying north of lots Nos. 25, in the 8th concession thereof.

9.—The Villages of Penetanguishene and Midland; the Township of Tiny; the Township of Tay, except that portion lying east of the 10th concession; the Islands in Lake Huron contiguous to the Township of Tiny and to that part of the Township of Tay forming part of the Ninth Division, and lying wholly or for the most part opposite thereto.

10.—The Township of Oro, except that portion lying west of the 3rd concession and south of lots Nos. 13, in the 1st and 2nd concessions.

Note.—Each of the said several Divisions shall include all allowances for road embraced within its external limits, and shall also extend to the centre of every allowance for road lying external and adjacent to every such division, excepting always where any such last mentioned allowance is hereinbefore declared to belong to or form part of any particular division.

UNITED COUNTIES OF STORMONT, DUNDAS AND GLENGARRY.

1.—Township of Charlottenburgh, in the County of Glengarry.

2.—Township of Lochiel, in the County of Glengarry.

3.—Town and Township of Cornwall, in the County of Stormont.

4.—Township of Osnabruck, in the County of Stormont.

5.—Township of Williamsburgh, in the County of Dundas.

6.—Township of Matilda, in the County of Dundas.

7.—Township of Mountain, in the County of Dundas.

8.—Township of Finch, in the County of Stormont.

9.—Township of Lancaster, in the County of Glengarry.

10.—Township of Winchester, in the County of Dundas.

11.—Township of Roxborough, in the County of Stormont.

12.—Township of Kenyon, in the County of Glengarry.

DISTRICT OF THUNDER BAY.

1.—All that part of the District lying west of the meridian of 87 degrees of west longitude, to the meridian of the most easterly part of Hunter's Island.

2.—At present all business should be through the Clerk of Division 1.

3.—That part of the District composed of the territory to the north of the south-easterly shore of the Lake of the Woods, and a line drawn in a north-easterly direction from Rapid Portage to the north end of Lake Manitou; thence in an easterly direction to the south end of the lake known as the lake where the river bends; thence in an easterly direction to a point where the said meridian of the most easterly part of Hunter's Island intersects the Canada Pacific Railway at the south-west angle of Hawk Lake.

4.—The territory lying south and east of the Lake of the Woods, and of the said line.

COUNTY OF VICTORIA.

1.—The first consists of the following townships and parts of townships, viz.: of the 15th concession of the Township of Mariposa, and the Township of Eldon, except the ranges north and south of Portage Road.

2.—The second consists of the following townships: all of the Township of Fenelon except that portion lying east of the Skugog River, and south of Sturgeon Lake, and the Township of Somerville.

3.—The third consists of the Township of Verulam.

4.—The fourth consists of the Township of Emily.

5.—The fifth consists of the Town of Lindsay, Township of Ops, and that portion of the Township of Fenelon lying east of the Skugog River, and south of Sturgeon Lake.

6.—The sixth consists of the Township of Mariposa, except the 15th concession.

7.—The seventh consists of the Townships of Carden and Dalton, Laxton, Digby and Longford, and the Township of Bexley and that portion of the Township of Eldon north of Portage Road, and the Range south of Portage Road.

COUNTY OF WATERLOO.

1.—All that portion of the Township of Waterloo lying north of the Block line on the west side of the Grand River and that part of the Upper Block of said Township lying on the east side of the Grand River, north of lots Nos. 115, 109, 104, 86 and 95 to the Guelph township line, including the Towns of Berlin and Waterloo.

2.—All that part of the Township of Waterloo lying south of the Block line on the west of the Grand River, and that part lying on the east side of the Grand River, south of the northern boundary of lots Nos. 115, 109, 104, 86 and 95 to the Guelph township line, including the Villages of Preston and Hespeler.

3.—All that part of the Township of North Dumfries lying east of lot No. 19, in the 7th concession, and running a course with the eastern boundary of the said lot in a northerly direction up to the 12th concession; thence along the eastern boundary of lot No. 23 in said 12th concession to the township line, including the Town of Galt.

4.—All that part of the Township of North Dumfries lying west of lot No. 18, in the 7th concession; thence along the western limits of said lot No. 18, the same course thereof, in a northerly direction to the 12th concession; thence along the westerly limit of lot No. 22 to the township line, including the Village of Ayr.

5.—The Township of Wilmot, including the Village of New Hamburg.

6.—The Township of Wellesley.

7.—The Township of Woolwich.

COUNTY OF WELLAND.

1.—Comprising the Township of Crowland; that part of the Township of Thorold lying south of the line between lots 178 and 195, running through to Pelham; that part of Pelham lying south of the 4th concession, and that part of Humberstone lying north of the concession line between the 4th and 5th concessions, being the whole of the 5th concession and the Town of Welland.

2.—Comprising the Township of Wainfleet.

3.—Comprising the Township of Bertie, and those parts of the Township of Humberstone not included in Nos. 1 and 6, and the Village of Fort Erie.

4.—Comprising the Township of Willoughby, the Village of Chippawa, and that part of the Township of Stamford south of the line between lots 136 and 137; easterly from the western limit of the Township to the south-east angle of lot No. 133; thence north on the line between lots Nos. 132 and 133 to the northern boundary of the Township, including the Town of Clifton and Navy Island.

5.—Comprising those parts of the Townships of Stamford, Thorold and Pelham not included in any other Division, and the Town of Thorold.

6.—Comprising all the Township of Humberstone lying south of the 5th concession and west of the side lines, between lots Nos. 9 and 10 in the several other concessions thereof, and the Village of Port Colborne.

COUNTY OF WELLINGTON.

1.—The Town and Township of Guelph.

2.—The Township of Puslinch.

3.—The Township of Eramosa.

4.—Consisting of the Township of Nichol, except the 11th and 12th concessions; the Municipality of Fergus; the first eight concessions of the Township of Garafraxa, and lots 1 to 18, both inclusive, in concessions A and B of the Township of Peel, lots 13, 14, 15, 16, 17 and 18 in concessions 18 and 19, and lots 19, 20 and 21 in the 17th concession of the Township of Peel.

5.—The Township of Erin.

6.—Consisting of the Township of Pilkington and the 11th and 12th concessions of the Township of Nichol; the Municipality of the Village of Elora; and lots numbers 19 and upwards, belonging to the 9th, 10th, 11th, 12th, 13th, 14th, 15th and 16th concessions of Peel.

7.—Consisting of the first seven concessions of the Townships of Peel and Maryboro.

8.—Consisting of that part of the Township of Arthur, south and south-east of lot 15, on the west side of the Owen Sound Road; lot 16 on the Owen Sound Road, and lot 12 east of the Owen Sound Road, in the Township of Arthur; that part of the Township of Luther, from lots 1 to 16, both inclusive; and lots 1 to 12, both inclusive, of the 17th and 18th concessions of the Township of Peel; lots 5 to 11, both inclusive, of the 19th concession of said Township of Peel; and lots 19 to 23, both inclusive, of concessions "A" and "B," of said Township of Peel.

9.—The territory formerly comprised in this Division is now in the County of Dufferin.

10.—Consists of the Township of Minto.

11.—Consists of the Town of Mount Forest, and that part of the Township of Arthur north of lot 16, west of the Owen Sound Road; lot 17 on the Owen Sound Road, and lot 13, east of the Owen Sound Road.

12.—Consists of concessions 8 to 17, both inclusive, of the Township of Maryboro,; and concessions 8 to 16, both inclusive, of the Township of Peel, except lots 19, 20, 21, 22 and 23 of those concessions in that township.

COUNTY OF WENTWORTH.

1.—All that part of the Township of Barton lying east of the line between lots 14 and 15, and all that part of Hamilton City east of Hughson Street.

2.—The whole of the Township of Flamboro' West,

3.—The whole of the Township of Flamboro' East.

4.—The whole of the Township of Beverley.

5.—The whole of the Township of Saltfleet.

6.—The whole of the Township of Ancaster.

7.—The whole of the Township of Glanford.

8.—The whole of the Township of Binbrook.

9.—All that part of the Township of Barton lying west of the line between lots 14 and 15, and that part of Hamilton City west of Hughson Street.

COUNTY OF YORK.

1.—The City of Toronto, east of Yonge Street.

2.—Concessions 5 to 11, inclusive, of the Township of Markham; and concessions 5 to 10, inclusive, of the Township of Whitchurch from lot 1 to 10, inclusive; together with the Villages of Markham and Stouffville.

3.—Concessions 1 to 4, inclusive, of the Township of Markham; and concessions 1 to 4, inclusive, of the Township of Whitchurch from lot 1 to 10, inclusive; and concessions 1 to 3, inclusive, of the Township of Vaughan.

4.—The Township of Whitchurch, from the line between lots 10 and 11, northward; and the Townshtp of East Gwillimbury.

5.—The Townships of Georgina and North Gwillimbury.

6.—The Township of King and the Incorporated Village of Aurora.

7.—Concesssions 1 to 11, inclusive, of the Township of Vaughan.

8.—All that portion of the Township of York lying west of Yonge Street, and the Township of Etobicoke.

9.—The Township of Scarboro,' and all that portion of the Township of York which lies east of Yonge Street, and the Village of Leslieville.

10.—The City of Toronto west of Yonge Street.

ANNUAL REPORT

OF THE

INSPECTOR OF DIVISION COURTS

FOR THE

PROVINCE OF ONTARIO,

FOR THE YEAR

1884.

ANNUAL REPORT

OF THE

INSPECTOR OF DIVISION COURTS

FOR THE

PROVINCE OF ONTARIO,

FOR THE YEAR 1884.

Office of the Inspector of Division Courts,
Parliament Buildings, Toronto, March, 1885.

To the Honourable John Beverley Robinson,
Lieutenant-Governor of the Province of Ontario.

May it please your Honour:

I have the honour to submit the following report upon the Division Courts for the Province of Ontario, for the year ending on the 31st day of December, 1884.

The returns from the several Division Court Offices shew a very substantial increase in the business for the year over that of 1883. These returns are carefully prepared in tabular form, and annexed hereto as Table A.

A comparison of the totals, under the several headings, is shown by the grand totals at the foot of this table for five consecutive years, from 1880 to 1884 inclusive.

This increase is not due to the increase in the number of Courts, as only one Court was added to the number existing in 1883, nor is it due to any increased jurisdiction, as no change has been made in that respect since the year 1880. As an indication of the condition of the masses of the people, these Division Court returns may be regarded as one of the most sensitive and reliable that can be found. Traders generally, and many manufacturers, are obliged to apply to these Courts for the collection of small debts during the best of business seasons, but when business is depressed and many persons are out of employment, the Court business increases at once in response to the depression. I regret to be obliged to state that many complaints of the conduct of both clerks and

bailiffs have been received during the year; these complaints treat mostly of such offences as holding suitors' moneys; neglecting to make returns within the time allowed by law; improperly refusing or neglecting to answer correspondents enquiring as to their business in Court.

Notwithstanding the well known duty of every Clerk on receiving papers from another division for service, there is more trouble and annoyance given to suitors arising out of neglect and carelessness in handling these papers than from any other cause. Special attention has been given to this subject, but the results have not been as satisfactory as I have reason to expect. It will, therefore, be my duty to press upon all clerks, in, if possible, a still more pointed manner, the great necessity that exists for making prompt returns to these papers. It is pleasing to be able to say that complaints against officers for overcharges in costs are rare as compared with past experience; the same must be said of bailiffs for over-holding executions.

The new tariff, which came into force on the 1st of January of the present year, will very materially increase the fees of clerks and bailiffs, and enable them, in many instances, to devote their time and attention to their duties as such officers more fully, and in a manner materially beneficial to both officers and suitors.

Under this state of things, there will be no room to plead some of the excuses that have done duty in the past, but, on the contrary, believing that every officer is fully paid for any services he may be called upon to perform, nothing short of the full performance of every duty will be acceptable or satisfactory.

Corrected lists to date of writing, of the names of clerks and bailiffs, with the post office address of each, as also the limits of the divisions as established in the several counties and districts, will be found respectively on Tables B, C, and D.

I have the honour to be,

Your Honour's obedient servant,

J. DICKEY,
Inspector of Division Courts.

TABLES.

TABLE A.

RETURN of Division Court Business from the First day of January to the Thirty-first day of December, A.D. 1884, inclusive, shewing:—

THE NAME OF COUNTY, UNITED COUNTIES OR DISTRICT.	The number of Divisions in each County, United Counties or District.	The number of Suits entered, exclusive of Transcripts of Judgments and Judgment Summonses in each County, United Counties or District.	The amount of Claims entered, exclusive of Transcripts and Judgment Summonses in each County, United Counties or District.	The number of Transcripts of Judgments received from other Courts, in each County, United Counties or District.	The amount of Claims received by Transcripts of Judgments, from other Courts, in each County, United Counties or District.	The number of Judgment Summonses issued in each County, United Counties or District.	The total amount of Suitors' money paid into Court in each County, United Counties or District.	The total amount of Suitors' money paid out of Court in each County, United Counties or District.	The number of Suits entered where the amount claimed exceeds $100 in each County, United Counties or District.	The number of actions for Tort where the amount claimed exceeds $10, in each County, United Counties or District	The number of actions of Replevin where the value of the goods or other property or effects distrained, taken or detained, exceeds the sum of $40 in each County, United Counties or District.	The number of Jury Trials by Juries summoned in each County, United Counties or District.	The amount paid to Jurors summoned in each County, United Counties or District.	The number of Jury Trials by Jurors, called in pursuance of Sec. 122 of "The Division Courts Act," in each County, United Counties or District.	The amount payable to Treasurer for "Division Court Jury Fund" in each County, United Counties or District. TABLE B.

List of all the Division Court Clerks, their Post Office Address, the County and Number of Division in which their Court is situate, for the Province of Ontario, up to 31st December, 1884, inclusive.

County.	No. of Division.	Name of Clerk.	Post Office Address.
Algoma	1	E. Biggings	Sault Ste. Marie.
	2	T. Collins	Bruce Mines.
	3	S. McLean	Little Current.
	4	W. S. Francis	Manitowaning.
	5	Jas. Fraser	Gore Bay.
Brant	1	Jos. Robinson	Brantford.
	2	Frank Inksater	Paris.
	3	J. P. Galloway	St. George.
	4	Hy. Cox	Burford.
	5	J. R. Malcolm	Scotland
	6	John Henderson	Onondaga.
Bruce	1	Wm. Collins	Walkerton.
	2	H. B. O'Connor	Teeswater.
	3	Jos. Barker	Kincardine.
	4	N. McKechnie	Paisley.
	5	Jas. McKinnon	Port Elgin.
	6	Hugh Murray	Underwood.
	7	A. Neelands	Invermay.
	8	B. B. Miller	Wiarton.
	9	Jas. McLeod	Ripley.
	10	W. Moshier	Eastnor.
Carleton	1	J. R. Armstrong	Ottawa.
	2	H. Riley	Richmond.
	3	John Fenton	Huntley.
	4	W. P. Taylor	Fitzroy Harbour.
	5	Chas. G. Lindsay	Kars.
	6	Ira Morgan	Metcalf.
	7	F. W. Harmer	Hintonburg.

TABLE D.

DIVISION COURTS AND THE LIMITS OF THE RESPECTIVE DIVISIONS IN THE PROVINCE OF ONTARIO.

DISTRICT OF ALGOMA.

1.—Bounded west by Thunder Bay District, 87th parallel of west longitude, and east by Barr River, including all the islands in front.

2.—Bounded west by Barr River, and east by Serpent River, including St. Joseph's and Cockburn Islands.

3.—Bounded west by Serpent River, and east by the eastern boundary of the District, including that part of the Island of Manitoulin lying north of the line between the 6th and 7th concessions of the Township of Sheguindah, the 4th and 5th concessions of the Township of Bidwell, and the 6th and 7th concessions to the line between lots number 17 and 18 in the Township of Billings, together with all the islands in front, except Barrie Island and that part of Manitoulin not described as above.

4.—Consisting of all that part of Manitoulin lying east of Manitowaning and South Bays, and south of the line between the 6th and 7th concessions of Sheguindah, and 4th and 5th concessions of Bidwell, the 6th and 7th concessions of Billings to the line between lots 17 and 18, thence southerly along said line to Lake Mindemoya, thence south-westerly along the shore of the said lake to the town line between Billings and Carnarvon, thence westerly along the said line and through the Township of Campbell, between the 6th and 7th concessions to the westerly boundary thereof, thence southerly along said boundary to the shores of Lake Huron.

5.—Being composed of all that part of Manitoulin Island not contained in Divisions 3 and 4, and of Barrie Island.

COUNTY OF BRANT.

1. The City of Brantford and that part of the Township of Brantford not included in the other Divisions hereinafter described.

2.—The Town of Paris, and that part of South Dumfries west of the line between lots 18 and 19, and that part of the first concession of the Township of Brantford lying west of a continuation of the last-mentioned line.

3.—The remainder of the Township of South Dumfries and of the first concession of the Township of Brantford.

4.—The ten northern concessions of the Township of Burford, and that part of the 2nd, 3rd, 4th and 5th concessions of the Township of Brantford west of the line between lots numbers 10 and 11, and that portion of the Kerr Tract west of a continuation of the last mentioned line.

5.—The Township of Oakland, the four southern concessions of the Township of Burford, and lots numbers 1 to 5 inclusive, in the ranges east and west of the Mount Pleasant Road, in the Township of Brantford, adjoining the Township of Oakland.

6.—The Townships of Onondaga and Tuscarora, and that part of the Township of Brantford lying south of the main road from Brantford to Hamilton, and East of Fairchild's Creek.

COUNTY OF BRUCE.

1.—The Town of Walkerton, and the Township of Carrick, and all the Township of Brant south of the line between the 11th and 12th concessions.

2.—The Village of Teeswater, all the Township of Culross, and that part of the Township of Greenock lying south of the line between the 11th and 12th concessions and Village of Lucknow, and all of Kinloss Township not in number nine.

3.—The Town of Kincardine, and that part of the Township of Kincardine lying south of a line drawn between the 9th and 10th concessions.

4.—The Village of Paisley and that part of the Township of Brant lying north of a line drawn between the 11th and 12th concessions of the Township of Brant.

All the Township of Elderslie except lots 16 to 36, both inclusive, in concessions 12, 13 and 14 of said Township.

All the Township of Greenock lying north of a line drawn between concessions 11 and 12 of said Township.

Lots 26 to 35, both inclusive, in the 8th, 9th, 10th, 11th, 12th, 13th and 14th concessions of the Township of Bruce ; and that part of the Township of Saugeen lying east of a line between lots 28 and 29, and south of the production of the town line between the Townships of Arran and Elderslie to the Saugeen River.

5.—All Saugeen Township not included in No. 4, all that part of the Township of Arran lying west of a line between lots 10 and 11 and north of Arran Lake and the outlet of said lake, and that part of the Township of Amabel lying south of the 10th concession of Amabel, and the Villages of Port Elgin and Southampton.

6.—The Village of Tiverton, and that portion of Kincardine Township north of a line drawn between concessions 9 and 10 in said Township, and all the Township of Bruce except that part included in No. 4.

7.—That part of the Township of Elderslie not included in No. 4, and that part of Arran Township not included in No. 5, and the Village of Tara.

8.—The village of Wiarton, the Township of Albemarle, and that part of the Township of Amabel lying north of a line between the 9th and 10 concessions.

9.—All the Township of Huron and that part of the Township of Kinloss, described as follows :—

Commencing at the boundary line between said Townships of Huron and Kinloss at a point at which the blind line between the 12th concession of said Township of Kinloss and the third range south of the Durham Road in the said Township of Kinloss commences ; thence in an easterly direction along said blind line to the westerly side of the Goderich Gravel Road, or the 10th side line of said Township of Kinloss ; thence along

said 10th side line in a southerly direction to the boundary line of the County of Huron; thence in a westerly direction along said last-mentioned boundary to the said line between Huron and Kinloss aforesaid; thence northerly along said last-named boundary line to the place of beginning.

10.—All of the Townships of Eastnor, Lindsay and St. Edmunds.

COUNTY OF CARLETON.

1.—Comprising all the City of Ottawa, and the Township of Gloucester, to lot 15 inclusive, Rideau front and concessions 1 to 6 inclusive, Ottawa front and the Islands in the Ottawa River opposite thereto.

2.—All the Township of Goulbourn; The 8th, 9th and 10th concessions of the Township of Marlborough; all that portion of the Township of Nepean, south of the River Goodwood; and the 4th, 5th and 6th concessions thereof, north of the same river to the boundary line between lots 20 and 21 in the last mentioned concessions.

3.—All the Township of Huntly, and all the Township of March, except lots 1 to 5 inclusive, in concessions 1, 2, 3 and 4 thereof.

4.—All the Townships of Fitzroy and Torbolton.

5.—All the Township of North Gower; Long Island in the Rideau River and the 1st, 2nd, 3rd, 4th, 5th, 6th and 7th concessions of the Township of Marlborough.

6.—All the Township of Osgoode; the 6th, 7th and 8th concessions Ottawa front, and from lots 16 to 30, inclusive, of the Rideau front of the Township of Gloucester.

7.—All the Township of Nepean, except the City of Ottawa and the part of the said Township lying south of the River Goodwood, and concessions 4, 5 and 6 north of said River Goodwood to the boundary line between lots 20 and 21 in said last-mentioned concessions, and including also lots 1 to 5, inclusive, in concessions 1, 2, 3 and 4, in the Township of March.

COUNTY OF DUFFERIN.

1.—The Town of Orangeville, the Township of East Garafraxa, and all that portion of the Township of Amaranth lying south of the southerly boundary of lot number 26, in each concession of the Township of Amaranth.

2.—The Village of Shelburne, the Township of Melancthon and all that portion of the Township of Amaranth lying north of the southerly boundary of lot number 26, in each concession of the Township of Amaranth.

3.—The Township of Mulmur.

4.—The Township of Mono.

5.—The Township of East Luther.

COUNTY OF ELGIN.

1.—The Townships of Bayham, Malahide and South Dorchester.

2.—The Townships of Southwold and Yarmouth (except the City of St. Thomas).

3.—The City of St. Thomas.

4.—The Townships of Aldborough and Dunwich.

COUNTY OF ESSEX.

1.—Town of Sandwich and Township of Sandwich West.

2.—Town of Amherstburg and Townships of Malden and Anderdon.

3.—The Village of Kingsville, and all that part of the Township of Gosfield not included in Division No. 8.

4.—The Township of Colchester South, and all that part of Colchester North, south of the 9th concession, exclusive of the said concession and the lots on both sides of Malden Street.

5.—Township of Mersea and Village of Leamington.

6.—Bell River and the Township of Tilbury West and Rochester.

7.—Town of Windsor and Township of Sandwich East and Maidstone, north of the Middle Road.

8.—All that part of the Township of Maidstone lying south of the Middle Road; so much of Sandwich East as is south of Talbot Street, including the lots on both sides of said street to Nos. 306 and 307; all of Colchester north of the 9th concession, including said concession and lots on both sides of Malden Street and all that part of Gosfield lying north of concession 6, and extending as far east from the limits between Gosfield and Colchester as lot No. 12, including such lot in each concession north of concession 6, inclusive.

COUNTY OF FRONTENAC.

1.—City of Kingston, Townships of Garden Island, Wolfe Island, Howe Island and part of the Township of Pittsburg.

2.— Cataraqui, comprising the Township of Kingston and the Village of Portsmouth.

3.—Loughboro', comprising the Townships of Loughboro' and Bedford.

4.—Verona, comprising the Township of Portland and the Townships in rear of County.

5.—Sunbury, comprising the Townships of Storrington and part of the Township of Pittsburg.

COUNTY OF GREY.

1.—The Town of Owen Sound ; the Village of Brooke ; and the Townships of Darby, Keppel, Sarawak and Sydenham.

2.—The Town of Durham, and the Townships of Bentinck, Egremont, Normanby and Glenelg, except the part of Glenelg being composed of the ranges of lots lying parallel to the Toronto and Sydenham Road, which ranges form part of the Fifth Division.

3.—The Town of Meaford, the Township of St. Vincent and the west half of the Township of Euphrasia.

4.—The Township of Collingwood, the East half of Euphrasia and the east half of the Township of Osprey.

5.—The Townships of Artemesia and Proton ; the west half of Osprey and that part of Glenelg consisting of the ranges of lots lying parallel to the Toronto and Sydenham Road.

6.—The Townships of Holland and Sullivan.

COUNTY OF HALDIMAND.

1.—All the Township of Seneca, except the first and second concessions, the Young Tract, and the property of the late Richard Martin and the late Robert Wier ; all the Township of Oneida, except the first range north of the Cayuga line ; the Dennis Tract and the lots southerly of said tract.

2.—The whole of the Township of North Cayauga, except that portion thereof lying north-east of side line between lots 12 and 13 ; the first and second concessions of the Township of Seneca, excepting that portion thereof lying north-east of the side line between lots 12 and 13 ; the Young Tract, and the lands of the late Robert Wier and the late Richard Martin, Esquires ; the first range of Oneida north of Cayuga line ; also the Dennis Tract and river lots lying south.

3.—The Townships of Moulton, Sherbrooke and Dunn, including the Village of Dunnville.

4.—The Townships of South Cayuga and Rainham.

5.—The Township of Camboro, and those portions of North Cayuga and Seneca not included in the other divisions.

6.—The Township of Walpole.

COUNTY OF HALIBURTON.

1.—The Townships of Glamorgan, Snowdon, Lutterworth, Minden. Anson, Stanhope, Hindon, Sherborne and McClintock.

2.—The Townships of Dysart, Guilford, Havelock, Livingstone, Lawrence, Eyre, Harburn, Dudley, Monmouth, Cardiff, Harcourt, Bruton, Clyde and Nightingale.

COUNTY OF HALTON.

1.—All that portion of the Township of Trafalgar from the line between the 5th and 6th concessions of the New Survey west to the township line, and from the line between lots 18 and 19 in the Old Survey, also westerly to the town line.

2.—The remaining part of the Township of Trafalgar east of the limits of Division No. 1.

3.—The five easterly concessions of the township of Esquesing.

4.—The six westerly concessions of the Township of Esquesing.

5.—The Township of Nassagaweya.

6.—The Township of Nelson.

COUNTY OF HASTINGS.

1.—To comprise the City of Belleville.

2.—To comprise all that part of the Township of Sidney which lies east of the line between lots Nos. 6 and 7 in the several concessions, and south of the 9th concession.

3.—The Township of Tyendenaga, except that part called Deseronto.

4.—The Townships of Hungerford.

5.—All that part of the Township of Sidney which lies to the north of the 8th concession, and to the east of lot No. 6 in each concession north of the 8th concession, and all that part of the Township of Rawdon which lies to the South of the 9th concession, and that part of the Township of Huntingdon south of the 6th concession.

6.—The Townships of Madoc, Tudor, Limerick, excepting that part lying north of the 10th concession, and also that part lying west of lots 25 in the different concessions, south of the 11th concession of said Township, and including all that part of the Township of Huntingdon north of the 5th concession of said Township.

7.—The Village of Deseronto.

8.—The Township of Thurlow.

9.—The Town of Trenton, and all that part of the Township of Sidney which lies to the west of lot No. 7 in each of the concessions of the said Township, including Mill Island.

10.—The Township of Marmora Lake, and all that part of the Township of Rawdon which lies to the north of the 8th concession.

11.—The Townships of Elzevir, Grimsthrope, Cashel, excepting that part of Cashel lying north of the 10th concession of said Township.

12.—The Townships of Wollaston, Faraday, Herschel, McClure, Wicklow, Bangor, Carlow, Monteagle, Dungannon, Mayo, and all that part of the Township of Cashel lying north of the 10th concession of said Township, and all those parts of the Township of Limerick lying north of the 10th concession, and west of lot No. 25 in the several concessions in said Township of Limerick.

COUNTY OF HURON.

1.—Same as heretofore. Comprising that part of the Township of Goderich to the north of the Cut Line and the Huron Road until the same meets the road allowance between the 13th and 14th concessions; then back along the Huron Road to its junction with the Cut Line; then west by the road allowance between concessions 11 and 12 to the River Maitland; then along the River Maitland to Goderich, together with the Township of Colborne.

2.—Comprising the Township of McKillop, the Town of Seaforth, and all that portion of the Township of Tuckersmith not included in the Third Division.

3.—Comprising the Township of Hullett; that part of the Township of Goderich not included in Numbers 1 and 7; 1st, 2nd, 3rd and 4th concessions Township of Stanley; 1st and 2nd concessions Township of Tuckersmith, L. R. S., north of lot 15, and that portion west of sideroad between lots 25 and 26, H. R. S.; and Town of Clinton.

4.—Comprising the Township of Grey; all of the Township of Morris east of sideroad between lots numbers 10 and 11; and the Village of Brussels.

5.—Comprising the Townships of Usborne and Stephen, the first four concessions of the Township of Hay, and the Village of Exeter.

6.—Comprising the Townships of West Wawanosh and Ashfield.

7.—Comprising the Township of Goderich south of Cut Line and Huron Road until the same joins the road between the 13th and 14th concessions of the Township of Goderich; thence along the said concession until the same joins the river Bayfield; all Stanley not included in number 3; all Hay not included in number 5 and the Village of Bayfield.

8.—Comprising the Village of Wingham, the Townships of Turnberry and East Wawanosh all the Township of Morris not included in number 4, and the Village of Blyth.

9.—Comprising the Township of Howick and the Village of Wroxeter.

10.—Comprising the Township of Hay.

11.—Comprising the Township of Stephen.

COUNTY OF KENT.

1.—The First Division Court to consist of the Town of Chatham and that part of the Township of Dover East and West to the south of the 12th and 13th concession line of the Township of Dover East; that part of the Township of Chatham south of the 12th and 13th concession line, and west of the side road between lots 12 and 13, from the first mentioned 12th and 13th concession line to the 5th and 6th concession line, and all south of the said 5th and 6th concession line of said Township; that part of the Township of Harwich, north of 5th and 6th concession line by the eastern boundary; that part of the Township of Raleigh north of the 16th concession to the west side road between lots 12 and 13 north to the 6th and 7th concession line, and all of the said Township north of the said last-mentioned line, and that part of the Township of Tilbury East, north of the 4th concession.

2.—The Second Division to consist of that part of the Township of Howard south of the 2nd and 3rd concession line by the eastern boundary (known as the Botany Road) and that part of the Township of Orford south of the 10th and 11th concession line of said Township.

3.—The Third Division to consist of all that part of the Gore of Camden lying west of the 10th and 11th concession line and that part of the Township of Camden lying west of the side line between lots 6 and 7; the Village of Dresden, and that part of the Township of Chatham north of the 5th and 6th concession line, and east of the side road between lots 12 and 13.

4.—The Fourth Division to consist of that part of the Township of Harwich south of the 5th concession by the eastern boundary, and south of the third concession by the western boundary, and that part of Raleigh south of the 15th concession and east of the side road between lots 12 and 13, and the road to the Lake shore through lot 147 on the Talbot road.

5.—The Fifth Division to consist of the Village of Wallaceburg, the Gore of Chatham, and that part of the Township of Chatham north-west of the 12th and 13th concession line and west of the side road between lots 12 and 13, and that part of Dover East lying north of the 12th and 13th concession side road.

6.—The Sixth Division to consist of that part of the Township of Howard north of the Botany Road aforesaid, and of that part of the Township of Orford, north of the 10th and 11th concession line, the Township of Zone, the Town of Bothwell, the Village of Thamesville, and that part of the Gore of Camden east of the 10th and 11th concession line, and that part of the Township of Camden east of the side line between lots 6 and 7.

7.—The Seventh Division to consist of that part of Tilbury East, south of the 3rd concession, the Township of Romney, and that part of the Township of Raleigh south of the 6th and 7th concession line and west of the side road between lots 12 and 13, in the said Township, and the road through lot 147 on Talbot road.

COUNTY OF LAMBTON.

1.—The external boundaries of the Township of Sarnia.

2.—The external boundaries of the Township of Warwick.

3.—The external boundaries of the Townships of Euphemia and Dawn.

4.—The external boundaries of the Township of Sombra.

5.—The external boundaries of the Township of Plympton.

6.—The external boundaries of the Township of Bosanquet.

7.—The external boundaries of the Township of Moore.

8.—The external boundaries of the Township of Enniskillen.

9.—The external boundaries of the Township of Brooke.

COUNTY OF LANARK.

1.—The Townships of Drummond, Bathurst, South Sherbrooke, Burgess North, and that part of the Township of Elmsley North, north of the Rideau River, within the County of Lanark and west of lot No. 12, in each concession.

2.—The Townships of Lanark, Dalhousie, Darling, Lavant and North Sherbrooke.

3.—The Township of Beckwith, and the first six lots in the first seven concessions of the Township of Ramsay.

4.—The Township of Montague and that part of the Township of North Elmsley, from lot No. 1 to lot No. 12, in each concession, both inclusive.

5.—The Township of Pakenham.

6.—The Township of Ramsay, with the exception of the first six lots on the first seven concessions of the said township.

UNITED COUNTIES OF LEEDS AND GRENVILLE

1.—To consist of the 1st, 2nd, 3rd, 4th, 5th, 6th and 7th concessions and broken front of the Township of Elizabethtown, and the concession roads between them.

2.—To consist of the 1st, 2nd, 3rd, 4th and 5th concessions, and broken front and that part of the 6th, 7th and 8th concessions from the town line of Edwardsburgh to lot number 18 inclusive of the Township of Augusta and the concession roads between them.

3.—To consist of the 1st, 2nd, 3rd, 4th and 5th concessions and broken front of the Townships of Leeds and Lansdowne respectively, and the concession roads between them.

4.—To consist of the Township of South Gower, the Township of Oxford from the west side line of lot numbers 11 in all the concessions of the eastern boundary of the township, and the gore of land between South Gower, Oxford and Edwardsburgh.

5.—To consist of the Township of Wolford (except the 7th and 8th concessions and the allowance of road between them), lots numbers 1 to 10 inclusive in the 1st, 2nd, 3rd, 4th, 5th, 6th, 7th and 8th concessions of the Township of Oxford and the allowance of roads within and between them.

6.—To consist of the Townships of Bastard and Burgess, and those parts of the Townships of Leeds and Lansdowne on the north side of the rear of the 5th concession in each respectively.

7.—To consist of the Townships of Kitley and Elmsley.

8.—To consist of the Townships of North Crosby and South Crosby.

9.—To consist of that part of the Townships of Escott and Yonge, in rear of the 4th concession of Yonge, and in the rear of the 6th concession of Escott; that part of the Township of Elizabethtown in rear of the 7th concession and west of lots number 18 in the 8th, 9th, 10th and 11th concessions, and the allowances for roads embraced therein

10.—To consist of the Township of Edwardsburgh.

11.—To consist of that part of the Township of Augusta in rear of the 5th concession and west of lots numbers 18 in the 6th, 7th and 8th concessions; the whole of the 9th and 10th concessions of the Township of Augusta; the Gore between the Townships of Oxford, Wolford and Augusta; that part of the Township of Elizabethtown in rear of the 7th concession and east of the commons between lots numbers 18 and 19 in the 8th, 9th and 10th concessions; the 7th and 8th concessions of the Township of Wolford; lots numbers 1 to 10 inclusive in the 9th and 10th concessions of the Township of Oxford; and the allowances for roads embraced therein.

12.—To consist of the 1st, 2nd, 3rd and 4th concessions and broken front of the Township of Yonge; the 1st, 2nd, 3rd, 4th, 5th and 6th concessions and broken front of the Township of Escott, and the allowances for roads embraced therein.

The said 1st, 2nd, 3rd and 12th divisions shall respectively embrace and comprehend within their limits those portions of the River St. Lawrence, and islands therein, within the exterior side lines of which such portions of said river and islands would lie and be if such exterior side lines were produced and extended in that direction to the utmost limits of the Province of Canada.

COUNTY OF LENNOX AND ADDINGTON.

1.—Town of Napanee; Township of Richmond; all that part of North Fredericksburgh and Adolphustown lying north of Hay Bay; and all that part of North Fredricksburgh lying north of Big Creek.

2.—Comprises 1st concession of Ernesttown, the Village of Bath, the Township of Amherst Island, and the 2nd, 3rd and 4th concessions of the said Township of Ernesttown from the west limits thereof to the west limit of lot No. 21 in each concession.

3.—Township of South Fredericksburgh, and all that part of North Fredericksburgh and Adolphustown not included in Division No. 1.

4.—1st, 2nd and 3rd concessions of the Township of Camden and the Village of Newburgh.

5.—All that part of the Township of Camden not included in Division No. 4.

6.—All that part of the Township of Ernesttown not included in the limits of Division No. 2.

7.—Townships of Sheffield, Kalador, Anglesea, Abinger, Effingham and Denbigh.

COUNTY OF LINCOLN.

1.—The Town and Township of Niagara.

2.—The Township of Grantham, (including the City of St. Catharines, the Villages of Merriton and Port Dalhousie,) and the Township of Louth.

3.—The Townships of Caistor and Gainsborough, and the 9th concession of the Township of Grimsby, including the 1st and 2nd ranges as part of the said concession.

4.—The Villages of Grimsby and Beamsville; the Township of Clinton and the Township of Grimsby, except the 9th concession and the 1st and 2nd included as part of the said 9th concession.

COUNTY OF MIDDLESEX.

1.—The City of London, with that portion of the Township of London lying south of the line between the 4th and 5th concessions, and east of the line between lots 12 and 13, and south of the River Thames; and with that portion of the Township of Westminster lying west of the main road leading south from Clark's Bridge, across the Thames; north to the line between the 1st and 2nd concessions; and westerly to the line between lots 42 and 43, and extending northerly to the River Thames; and also including the Village of London West.

2.—The Villages of Parkhill and Ailsa Craig, the Townships of East Williams and West Williams, and that portion of the Township of Lobo lying north of the line between the 11th and 12th concessions; and east of the line between lots number 12 and 13.

3.—The Townships of McGillivray and Biddulph, and the Village of Lucan.

4.—The Township of Delaware, with that portion of the Township of Westminster west of the line between lots 30 and 31, in the 2nd concession; then southerly on the line between lots 20 and 21, to the southerly limit of the Township, including all west of said line; and also including all that portion of the front of said Township of Westminster lying west of the line between lots number 42 and 43, not included in the first division; with that portion of the Township of Caradoc lying south of the line between the 5th and 6th concessions, to the River Thames; and with that portion of the Township of Lobo lying south of the line between the 6th and 7th concessions, to the River Thames.

5.—The Townships of Ekfrid and Mosa, including the Villages of Wardsville, Newbury and Glencoe.

COUNTY OF YORK.

1.—The city of Toronto, east of Yonge Street.

2.—Concessions 5 to 11, inclusive, of the Township of Markham : and concessions 5 to 10, inclusive, of the Township of Whitchurch from lot 1 to 10, inclusive ; together with the Villages of Markham and Stouffville.

3.—Concessions 1 to 4, inclusive, of the Township of Markham ; and concessions 1 to 4, inclusive, of the Township of Whitchurch from lot 1 to 10, inclusive ; and concessions 1 to 3, inclusive, of the Township of Vaughan.

4.—The Township of Whitchurch, from the line between lots 10 and 11, northward ; and the Township of East Gwillimbury.

5.—The Townships of Georgina and North Gwillimbury.

6.—The Township of King and the Incorporated Village of Aurora.

7.—Concessions 4 to 11, inclusive, of the Township of Vaughan.

8.—All that portion of the Township of York lying west of Yonge Street, and the Township of Etobicoke.

9.—The Township of Scarboro', and all that portion of the Township of York which lies east of Yonge Street, and the Village of Leslieville.

10.—The City of Toronto west of Yonge Street.

RETURN

To an Order of the House, dated the 14th of March, 1884, of copies of all Orders in Council for the sale or disposal of timber or timber berths, or land in the Thunder Bay District, or regulating the sale or disposal thereof, and of copies of all Orders in Council fixing the dues or fees to be paid in respect of such timber, and the bonus or purchase money to be paid for such timber lands or berths, or the right to cut the timber therefrom, and also of copies of all Orders in Council, or regulations relating to such lands, the timber thereon, and the rate of bonus or dues to be paid in respect thereof, and also for a map or sketch, shewing the area of the said district.

By Command,

ARTHUR S. HARDY,

Secretary.

Provincial Secretary's Office,
Toronto, 3rd February, 1885.

COPY of an Order in Council approved by His Honour the Lieutenant-Governor, the 15th day of November, A.D. 1882.

The Committee of Council have had under consideration the Report of the Honourable the Commissioner of Crown Lands, dated the 31st day of October, 1882, wherein he states that the opening up of the Canada Pacific Railway to Prince Arthur's Landing, and the commencement of the construction eastward, has caused a pressing demand for timber for building docks, erecting elevators, and other structures connected with trade, and also for lumber for dwellings for an increased and increasing population; that the district in the neighbourhood of the "Landing" cannot by any means be considered a timber country in the general acceptation of the term, and consequently cannot well be dealt with in the manner usual with well-timbered territories, where limits are awarded at public sale. That, in order to meet the wants of the people, and with a view to the improvement of the locality and development of its resources, and to obviate the contingency of the law being set at defiance and the timber cut without authority, the Commissioner recommends that he be authorized to grant Permissions to cut timber in the Thunder Bay District, and to levy such charge on the timber so cut as will approximately represent a reasonable bonus in addition to ordinary license rate of dues, and to deal generally in the matter as may be found expedient.

The Committee advise that the recommendation of the Honourable the Commissioner be concurred in and acted upon.

Certified,

J. G. SCOTT,
Clerk Executive Council.

COPY of an Order in Council, approved by His Honour the Lieutenant-Governor, the 10th day of October, 1876.

Upon consideration of the annexed Report of the Honourable the Commissioner of Crown Lands of the 3rd of October, 1876, the Committee of Council advise that the temporary arrangement for the granting of license or permission to cut timber on the public domain in the Thunder Bay district, Lake Superior, which is set forth in the annexed memorandum, be approved of by Your Honour.

Certified,

J. G. SCOTT,
Clerk Executive Council, Ontario.

10th October, 1876.

THE COMMISSIONER OF CROWN LANDS has the honour to report:—

That several applications have been made to his Department for authority to cut timber on the Public Domain in the Thunder Bay District, Lake Superior, to be used in the construction of the Canada Pacific Railway, the locality for which applications have been made being in the vicinity of the railway line westwards from Prince Arthur's Landing to Lac-des-Mille Lacs, and others will probably be made for ground between Lac-des-Mille-Lacs and the provisional westerly boundary line of the Province.

No licenses to cut timber have hitherto been granted west of Sault Ste. Marie, nor any explorations made as to the character of the country for timber. From Batchewaning River west of the Sault to Thunder Bay, Lake Superior, maps indicate occasional pine clumps at a considerable distance back from the shores of the lake, the timber on the territory appearing, from the same same source of information, to be spruce, birch, maple, and other hard-woods.

In the vicinity of Thunder Bay, and for some distance westward, pine of poor quality generally scrubby and stunted, is found sparsely scattered throughout the district, which may be suitable for rough work in connection with the Canada Pacific Railway, and will no doubt be cut by contractors on the road and appropriated to their use, should provision not be made by which it may be cut under authority.

In order to meet the case, the Commissioner herewith submits for approval a temporary "arrangement" by which license or permission to cut timber may be granted in the locality referred to to parties desiring the same, under which trespassing on the Public Domain may be to a large extent prevented and revenue collected on timber cut.

T. B. PARDEE,
Commissioner.

Department of Crown Lands, Woods and Forests,
Toronto, 3rd October, 1876.

Memorandum of temporary arrangement respecting the cutting of timber in the District of Thunder Bay, Lake Superior, for the Canada Pacific Railway.

Applications for license or permission to cut timber to be made to the Crown Lands Agent at Prince Arthur's Landing.

The tracts of lands applied for must not exceed four square miles, or 2560 acres each, and to be of the dimensions of two miles north and south, and two miles east and west, astronomically: that irregular tracts fronting on lakes or rivers containing an area of less than four square miles each, shall have the remaining boundaries of such tracts extend north and south and east and west astronomically.

Each application to be accompanied by a map or sketch plan in duplicate, shewing the tract applied for laid down thereon, and describing the same as commencing at some permanent monument or prominent object on lake or river, etc., or at a certain distance and bearing therefrom.

No license or permission to be granted for a longer period than twelve months from the date thereof; licenses (or permissions) and timber where not specially treated of in this "arrangement" to be subject to conditions and regulations as set forth in the "Crown Timber Regulations," and such Orders in Council as now exist or may hereafter be passed affecting licensed lands.

Ground rent in all cases, $20—to be paid to the agent before receiving license or permission to cut.

Dues on pine and other timber, except railway ties, to be at tariff rate given in the Crown Timber Regulation. Railway ties to be charged at four cents (4c.) each; all dues and charges accrued to be paid to the Crown Lands Agent aforesaid, or other person authorized by the Department of Crown Lands, before the timber cut is removed from the ground.

The number of pieces and description of timber cut or made, and contents in cubic feet of square or sided timber, to be sworn to before a Justice of the Peace by the foreman or person who has superintended operations, and satisfactory return made of the same in detail to the agent aforesaid. Persons availing themselves of false statements of returns or oath to evade the payment of Crown dues and charges, shall forfeit license or permission, and timber cut by or for them under the same. Timber cut without authority on lands of the Crown shall be subject to seizure and confiscation.

Department of Crown Lands,
Toronto, 16th April, 1869.

NOTICE is hereby given, that the Crown Timber Regulations established or sanctioned by Order in Council, dated 12th June, 1866, and which are published in the *Canada Gazette* of 23rd June, 1866, have been superseded, and that the following

regulations have been sanctioned and established under Chapter 23 of the Consolidated Statutes of Canada, by His Excellency the Lieutenant-Governor in Council, by Order bearing date this day, to be in force on and from this date; and that by the said Order, Timber Licenses and renewals thereof, are from and after this date to be granted, subject to the said regulations, and the conditions and restrictions therein set forth in addition to the requirements of the said Statute.

S. RICHARDS,
Commissioner of Crown Lands.

CROWN TIMBER REGULATIONS.

Established under Chapter 23 of the Consolidated Statutes of Canada, by order of His Excellency the Lieutenant-Governor in Council, dated 16th April, 1869.

1. The Commissioner of Crown Lands may, at his discretion, cause the limit lines of any Timber Berths under License, which have not been already surveyed, to be properly surveyed and run, the costs of such survey to be paid by the holder of the License; and where two or more Licensees are interested in the survey, the Commissioner shall determine what portion of the costs of the survey shall be paid by each, and such costs of survey shall be a charge upon the Timber Berth, to be paid with the ground rent before renewal of the License.

2. The Commissioner of Crown Lands, before granting any Licenses for new Timber Berths in the unsurveyed territory, shall, as far as practicable, cause the section of country where it is intended to allot such Berths, to be run out into Townships, and each Township, when so surveyed, shall constitute a Timber Berth, but the Commissioner of Crown Lands may cause such Townships to be sub-divided into as many Timber Berths as he may think proper.

3. The Berths or limits when so surveyed and set off, and all new Berths or limits in surveyed territory shall be explored and valued, and then offered for sale by public auction at the upset price fixed by such valuation, at such time and place, and on such conditions, and by such officer, as the Commissioner of Crown Lands shall direct by public notice for that purpose, and shall be sold to the highest bidder for cash at the time of sale.

4. All forfeited Timber Berths may be offered for sale on the second Tuesday in August in each year, by Public Auction, at such upset price, and at such place as the Commissioner of Crown Lands may fix and appoint by public notice, or at such other rate as he may fix by such notice, and shall be awarded to the highest bidder, making payment at the time of sale, but should the said Timber Berth not be then sold, the same may be granted to any applicant willing to pay the said upset price and ground rent, or on such other terms as the Commissioner of Crown Lands may direct.

5. License-holders who shall have complied with all existing regulations, shall be entitled to have their Licenses renewed on application to the Commissioner of Crown Lands, or to such local agent as he may appoint, for that purpose.

6. The Commissioner of Crown Lands shall keep a Register of all Licenses granted or renewed, and of all transfers of such Licenses, and a copy of such register, with a plan of the licensed limits, shall be kept by the Crown Timber Agent of the locality, and open to public inspection.

7. All transfers of Timber Berths shall be made in writing, but shall be subject to the approval of the Commissioner of Crown Lands, to whom they shall be transmitted for approval or rejection, and they shall be valid only from the time of such approval to be expressed in writing.

8. Timber Berths are to be described in new Licenses as "not to interfere with prior Licenses, existing or to be renewed in virtue of regulations." When the description of any berth or boundary, as given by any License, clashes with the description of any other licensed berth or territory, the license of more recent origin (tracing back only to the time when such License or any previous License, of which it is a renewal, was first granted), shall give way, and the Commissioner may amend or cancel such License wholly or in part, and substitute another in place thereof, so as to correct the description of the berth or limit intended to be licensed; and in all cases where any License has issued in error or mistake, or is found to be inconsistent with any other License, or inconsistent or incompatible with the regulations under which it was granted, the Commissioner of Crown Lands may cause it to be cancelled or amended, or he may refer all matters in dispute with reference to the boundaries and position of Timber limits to arbitration, each of the contending parties to choose one Arbitrator, and the Commissioner of Crown Lands shall appoint an umpire, naming a day on or before which the award of such Arbitrators or of such umpire shall be made and delivered to the parties, and such award shall be binding on them.

9. Timber cut on limits for which License has been suspended or held in abeyance, shall be considered as having been cut without authority, and treated accordingly.

10. Occupants, locatees or purchasers of Public Lands, who have not completed all the conditions of sale or location, shall not, unless under Settlers' License, or for clearing fencing or building purposes on the said land, be permitted to cut timber or logs thereon or to dispose of it to others. Persons found doing so shall be subject to the penaltie established by law, for cutting timber on the Public Lands without authority.

11. All Timber Licenses are to expire on the 30th of April next, after the date thereof, and all renewals are to be applied for and issued before the 1st of July following, the expiration of the last preceding License, in default whereof the right to renewal shall cease, and the Berth or Berths shall be treated as forfeited.

12. No renewal of any License shall be granted unless or until the ground rent, and all costs of survey, and all dues to the Crown on timber, saw-logs, or other lumber cut under and by virtue of any License, other than the last preceding, shall have been first paid.

13. All Timber Berths or limits shall be subject to an annual ground rent of $2 per square mile, payable in advance before the issuing of any original License or renewal.

14. All Timber, Saw-logs, Wood or other Lumber, cut under any License now in force, or under any License which may be hereafter granted, shall be subject to the payment of the following Crown dues, that is to say:—

Black Walnut and Oak, per cubic foot	$0 03
Elm, Ash, Tamarac and Maple, per cubic foot	0 02
Red and White Pine, Birch, Basswood, Cedar, Buttonwood and Cottonwood, and all Boom Timber, per cubic foot	0 01¼
All other Woods	0 01
Red and White Pine, Basswood, Buttonwood, and Cottonwood saw-logs, per standard of 200 feet board measures	0 15
Walnut, Oak and Maple saw-logs, per standard of 200 feet board measure	0 25
Hemlock, Spruce and other woods, per standard of 200 feet board measure	0 10
All unmeasured cull saw-logs to be taken at the average of the lot, and to be charged for at the same rate.	

Staves, Pipe, per mille	$7 00
do West India, per mille	2 25
Cordwood (hard) per cord	0 20
do (soft) do	0 12½
Hemlock Tan Bark, per cord	0 30

Railway Timber, Knees, etc., to be charged 15 per cent. *ad valorem.*

15. The duties on Timber shall be charged upon the quantities shewn by the specification of measurement at the office of the Supervisor of Cullers at Quebec, or that of the Deputy Supervisor of Cullers at Sorel or Montreal, or by other reliable measurement, but where such actual measurement cannot be obtained, each stick of White Pine Timber shall be estimated as containing 70 cubic feet, Red Pine as containing 38 cubic feet, Oak 50 feet, and Elm 45 feet, and all other wood as containing 34 cubic feet.

16. All Licensees or occupants of Timber Berths shall furnish through themselves, their agents, cullers and foremen, to such agent or agents as the Commissioner of Crown Lands may appoint for that purpose, and at such time and place as such agent or agents may require, satisfactory proof upon oath as to the exact locality where all the Timber, Saw Logs and other Lumber in his or their possession were cut, giving the number of pieces and description of Timber, Saw Logs and other Lumber cut by themselves and others to their knowledge upon each of the Timber Berths held or occupied by him or them respectively, designating what quantity, if any, had been cut on settlers' land, giving the names of such settlers, the name of the Township, and the number of each Lot and Concession, exhibiting at the same time for the inspection of such agent or agents, the books of count and measurement of such Timber, Saw-logs and other Lumber under his or their control respectively; and shall, moreover, furnish such agent or agents all required information and facilities to enable him or them to arrive at a satisfactory determination as to the quantity and description of Timber, Saw Logs and other Lumber made by him or them, or held in his or their possession respectively, on which Government dues are chargeable; and in the event of such agent or agents deeming it expedient to cause such Timber, Saw Logs and other Lumber to be counted or measured, the said Licensee or occupier of such Timber Berth, and his or their agents, cullers and foremen shall aid and assist in such count or measurement, but should such Licensee or occupier, or his or their agents, fail to comply with these conditions, such Licensee shall forfeit all right to a renewal of his License, and the berth and limit shall become vacant. And to enable persons who sell their timber under Settlers' License to obtain their refund of dues, and Timber cut on Patented Lands to pass duty free, it will be necessary for the parties interested to prove, on oath taken before such agent or agents, and to his or their satisfaction, the number of pieces and description of Timber and Saw-logs cut on each lot respectively. And in the event of such proof being deemed unsatisfactory, the said agent or agents may determine the same by causing a strict count of the stumps to be made, and then certifying according to such count.

17. The Commissioner of Crown Lands, or any authorized agent, shall at all times have free access to and be permitted to examine the books and memoranda kept by any Licensee shewing the quantity of Lumber in board measure sawn by him from logs cut on his Timber Berth or Berths, and failing to produce such books and memoranda when required so to do, will subject such Licensee to a forfeiture of his right to a renewal of his License.

18. When any License-holder is in default for, or has evaded the payment of dues to the Crown on any part of his Timber or Saw-logs, such dues may be levied on any other Timber or Saw-logs belonging to such defaulter, cut under License, together with the dues thereon.

19. Before moving any raft or parcel of Timber, Lumber or Saw-logs from the Agency in which it has been cut, the owner or person in charge thereof, shall report the

same to the Crown Timber Agent, making, if required, declaration upon oath, as to where the said Timber was cut, the number of pieces and description of each kind of wood contained in such raft or parcel of Timber, and the number of cribs, stating at the same time the number and description of pieces cut on private lands, also on lands under Settlers' License, giving the names of the owners or Licensees of such land, with the names of the Townships, and number of each Lot and Concession, and should such Crown Timber Agent not be satisfied with the correctness of such report, he shall cause a strict count to be made of the Timber in such raft; and on being satisfied of the correctness of such report or count, the Crown Timber Agent may grant a clearance, in due form, for such raft, stating the number of pieces and description of Timber contained therein, distinguishing the Timber cut on private lands and under Settlers' License from that cut on the Crown Domain.

20. The owner or holder of any such raft or parcel of Timber shall, within twenty-four hours after the same shall have arrived at its destination at Quebec, Sorel, Montreal, or other port of sale or shipment, report the arrival of such raft to the Collector of Crown Timber dues, or if at Sorel or Montreal, to the Deputy Supervisor of Cullers, and should the said raft be found by the specification of measurement to contain a greater number of pieces of Timber than is noted in the clearance, the surplus number of pieces, if not satisfactorily explained, shall be held as having been cut on Crown Lands without authority, and subject to the payment of dues accordingly.

21. Parties omitting to obtain their clearance at such agency, or omitting to report the arrival of such raft at its destination as above mentioned, may be refused further license, and may be subject to forfeiture of the timber for evasion of regulations as provided in Cap. 23 of the Consolidated Statutes of Canada.

22. Persons evading or refusing the payment of timber dues, or the final settlement of bonds or promissory notes for the payment of such dues, or in default with the Crown Timber office or agent; also, persons taking forcible possession of disputed ground before obtaining decision in their favour, and persons refusing to comply with the decision of Arbitrators or of the Umpire, as provided by the 8th section of these Regulations, or with the Regulations established by Order in Council, or who forcibly interrupt surveyors in the discharge of their duty, shall be refused further Licenses, and their berths shall be forfeited at the expiration of the then existing License.

23. Dues of all kinds on Timber cut under License, remaining unpaid on the 30th November following the season in which it was cut, shall be subject to interest from that date, but without prejudice to the power of the Crown to enforce payment of such out standing dues at any time the Commissioner of Crown Lands may think proper.

DEPARTMENTAL INSTRUCTIONS, 31st OCTOBER, 1882.

Saw Logs—Pine, per 1000 feet, B. M.	$2 00
Railway Ties—Each	0 02
Flatted Timber—Other than Pine—for wharves, etc.—8 feet long and under, per piece	0 02
Over 8 feet, and not exceeding 16 feet, per piece..	0 04
Over 16 feet, and not exceeding 24 feet, " ..	0 08
Square Pine—For docks, etc., per Cubic foot	0 02½
Other Square Timber—For docks, etc., per Cubic foot	0 02

Spiles—30 feet long, not exceeding 12 inches at largest end, each ..	$0 15
Exceeding 12 inches at largest end, to be charged as Saw-logs, or as Spiles, at such rate as may seem fair and equitable.	
Fuel—Softwood, per cord	0 12½
Hardwood, per cord	0 20

Trespass—Double the above charges.

The rates on Timber above given represent ordinary license dues, and what is considered a fair bonus.

Ground Rent —$2.00 per square mile, but no permission to be granted for a less sum than a rent equal to 4 square miles.

THOS. H. JOHNSON.
Assistant Commissioner.

Department of Crown Lands,
3rd February, 1885.

(No. 21.)

Return shewing the name of the Caretaker, Wood Ranger, or other officer of the Government (if any) in charge of the Crown Lands and timber at Rondeau Point; the salary or other remuneration (if any) paid such officer, and the amount collected by such officer (if any) for timber or ornamental trees sold, to the 31st December, 1883. (*Not printed.*)

RETURN

To an Order of the House, that there be laid before the House a return shewing in detail the timber lots or berths in the Thunder Bay District which have been sold or disposed of, with the names of the persons to whom the same have been sold or disposed of; the area of each such lot or berth, the price paid therefor, the rates of dues to be paid in respect of the timber to be cut therefrom, and the names of the present owners of such lots or berths; shewing, also, which, if any, of the lots upon which rights to cut timber have been granted, have been sold, and if so, to whom, and the present owners of such lots, so far as the information is in the possession of the Department.

By Command,

ARTHUR S. HARDY,
Provincial Secretary.

Provincial Secretary's Office,
Toronto, 3rd February, 1885.

RETURN

TO AN ORDER OF THE HOUSE, THAT THERE BE LAID BEFORE THE HOUSE A RETURN SHEWING IN DETAIL THE TIMBER LOTS OR BERTHS IN THE THUNDER BAY DISTRICT WHICH HAVE BEEN SOLD OR DISPOSED OF, ETC., ETC.

COPY of an Order in Council approved by His Honour the Lieutenant-Governor, the 10th day of October, 1876.

Upon consideration of the annexed report of the Honourable the Commissioner of Crown Lands, of the 3rd October, 1876, the Committee of Council advise that the temporary arrangement for the granting of license for permission to cut timber on the public domain in the Thunder Bay District, Lake Superior, which is set forth in the annexed Memorandum be approved of by your Honour.

Certified,

J. G. SCOTT,
Clerk Executive Council, Ontario.

10th October, 1876.

The Commissioner of Crown Lands has the honour to report that several applications have been made to his Department for authority to cut timber on the public domain in the Thunder Bay District, Lake Superior, to be used in the construction of the Canada Pacific Railway, the locality for which applications have been made being in the vicinity of the railway line westward from Prince Arthur's Landing to Lac-des-Mille Lacs, and others will probably be made for ground between Lac-des-Mille Lacs and the provisional westerly boundary line of the Province.

No licenses to cut timber have hitherto been granted west of Sault Ste. Marie, nor any explorations made as to the character of the country for timber. From Batchewaning River west of the Sault to Thunder Bay, Lake Superior maps indicate occasional pine clumps at a considerable distance back from the shores of the lake, the timber on the territory appearing from the same source of information to be spruce, birch, maple and other hardwoods.

In the vicinity of Thunder Bay and for some distance westward pine of poor quality, generally scrubby and stunted, is found sparsely scattered throughout the district, which may be suitable for rough work in connection with the Canada Pacific Railway, and will no doubt be cut by contractors on the road and appropriated to their use should provision not be made by which it may be cut under authority. In order to meet the case the Commissioner herewith submits for approval a temporary "arrangement" by which license or permission to cut timber may be granted in the locality referred to, to parties desiring the same, under which trespassing on the public domain may be to a large extent prevented and revenue collected on timber cut.

T. B. PARDEE,
Commissioner.

DEPARTMENT OF CROWN LANDS, WOODS AND FORESTS,
TORONTO, 3rd October, 1876.

MEMORANDUM of temporary arrangement respecting the cutting of timber in the District of Thunder Bay, Lake Superior, for the Canada Pacific Railway.

Applications for license or permission to cut timber to be made to the Crown Lands Agent at Prince Arthur's Landing.

The tracts of land applied for must not exceed four square miles, or 2,560 acres each, and to be of the dimensions of two miles north and south, and two miles east and west astronomically; that irregular tracts fronting on lakes or rivers, containing an area of less than four square miles each, shall have the remaining boundaries of such tracts extend north and south, and east and west astronomically.

Each application to be accompanied by a map or sketch plan in duplicate, shewing the tract applied for laid down thereon, and describing the same as commencing at some permanent monument or prominent object on lake or river, etc., or at a certain distance and bearing therefrom.

No license or permission to be granted for a longer period than twelve months from the date thereof; licenses (or permissions) and timber where not specially treated of in this arrangement to be subject to conditions and regulations as set forth in the Crown Timber Regulations and such Orders in Council as now exist or may hereafter be passed, affecting licensed lands

Ground Rent in all cases, $20, to be paid to the agent before receiving license or permission to cut.

Dues on pine and other timber, except railway ties, to be at tariff rate given in the Crown Timber Regulation; railway ties to be charged at four cents (4c.) each; all dues and charges accrued to be paid to the Crown Lands Agent aforesaid, or other person authorized by the Department of Crown Lands, before the timber cut is removed from the ground.

The number of pieces and description of timber cut or made, and contents in cubic feet of square or sided timber, to be sworn to before a Justice of the Peace by the foreman or person who has superintended operations, and satisfactory return made of the same in detail to the agent aforesaid.

Persons availing themselves of false statements of returns or oath to evade the payment of Crown dues and charges shall forfeit license or permission and timber cut by or for them under the same; timber cut without authority on land of the Crown shall be subject to seizure and confiscation.

COPY of an Order in Council approved by His Honour the Lieutenant-Governor, the 15th day of November, A.D. 1882.

The Committee of Council have had under consideration the report of the Honourable the Commissioner of Crown Lands, dated the 31st day of October, 1882, wherein he states that the opening up of the Canada Pacific Railway to Prince Arthur's Landing and the commencement of the construction eastward has caused a pressing demand for timber for building docks, erecting elevators and other structures connected with trade, and also for lumber for dwellings for an increased and increasing population; that the district in the neighbourhood of the "Landing" cannot by any means be considered a timber country in the general acceptation of the term, and consequently cannot well be dealt with in the manner usual with well-timbered territories where limits are awarded at public sale. That in order to meet the wants of the people, and with a view to the improvement of the locality and development of its resources, and to obviate the contingency of the law being set at defiance and the timber cut without authority, the Commissioner recommends that he be authorized to grant permissions to cut timber in the Thunder Bay District and to levy such charge on the timber so cut as will approximately represent a reasonable bonus in addition to ordinary license rate of dues, and to deal generally in the matter as may be found expedient.

The Committee advise that the recommendation of the Honourable the Commissioner be concurred in and acted upon.

Certified, J. G. SCOTT,
Clerk Executive Council.

RETURN ordered by the Honourable the Legislative Assembly on the 14th March, 1884, sold or disposed of, with the names of the persons to whom the same have been sold dues to be paid in respect of the timber to be cut therefrom. and the names of the which such rights to cut timber have been granted, have been sold, and if so, to of the Department.

DEPARTMENT OF CROWN LANDS,
TORONTO, 26th January, 1885.

THOMAS H. JOHNSON,
Assist. Commissioner of Crown Lands.

ACCOUNTS BRANCH,
R. H. BROWNE,
Chief Clerk Agents' Returns.

(No. 23.)

Return shewing the total number of School Sections in the Province in which the Government Grant has been withheld since 1880; giving the reasons therefor in each case, and copies of any correspondence in the Education Department bearing upon the subject. (*Not printed.*)

RETURN

To an Order of the House shewing the name of each Colonization Road on which Provincial money has been expended since July 1st, 1867; its length in miles; the constituency or constituencies in which it is situated; the amount expended on it in each year, distinguishing between amounts for repairs and amounts for construction of new road, giving the length of road constructed.

By Command,

ARTHUR S. HARDY,
Provincial Secretary.

Provincial Secretary's Office,
Toronto, February 3rd, 1885.

RETURN shewing the name of each Colonization Road on which Provincial money has been expended since July 1st, 1867; its length in miles; the constituency or constituencies in which it is situated; the amount expended on it in each year, distinguishing between amounts for repairs and amounts for construction of new road, giving the length of road constructed.

DEPARTMENT OF CROWN LANDS,
Toronto, 3rd February, 1885.

SPECIAL REPORT

On the Hungerford Outbreak.

ARTHUR S. HARDY,
Secretary.

PROVINCIAL SECRETARY'S OFFICE,
TORONTO, February 7th, 1885.

SPECIAL REPORT

ON THE

HUNGERFORD OUTBREAK.

OFFICE PROVINCIAL BOARD OF HEALTH.

Toronto, January 28th, 1886.

To the Honorable A. M. Ross,

Provincial Treasurer and Head of Provincial Department of Health.

Sir,—In presenting a special report on the outbreak of small-pox in Hungerford Township, Hastings County, it gives me pleasure to be able to state that the disease has been effectually stamped out in that township, for the present; and while it is possible that the germs of the disease may here and there be still in existence, yet I trust that the efforts that have been made by the officers acting under my directions there, along with the labours of the Local Board of Health, have been such as will prove to have completely eradicated the disease. Isolated cases of the disease have occurred in neighbouring townships, as Elzevir, Sheffield, Kaladar and Seymour. In none of these, except the latter, can the disease be said to have spread beyond the first cases, and even in Seymour most recent reports from the Medical Health Officer indicate that the disease is practically under control. As the two physicians, Mr. J. Rannie Logan, and Mr. Hal. H. Hawley, sent by you, at my request, to aid the Local Board of Health in the task of controlling the epidemic in Hungerford, have drawn up for me admirably concise reports of the history of the outbreak together with many extremely interesting details regarding the individual cases, such as source of infection, method by which it was conveyed from one locality to another, etc., etc., I shall leave these reports to speak for themselves, and confine my remarks to an account of the action taken by the Provincial Board and myself, as Chief Medical Health Officer of the Province, in combating what has been the severest outbreak of smallpox, which in so short a space of time, has within many past years affected any single locality in Ontario. On the 17th of November, 1884, I obtained information through Dr. Dafoe of Madoc that small-pox had broken out in Hungerford, and on the evening of the 18th was telegraphed for by a member of the Municipal Council requesting me to immediately come to Hungerford. I proceeded to Tweed on the 19th, *via* O. and Q. R. R., and met three members of the Council, some of those who had been previously nominated members of the Local Board of Health,

and Dr. T. E. Pomeroy who had been provisionally appointed Medical Health Officer. Comprehending something of the extent of the outbreak, I at once indicated to them the necessity for the most immediate and extensive measures being instituted for suppressing the outbreak. My first action was to have the Council confirm the appointment of such a number of the Reeve's nominees as would constitute a legal Local Board of Health and to utilize all the others nominated by him by having them appointed sanitary inspectors acting under the direction of the Board. Anticipating the necessity there might be for having special constables to aid the Local Board in carrying out their duties, Justices of the Peace were sent for, and the legal procedure necessary for appointing special constables was explained by them to the Council. The appointment of Dr. Pomeroy as Medical Health Officer of the Township was also confirmed by the Council. This being done the Council made a grant of money for the payment of such expenses as the Local Board might in the meantime incur, and promised to meet at such other times as the financial necessities demanded for the purpose of granting supplies.

Copies of the Public Health Act, 1884, were given to the members of the Local Board and its provisions, bearing upon the present emergency, indicated. Extracts from the clauses relating to contagious diseases were taken and drafted in the form of a proclamation, and a messenger was at once despatched to Madoc, where was the nearest printing office, to have 200 of them printed for posting throughout the township. The following is a copy of the poster:—

"SMALLPOX.

"The Local Board of Health, Hungerford Township.

"Advise all persons to take notice that the provisions of the Public Health Act are in force in the township, of which the following are important clauses:—

"1. Whenever any householder knows that any person within his family or household has the smallpox, diphtheria, scarlet fever, cholera, or typhoid fever, he shall within twenty-four hours give notice thereof to the Local Board of Health, or to the Medical Health Officer of the district in which he resides, and such notice shall be given either at the office of the Medical Health Officer, or by a communication addressed to him and duly mailed within the time specified, and in case there is no Medical Health Officer, then to the Secretary of the Local Board of Health, either at his office or by communication as aforesaid.

"2. No householder shall permit any person, clothing, or thing, which has been exposed to smallpox, to be removed from his house without the consent of the Board, or its Medical Health Officer.

"3. No person shall have access to any person affected with smallpox, or shall expose themselves in public if they have been exposed to it, except the clergymen, physicians, nurses, or members of the Board of Health.

"4. Persons recovering from smallpox, or who have been in attendance on it, shall not leave the premises without a certificate from the attending physician, or the Medical Health Officer.

"5. Any member of the Local Board of Health, or any person authorized by the Board to act as its officer, may call to his assistance any constable or other person he thinks fit, and it shall be the duty of every such person, when called upon, to render such assistance as necessary to carry out the Act.

"6. No person shall be allowed to take the train at any of the following stations:—Kaladar, Sheffield, Tweed, or Ivanhoe, without having got a certificate from the Medical Health Officer, or some qualified physician.

"7. Any person violating any of the above clauses shall be liable to a fine amounting to $50 and costs or imprisonment, at the discretion of the court.

"Dr. Peter H. Bryce,
"Secretary Provincial Board of Health.

Patrick Murphy,
Chairman of the Local Board of Health.

"The following are the members of the Local Board:—Patrick Murphy, Reeve, Chairman; James Quinn, George Vair, Edward Huyck, Secretary; Dr. T. E. Pomeroy, Medical Health Officer.

"Sanitary Inspectors.—*Stoco.*—Thomas Mulroney, Peter Murphy, Anson Canniff.—*Thomasburg.*—Benjamin Henry, William Gilroy. *Bogarts.*—Francis Murphy, Robert Gordon. *Marlbank.*—Wm. Allen, P. Wilson.

"Special Constables.—Peter Murphy, Simon Mulroney, Joseph Lachford, John Lennox, Albert Lockwood, Samuel Dafoe, A. D. Allen, Wm. Burley, Warwick Bowell, David Beaty, Thomas McCaw, Joseph Woodcock."

Tweed, November 20th, 1884.

Having advised with the Medical Health Officer regarding the danger to the Province should any exposed persons from the infected districts be allowed to depart by train, he directed the station agent of the Ontario and Quebec Railroad to issue no tickets to persons other than those having passes from the Medical Health Officer. The same order was telegraphed immediately to one station west and three stations east of Tweed. Mr. W. Whyte, general manager of the Railway, was good enough when called upon the next day to confirm the order; and although it was doubtless in the interests of the Railway Company that the disease should not be allowed to spread, yet it was equally in the interests of the Province, and Mr Whyte's ready consent in the matter deserves the recognition and thanks of the Provincial Board, and the Province at large. Feeling that all had been done that the circumstances demanded, I returned to Toronto. Six days later, the spread of the disease, together with the fact of the Medical Health Officer's daily return to his home in Tweed, had created a panic to the extent of causing an extensively signed petition of residents of Tweed to be sent to the Provincial Board of Health to send some physician to the district to take the place of the Medical Health Officer who had not the public confidence. At the meeting of the Provincial Board then in session, I was directed to go to the district and investigate the whole extent and character of the outbreak. This I proceeded to do on the 29th of November. Being a stranger to the district, the task was a somewhat delicate one of endeavouring to allay public alarm and mistrust, and at the same time lend my support and countenance to the legally constituted authorities. This, however, I attempted by at once proceeding to Bridgewater in Elzevir Township, and interviewing Dr. Law, its Medical Health Officer. The interview was satisfactory, and information was gained regarding the extent of the outbreak in his district. Leaving vaccine with him, I at once returned to Tweed, and met the Local Board, who at their meeting expressed their confidence in the Medical Health Officer, although two of them had signed the petition. Immediately thereafter I discussed the situation at a public meeting in the Township Hall, and succeeded to a large extent in allaying discontent and lessening the panic. The same evening I proceeded to Roslin, a village on the Belleville Road, situated at the junction of four townships. Arriving at midnight, I called upon Dr. Hudson, who very kindly gave me all the information he possessed regarding the health organizations in the four townships, and also promised to lend all his aid, although being in Tyendinaga, in strengthening the hand of the Sanitary Inspectors in the contiguous Hungerford districts, in preventing exposed persons mingling with the public, or passing out to Belleville and intervening villages. Returning to Tweed the same night, I proceeded the next morning through the infected districts with Dr. Pomeroy, the Medical Health Officer. The map accompanying this report will indicate the position and limits of the infected districts and the number of houses infected in the Township. Leaving Tweed and proceeding north of Stoco Lake, the Clare River district, settled largely by French, was reached. The district is very rocky and most of the settlers are poor, living in small houses, usually of one or two rooms. As will be seen in the appended report, the number in the families was often large, and remembering that in some instances there was not one unaffected, it can be understood how extreme was the misery, and how heart-rending some of the sights witnessed. For instance of Exor Casibeau's family, fourteen in number, eight were found lying sick in one room of small dimensions. Out of this number of fourteen, six subsequently died. Proceeding from the Clare River district, Stoco village was approached. It was in families in the vicinity of the village that the largest number of fatal cases had occurred in the earlier period of the outbreak, but at the time of my visit the village itself was completely overrun with the disease. I visited the hospital where were some twenty patients taken from those families where the facilities were least for attendance in their own homes, owing to poverty, or through all the members of the household being ill. The hospital was a large new building in which an early case of the disease had occurred, and which was afterwards placed at the service of the Township by Mr. A. Canniff. Through the influence of Father Flemming and the Reeve, two Sisters from a Kingston convent had come to nurse the hospital patients. At this time they were the sole nurses, and too much praise cannot be bestowed upon them for their unremitting attention and arduous labours throughout the epidemic. The Reeve and Chairman of the Board of Health, Patrick Murphy, Esq., was next called upon, and further infor-

mation relative to the measures taken in Stoco for limiting the disease, was obtained. It must be considered an unfortunate circumstance that the outbreak of the disease in the Reeve's own family (his brother-in-law, Mr. Dolan, engaged in his store having died of the disease) and in his own village, prevented him as Chairman of the Local Board from visiting the various parts of the township and performing the wider duties which his official position imposed upon him. After dining in the hospital, fresh horses were provided by the Reeve, and I proceeded to the Marlbank or south-eastern district of the township, where a number of cases were reported. The degree of panic there may be understood when I state that it was not possible to obtain any response from the village hotel keeper, when calling out to him from outside the door; and it was only after effort that I could find anyone, who would give me any information of the local health conditions. A suspicious case of eruptive disease had occurred in the house of one of the local health inspectors, a prominent merchant, and I was requested not to enter his house, when it was known that I had been in Stoco. Being assured that he had had all his family vaccinated, and warning him to disinfect his house and store, and keep his family isolated, the house of the other inspector, Mr. W. Allan, was thereafter found, and without entering I discussed the situation with him, and found out that there were some six families in the vicinity, where small-pox was, and none able to obtain medical attendance. I advised him regarding the great urgency for active measures being at once instituted, preventing people from the northern parts of the township going south toward Napanee or east toward Tamworth. He promised that police should be placed on the roads leading into the village from the infected districts, and informed me that Sheffield, the township to the east, had placed a constable on the Tamworth road. Promising to send vaccine immediately, and if possible obtain medical aid for the sick families, I proceeded toward Tamworth to make sure that their officials were at work. I came to the corner where the policeman was said to be, but I might very readily have gone to Tamworth, he being at tea. After calling him out of the house I obtained detailed information of what had been done in Sheffield. A Medical Health Officer had been appointed and was vaccinating the people generally. After some fifteen miles of a drive on a cold December afternoon, I had the pleasure, all the greater for its novelty, (not being strongly pressed to enter the house) of eating some bread and cheese supplied me, while sitting in my cutter on the road. This incident is mentioned to illustrate the hardships which those who subsequently acted under my directions in subduing the disease underwent, in the performance of their dangerous and thankless task.

Feeling assured that Sheffield was likely to do its duty in combating the disease which had already appeared on its western border, I returned to Stoco, where I got hospitality and warmth from the Reeve. That gentleman, afflicted through family bereavement and loss of business, deserted by almost all neighbours, who had escaped the disease, speaking, as might be expected, sadly and hopelessly of the situation, and indicating their helplessness to stay the plague, naturally looked for outside aid when sufficient local help was not forthcoming. Promising the Reeve that I would, if possible, send outside aid, I returned to Tweed, and took the 3 a.m. train for Toronto. Thus, between 3 p.m. Saturday, and 3 a.m. Monday morning, I had driven nearly a hundred miles, and had thereby succeeded in obtaining an exact estimate of the extent of territory infected by the disease, the number of cases, the measures which had been taken to limit it, and the dangers which menaced the Province, should the disease reach our populous towns and cities. Reporting the state of affairs to you, sir, at the earliest possible moment, you were good enough to at once accept my suggestion that in the interest of the whole Province, aid should be sent to the infected locality, and commissioned me to obtain, if possible, two medical practitioners to go to Hungerford. After consultation with the Chairman of the Provincial Board, who knew of no medical men who would be likely to go, I determined to try and obtain medical students of the final year who might be well recommended. I proceeded to Toronto General Hospital on Tuesday afternoon, and offered two gentlemen, one from each of the Medical Schools, the acceptance of your commissions, on condition that they be prepared to go to Hungerford on Wednesday morning. The nature of their duties was explained to them, and an answer requested by 8 p.m. I met these gentlemen at the residence of Dr. I. H. Cameron, who had recommended them. One,

for private reasons did not see proper to accept ; but a substitute had been brought, and Mr. H. H. Hawley, and Mr. J. R. Logan, Trinity Medical School, were vaccinated, supplied with an outfit of medicines, etc., and accompanied me on Wednesday morning, December 3rd, to Hungerford. Arrived at Tweed, a messenger was found who had just driven some twenty miles beseeching medical aid for the sufferers in the Marlbank district. At once proceeding to the infected districts, Mr. Hawley was left at Stoco to take charge of that district in all matters relating to the vaccination of the people, which the Medical Health Officer's immediate duties prevented him from doing systematically, and to the organization of a sanitary corps for fumigating infected houses, acting in conjunction with the Local Board and the Medical Health Officer. Mr. Logan proceeded with me to Marlbank. It was only after much difficulty that quarters could be obtained for him, when it was understood that he was to attend the sick families. Indeed I had to leave him without being assured that he would be supplied with shelter for the night. When it is remembered, that at that very moment they had been praying for medical aid for the district, the degree of alarm on the part of the people acting thus can perhaps be partially understood. Returning at once to Stoco, another conference with the Reeve made it apparent that aid in the shape of sanitary police was absolutely necessary, if effective quarantine was to be maintained. Some who had been sick and were recovering were exposing themselves in public, while others panic-stricken, and who had been exposed, were determined at all hazards to leave the infected district. Two men only were left at Stoco, Mr. Peter Murphy and Mr. A. Canniff (who have been much blamed for an unfortunate mistake in bringing the father of Mr. Canniff to the hospital, thinking he had small-pox, without the Medical Health Officer's knowledge or orders) willing to help, and they had to do all the rough work of the hospital, the supplying of outside families with food, and the burying of the dead. They too were crying for help. So with a commission to ask that Father Flemming throw open his church for a new hospital, and a promise to, if possible, get more aid, I returned to Toronto the same night. On placing these matters before you, sir, on Thursday, December 4th, you were kind enough to consent that, if it could be obtained, more aid should be sent. The task of obtaining any persons, but especially persons who were likely to have some knowledge of nursing, some sanitary knowledge, and nerve and prudence enough to perform all the work of members of a sanitary corps, often forced to act on their own responsibility, proved one of extreme difficulty, and it occupied all my time and that of Mr. H. Crewe, of the Registrar-General's Department, for the next three days in obtaining these men ; one who had seen much police service, to take charge of the police arrangements, and two others to act under him, and a nurse to assist the Sisters in the hospital. These were sent to the infected district on the 6th and 7th December. Their orders were to act with the local health authorities, and the Government physicians.

Such, sir, was the organization which the emergency seemed to demand, and which, I am happy to say, succeeded in subduing an epidemic which at that time had reached the unprecedented number, within so small an area of country, of over 175 cases, in some thirty families, each one of which might, if every precaution was not taken, become a new centre of infection

Though the details of what was done by the Government physicians are set forth in their reports, it will be well, while incidentally alluding to them, to refer to some facts and occurrences taking place after they were sent One of these was the action taken for protecting other parts of the county, and especially Belleville, by requesting the Medical Health Officer of the township to stop the running of the stage between Bridgewater and Belleville. This was done, while allowing the stage owner to still carry the mails, after an appeal had been made both to Dr. Pomeroy and myself, by Dr. Tracey, Medical Health Officer of Belleville, as he reported that people from the infected district were coming into the city. On a visit made to the district by me on December 12th, I found the organization energetically engaged, in spite of many difficulties, in successfully combating the disease at every point. Much trouble was for a short time experienced by Mr. Logan in the Marlbank district in getting the people to submit to vaccination, owing to reports which had been circulated by a Mr. Maxwell,

practising medicine empirically in that district, but who had refused to visit small-pox patients, who spread reports regarding the dangers of smallpox should they allow Mr. Logan to vaccinate them. This was met by a well distributed handbill sent by me, informing the public of Mr. Logan's position, and asking them in their own and the public interests to aid him in his difficult task. To make certain that every precaution was being taken for confining the disease within its then limits, I again visited Dr. Hudson, of Roslin, by whom I was informed that he as a member of the Local Board of Tyendinagea, had a sanitary policeman doing duty on the town-line leading to the Belleville road. As there was still danger that people from the Marlbank district might reach Shannonville and Belleville by a more easterly road, he at my request determined to have a policeman placed at a proper point on it. Dr. Hudson had been protecting his district by performing systematic vaccination. With Dr. Hudson, I then proceeded to Belleville, and had an interview with Dr. Tracey, and reported to him the exact state of matters, and assured him that he might calm popular fears in Belleville by informing the public that every possible precaution had been taken in Hungerford and the adjoining townships. During this time, and throughout the epidemic, as is stated by Messrs. Logan and Hawley, a system of house to house vaccination had been carried on by them, and, when the necessity demanded, by members of the sanitary corps and one or two local assistants, taking the immediate neighbourhood of infected districts first. As is stated in their report, "There are now very few in the township who have not been vaccinated."

The still more difficult and disagreeable task of disinfecting and fumigating, was begun on December 13th, in the Clare River and Stoco districts, in those houses in which the disease had exhausted itself. The sanitary corps seem to have managed this most successfully by removing several families to one house, and then, after cleaning the houses, placing them in their homes, and supplying them with clothing, much of which was supplied by the charity of ladies in Toronto and Belleville.

On December 29th a telegram was received by me from Dr. Bogart of Campbellford, informing me that small-pox had broken out in a family in Seymour township in Northumberland Co. I telegraphed Mr. Hawley to at once proceed there and obtain all information regarding the outbreak, and to see that the Local Board adopted measures similar to those taken in Hungerford for limiting the spread of the disease. Recent information from Dr. Bogart, Medical Health Officer, indicates that the disease has been limited to fourteen cases, and that every prospect is present that it will not much exceed this number. The amount of costs of the outbreak in Seymour is not yet obtainable. To-day, December 28th, a telegram indicates that a case which is an offshoot of those in Seymour, has occurred in Rawdon Township. Elzevir, lying to the north of Hungerford, had the disease limited to three families, and now has it stamped out. The cost of the Elzevir outbreak was $600. Kaladar, in Addington, had one family sick with the disease, which was like those in Elzevir, an offshoot of the Hungerford outbreak. The cost up to date in Kaladar was about $600. Sheffield had three families on the Hungerford border, also offshoots from that township. In all these townships, early detection of the nature of the disease, from the people being on the alert for symptoms of smallpox, with prompt action on the part of the Local Boards in isolating the cases, and vaccinating widely, have prevented such a calamity as befel Hungerford. In every one of these townships, prompt communications were made to the Provincial Board, and as prompt directions as to the duty of the Local Boards, under the circumstances, were forwarded to the local secretaries. In no case was there any hesitation, even in these poor townships, in appointing Medical Health Officers; which is ample proof that the realization of immediate danger is all that is necessary to have such officials in every township, and is the most cogent of reasons why such officers should be permanent, and be prepared to check every outbreak of zymotic disease at its beginning.

Amongst other precautions, on the part of the Provincial Board, which the necessities of the case demanded, was that of pointing out the danger of a renewed outbreak of smallpox should they determine to hold municipal elections in the usual manner of having contests for the various offices. To this end a proclamation of which the following is a copy was printed and forwarded to the secretary of the Local Board of Health for distribution.

"PUBLIC NOTICE TO THE ELECTORS OF HUNGERFORD.

"By the Provincial Board of Health,

"In view of the unfortunate outbreak of smallpox in the Township of Hungerford, by which, during the past two months, many of your fellow-electors and their families have been affected with the disease from which numbers have died, the Provincial Board of Health, which was called upon by your Reeve and Council to aid the local Board of Health in combating the disease, would call the attention of the electors to the following facts:—

"1. That, as all are aware, the present extensive epidemic was caused by persons from infected houses mingling with unaffected persons, or by unaffected persons visiting the infected houses.

"2. That there are many houses in which some persons have recovered, but others have not: hence, that there is extreme danger of the disease being spread by such convalescent persons mixing with the general public.

"3. That the Provincial Board of Health have requested the Local Board of Health and Medical Health Officer of Hungerford to prevent all communication between the people of the infected districts and other parts of the township and neighbouring counties, have caused the schools and churches to be closed, and have prevented people meeting together in public assemblies, such as socials and tea meetings.

"4. That by the efforts of the Local Health authorities, supplemented by liberal assistance from the Provincial Board of Health, whereby physicians and sanitary police were sent to Hungerford, the extension of the disease has been prevented, and is fast being lessened even within its present bounds.

"5. The time for holding the municipal election is approaching. The holding of an election in January would seriously endanger the public health. The bringing together of the electors for nomination or election would be sure to spread the disease to localities hitherto kept free by isolation, and the Returning Officers, Poll Clerks and Scrutineers would be exposed the whole day to infection from contact with voters from infected districts. The Provincial Board of Health therefore strongly urges that no municipal election be held in January. The effect of this will be that by section 85 of the Municipal Act, the present Council will remain in office until a new election is had. The Legislature at its next session will no doubt provide for a new election when the danger of spreading the disease is past.

"From the facts above stated, it must be apparent to all public-minded citizens that the methods suggested by the Provincial Board of Health, by being acted upon, will obviate the danger which all in Hungerford can too feelingly appreciate, of a renewed outbreak of smallpox, the extent of which cannot be foreseen.

"Chas. W. Coverston, M.D.,
"Chairman Provincial Board of Health."

"Peter H. Bryce, M.D.,
"Secretary Provincial Board of Health.

The wishes of the Provincial Board were complied with, and a nomination at which very few attended was held, and the old council was elected by acclamation for the year 1885.

That you sir, and through you the legislature may have some adequate idea of the success which has attended the efforts of the Provincial Board, and of the organization of Local Boards provided for by the Public Health Act of 1884, in subduing such an outbreak as that of small-pox, the history of which I have detailed, I desire to give you along with the details of the cost of this outbreak, some of the details of the cost of outbreaks of small-pox, which have occurred in Illinois during the recent years 1881, 1882 and 1883. I deem the details of these outbreaks especially valuable as enabling us to make a comparison between outbreaks occurring within near periods, as regards time, in almost contiguous regions, under much the same climatic circumstances, and amongst populations similar in race, civilization and social conditions. In order to further justly appreciate

the work done, it must be remembered that Illinois has had for years a Commissioner of Health, with an ample staff, whose whole services are given to public health work, while this Province has to depend upon the services of a Board, whose Secretary, even, has to engage in private practice in addition to his public health duties.

In the details, recorded in the fifth Annual Report of the State Board of Health, of the epidemic of small-pox in Illinois, in which there were some 306 distinct outbreaks in different parts of the State during 1881, 1882 and 1883, I find it stated that (excluding Chicago) 2,040 cases occurred. Of these Dr. Rauch, the Secretary of the Board, has been able to obtain the figures, indicating the actual amount of money spent in taking charge of 788, or 38% of the total number of cases. Calculations have been also made of the constructive cost of the outbreak, through loss of business, time, etc., not including that through human lives lost. I have not been able to get as yet any approximate estimate of this item in the present outbreak. We know, however, that it must be large.

Table I.—Showing cost of 788 cases of smallpox in Illinois; also showing actual cost of 202 cases in Hungerford at same rate per case; also showing approximate cost of 202 cases in Hungerford.

Cost of 788 cases in Illinois.		Cost at Illinois rate of 202 cases in Hungerford.	
Actual Total Cost	$108,688 09	Actual cost	$ 27886 10
Average cost per case	138 09	Actual cost obtained approximately in Hungerford,	
Constructive total cost	149,165 00	Expenses of Provincial Board	1,665 00
Average per diem constructive cost	230 00	Expenses of Local Board	10,000 00

Details of Expenditure as far as Obtainable—*Re* Outbreak of Smallpox in Hungerford.

Secretary's travelling expenses	$107 80
Sending men to Hungerford	33 25
Travelling expenses, medicine, vaccine, etc., of Mr. Logan	30 00
" " " " Mr. Hawley	25 00
Clothing to supply houses and policemen, etc., per Mr. Hawley	65 00
Tents, medicine, vaccine	204 05
Seven weeks' salary of Mr. Jopp in Hungerford, at $20	140 00
" " " Mr. Graw " "	140 00
" " " Mrs. Bass " "	140 00
Two months " Mr. Hawley " "	300 00
" " " Mr. Logan " "	300 00
" " " Sergeant Anketell in Hungerford, at $20	180 00
	$1,665 10
Approximate expenses of Local Board of Health	10,000 00
Total approximated expenses of 202 cases	$11,665 10
Rate per capita in Hungerford outbreak	57 75
Total expenses of 202 cases during late outbreak in Illinois	27,894 18
Rate per capita in Illinois outbreak	138 09

Though doubtless any outbreak of small-pox such as that in Hungerford, means a large financial loss, yet viewing the outbreak as a fact, the above table must be satisfactory as showing how small comparatively has been its cost. It may be incidently mentioned that a single case in Flos Township cost $220.

The next point of interest is an examination of the comparative duration of the epidemic in Hungerford, consisting of 202 cases, with the duration of outbreaks in Illinois.

Table II.—showing average duration of outbreaks in Illinois.

ILLINOIS OUTBREAK.

Average duration of 126 outbreaks, before State Board took active measures	71.5 days
Average duration of 180 outbreaks after active measures by State Board	30.6 "

HUNGERFORD OUTBREAK.

Duration of outbreak from outbreak of first case, October 5th, to outbreak of last, December 12th	68 "
Duration from time Local Board took action, November 14th, to December 12th	29 "
Duration from time Provincial Board took active measures, Nov. 29th to December 12th	13 "

I take it for granted that Dr. Rauch has calculated the duration of the outbreak from the date on which the first case was attacked to the date on which the last case became ill. These are the dates adopted by me in determining the duration of the Hungerford outbreak. A fact which gives to this comparison additional interest is, viz., that the largest number of cases occurring in any single outbreak in Illinois was 57, while in Hungerford there were 202 cases. Remembering that each was a centre of infection, the fact that the epidemic lasted so short a time in Hungerford is extremely gratifying.

It may be said to have begun when Johnny King, who slept with the immigrant boy, (referred to in report of Messrs. Hawley and Logan) took sick October 5th, and ended when Allan Canniff, sen., became ill on December 12th. On the 14th of November the Local Board of Health may be said to have begun to take measures for its suppression, since on that date Dr. Pomeroy was asked by Mr. Murphy, the Reeve, to visit some cases. It may be said here that all those affected before this had not been without medical aid, as some had been visited, but through mistaken diagnosis, the dangerous character of the disease had not been suspected. Allowing 14 days to elapse from the day on which Dr. Pomeroy made his first visit, as being the time within which persons exposed up to that period would be attacked, there occurred only 34 cases after December 28th. Remembering that there must have been up to this date 168 cases or centres of infection established, the number of new cases is surprisingly few. Up to the date, December 3rd, when Mr. Logan undertook the work in the Marlbank district, 35 cases had occurred. It is with much pleasure I record the fact that although five cases afterward occurred who had been previously exposed to the disease, not a single new case occurred, which became inoculated after Mr. Logan, assisted by the unremitting labours of Mr. Alexander Allen, Messrs. A. & W. Allen of Marlbank, and the sanitary corps organized by them, went on duty.

The next point which requires attention is the mortality amongst the 202 cases which occurred. In all there were 45 deaths. To illustrate how serious this is, I may say that it amounts to about one death in every 100 of the population of Hungerford. Remembering that new cases occurred for little more than two months, there would have been about 1-20 of the whole population swept away had the outbreak continued at the same rate for a year.

As there might perhaps be a tendency to throw blame on the medical health officer who had charge of most of the cases, when the mortality becomes generally known, I have taken some trouble to give a comparative statement with the mortality of the outbreak in Illinois.

Table III.—Comparative statement of deaths to recoveries in Illinois and in Hungerford.

	Cases where results were given.	Recoveries.	Deaths.	Percentage of deaths to whole.
Illinois	1931	1471	460	23.8%
Hungerford	202	157	45	22.2%

It will be seen from this that the mortality in Hungerford is 1.6 per cent. lower than in Illinois. The mortality in the two districts of Hungerford varied very greatly, and while the splendid results, (being only 12½ per cent. of deaths) in the Marlbank district, cannot fail to be most creditable to Mr. Logan, it would be unfair to allow of a comparison between the two to be made without the circumstances in both being well understood. In the Marlbank district the class of the houses in which the cases occurred and the general character of the settlers was very considerably superior to that, especially in the Clare river district. There were, moreover, only 40 patients in all, and these could, if necessary, be all visited daily. In the district under Dr. Pomeroy, they occurred a number of miles apart. Subtracting some 30 cases which had occurred up to November 7th, or up to one week before Dr. Pomeroy began to act as medical health officer, from the 162 in all, which occurred within his districts, there came under his care 132 cases between November 14th and December 12th. Now assuming that at no one time during this period could there have been much less than 100 cases requiring treatment, it is evident that in order to see these each once in three days, he would have to visit 33 patients daily. Recollecting that to see these he would on some days have to drive at least 30 miles, it must be evident that, allowing four hours for being on the road, he would have six hours out of ten hours' hard labor, in which to examine and prescribe for 33 patients. That is 10 minutes every three days was given to each patient. When it is considered that the weather during this period was constantly cold and changeable, that large families of poor people were usually crowded into small rooms (often six or eight in one room) that every opening was often stopped up to prevent the ingress of fresh but cold air, and that in some cases nursing was nothing but a name, as every inmate of a house became in many instances ill, and none could be got to go in and help them, it may perhaps be possible to appreciate the unenviable task imposed upon Dr. Pomeroy, Medical Health Officer, which however, resulted in only 35 deaths out of 132 cases, which I have calculated actually came under his care, or 26½ per cent.

I have prepared further, a table containing the condensed information which, at my suggestion, was obtained after infinite labor and trouble by Messrs. Hawley and Logan, regarding the ages of those affected with the disease, whether they were vaccinated or unvaccinated, and what have been the comparative results as regards mortality between the two. The statistics may for practicable purposes be considered reliable.

Table IV.—Illustrating percentage of deaths to recoveries, where ages are given in 172 cases; and in 139 cases where *vaccinated* or *unvaccinated* is mentioned.

Ages.	Cases.	Deaths—Recoveries.		Percentage of Deaths at this age to total cases.	Percentage of Cases Vaccinated at this age to total 139 Cases
1 to 5	25	7	18	28	00
5 to 10	29	6	23	20	4
10 to 20	46	9	37	20	16
20 to 30	29	10	19	35	20
30 to 40	15	1	14	7	38
40 to 50	15	3	11	20	60
50 to 60	8	1	7	12	75
60 to 70	5	1	4	20	100

Cases previously Vaccinated 31.		Cases unvaccinated 108.	
Deaths.	Percentage of whole.	Deaths.	Percentage of whole.
2	6%	36	33%

A fact of extreme importance to be noticed here is, that in many houses, where vaccination was performed after the first case had occurred, no more cases followed; and this was true in several instances where vaccination had been delayed for several days after first exposure. The fact that the vaccine disease incubates in a shorter period than does smallpox, makes protection of those exposed, if a case is early diagnosed, quite possible. To the physicians, nurses and sanitary police, almost all of whom had never had smallpox, successful vaccination proved a complete prophylactic, as constantly exposed to the disease, not one of them took it. Rev. Father Flemming, who had been exposed three days before being vaccinated, became ill with a mild form of the disease.

A glance at Table IV. indicates what is a matter of the greatest moment, viz., that the largest mortality was amongst persons who had just arrived at maturity (between 20 and 30 years), and who in many cases must have been lives most valuable to many families, as well as to the country. A most noticeable fact is, that from the earliest period to the latest, the percentage of *vaccinated* to *unvaccinated* steadily increases. Within the period from one to five years not a single child had been vaccinated, while those between 60 and 70 had all been vaccinated. In the first there was 28 per cent. of deaths, in the latter 20, or one case, and this was an old woman of 78 years.

Another extremely interesting fact has been gleaned from the figures supplied to me, viz., *that of the very low mortality of all who had been vaccinated*, even though they took the disease, the number amounting to only 6 per cent., or two persons (one of these being an old woman of 78 years, and the other a young woman at 21, who was *enciente*); and of the extremely high mortality of the unvaccinated, or 33 per cent.

In concluding this report, I would most respectfully press upon your attention, and through you upon the Legislature, several conclusions which are forced upon us by the irresistible logic of facts:

1st. That it is imperative, if such outbreaks are to be prevented in future, that some better provision must be made by which every municipality shall constantly have at its command a Medical Health Officer, whose special duty it will be to at once investigate all

suspected cases of infectious disease, and who shall be ever ready and watchful to prevent what may at any time become the cause by which such diseases are spread.

2nd. That through the absence of any statutory provisions making vaccination compulsory, there is rapidly growing up over the whole Province a young population, amounting, in the case which has been illustrated by these statistics, to 80 per cent. of all under 20 years of age who are unvaccinated, and who in a very few years, if the same disregard is shown, will amount to 75 per cent. of the whole population. As the population becomes more centralized and our cities increase, they will become like those European cities from which, during the past year this Province has received the first cases of six outbreaks of smallpox. What, amongst an unvaccinated population, the mortality which prevailed in Hungerford in this class, viz., 33 per cent., would mean, should an outbreak similar to that of Hungerford once get beyond our control, may well make us pause to consider. The remedy is found in a statutory provision making the proof of successful vaccination a condition of entrance to our public schools. As, however, there would be between 1 and 5 years a large percentage of unprotected children, it would seem that thoroughness points us to the system by which England has reduced the annual number of children under one year remaining unvaccinated to 5 per cent., and proved in 1881 its efficacy in saving life by showing that while the vaccinated show to the unvaccinated as 19 : 1, the deaths from smallpox amongst all this army of vaccinated children, was only 1, where it was 120 amongst the unvaccinated.

I have the honour to be, sir,

Your obedient servant,

P. H. Bryce, M.A., M.D.,

Secretary Provincial Board of Health and Chief Medical Health Officer, Ontario

---

REPORT ON HUNGERFORD OUTBREAK BY MR. J. RANNIE LOGAN, AND MR. HAL. H. HAWLEY, GOVERNMENT PHYSICIANS.

Mr. Hawley's Report.

Hungerford, January 15th, 1885.

Dr. Bryce, *Secretary Provincial Board of Health.*

Sir,—The following will be found a short report of the smallpox outbreak within the district in which I was acting.

There has been considerable trouble in ascertaining beyond doubt the true origin of the outbreak, but I think that the following is a very probable cause :

Joseph Thompson, age 12, an immigrant boy, came from the Liverpool Industrial School on 25th of August, per Sarmatian, Allan Line, landed in Quebec with about forty others (from the same and other schools), on 7th of September. Stopped at Kingston on his way west, at what he called the convent. From Kingston he was sent to Tweed under the care of Father Flemming of that place. Here he was taken by a farmer named Edward King, at whose house he arrived about the 15th of Sept. About the 18th or 19th of the same month he was ill for nearly a week, vomiting, feverish, etc., which might have been the primary fever of small-pox, but no eruption made its appearance. The immigrant states that there was small-pox at the Industrial School two months before he came out, forty were removed to a hospital and when they returned there was a fresh outbreak. The boy's answers vary from time to time, and after questioning several others who came out from the same school at the same time, I find that none of them knew that small-pox had been prevalent in the school, although they all say that they had measles and "fever." They don't know what kind of fever. Thompson, however, is larger and older than any of the others that I questioned. He had been vaccinated in England. The baggage of

these immigrant children consisted of a small tin box (each) containing a small amount of clothing and a few trinkets.

Johnny King, aged 5, was the first member of King's family taken ill, and was the first case in the district that showed the distinct symptoms of small-pox. He was taken down about the *5th of October*. He slept with the immigrant boy. Had never been vaccinated. *Oct. 19th* a younger brother, aged 2, was found to be suffering from the same disease. Within two weeks of this last date, every member of King's family had been taken ill. No deaths.

The Genore family were the next to suffer. They live in the next house east of King's, and were almost daily visitors. Mr. Alexander Genore, aged 45, was the first to become affected. He was taken down on 16th of Oct. Had been vaccinated 28 years ago, and suffered from a modified form of the disease. Five children contracted the disease in a rather severe form. None of them that had a severe attack had ever been vaccinated. One death occurred in this family.

The disease had not yet been recognized, and nearly all the neighbors soon became exposed. Before a diagnosis was made there were nine or ten families in the Clare river district with some of their members lying ill.

The origin of the Stoco outbreak is no doubt due to a Frenchman named Jerry Lerange. He was assisting King at his threshing, and at night was placed to sleep in the same bed with the little boy who was then ill. This occurred about the 7th or 8th of October. After leaving King's, Lerange went from place to place continuing his work of threshing, during this stage of the incubation of the disease in his system. On the 22nd October he went to Isaac Woodcock's (near Stoco) and was taken very ill shortly after his arrival, and died on November 2nd. He was not buried until the second day after his death. During the time that he was ill and after his death, his friends and neighbors kept constantly calling at the house, not knowing the nature of the disease. On Nov. 5th members of Woodcock's family were taken ill. About the same time (Nov. 8-10th) Sinclairs' also became ill, and in a very few days almost every one who had been exposed at Woodcock's became similarly affected. It was not, however, until Nov. 14th, when Dr. Pomeroy was asked by the Reeve to call and see some of the patients, that the true nature of the disease was recognized, and of course up to this time no precautions had been taken against its spread. On Nov. 13th, Jane Levee was taken ill in Mr. Cannifl's new house, and very shortly afterwards the owner opened it as a general hospital for the township, for patients that could not be properly treated in their own houses.

On Dec. 4th, the next day after my arrival in Stoco, I started a system of vaccination, going from house to house, taking those first within the immediate neighborhood of the infected district, and especially those who had been exposed to the infection. Dr. Pomeroy's work became too heavy for him about the 8th or 9th, and I turned in and assisted him in attending to the sick, at the same time I continued the work of vaccinating, and I think now that there are very few in the township who have not been vaccinated. On Dec. 13th, we began the work of disinfecting and fumigating, which we did according to orders from you. The tent was not needed as there were several vacant houses, and in these the people were placed for 48 hours, until their own houses were cleaned up. After this had been done thoroughly every member of the different families was carbolized and removed to his home again. Since that date this disinfectant process has been continued with as much rapidity as the condition of the patients would permit. Appended will be found a list of patients, with date of illness, termination, and where the disease was contracted in cases where such information could be obtained.

On the 29th I started for Campbellford according to order received from you the evening before, to enquire into the condition of affairs relative to the reported outbreak near that village, and to urge upon the Reeve and Council the necessity of having a Board of Health at once formed and taking active measures to prevent the spread of the disease. On the afternoon of the same day I visited the infected district and found the small-pox confined to one family, that of Mr. Alex. Fry. He and his sister-in-law, Miss Summers, were just recovering from a mild varioloid, but two children aged about 10 and 13 were suffering from a rather severe variola, and were at that time in the suppurative stage. There were four other members of the family who, up to that time, had not yet been taken

ill and were not yet vaccinated. These I at once vaccinated and before I left it had commenced to work nicely on each of them.

On the second day after my arrival there I vaccinated as many as possible within the immediate neighbourhood, and those at a greater distance who had been exposed. The Council met the same afternoon and appointed a Board of Health and Dr. Bogart, Medical Health Officer. The board at once applied themselves to their work, and when I left, a couple of days later, the prospects of keeping the disease down seemed very bright. I was unable, after closely questioning Fry and his neighbours, to find out anything that would lead me to form an idea as to how the outbreak originated in this district, unless it could be from meeting some of the Lindsays, of Elzevir, who are (I understand) relatives; but this they positively deny. On the morning of January 2nd I again returned to Hungerford, and continued the work of disinfecting, etc.

Your obedient,

HAL. H. HAWLEY.

REPORT OF MR. J. R. LOGAN.

HUNGERFORD, JAN. 15th, 1885.

The following are facts connected with the history of the small-pox outbreak in the vicinity of Marlbank. In this section the disease originated at the house of Felix Quinn, and was caused by Ed. King (of Clare River) sending his daughter Maggie to stay there, hoping that she would thus escape the disease; she arrived about the 18th October, and took sick on the 20th October, having a mild attack. On her recovery her grandmother, Mrs. Quinn, sent her to school (S. S. No. 12.) The school teacher, Miss Way, was taken ill on Nov. 5th, and simultaneously two of the scholars, Michael Dolan and Michael Flynn. Strange to say these were the only ones attending the school who got infected from there. Miss Way, boarding at Dan. Byrne's, communicated the small-pox to the rest of the family, 3 in number. The other families affected who got small-pox from visiting at Quinn's were those of Frank Desahene, Larry Donohue, John Murphy, Alex. White. For dates see map prepared by Mr. Hawley. Wm. Reilly's house was infected by a servant boy Joe Cassibeau who came there, from the French settlement in the eruptive stage, to work for Mr. Reilly; Michael Reilly took sick on Nov. 17, 9 days after first exposure. A case of varioloid occurred at Thos. Coe's house, his son Edward contracting the disease from sitting in church beside John Flynn, jr.—He took ill on Dec. 1st. Thomas Flynn, son of widow Flynn of Sheffield, contracted the disease from members of Thos. Dolan's family, who went there to a threshing-bee not knowing that it was small-pox which they had in their house. In this family 6 persons had been exposed for 9 days when I first saw them, I vaccinated them all with success.

I have the honor to be, yours, obediently,

J. RANNIE LOGAN.

CASES IN CLARE RIVER AND STOCO DISTRICTS.

Name and Age, and where given. The Members of Households.	Date of Illness.	Form.	Termination.	Whether or not Vaccinated.	Source of Contagion—Remarks.

PAPERS AND DOCUMENTS

RESPECTING THE CASE OF JOHN FRANCIS DOWLING, MEMBER FOR THE SOUTH RIDING OF RENFREW.

1. REPORT OF THE ATTORNEY-GENERAL, 17TH JANUARY, APPROVED BY ORDER IN COUNCIL 6TH FEBRUARY, 1885.

The undersigned has the honour to submit the following observations on the case of Dr. John Francis Dowling, who was elected Member of the Legislative Assembly for the South Riding of Renfrew on the 27th February, 1883, by a majority of 100, and again elected on the 18th of January, 1884, by a majority of 335.

The first election was set aside on the ground that Dr. Dowling had "sanctioned" or "consented to" the payment of the travelling expenses of certain voters. That was the only charge found against him by the joint decision of the two Judges. The trial took place before Chancellor Boyd and Mr. Justice Cameron. Both of these learned Judges reported (in December, 1883) "that there was no reason to believe that corrupt practices extensively prevailed at said election." A candidate's sanction or consent to the payment of voters' travelling expenses was held by them, as a matter of law, to be sufficient to avoid an election; but such an act was not necessarily sufficient under the terms of the statute to disqualify Mr. Dowling for re-election. Where the evidence shews "the candidate to have honestly desired and in good faith endeavoured as far as he could, to have the election conducted according to law," the declared intention of the Legislature, by the Election Act of 1875, and R.S.O c. 10, s. 162, was, that he should not be subject to disqualification or any other disability, if the illegal act was done "without any corrupt intent, and in an ignorance which was involuntary and excusable." That Dr. Dowling occupied this position in regard to the sanction or consent which he gave, was the finding of one of the two Trial Judges; the other taking a different view.

By the 164th sec. of the Revised Statute, chap. 10, the rule in the case of other persons was made the same as in the case of candidates. No such person was to be subject to disabilities by reason of a merely technical breach of the law, or of any act not being an intentional violation of law, nor involving moral culpability, nor affecting the result of the election.

The following is the text of the 161st section of the same statute, as to the disqualification of a candidate:—

"When it is found by the report of the Judges upon an election petition that any corrupt practice has been committed, by or with the actual knowledge or consent of any candidate at an election, then (in addition to his election, if he has been elected, being void), he shall, during the eight years next after the date of his being so found guilty, be incapable of being elected to and of sitting in the Legislative Assembly, and of being

entered in any voters' list as a voter, and of voting at any election, and of holding any office at the nomination of the Crown or of the Lieutenant-Governor, in Ontario, or any municipal office."

This is a very severe punishment, proper (it may be assumed) where gross moral culpability is proved against a man to the satisfaction of the tribunal by which he is tried, but utterly inapplicable where moral culpability is not established.

The provisions quoted from the 162nd and 164th sections show, that under the Act of 1875 and the Revised Statute, the Legislature included in the expression "corrupt practices," two classes of illegal practice which were dealt with very differently. One class was of acts which were merely technical breaches of the law, and involved no moral culpability; acts which a candidate might do without any corrupt intent, and while he honestly desired, and in good faith endeavoured, to have the election conducted according to law. The other class was of illegal acts committed with corrupt intent and under circumstances of moral culpability. It was manifestly acts of the latter class only for which the disabilities mentioned in the 161st section were designed.

It may be observed here, that payment of the travelling expenses of voters is not in itself an offence against good morals; no one has ever pretended that it is; but it has in recent times been made illegal by statute, partly because undertaking to pay such charges increases largely the expenses of a candidate, and partly because the payment had been found by experience to be sometimes a cloak for bribery. In England by 21 & 22 Vic., chap. 87, sec. 1, it was expressly declared or made lawful to provide conveyance for voters for the purpose of polling, but not to pay any money *to* voters for or in respect of their travelling expenses. This continued to be law in England as respects counties until 1883 (46 & 47 Vic. chap. 51). In the Province of Canada the payment was made illegal by Provincial Statute, and subjected the offender to a penalty of $30; but the offence involved no disqualification or other disability. The penalty was increased to $100, by an Ontario Act passed in 1869; and it was not until 1873 that such a payment had the effect in this Province of disqualifying a candidate or subjecting him to other disabilities. The interpretation clause in the Ontario Election Act of that year (1873), gave a new and extended statutory meaning to the expression "corrupt practice," making any violation of certain specified sections of the previous Election Act a corrupt practice; and the section relating to voters' travelling expenses is one of these sections. Another is, that section of the former law which enacted that "no spirituous or fermented liquor or strong drink shall be sold or given at any hotel, tavern, shop or other place within the limits of a polling subdivision during the polling day therein, or any part thereof."

The object of thus for the first time declaring these offences to be "corrupt practices" was, to afford additional protection against the wilful, deliberate and culpable commission of such offences. No one probably has questioned or will question this. But in the election trials which grew out of the first general election after the Act of 1873, the Courts found it necessary to hold, as the technical effect of the new legislation, that it extended to cases which were not of that character. Thus, where a candidate or a candidate's agent innocently accepted from a voter a glass of beer on the polling-day

at an hotel or inn, the election was for that single act held void; and as a further effect of the decision, there was room for apprehending that a candidate would, for so trifling an offence committed in ignorance of its illegality, be subject to the same disabilities for eight years as if he had been guilty of an intentional and corrupt violation of the law. The case, too, occurred of a charge of corrupt practice against two candidates who had canvassed a voter together at the same time and in the same interest, one for the Dominion Parliament, one for the Ontario Legislature; both were elected, and both elections were petitioned against; the trials came on before different Judges of undoubted impartiality and ability; the evidence was the same; but the Judges reached opposite conclusions; and the result was, that while the one candidate was acquitted and retained his seat, the other candidate was condemned, lost his seat, and would have been disqualified for eight years if the Legislature had not interfered for his relief. These and other unexpected results having arisen to candidates and agents of both political parties, the Ontario Legislature in the first session of the new Parliament thought right to provide by Statute for relieving parties to some extent from the consequences of technical or trifling violations of law in past elections; for preventing like unjust and unintended consequences in future elections; and for requiring allegations of corrupt practice to be tried and adjudged upon by two Judges instead of one as theretofore.

The reasons for giving relief to a limited extent in respect to past elections were stated in the Act (39 Vict. c. 10, s. 49) to be that, "in case of candidates being charged with some illegal act, the law does not provide means of relieving them from penalties and disabilities where there are extenuating circumstances, or where circumstances come to light, or occur, after the trial, throwing doubt on the evidence against the candidate"; and "in view of the circumstances of the election trials which have taken place since the last general election, it is just and expedient that relief should be given to some extent to the candidates who have been charged with illegal acts."

The provisions for preventing like unjust and unintended consequences in future elections were chiefly those now constituting the 159th, 162nd and 164th secs. of R.S.O. c. 10, and the 32nd and 38th secs. of R.S.O. c. 11. By the last named section it is enacted that "allegations of corrupt practices against a candidate or his agents shall be tried by two of the judges on the rota, sitting together (hereinafter referred to as the Judges); and no candidate shall be unseated for corrupt practice, nor shall any person be declared guilty of a corrupt practice, except upon the decision of the two Judges jointly, or of the Court of Appeal."

It would have been introducing into the jurisprudence of Ontario a strange anomaly if, while thus laying down the rule that thereafter "allegations of corrupt practice against a candidate or his agents shall be tried by two judges," the Legislature had deliberately or intentionally excepted from this rule, the case of an act which when committed with corrupt intent or moral culpability, and then only, would involve the severe punishment and obloquy of eight years' disqualification as a candidate, and even voter, as well as other disabilities. Without reference to the mere legal considerations which have to govern the judicial construction of statutory enactments, no one could suppose that as a matter of fact the Legislature consciously and deliberately made an

exception of such a case. As a mere matter of reason apart from law, it would be preposterous to suppose that the Legislature intended to require a joint judicial decision as to the mere act, for example, of paying travelling expenses or consenting to their payment, and to dispense with a joint decision with respect to that corrupt intent which gives to such an act its moral guilt, and makes it reasonable and proper that the offender should be punished for it with eight years' civil disability.

Apart from the intent, the sanctioning of the payment in question was clearly "a merely technical breach of law," yet it required the concurrent judgment of the two judges in order to the election being set aside; such being the consequence of even a technical breach. But where there was corrupt intent or moral culpability, the Legislature thought fit that, in addition to the election being set aside, the candidate should be severely punished, and so should become for eight years incapable (1) of being elected to, or sitting in the Legislative Assembly, and (2) of being entered on any voters' list, or voting at any election, and (3) of holding any office, whether at the nomination of the Crown or of the Lieutenant-Governor, or any municipal office. Every one feels that in reason such a case is *a fortiori* one for the two judges; and so clearly is this the recognized spirit of the Election Acts, and so thoroughly is it the view of all parties in the Legislative Assembly, that not one voice to the contrary was raised when those parts of the election bill of last session were under consideration which provided in express terms with regard to future elections that a joint decision in such a case should be necessary.

That such was in fact the intention of the Legislature, no one can doubt; and the undersigned, in common with several lawyers of ability and experience, was of opinion that sufficient appeared on the statutes as a whole to enable the courts on solid judicial grounds to adopt a construction in accordance with the real intention. The undersigned finds, on reading the judgments of the learned judges who have dealt with the case, that their attention was not called to all the important considerations which the undersigned and others thought, and still think, material, and that amongst the omitted considerations are those on which the opinions of some of us were wholly based. The learned counsel for the respondent, in the exercise of their judgment, selected for presentation the points which they deemed sufficient to secure a favourable judgment; and but for their confidence in these points their arguments would, no doubt, have taken a wider range.

It appears from the judgments that the arguments so presented were in substance, that a joint report by the two trial judges was needed under the Election Acts; that as they had made separate reports these were invalid for any purpose; that if separate reports were sufficient, the two reports must be to the same effect; that the two reports in Dr. Dowling's case were not to the same effect; that they are not so expressed as required by the 161st section; and that by a declaratory section in the Act of last Session (47 Vic., ch. 4, s. 48) no past reports were to have the effect of disqualifying unless the two judges had expressly stated therein that the candidate was disqualified. The judges did not see their way to adopt these arguments; and in their several judgments they have stated with great force their reasons. With reference to the declaratory enactment, they point out that Trial Judges had never been required or authorized by

law to adjudicate with respect to the disqualification, the disqualification being the result of law; and that the Courts could not suppose the Legislature meant to enact that unless a report contained a specified finding which (it was well known) no report had ever contained, or was required to contain, a candidate however guilty should be exonerated from the disqualification which his misconduct had brought upon him. It seems from the judgments to have been assumed that, subject to the technical arguments as to the form of the reports, it was clear that by the Revised Statute, ch. 10, a candidate chargeable with any so called corrupt practice was intended to be subject to disability unless the two judges agreed that the act was free from corrupt intent or moral culpability; and that as for the declaratory enactment of last session, it could only be construed in the respondent's favour on the hypothesis that the Legislature meant to declare contrary to the fact, that by the existing law there was no disqualification where the judges' report had not purported to find disqualification. With great respect, the undersigned is of opinion that there was very much to be said against these propositions being assumed or held.

From the great pressure of judicial work, it is, generally speaking, impracticable for the Courts to do otherwise than confine their attention to the points which may be brought before them by able counsel, such as argued the case for Dr. Dowling; and experience has shewn that it is seldom this necessary practice leads to any miscarriage.

The view, however, taken by the undersigned and some of the other counsel who considered the matter, was that, looking at the statutes as a whole, the courts would hold the general intent of the Legislature to be apparent, that two judges should try and jointly decide all allegations of corrupt practice, without any exception; and it was thought that the "corrupt practice" by a candidate or voter which would subject him to eight years' disqualification would be held to be corrupt practice, not in the technical sense only, but where the act was accompanied by corrupt intent or moral culpability. The courts were expected to say, that the alleged exception formed such an anomaly that every possible presumption should judicially be made against it; that it was against all reason and probability to suppose the Legislature intended that so much of an act as did not involve corrupt intent or moral culpability was to be proved to the satisfaction of two judges, while so much of it as made the act a punishable crime need be proved to the satisfaction of one judge only; or to suppose that, contrary to what in criminal jurisprudence had been the just rule from time immemorial, the Legislature intended that in this case the benefit of the doubt,—and where two learned judges differ on the same evidence there must be serious doubt,—should be given against the accused, instead of being given in his favour; and that a candidate was to be condemned to punishment and disgrace, though the opinion of the one judge against him should be balanced by the opinion of the other in his favour. It was thought that such an alleged exception would be judicially regarded as so opposed to the whole spirit of British law as well as of the Election Acts themselves, that it would need for its admission statutory language incapable of any other construction; and that there was nothing in the Statute to compel imputing to the Legislature such a paradox as requiring the concurrence of the two Judges to what the statute calls a "technical breach of law," while rendering unnecessary the judgment of more than one

of the two to establish the corrupt intent which gives to the act a penal character and subjects the offender to eight years of disabilities. It was thought that such an imputed interpretation might well be treated, and would be treated, as being as absurd as it would be, in case of a charge of larceny, to require the concurrence of the whole jury as to the fact of the taking, and to dispense with it as to the intent of the taking; or, on a charge of murder, to require the concurrence of the whole jury as to the act of killing, but of half only as to the felonious intent of the act.

The sole argument for the exception is derived from the terms of the 161st and 162nd sections of the Election Act (R.S.O., c. 10). These sections are to be read together, and are to be construed in view of the considerations which the undersigned has mentioned. The settled principles of judicial interpretation not only permit, but require this to be done. The sections are as follows; the 161st being repeated here in order that the two may be read in juxta-position.

"161. When it is found by the report of the judges upon an election petition that any corrupt practice has been committed, by or with the actual knowledge or consent of any candidate at an election, then (in addition to his election, if he has been elected, being void), he shall, during the eight years next after the date of his being so found guilty, be incapable of being elected to and of sitting in the Legislative Assembly, and of being entered in any voters' list as a voter, and of voting at any election, and of holding any office at the nomination of the Crown or of the Lieutenant-Governor, in Ontario, or any municipal office."

"162. If it appears to the Court or the Judges trying an election petition, that an act constituting in law a corrupt practice was committed by a candidate, or with his knowledge and consent, but without any corrupt intent, and in an ignorance which was involuntary and excusable, and that the evidence showed the candidate to have honestly desired, and in good faith endeavoured as far as he could, to have the election conducted according to law, the candidate shall not be subject to the penalties and disabilities which he would but for this section incur under the next preceding section."

Do the terms of these two sections compel the admission of the alleged exception, notwithstanding all to the contrary which is suggested by reason and analogy, as well as by other statutory provisions? It was thought clearly not. It was further thought that the introductory words of the two sections shewed the Legislature was assuming the agreement of the two Judges as to the subject matter of both sections, the case of a disagreement with respect to the latter section only not being before the mind of the Legislature; and that the Courts might, and therefore would, so hold. It was thought that the 161st section was clearly qualified by the 162nd as to the character of the offence; and could not be read alone, as it left out the whole question of moral culpability on which it was evident that the disabilities were intended to depend; and that the Courts might and would so hold. It was thought that, in view of these considerations alone, it would be no stretch of judicial interpretation to hold that these sections do not apply except where there is agreement by the trial Judges as to the matters mentioned in both sections.

It was also thought that there was no legal difficulty in reading the expres

sion "corrupt practice" in the 161st section as meaning a practice "corrupt" not in the technical sense only, but in the sense of having been committed with corrupt intent and under circumstances of moral culpability. The authorities shew that the same word or expression when occurring repeatedly in a statute may be construed differently as used in different sections of the same statute.

If the letter of the statute in question here had made more difficulty than it seemed to do, the authorities are numerous which declare that the Courts are not to follow the letter of an enactment, where a construction according to the letter would involve some absurd, inconsistent, or incongruous consequence; and it seemed to the undersigned and his associates, that nothing would be thought more inconsistent or incongruous than the proposition, that one half of what the Legislature deemed necessary to constitute a disqualifying practice should be tried and adjudicated upon by two Judges, while the other half, involving the penalty, should require one only—and that a man should thus in effect be held guilty of a corrupt intent if one Judge thought he was guilty, even though the other Judge had come to an opposite conclusion.

There are other statutory provisions which seemed to confirm this way of construing the 161st section. Thus, the 164th section (which has been already referred to) provides, that any person other than a candidate found guilty of a corrupt practice shall be subject to the same disabilities as a candidate; and that "no person other than a candidate shall be subject to the disability (set forth in the preceding sub-section), first, by reason of a merely technical breach of the law; and second, by reason of any act not involving moral culpability or affecting the result of the election."

The words of the 162d section which have been construed as presuming a candidate's guilt unless acquitted by the concurrent decision of the judges, are absent in the corresponding branch of the 164th section; and in the absence of these words it is not conceivable that "persons other than candidates" would be presumed guilty unless acquitted by two judges concurrently. Yet it is impossible to believe that the Legislature meant to place a candidate on a different footing in this respect from one who was not a candidate; to subject the one to eight years' disabilities on the opinion of one Judge, and to let the other go free unless the judgment of the two is against him. This single analogy seemed to be conclusive.

Again, section 158, provides, that "where it is found upon the report of a Judge upon an election petition that any corrupt practice has been committed by any candidate, the election of such candidate shall be void." But since the passing of the Revised Act it has been invariably held and assumed that, notwithstanding the expression "*a* Judge," the concurrent judgment of two Judges is needed for the purposes of the section. The express words are in that respect disregarded on the authority of other parts of the statute; and it was thought that the converse case in the 162nd section would, on the general intent appearing from the rest of the statute, be dealt with in the same way.

Again, section 154 is the enactment which declares the payment of voters' travelling expenses to be illegal. It is taken from the Election Act of 1869, and does not call the payment "corrupt" as the preceding two sections in the Revised Statute call the acts which they forbade; and Mr. Justice Burton in his judgment observes of this enactment:

that it "is an ambiguously worded section declaring certain acts to be illegal acts and the party convicted only becomes aware of its being a corrupt act by groping among the interpretation clauses."

Again, the 58th section of R.S.O., cap. 11, provides that, "Where any charge is made in an election petition of any corrupt practice having been committed at the election to which the petition refers, the judges shall, in addition to such certificate (as to matters mentioned in a previous section, No. 55) and at the same time, report in writing to the Speaker as follows:— *(a)* Whether any corrupt practice has or has not been proved to have been committed by or with the knowledge and consent of any and which candidate at such election, and the nature of such corrupt practice." It is plain that what the Legislature contemplated by this section is a joint report, and the nature of that "corrupt practice" which this joint report is to state must certainly include the "corrupt intent" and other particulars mentioned in the 162nd section of R.S.O., chapter 10.

The first election having been held by the two judges to be void—a conclusion which the respondent did not expect to reverse—and Dr. Dowling being informed of the opinion of the undersigned and of other counsel as to the effect of the judges' differing with respect to the corrupt intent, there seemed nothing for him to appeal from to the Court of Appeal. Accordingly no appeal was taken, and a writ for a new election was issued. This new election took place on the 18th January, 1884, when Mr. Dowling was again returned, and this time (as has already been stated) by the increased majority of 335; and he again took his seat in the House of Assembly as member for South Renfrew.

In the course of the Session a bill was introduced on behalf of the Government "for the amendment of the Election Law, and for the better prevention of corrupt and illegal practices at elections to the Legislative Assembly." The bill as introduced had reference to future elections only. While it was in preparation the suggestion was made that, besides providing for future elections, the bill should contain a declaratory clause to prevent the possibility of the existing law being perverted, through any infelicity of its language, to the injury of constituencies. A possibility was suggested that even some unintentional irregularity on the part of the Returning Officer, with which the candidates had nothing to do and which had not in the slightest degree affected the result of the election, might be found as a matter of strict law to avoid the return, and to subject the constituency to the unnecessary and useless expense and trouble of a new election; and those who thought such an unjust and unintended result possible desired a declaratory enactment to prevent the wrong.

Others suggested a declaratory clause to make clear as matter of law—what was indubitably certain as matter of fact—that the Legislature did not mean to condemn a candidate to the penalties intended for moral culpability unless the two judges should agree as to the moral culpability. If there was room for a difference of opinion on the legal question, it was thought there could be no reasonable difference of opinion as to the justice of a declaratory enactment that on this important matter, as well as on all other questions of corrupt practice, the concurrent judgment of the two judges was needed. Under the criminal law the Crown has the power of pardoning offenders, and of mitigating punishment; and this power is

exercised as of course to prevent wrong or unnecessary hardship. But the only remedy under the Constitution in a case like the present is through the Legislature.

While the bill was before the House several alternative draft clauses were prepared which, if adopted, might secure the law being construed in dealing with recent elections as the Legislature had always intended and justice required; and ultimately, in deference to the wish of others, the undersigned, while not personally considering legislation necessary, drafted a clause which he thought preferable to those submitted. The clause so drafted by him corresponds very nearly with the clause which was added to the bill when in Committee, and now forms the 48th section of the Election Act of last Session It was well understood on both sides of the House, that this section was intended to declare in respect to past elections that the concurrence of the two judges as to the corrupt intent was necessary; but, curiously enough, as occasionally happens in all countries having an independent judiciary, the section, when afterwards subjected to judicial criticism, was held not to mean what it was supposed and intended to mean when the clause was prepared, introduced and passed.

A petition against Dr. Dowling's second return having been presented, the case came on for trial before Justices Burton and Galt, on the 20th August, 1884. The only question raised against him on this trial was that, as a matter of law, the judgment at the former trial had disqualified him for future election, notwithstanding the difference of opinion on that occasion between the two judges who tried the case. The two judges who presided at the second trial, and afterwards a majority of the Appeal judges, adjudged this point against the respondent.

The declaratory enactment, section 48, is in these words:

"To remove doubts, it is hereby declared that it *has been and is*, the policy of the election law, and the intention and meaning of the several statutes in that behalf

"That no election was or is void for any irregularity on the part of the returning officer, unless it appears to the tribunal having cognizance of the question that the irregularity affected the result of the election,

"And that no candidate or other person is disqualified or subject to any disability or penalty for any corrupt practice or alleged corrupt practice, without the concurrent judgment to that effect of the two judges by whom the election petition is tried;

"That this applies to section 162 of the *Election Act*, and the conditions and circumstances therein mentioned, as well as to other matters on which corrupt practices or the consequences thereof in any way depend;

"And that, in case of an election being set aside and a new election had, to the same Legislative Assembly or otherwise, the new election cannot be avoided by setting up corrupt acts or practices by the candidate in or during the former election, or affecting the same, which were not set up and proved at the former trial, and so adjudged by the two judges at the former trial, or by the court of appeal before the subsequent election, as by law to involve such disqualification, disability or penalty."

It is manifest that the introductory words dominate the whole section. "To remove doubts it is hereby declared that it *has been and is* the policy of the Election Law, and

the intention and meaning of the several statutes in that behalf that," etc. The Legislature thus declared that, on the points embraced in the section, there is no difference in what had theretofore been and what is still the policy of the Election Law, and no difference in what had theretofore been and what is still the intention and meaning of the several statutes in that behalf. Now the present policy of the Election law in regard to the particular question here appears plainly from several parts of this statute. Thus section 10 provides that "(1) In case of a trial before two Judges, every certificate and every report sent to the Speaker shall be under the hands of both Judges."

"(5) If the Judges differ as to any matter on which under sections 159 and 162 of the *Election Act*, or otherwise, any disqualification, disability or liability to a penalty depends, they shall certify such difference, and the candidate shall not be disqualified or subject to a disability or penalty."

The same thing appears with equal clearness from the 28th, 29th and 33rd sections of the same Act. On this point, therefore, there cannot be and is not any possible difference of opinion.

Such then being clearly the present law, the 48th section declares that what on this point the law is now, it has always been: "No candidate or other person is disqualified or subject to any disability or penalty for any corrupt practice or alleged corrupt practice without the concurrent judgment to that effect of the two judges by whom the election petition is tried, to that effect," namely, a concurrent judgment to the effect of disqualifying, or which shall have the effect of disqualifying. That is the obvious meaning. The same thing is more fully expressed in the language used at the end of the section, where the corrupt acts or practices therein mentioned are, for the purposes of that part of the section, stated to be those which have been so adjudged by the two judges at the former trial "as by law to involve such disqualification, disability or penalty."

After providing that no candidate or other person shall be disqualified without a concurrent judgment to that effect, of the two judges, the section proceeds to declare "that this applies to section 162 of the Election Act;" but the enactment does not stop with the mention of that section, a reference which might have been equivocal. It expressly declares that concurrent judgment is to be held necessary to "the conditions and circumstances therein mentioned, as well as to the other matters on which corrupt practices, or consequences thereof in any way depend." And, undeniably, these circumstances or conditions are, as to whether a technically "corrupt" act was committed "without any corrupt intent, and in an ignorance which was involuntary and excusable;" and as to whether "the evidence showed the candidate to have honestly desired, and in good faith endeavoured as far as he could to have the election conducted according to law." The adverse construction is, that the Legislature must be assumed to be declaring necessary the concurrent judgment of the two judges, in order to establish a charge of corrupt practice of some kind, and that (on the other hand) they must concur as to absence of corrupt intent in order to free a candidate from the personal disabilities intended for a practice committed with corrupt intent. That construction, it humbly seems to the undersigned, is going by the letter in opposition to the obvious spirit and intention of the enactment; and it is [illegible] the

section as meaning the opposite of what it was passed to accomplish, and as confirming the construction which its purpose was to prevent. It is plain from the whole section that the purpose of the Legislature was to relieve a candidate and not to make more certain his condemnation.

Further, this construction could not be the meaning intended, for there never was a doubt, nor could there be, that under section 161 the two judges must agree that there had been a "corrupt practice" of some kind in order to subject a candidate to disqualification. The doubt, the only possible doubt, was as to whether the two had to agree as to the act having been done with corrupt intent.

These considerations are not discussed in any of the judgments; and for the reason already suggested.

The result was, that the two judges at the first trial not having concurred in declaring Dr. Dowling innocent of corrupt intent, he was held to have been guilty, and therefore (under the 161st section) disqualified at the second election; and the election was declared void. There being no appeal from the Ontario Courts in Provincial election cases, a writ for a third election had to be issued.

Whether his alleged disqualification would, without further legislation, apply to a future election has not been decided. Mr. Justice Galt, a judge of much judicial experience, holds that the effect of the Act of last session was, in his judgment, to relieve Dr. Dowling from disqualification after the passing of the Act. Mr. Justice Osler thinks otherwise. The other judges have expressed no opinion either way.

In regard to a future election, if the question should again come before the Court of Appeal on a petition against Dr. Dowling's third return, or otherwise, it would be competent for the Court of Appeal, on consideration of new arguments, to decline to follow its former judgment; but such a course is unusual and could not be relied on. The court might well say that the Legislature had an opportunity by a new enactment to place their meaning beyond judicial controversy, and should have done so, instead of the court being asked to reconsider and reverse the judgment which had been pronounced.

That, contrary to the intention of the Legislature, Dr. Dowling should be disqualified for an act of the kind in question, on the opinion of a single judge against the opinion of the other, or that there should be any doubt on the subject, is a wrong to him and to his constituents; and he and they appear to be entitled, in justice and fair dealing, to ask that the wrong be remedied by legislative action as the only way practicable under the Constitution. Acts similar in principle are already in our statute book; and many more are to be found in the statute law of Great Britain. In the Dominion Parliament an Act was recently passed to relieve Sir Charles Tupper, a member of the House of Commons, from disqualification and other penalties, though he was a member of the Government, and though the proceeding was justly objected to as a violation of the Independence of Parliament Act. Even apart from that formidable objection to the relief granted by that Act, the present case affords much stronger reasons than did that of the Dominion Minister for legislative interference. In his case if the apprehended technical effect of the Act to be amended was (as was said) contrary to the intention and spirit of the Act, the only hardship resulting to the Minister would have been a new election. In Dr.

Dowling's case the hardship is, not merely a new election, but eight years' continued disqualification to be elected or to vote or to hold any Government appointment or municipal office.

Under all the circumstances, the undersigned recommends that, whether Dr. Dowling shall be re-elected or not, the Government do submit to the Legislature at the approaching session a bill effectuating beyond the possibility of further dispute the intention of the Legislature, relieving Dr. Dowling from disability in respect of the act as to which his judges differed, and making it certain that he or his constituents will not again have to contest before the courts the question of his disqualification.

O. MOWAT.

17th January, 1885.

Memo.—Dr. Dowling was again elected 27th January, and by the increased majority of 705.

---

2. CERTIFICATE OF MR. JUSTICE CAMERON, ONE OF THE JUDGES AT THE TRIAL, 10TH JULY, 1883.

In the Matter of the South Riding of the County of Renfrew Election Petition.

I, the Honorable Matthew Crooks Cameron, one of the Justices of the High Court of Justice, and on the rota for the trial of election petitions, hereby certify, in pursuance of the Controverted Elections Act, that on the tenth day of July, 1883, the Honorable John Alexander Boyd, Chancellor of the Province of Ontario, and also one of the judges on the rota for the trial of election petitions, together with myself, opened a court at the Village of Renfrew, in the County of Renfrew, for the trial of the petition of John Harvey against the return of John Francis Dowling, as member of the Legislative Assembly of the Province of Ontario, for the said South Riding of the County of Renfrew. After various adjournments we, the said judges, delivered our judgments thereon on the nineteenth day of November, 1883.

And, in pursuance of the said Act, I certify that, although we, the said judges, differed in our judgments, as hereinafter set forth, we both agreed that the said election should be avoided with costs, to be paid by the said John Francis Dowling.

And, in further pursuance of the said Act, I certify that we, the said judges, differed in our judgments as to whether the said John Francis Dowling was guilty of a corrupt practice, under section 161 of the Election Act, in paying, or consenting to the payment of, the travelling expenses of certain voters to convey them to the poll; and I the said Matthew Crooks Cameron, for myself, certify that the said John Francis Dowling was proved guilty of the said corrupt practice.

And, in further pursuance of the said Controverted Elections Act, I certify that we, the said judges, differed in our judgments as to whether the said John Francis Dowling had been guilty of a corrupt practice in offering as a bribe the office of License Inspector to one John Hickey; and I, the said Matthew Crooks Cameron, for myself, certify that the said John Francis Dowling was proved guilty of the said corrupt practice.

And I further certify that we, the said judges, agreed that there was no reason to believe that corrupt practices extensively prevailed at said election.

And I further certify that we, the said judges, agreed that John Foley was proved guilty of corrupt practices.

In witness whereof I have hereunto set my hand the twenty third day of December, 1883.

M. C. CAMERON,
Justice.

To Chas. T. Gillmor, Esquire,
Clerk of the Legislative Assembly, Toronto.

3. CERTIFICATE OF THE CHANCELLOR, ONE OF THE JUDGES AT THE TRIAL, 10TH JULY, 1883.

In the Matter of the South Riding of the County of Renfrew Election Petition.

I, the Honorable John Alexander Boyd, Chancellor of the Province of Ontario, and one of the judges on the rota for the trial of election petitions, hereby certify, in pursuance of the Controverted Elections Act, that with the Honorable Matthew Crooks Cameron, also one of the judges on the rota for the trial of election petitions, I opened a court for the trial of the petition of John Harvey against the return of John Francis Dowling, as member of the Legislative Assembly for the Province of Ontario, for the said South Riding of the County of Renfrew, at the election held on the twentieth and twenty-seventh day of February, 1883, on the 10th day of July, 1883, at the Village of Renfrew, in the County of Renfrew.

After various adjournments of the said trial, we, the said judges, delivered judgment therein on the nineteenth day of November, 1883.

And, in further pursuance of the said Act, I certify that we, the said judges, differed in our judgments as hereafter set forth, although we both agreed that the said election should be avoided with costs to be paid by the said John Francis Dowling.

And, in further pursuance of the said Act, I certify that we, the said judges, differed in our judgment as to whether the said candidate, the Respondent, was guilty of a corrupt practice under section 161 of the Election Act; and I, the said John Alexander Boyd, for myself, certify that the said respondent committed an illegal act under section 154, in sanctioning the payment of voters' travelling expenses at such election, but without any corrupt intent, and in ignorance which was involuntary and excusable under a belief that, so long as he did not personally bear or pay the said expenses, it was not illegal; and under the further belief that the said voters were bound or were willing to repay the said expenses, or allow them to be deducted from their wages.

And I further certify that the evidence showed the candidate to have honestly desired, and in good faith endeavoured as far as he could, to have the said election conducted according to law.

And I further certify that we, the said judges, differed in our judgments, as to whether the said candidate, John Francis Dowling, had been guilty of a corrupt practice in offering a bribe to one Hickey; but I, for my part, do not find the said charge to be proved.

And I further certify that we, the said judges, both agreed that there was no reason to believe that corrupt practices extensively prevailed at said election.

And I further certify that we, the said judges, both agreed that John Foley was proved guilty of corrupt practices.

In witness whereof I have herewith set my hand the twenty-ninth day of December, 1883.

J. A. BOYD, *C.*

To Charles T. Gillmor, Esquire,
Clerk of the Legislative Assembly, Toronto.

---

4. JUDGMENT OF MR. JUSTICE BURTON, ONE OF THE TRIAL JUDGES AT THE SECOND TRIAL, 13TH SEPTEMBER, 1884.

Burton, J.—All the other charges of corrupt practices were abandoned at the hearing with the exception of one charging a violation by the respondent of sec. 154 of the Election Act, alleged to have been so found by the Judges who avoided the previous election of the respondent.

As to this it was urged by the petitioner that, as the respondent had been found guilty of a corrupt practice by a report in which both the judges concurred, he was *ipso facto* disqualified. And as only one of them was of opinion that the case was brought within sec. 162, so as to relieve him of the penalties and disabilities which attached to

their finding under sec. 161, he was at the time of the last election incapable of being elected to the Legislative Assembly, and must, unless relieved by the recent legislation, be held to have been disqualified, and the election must consequently be avoided.

Mr. Bethune, on the part of the respondent, contended that the intention of the Legislature was that there should be but one joint report: that it was one judicial act in which there can be no disagreement, and although, perhaps, he could not go so far as to contend that the report must be upon one piece of paper, still the reports must be in *ipsissima verba* or at least the same in substance, and he referred us to a case of *Grant v. The Overseers of Pagham*, 3 C.P.D. 80, and intimated that the learned Chancellor had, upon the authority of that case, designedly altered the wording of the report when presented to him, in order, if possible, to prevent the serious consequences of finding the candidate personally guilty of a corrupt practice where the act was committed without any corrupt intent, and under the belief that it was not illegal.

I think that case is clearly distinguishable from the present. By the law under which that case was decided it was provided, almost in the words of our own statute, that the judges should determine whether the member whose election or return is complained of, or any and what other person, was duly returned or elected, or whether such election was void, and should forthwith certify in writing such determination to the Speaker; and where corrupt practices are charged he is also, in addition to such certificate, and at the same time, to report in writing whether any corrupt practice was, or was not, proved to have been committed with the knowledge and consent of any, and which, candidate at such election, and the nature of such corrupt practice.

So far our own and the English Act are alike, but we now come to a very material divergence. Our Act provides that where it is found by the report of the judges that any corrupt practice has been committed by, or with the actual knowledge or consent of, any candidate at an election, in addition to his election being void he shall be disqualified.

The English Act is very different. It is, "Where it is found by the report of the judges that bribery has been committed by, or with the knowledge and consent of, any candidate at an election, such candidate shall be deemed to have been personally guilty of bribery, and his election shall be void, and he shall be incapable of being elected to Parliament during a period of seven years."

The learned Judge in that case did not report that the candidate had been guilty of bribery, nor did he report that a corrupt practice had been committed with the knowledge and consent of the candidate, but merely that he was guilty of a corrupt practice within the true intent and meaning of the "Corrupt Practices Act of 1854." The words used in the report did not necessarily imply personal bribery or bribery by his agents with his knowledge and consent. There is great good sense in the remarks of Mr. Justice Grove, that where you have to construe a penal Act you ought to see that the offence, in respect of which you are to bring home the penalty against the person alleged to have incurred it, is proved to come clearly within that which the Act contemplates as being the offence.

The learned judges there held that upon the face of the report it was consistent with it that the candidate was guilty of a corrupt practice, but not guilty of a corrupt practice personally or committed with his own knowledge and consent: and the Judge not having in his report, in terms either express or which were equivalent to express language, found that bribery had been committed, they could not hold the party disqualified, Mr. Justice Lindley remarking, "Although I think no particular words necessary, still the report to disqualify must, I think, be so clear and precise as to admit of no doubt or difference of opinion as to its meaning or legal effect." But how is it in the present case. Neither of the learned judges are strictly accurate in their reference to the sec. 161. The Chief Justice of the Common Pleas finds that the respondent was guilty of a corrupt practice, under sec. 161, in paying or consenting to the payment of the travelling expenses of certain voters to convey them to the polls. Sec. 161 does not, in fact, create any offence. What the learned Judge meant evidently to refer to was violation of sec. 154, but no reference is made in his report to that section. The learned Chancellor certifies that the judges differed in their judgment as to whether he was guilty of a corrupt practice under sec. 161 of the Election Act, which, as I have already pointed out, does not refer to any corrupt practice of which the judges can adjudge the party guilty, but simply provides

that when it is found by the report of the judges upon an election petition that any corrupt practice has been committed by or with the actual knowledge and consent of any candidate disqualification shall follow; but he proceeds, "And I further certify that the said respondent committed an illegal act, under sec. 154 in sanctioning the payment of voters' travelling expenses at such election," adding, "but without any corrupt intent, and in ignorance which was involuntary and excusable, under a belief that so long as he did not personally bear or pay the said expenses it was not illegal, and under the further belief that the said voters were bound or were willing to repay the said expenses, or allow them to be deducted from their wages." And then he adds a certificate of the further fact necessary to relieve the candidate of the disabilities incurred on being proved guilty personally of a corrupt practice, viz., that he had honestly desired and in good faith endeavored to have the election conducted according to law.

In the light of what was mentioned by Mr. Bethune, as to the alteration of the report by the Chancellor, we perhaps may assume that what the learned judges intended to convey was that they differed as to the effect of sec. 161 upon their report.

The report itself is required by sec. 58 of the "Controverted Elections Act," and points out what the judges are called upon to report. The learned Chancellor says in effect: "I hesitate to stigmatize as a corrupt practice an act done under the circumstances stated in my report. I therefore report the facts with the extenuating circumstances; if in law that does constitute a corrupt practice, be it so, but I desire the respondent to have the benefit of any doubt upon the point, as I cannot bring myself to stigmatize it as a corrupt practice; and that, as I understand it, was the effect of Mr. Bethune's contention that the judges have not concurred in finding a corrupt practice in so many words—and that being so disqualification did not follow; but still I think we are bound to enquire, although the reports are not in the precise words of the Act of Parliament, whether they do contain words which unambiguously and necessarily involve a joint finding of the judges of an act by the respondent which in law constitutes a corrupt practice. Mr. Justice Cameron, as I have already pointed out, makes no reference to sec. 154, but he does find expressly that the respondent was proved guilty of a corrupt practice, to wit: in paying or consenting to the payment of the travelling expenses of certain voters to convey them to the poll. The section in question provides *inter alia* that the payment by any candidate or by any person on his behalf of the travelling and other expenses of any voter in going to or returning from the election shall be illegal acts, and under the interpretation clause any violation of this section is declared to be a corrupt practice. If, therefore, both the judges had signed this report, even without the express declaration to be found that he was guilty of a corrupt practice, I think it clear that, as a consequence, the respondent would have been disqualified. The learned Chancellar, whilst declaring that he differs from the Chief Justice in finding the respondent guilty of a corrupt practice under sec. 161, does find that he committed an illegal act under sec. 154 in sanctioning the payment of voters' travelling expenses at such election. It is therefore found by both reports that an illegal act was committed—and with the knowledge and consent of the respondent. They are both referring to the same act, and they both agree as to its illegality—that illegal act was the payment or sanctioning the payment of expenses prohibited by sec. 154, and was therefore without any corrupt intent a corrupt practice in law; and, being found to have been committed with the knowledge and consent of the respondent, he necessarily became in my opinion disqualified under sec. 161, and could not be relieved from such disqualification unless the judges concurred in relieving him under sec. 162.

I can scarcely conceive a stronger case for applying that section upon the facts found by the Chancellor. Here is an ambiguously worded section declaring certain acts to be illegal acts, and the party affected only becomes aware of its being a corrupt act by groping among the interpretation clauses. He is found to have honestly desired and endeavoured in good faith to have the election conducted according to law, and under the belief that the payments were merely advances to the men on account of their wages. It is quite possible that a *bona fide* advance of the men's wages, even though it were known that the money was to be used in paying their travelling expenses, would not come within the Act, and it is fair to assume that if that had been established the learned Chancellor

would not have found an illegal act committed. But that was not apparently shewn, and I think it clear that if I am correct in holding that the act itself is found by the two judges, both holding it to be illegal, it was absolutely necessary to get their joint concurrence before the respondent could invoke the relief afforded under section 162. I am of opinion therefore that when the respondent offered himself for re-election he was disqualified, and that the present election must be set aside unless it has been validated by recent legislation; that legislation is to be found in section 48 of the Act of last session. I must confess that the meaning of the section is not so clear as one would expect to find it in an Act for which a retrospective operation is claimed. It reads thus: "To remove doubts it is hereby declared that it has been and is the policy of the Election Law, and the intention and meaning of the several statutes in that behalf that no election was or is void for any irregularity on the part of the returning officer, unless it appears to the tribunal having cognizance of the question that the irregularity affected the result of the election." It is not necessary to say whether this effects any change in the law, but there is no doubt that the language embraces past as well as future elections. It then proceeds: "And that no candidate or other person is disqualified or subject to any disability or penalty for any corrupt practice or alleged corrupt practice without the concurrent judgment to that effect of the two judges by whom the election petition is tried."

I find it very difficult indeed to place a construction upon this portion of the section. It is quite clear that under the election law, as it stood previously, the judges had nothing to do with adjudging a party disqualified, all that they did or could do was to find whether the party charged was or was not guilty of a corrupt practice; if the judges united in finding him guilty of a corrupt practice the disqualification followed as a legal consequence. The section must—except upon the hypothesis I shall presently refer to—have been penned by some one who was unaware of the existing state of the law, and supposed that the power to declare a person disqualified or subject to a penalty rested with the judges, whereas the law merely enabled the judges, in the event of disqualification, if certain facts were established to their satisfaction, to relieve the parties from the disabilities and penalties which the law had imposed. There is one possible case to which it might apply, namely, if a party had been guilty of a corrupt practice before the passing of the Act of Parliament, but the trial of the petition in which it was alleged did not come off till after its passage. I incline to think that in such case it would have been necessary under this Act for the judges to find not only that the corrupt practice had been committed with the knowledge and consent of the candidate, but that they should also find, contrary to the previous law, that the party charged with the corrupt practice was disqualified or subject to disability or penalty. That does not apply to the present case, where the respondent was not only charged with the corrupt practice, but had been adjudged guilty of it before the passing of the Act, when it would have been *ultra vires* for them to ajudge him disqualified or subject to penalty. I feel even more difficulty in placing any intelligible meaning on the passage immediately following that I have quoted, which reads thus: "That this applies to section 162 of the Election Act, and the conditions and circumstances therein mentioned, as well as to other matters on which corrupt practices, or the consequences thereof in any way depend." What is meant by the words, "that this applies!" Section 162 enables the judges, as I have said, under certain conditions and circumstances, to relieve the party charged from the disabilities and penalities he has incurred: if it is meant that in granting such relief there must be the concurrent judgment of the judges, that, as I understand it, always has been the law

The remaining portion of the section is clearly prospective, but were it otherwise it would not, in my opinion, assist the respondent, inasmuch as the practices relied on at the former election, as corrupt practices, were set up and proved at the former trial, and so adjudged as by law to involve disqualification, although the judges did not concur in relieving the respondent from the consequences. I think we are therefore compelled to hold the election void and to set it aside with costs. Upon the question of awarding the seat to his opponent, I think this is not a case, even if notice of the respondent's disqualification were brought home to the voters much more clearly than it has been, in which we could give effect to it. I adopt the language of the Clitheroe Committee which was cited with approval by Lord Coleridge in the *Launceston case*, that to give effect to

the notice "the disqualification must be founded on some positive and definite fact existing and established at the time of the polling, so as to lead to the fair inference of wilful perverseness on the part of the electors voting for the disqualified person."

The effect of our decision is that the respondent was disqualified and incapacitated from being a candidate. There is, I suppose, no doubt that if the voter has knowledge of certain facts and they by law render the candidate incapable of being elected, then if the voter with such knowledge chooses to vote for the candidate he throws away his vote, and it is the same as if he had not voted. It would be no answer in such a case to say that he was ignorant of the law. So also probably where notice is given of facts such as would put a person of ordinary care and intelligence on enquiry, and if he exercised ordinary diligence and intelligence on such enquiry it would lead him to the conclusion that the facts did exist which would in law incapacitate the candidate, then he cannot absolve himself by asserting want of knowledge, either of the facts or the law, but it would be pushing such a doctrine to an extreme length to apply it to a case like the present, where the disqualification depended upon a question upon which the judges deciding the facts were in doubt, and three eminent counsel had given an opinion adverse to the view that the respondent was disqualified, but I am relieved from deciding the question on that ground, as although I find that the notice was very generally circulated in certain localities, it still leaves a doubt upon my mind—a doubt which under the ballot system it may be impossible to solve—to what extent that knowledge was brought home to the voters.

I am therefore of opinion that we cannot award the seat to the other candidate, but must confine ourselves to declaring the election void: that no corrupt practices at this election were proved; and that there is no reason to believe that corrupt practices have extensively prevailed at the election to which the petition relates.

---

5. JUDGMENT OF MR. JUSTICE GALT, ONE OF THE TRIAL JUDGES AT THE SECOND TRIAL, 13TH SEPTEMBER, 1884.

GALT, J.—The petitioner in this case is an elector and prays that the return of the respondent may be set aside and that Patrick Devine may be declared entitled to the seat, on the ground the respondent was personally disqualified as a candidate, and in consequence the votes given for him were virtually thrown away. The petition also charges corrupt practices at the election, but nothing was said at the trial which took place before Burton, J.A., and myself, at Renfrew, on this branch of the case, and no evidence was given, so no reference need be made to it.

It was proved or admitted that an election for the county was held on 20th and 27th days of February, 1883, at which the said John Francis Dowling, and the said Patrick Devine, were candidates, and that the returning officer returned the said John Francis Dowling as duly elected. It was also proved and admitted that a petition was presented, complaining that the said John Francis Dowling had by himself and his agents been guilty of corrupt practices at such election. The case was tried before Boyd, Chancellor, and Cameron, J., now Chief Justice of the Common Pleas. The said learned judges declared the election void and a new election was directed to be held. The election (which is the subject of this trial) took place on the 11th and 18th days of January, 1884. At the nomination a protest in the following terms was handed to the returning officer:—

"To Andrew Irving, Esquire, Returning Officer appointed to hold an election for the return of a member to represent the Electoral District of the South Riding of the County of Renfrew in the Legislative Assembly of the Province of Ontario, and to the electors of the said electoral division.

"I, Patrick Devine, of the Village of Renfrew, in the County of Renfrew, merchant, duly nominated as a candidate at said election for the representation of the said riding in

the said Assembly, do hereby give you, and each and every of you, notice that John Francis Dowling, of Eganville, in the said county, physician, who has been proposed on this the 11th day of January, 1884, the nomination day, as a candidate at the said election, and who claims to be a candidate, and seeks to be elected at this election to represent the said Riding in the said Assembly, is not duly qualified to be a candidate at the said election; that by the judgments of Chancellor Boyd and Mr. Justice Cameron, rendered in a certain election petition, filed in the Court of Appeal for Ontario under the 'Controverted Elections Act of Ontario,' wherein John Harvey was and is the petitioner, and the said John Francis Dowling was and is the respondent, the said John Francis Dowling was found guilty of corrupt practices within the meaning of 'The Election Act of Ontario,' and his election was set aside, and he, the said John Francis Dowling, thereby became and was and is disqualified from being a candidate at this election, and is incapable of being elected to, and sitting in, the said Assembly. And I hereby notify you, the said Returning Officer, that I am the only duly qualified candidate nominated at this election, and that I should be declared elected by acclamation, and I give you and the electors of the said Riding notice of the above facts; and I further notify you, the said electors, not to cast a vote or mark a ballot at this election for the said John Francis Dowling, as all such votes or ballots shall be lost, thrown away, and null and void.

"That I do and shall claim to be duly elected at this election to the said Assembly, as being the only duly qualified candidate nominated and standing for said election.

"And we, the undersigned electors of the said Riding, do hereby also notify you, the said Returning Officer and electors of the said Riding, of the above facts, and claim that the said Patrick Devine should be declared elected at this election, as being the only qualified candidate nominated and standing.

"Dated at Renfrew, this 11th day of January, A.D. 1884.

"PATRICK DEVINE, Candidate.
"J. A. MACDONALD, Elector.
"A. J. MORROW, Elector.
"P. McRAE, Elector.

Notwithstanding this protest, the voting was proceeded with, and the returning officer declared the respondent duly elected. This petition was then filed. The case was very ably argued by Creelman, for the petitioner, and Bethune, Q.C., for the respondent. The learned judges, before whom the first election was tried, although they agreed as to avoiding the election, differed in their finding as to the conduct of the respondent in this. Cameron, J., found as follows:—"And in further pursuance of the said Act, I certify that we, the said judges, differed in our judgments as to whether the said John Francis Dowling was guilty of a corrupt practice under sec. 161 of the Election Act, in paying, or consenting to the payment of, the travelling expenses of certain voters to convey them to the poll, and I, the said Matthew Crooks Cameron, for myself, certify that the said John Francis Dowling was proved guilty of the said corrupt practice." The learned Chancellor reported:—"And in further pursuance of the said Act, I certify that we, the said judges, differed in our judgment as to whether the said candidate, the respondent, was guilty of a corrupt practice under section 161 of the Election Act, and I, the said John Alexander Boyd, for myself, certify that the said respondent committed an illegal act under sec. 154 in sanctioning the payment of voters' travelling expenses at such election, but without any corrupt intent, and in ignorance, which was involuntary and excusable, under a belief that so long as he did not personally bear or pay the said expenses, it was not illegal, and under the further belief that the said voters were bound or were willing to repay the said expenses, or allow them to be deducted from their wages." There is some verbal inaccuracy in the reference to sec. 161 by both the learned judges, and that what is intended is not whether the respondent was guilty of a corrupt practice under sec. 161, but whether the act, of which both the learned judges found him guilty, would subject him to the penalties enacted by sec. 161, for sec. 161 itself contains no

mention of any corrupt practices; it is as follows: "When it is found by the report of the judges upon an election petition that any corrupt practice has been committed by, or with the actual knowledge or consent of, any candidate at an election, and that the next section does not apply, then, in addition to his election, if he has been elected, being void, he shall, during the eight years next after the date of his being so found guilty, be incapable of being elected to, and of sitting in, the Legislative Assembly." The corrupt practice found by Cameron J., and the illegal act under sec. 154, found by the Chancellor, were one and the same, namely, the payment of voters' travelling expenses. By sec. 154 such an act is declared to be an "illegal act;" it is not in terms declared to be a "corrupt act," but by Controverted Election, Act, sec. 2, sub-sec. 6, any violation of sec. 154 is declared to be a "corrupt act;" it, therefore, follows, as it appears to me, that when the learned Chancellor found that the respondent "committed an illegal act under sec. 154, in sanctioning the payment of voters' travelling expenses at such election but without any corrupt intent," he must be held to have found him guilty of a "corrupt act." An illegal act would not necessarily avoid the election, but a "corrupt act" would, and both the learned judges concurred in holding that the election was void. By sec. 38 of chap. 11, R.S.O., "Allegations of corrupt practices against a candidate or his agent shall be tried by two of the judges on the rota sitting together, and no candidate shall be unseated for corrupt practice, nor shall any person be declared guilty of a corrupt practice except upon the decision of the two judges jointly, or of the Court of Appeal." By the foregoing it is expressly enacted that before a candidate can be unseated or be declared guilty of a corrupt practice, the judges must concur; in the present case there was one act in question before the learned judges on which they did concur in unseating the candidate for his own act, and must, therefore, necessarily have concurred in finding him guilty of a corrupt practice; the latter part of the section has reference to persons other than the candidate, although it clearly includes him also. Reference has been made to sec. 162, which, at the time when the first trial took place (it has since been amended) was as follows:—"If it appears to the Court or the judges trying an election petition that an act constituting in law a corrupt practice was committed by a candidate, or with his knowledge and consent, but without any corrupt intent, and in an ignorance which was involuntary and excusable, and that the evidence showed the candidate to have honestly desired, and in good faith endeavoured as far as he could, to have the election conducted according to law, the candidate shall not be subject to the penalties and disabilities which he would but for this section incur under the next preceding section." This has since been amended, and in my opinion very properly, and if either of the judges now entertains the opinion of the good faith of the candidate he shall be excused, but it was not so when the trial now in question took place; it was at that time necessary the judges should agree. It is plain from the finding of the learned Chancellor he thought the respondent entitled to be relieved under the 162nd sec., because he has reported in the very words of the statute, but it necessarily follows he must have thought that but for this section he was liable to the penalty mentioned in sec. 161, or it would have been unnecessary to frame his report as he did, and this also accounts for the difference of opinion of the learned judges as to whether the respondent was "guilty of a corrupt practice under sec. 161," that is to say, not as to whether he had been guilty of a corrupt practice, but whether, having been so, he was liable to the penalty therein enacted. It was also contended by Mr. Bethune that under the terms of the statute, before a person could be disqualified, there must be a report of the two judges, not a separate report by each. By the Interpretation Act, sec. 8, sub-sec. 23, words importing the singular number or the masculine gender only shall include more persons, parties, or things of the same kind than one. I can see no reason whatever why a different meaning should be attached to the word "report" in this case than would generally be given to it, nor why, when the term "report of the judges" is used, it must necessarily follow that only one report can be made in place of each of the learned judges making a separate report. It is true that before a disqualification can take place and a member be unseated, the judges must agree in their conclusion. In the present case the learned judges agreed that the election was void, but they disagreed as to the conduct of the candidate entitling him to relief under sec. 162, the result of which was that the disqualification under sec. 162 existed. If Mr. Bethune's argument is correct, it was

quite unnecessary to pass the amending Act. It appears to me, however, to be entirely contrary to the then existing law, which I understand to be that both judges should concur before a person should be found guilty of a corrupt practice, and that both judges should concur before a candidate was relieved under the 162nd sec., and if there was a difference of opinion on the latter question the disqualification continued, which was what took place in the present case. In my opinion the respondent was, at the time of the second election, "incapable of being elected," and therefore that the election was void.

It was also urged by Mr. Bethune that by an Act passed on 25th March, 1884, the respondent was relieved from the disqualification under which he laboured, if he was disqualified, that the Act was retrospective, and therefore that, although the election had taken place before the passing of the Act, he was then capable of being a candidate. As this is a matter of great public importance I will set out the section bearing on it at length. I shall however, divide it into several parts. Sec. 48:—

"To remove doubts it is hereby declared that it has been and is the policy of the election law and the intention and meaning of the several statutes in that behalf, that no election was or is void for any irregularity on the part of the returning officer, unless it appears to the tribunal having cognizance of the question that the irregularity affected the result of the election."

There is no doubt that the foregoing is retrospective and declares what the law was and is. It then proceeds:—

"And that no candidate or other person is disqualified or subject to any disability or penalty for any corrupt practice or alleged corrupt practice without the concurrent judgment to that effect of the two judges by whom the election petition is tried."

This alters the law, because by sec. 38, of chap. 11 of R.S.O., the Court of Appeal had the power to declare a candidate guilty of a corrupt practice, and the operation of this clause would appear to have withdrawn that power, and now nothing but the concurrent judgment of the two judges by whom the election petition is tried will work a disqualification. I think, however, it has this effect, that if on some occasion, prior to the passing of the Act, a trial had taken place, and the judges before whom the trial took place differed in opinion as to the candidate having been guilty, and that subsequently the Court of Appeal had found him guilty, he is for the future relieved from disqualification, the word being is, that is to say, that his status was, by the passing of the Act now in question, restored. It could not be retrospective, because up to that time he had been disqualified by the sentence of the Court of Appeal.

"That this applies to section 162 of the Election Act and the conditions and circumstances therein mentioned, as well as to other matters on which corrupt practices or the consequences thereof in any way depend."

It is upon this clause Mr. Bethune contended the election could be upheld. The preceding part of the section has, as I have already pointed out, no retrospective effect, except so far as to reinstate the candidate, and the argument is much stronger as respects this provision. The 162nd section had expressly required that both judges should agree before a candidate should be relieved. To give effect to the contention of the respondent this would appear to have been an entire mistake, and that the law was and is what it clearly was not. The effect, in my judgment, is to relieve the respondent, after the passing of the Act, from the disqualification under which he was then labouring, but it cannot be held to mean that at the time when it was passed he was relieved.

"And that in case of an election being set aside, and a new election had to the same Legislative Assembly, or otherwise, the new election cannot be avoided by setting up corrupt acts or practices by the candidate in or during the former election, or affecting the same, which were not set up and proved at the former trial, and so adjudged by the two judges at the former trial, or by the Court of Appeal, before the subsequent election as by law, to involve such disqualification, disability or penalty." It appears to me quite plain that this part of the section has no retrospective effect, it has reference only to cases of an election being, not to elections having been set aside, and to trials which may arise in consequence. So far from its having a retrospective effect the word being is used in the future, and simply means if, after the passing of the Act an election is set aside, then the other provisions apply. In my judgment the respondent was disqualified at the time

of the election, and that the foregoing section does not relieve him ; it has reference only to any future election.

I concur in the judgment just pronounced by my learned brother as respects the claim to seat the defeated candidate. I do not think, under the circumstances of this case, the electors who voted for the respondent can be said to have acted perversely, and therefore their votes were thrown away.

Judgment—Election set aside ; respondent to pay the costs.

---

6. JUDGMENTS OF APPEAL JUDGES DELIVERED 18TH DECEMBER, 1884.

Hagarty, C.J.—Three points seem presented for our consideration in this appeal :—

1. As to whether the respondent was by the trial judges at the previous election declared guilty of a corrupt or illegal practice, involving as a legal consequence a personal disqualification.

2. If so, has the Act of last session saved him from such consequences?

3. If disqualified, is the minority candidate entitled to the seat?

As to the first, the trial judges were the Chancellor and Chief Justice Cameron. They made separate reports. They agreed in avoiding the election with costs to be paid by respondent. The Chief Justice held that he was guility of the corrupt practice under section 161, in paying or consenting to the payment of the travelling expenses of certain voters to convey them to the poll.

The learned Chancellor reported (after agreeing to avoid the election) as follows :—

It is here certified in effect that respondent "committed" an illegal act under section 154, and then it is certified in effect that he was entitled to the benefit of the 162nd section as having no corrupt intent, and in excusable ignorance, and to have honestly desired and endeavoured to have a pure election, etc. Had both judges found in thus according to him the benefit of this excusing section, it would, of course, have relieved him from any personal consequences.

Had there been no such section as 162, the disqualification would arise as soon as the judges found the respondent guilty of an illegal act, under section 154, in sanctioning the payment of voters' travelling expenses. This section declares its violation to be an illegal act, and the interpretation, section 2, sub-section 11, declares a corrupt practice to mean bribery, treating and undue influence, * * * and any violation of sections 151, 154 and 156, thus bringing this section into the same construction as if it contained the word corrupt as well as illegal act. It would seem, therefore, that if both judges had (without reference to the exculpatory clause 162) had simply united in certifying that respondent committed an illegal act under section 154 in sanctioning the payment of voters' travelling expenses at such election, the disqualification would attach.

By the Controverted Elections Act, sec. 58, where a corrupt practice is charged, the judges are to report (in addition to the certificate as to the due or undue return) whether any corrupt practice has or has not been proved by or with the knowledge and consent of any candidate, and the nature of such corrupt practice. It may be that a return merely stating that the respondent committed an illegal act under sec. 154, would suffice as that section is confined to one species of act, as to the conveyance of voters. It is not, however, necessary so to decide, as the Act is described in both certificates.

It was urged by Mr. Bethune that what the learned Chancellor adds to his certificate as to the charge, shews that the illegal or corrupt practice was not in fact committed, especially that it was done "under the belief that the voters were bound or were willing to repay the expenses, or allow them to be deducted from their wages." It is not found that such was the case. The belief that it was the case when in fact it was not might be an excellent reason for reporting in his favour on the relieving clause ; but when the fact was otherwise, the unfounded belief could not prevent the Act being illegal. If the learned judges found or believed that the voters were conveyed under such an arrangement, then they would be travelling at their own expense to be paid out of their wages, he would then not have found that respondent had committed this illegal act.

If a Statute declared the employment of any voter or voters to do for hire any work connected with the election, and declared such to be a corrupt practice, then if the candidate did so employ and pay them, I cannot think that he could escape the consequences merely because he believed they were not voters.

I agree with the views expressed by my brother Burton as to the marked distinction between the case of Grant *v.* Pagham, and that before us. I fully adopt his reasoning on this.

The Imperial Act required it to be found by the Report that bribery had been committed with the knowledge and consent of the candidate. The report merely stated that he was guilty of a corrupt practice within the meaning of the Act. It then proceeds to state what it consisted of, viz., the promise to certain voters of an entertainment of meat and drink in the event of his election, with a view to induce them to vote for such candidate. My learned brother has quoted from the judgment where it was held that the report did not find in the words of the Statute that a corrupt practice had been committed with the knowledge and consent of the candidate, nor were words used "which unambiguously and necessarily involved a finding according to the Act of Parliament."

Again at page 86 and that the words "did not necessarily alone employ personal bribery or bribery by agents with his knowledge and consent,"

I feel constrained to hold that the reports of the two learned judges clearly hold that the Respondent committed an act which the Legislature designates as a corrupt act, and that the result must be that he was thereby personally disqualified. The learned judges did not concur in finding that he came within the relieving clause, 162, and therefore the disqualification is not removed.

We have secondly to consider the effect of the Act of last session.

The language of the 18th section is singularly infelicitous, as has been very clearly pointed out in the judgments below. They are so very full on this point that it does not seem necessary to travel over the same ground. It is stated to be and always to have been the law, "that no candidate is disqualified or subject to any disability or penalty for any corrupt practice or alleged corrupt practice without the concurrent judgment to that effect." Up to the passing of this Act no judge's report declared in terms the disqualification of any candidate. The election in question had taken place long before the passing of this Act, and the reports of the trial judges of course contained no adjudication or declaration for or against such disqualification, but merely a finding of a fact from which such a legal consequence would properly follow. Can we be asked to assume that the Legislature intended to declare that a report or reports of trial judges perfectly legal at the time they were made, and clear as to the legal consequence to follow, should be held ineffectual to be followed by such consequence, unless some declaration or adjudication of disqualification should be contained therein, which was never heard of as necessary until the Act so declared it. It may, as Mr. Justice Burton remarks, be held necessary so to declare in any report or reports to be made after the passing of the Act, even if the election had previously taken place. We are in effect asked to hold that reports legally made before the passing of the Act, containing, as we hold, matter legally disqualifying a candidate, are made of no legal efficacy for that purpose without their containing a wholly new statement. We are naturally reminded of the words of Brett, L. J. (Bradly *v.* Baylis, 8 Q.B.D., 230) "the difficulty arises from the fact of Parliament insisting upon saying that things are what they are not."

I think due effect may be given to this section by applying its very peculiar language to future reports of trial judges, as is suggested in the judgments appealed from; but I hardly like to be held as declaring judicially that future reports must necessarily contain the new declaration, as it is not required for the decision of this case.

When the Act was passed the reports in the first election had been long made, and, as it were, had passed into judgment, as a new writ had issued on the vacancy declared by them, and a new election had, and a petition pending against such new election. Then comes this legislation. I decline imputing to the Legislature—unless I find their intention expressed in language too clear for dispute—an intention to alter the legal effect of former election reports of judges, by requiring the insertion of some statement not formerly known or required by law. The last clause of the section as to avoiding a new election by setting

up corrupt acts at a former election not set up and found and so adjudged by the two judges at the former election, does not, I consider, affect this question, in the view I take, in common with the learned trial judges, of the legal effect of such former reports.

The remaining question, three, is as to seating the minority candidate.

It is always an ungracious task thus to stultify the choice of a large majority of electors. It is undoubted law that if the court be satisfied that notice of disqualification was clearly brought home to the electors, so that they might reasonably know that they were throwing away their votes, they must take the consequence. Nor can it be considered that a belief in the non-existence of the alleged ground of disqualification can prevent such result. Every case of this kind must depend on its own circumstances, and the nature and extent of the alleged notice. It is a question of fact to be found by the trial judges, and their well considered conclusion on the facts before them in evidence ought not to be interfered with except on very sure grounds. The question of the sufficiency or insufficiency of notice is fully discussed in such cases as Regina *v.* Mayor of Tewksbury, L. R., 3 Q. B., and Drinkwater *v.* Deakins, L. R., 9 C. P. It is a question of fact to be found by a jury, or the judges acting as a jury. It is for them to say on the whole evidence, whether the notice was sufficient. The safest way is, of course, that recommended, of notifying every elector as he comes for a ballot. Here the evidence was of posting notices at some of the polls of agents, stating that they told the persons they met in certain localities. All this was open to the objection that no such notices were given in some localities; that many voters were illiterate, and the written notices useless to them. The learned judges came to the conclusion that they were not justified in finding that they could hold a sufficient number of votes to have been so "thrown away," as it is called, as to seat the minority candidate. It is impossible for me to say that they have arrived at a wrong conclusion on this question of fact, and I am of the opinion that we ought not on such a matter to be astute to find reasons for interfering with this decision. I think the respondent's appeal should be dismissed, with costs. That of the petitioner should with like result be dismissed.

Patterson, J.—The election which is immediately in question was in January, 1884, the nomination day being the 11th, and the polling day the 18th of that month. The respondent John Francis Dowling received a majority of the votes cast, and his return is attacked upon the ground that at a previous election held in February, 1883, for the same electoral district, for the same Legislative Assembly at which he was a candidate, he had been guilty of a corrupt practice. Section 166 of the Election Act enacts that to remove doubts as to the effect upon a subsequent election of the avoidance of a prior election held for the same electoral district for the same Legislative Assembly, such subsequent election shall be deemed and taken as respects both candidates and voters to be a new election in law and in fact, to all intents and purposes, except as to the personal acts of the candidates, and the acts of agents of candidates done with the knowledge and consent of such candidates.

Section 158 makes an election void (unless saved by section 159) where it is found upon the report of the judges before whom the trial of an election petition has been conducted, that any corrupt practice had been committed by any candidate at an election, or by his agent, whether with or without the actual knowledge and consent of such candidate; and section 161 adds that when it is found upon the report of the judges upon an election petition that any corrupt practice has been committed by or with the actual knowledge or consent of any candidate at an election, in addition to his election, if he has been elected, being void, he shall during eight years next after the date of his being so found guilty be incapable of being elected to and of sitting in the Legislative Assembly, and of being entered in any voters' list as a voter, and of voting at any election, and of holding any office at the nomination of the Crown, or of the Lieutenant-Governor in Ontario, or any municipal office.

The very severe penalities thus attached to conviction of "any corrupt practice," a term which under the Elections Act of Ontario includes acts which are free from any intentional corruption, and which may be incapable of influencing a single vote, may be, in some circumstances, averted from the candidate by the provisions of section 162.

These penalities are, however, some thing added to the avoidance of the election which is worked by section 158.

For the purpose of the present contest, inasmuch as section 166 does not enable this respondent to treat the election of January, 1884, as a new election, the petitioner was not driven to rely upon section 161, but if he was able by any proper evidence to bring home to the respondent a corrupt practice committed at the election in February, 1883, he would have done enough to avoid the present election, and the curative effect of section 162, which is addressed only to the ulterior disabilities imposed by section 161, would not come in question.

The petitioner has not offered substantive evidence of the commission of the alleged corrupt practice, but has relied upon the certificates and reports of the rota judges before whom the petition against the February election was tried.

The present petitioner was petitioner, and the present respondent was respondent upon that occasion. Whatever the rota judges certified or reported under sections 55 and 58 of the Controverted Election Act may, perhaps, be *res judicatiae* between these parties, so as to enable the certificates or reports to be used on this trial as evidence of facts which under section 158 avoid an election. That use of them, if admissible, must depend upon the accident of the parties being the same to both proceedings, and upon the propriety of regarding the reports as adjudications between these parties. The effect given by the statute to the report of the judges by which a corrupt practice is found against a candidate is under section 158, to avoid the election to which the report relates, and under section 161 to disqualify. The statute does not profess to make the report evidence for any other purpose, and except in a case where, in a contest respecting a second election for the same Legislative Assembly, it is desired to avoid the second election by a corrupt practice committed at the first, section 162 *non-obstante*, a petitioner will seldom, if ever, have any object in claiming for the report any other effect than that which section 161 expressly declares it to have.

I do not apprehend that in the present case any such necessity arises, but if it should arise, I should desire to give the matter more consideration before deciding that, even as between the parties to the petition, the report can properly be used for any purpose beyond that dealt with in sections 161 and 162.

The certificates relied upon as evidence were proved by copies certified by the Clerk of the Legislative Assembly, to whom the originals were addressed. One certificate was signed by the Chancellor and the other by the present Chief Justice of the Common Pleas, who as rota judges had tried the petition.

One paragraph, which was the same in each certificate, was the following: "And in further pursuance of the said Act I certify that we the said judges differed in our judgments as hereinafter set forth, although we both agreed that the said election should be avoided with costs to be paid by the said John Francis Dowling."

This statement appears to have been accepted as certifying under section 55 of the Controverted Elections Act the determination of the judges that "the election was void," and to have led to the issue of the writ for the second election, and no question respecting it arises at present in any direct way.

Section 58 requires that where any change is made in an election petition of any corrupt practice having been committed at the election to which the petition refers, the judges shall, in addition to the certificate under section 55, and at the same time, report in writing to the Speaker as follows: "(*a*) Whether any corrupt practice has or has not been proved to have been committed by or with the knowledge and consent of any and which candidate at such election, and the nature of such corrupt practice."

This is the report spoken of in sections 158 and 161 of the Election Act; and the petitioner has to maintain that, in the documents produced from the office of the Clerk of the Legislative Assembly, the two rota judges reported that a corrupt practice had been proved to have been committed by or with the knowledge and consent of the respondent, and the nature of such corrupt practice.

There is no report from either of the learned judges in the words of the statute, but it is contended on the part of the petitioner that each of them has certified something

which amounts to a report that a corrupt practice had been proved to have been committed by or with the knowledge and consent of the respondent.

I do not suppose it to be essential in order to comply with the direction to report in writing to the Speaker, that the word "report" shall be employed. Any statement in writing of the necessary facts will of course suffice, and will be a report. Nor am I prepared at present to assent to the suggestion made by counsel that under the law as it stood when these certificates were given, the requirement that the judges should report or should certify could only be satisfied by their making a joint report and not two separate reports. But while the joint finding to which alone the statute gives any effect may, as I assume, be evidenced by two separate reports, it ought to clearly appear from the reports themselves, before they are taken to show a joint finding, that they both relate to the same charge or the same state of facts.

I shall now notice the reports separately, first remarking that in neither of them is it stated that the act or acts for which the election was declared void are those about which the present contest has arisen, and we are of course aware that the avoidance of an election does not of necessity imply the commission of any corrupt act by a candidate or by anyone else with his knowledge or consent.

The statement of the learned Chancellor is as follows:—

"And, in further pursuance of the said Act, I certify that we, the said judges, differed in our judgment as to whether the said candidate, the respondent, was guilty of a corrupt practice under section 161 of the Election Act; and I, the said John Alexander Boyd, for myself, certify that the said respondent committed an illegal act under section 154, in sanctioning the payment of voters' travelling expenses at such election, but without any corrupt intent, and in ignorance which was involuntary and excusable under a belief that so long as he did not personally bear or pay the said expenses, it was not illegal; and under the further belief that the said voters were bound or were willing to repay the said expenses, or allow them to be deducted from their wages.

And I further certify that the evidence showed the candidate to have honestly desired, and in good faith endeavored as far as he could, to have the said election conducted according to law."

Is this an adjudication of the offence in respect of which the very severe penalties of section 161 are incurred?

It is not a question of what it is possible to infer, and even reasonable to infer, from the language as we read it, may have been the opinion of the learned Chancellor. Different minds may draw different inferences; but apart from that, the disqualification results not from the Judge's opinion, but from his report.

The operative words here are "that the said respondent committed an illegal act under section 154, in sanctioning the payment of voters' travelling expenses at such election."

Section 154 declares that "the hiring or promising to pay or paying for any horse, team, carriage, cab or other vehicle by any candidate, or by any person on his behalf, to convey voters to or near or from the neighbourhood thereof, at any election, or the payment by any candidate, or by any person on his behalf, of the travelling and other expenses of any voter in going to or returning from any election, shall be illegal acts; and the person so offending shall thereby incur a penalty of $100." And it further forbids under the same penalty, in addition to disqualification from voting at the election, the hiring of any horse, etc., by any elector for any candidate or any agent of a candidate for the purpose of conveying voters to or from the polling places. All these acts under both branches of the section, come under the definition of "corrupt practices" in the interpretation clause.

This certificate does not in terms find a corrupt practice proved, nor does it find the acts which are described in either branch of the section.

The second branch of the section cannot be surmised to have been in the contemplation of the learned Chancellor, because what he says relates only to the payment of voters' expenses. He does not say that these expenses were paid by the candidate or by any person on his behalf. If he considered that the evidence proved a payment of that character, he has left his opinion to be inferred. But even if we should be justified in

drawing that inference it would not follow that the payment was made by him or with his knowledge and consent. His sanction may have been merely ratification, after the election, of what he may have known nothing of till then. I remember a case which I tried where it was proved that a number of Canadians, who were lumbering in Michigan for an elector of this Province, came to their homes to vote, their travelling expenses being advanced to them by the foreman of their employer and charged to their accounts. I do not think an employer would offend against section 154 by ratifying or sanctioning the act of his foreman when it came to his knowledge for the first time after the act had been committed and after the election. Such a state of facts as this would satisfy all that is necessarily imparted by the Chancellor's certificate; and we know nothing of the facts beyond what we gather from that document.

It is in my opinion impossible to treat this certificate as the report which is prescribed by section 58 of the Controverted Elections Act, and as amounting to a conviction of the respondent of a corrupt practice committed by a violation of section 154 of the Election Act, by him or with his knowledge and consent.

If I am right in this opinion, it is not necessary to examine the certificate of the learned Chief Justice; but I ought not to pass without notice the objections taken to it as evidence for the purpose for which it was used.

It is in these words:—

"And, in further pursuance of the said Act, I certify that we, the said Judges, differed in our judgments as to whether the said John Francis Dowling was guilty of a corrupt practice, under section 161 of the Election Act, in paying, or consenting to the payment of, the travelling expenses of certain voters to convey them to the poll: and I, the said Matthew Crooks Cameron, for myself, certify that the said John Francis Dowling was proved guilty of the said corrupt practice."

This comes more nearly to the language of section 154. It can be understood to find without ambiguity, that the respondent either paid or consented to the payment of the travelling expenses of certain voters to convey them to the polls. The payment of such expenses is, however, no offence, unless made by the candidate or by some person on his behalf. A payment, for example, at the request of the voter himself, by one who neither knew nor cared for whom the voter intended to vote, or whether he meant to vote at all, would I apprehend be no offence, and a candidate would incur no penalty for consenting to such a payment if he happened to know of it. It would not be made on his behalf.

But if we assume the offence to be sufficiently described to bring it within section 154, we have after all only an alternative description, a payment by the candidate or a payment by some one else consented to be the candidate. It is truly urged that in either form the offence comes within the section: but, it is equally true that, if it were possible to identify either with the act alluded to by the Chancellor, it is impossible to identify both. And therefore as it is impossible to say which offence the learned Chief Justice considered proved, it does not appear that there is a joint finding upon any one charge.

The petitioner is not helped towards the conclusion which he has to establish by the circumstance that the two learned Judges concurred in avoiding the election, because, as I have already pointed out, they do not state for what cause they avoid it, or give room for more than a surmise that their judgment in that particular may have rested on any violation of section 154.

I have not thought it necessary to cite authority for the principle on which I have dealt with the evidence. But as one of the learned judges who tried the petition has referred to the case of Grant *v.* Overseers of Pagham, L. R., 3 C. P. D., 80, and as that case has been cited to us on the argument, I may say that I think that decision is a direct authority for assuming nothing in aid or in extension of the report actually made by the judges. The report in question there was made under the provision of the English statute, which is followed in our section 58. It stated "that the said Albert Grant was guilty of a corrupt practice at the said election within the true intent and meaning of the Corrupt Practices Prevention Act, 1854. And I further report that the nature of such corrupt practice was the promising before and at the time of the election to certain voters for the said Borough of Kidderminster, and other inhabitants thereof, that the said Albert Grant would in the event of his being elected at the said election, and after

such return, give to such voters and other voters and inhabitants of Kidderminster an entertainment, consisting amongst other things of meat and drink, with a view and intent to induce such voters to vote for him the said Albert Grant at such election."

It was held that this was not a report that a corrupt practice had been committed by the candidate, or with his knowledge and consent.

Under the English Act, where ahe expression is used which does not occur in ours, except, perhaps, in section 152, "guilty by himself or his agents," a candidate may within the terms of the statute be guilty of a corrupt practice committed by an agent without the candidate's knowledge or consent. The decision in Grant *v.* Pagham turned upon this consideration, inasmuch as consistently with all that was stated in the report, the corrupt practice might not have been committed by the candidate personally, or with his knowledge and consent. Even the corrupt promise reported was not said to have been made by the candidate.

It seems to me that the reports before us do not require to be read with nearly so great strictness to make them plain, as I have endeavoured to point out that they fall short of what the statute requires before a disqualification is worked.

But it is noticeable also that if it were permissable to aid the language of the report by speculations or conjectures however plausible of what the judge who made it must have intended, there were fully as strong grounds for that process in the English case as in the present one.

The report, it will be remembered, was made in obedience to the provision, the object of which is to bring to the notice of the speaker the names of the individuals to whom corrupt practices have been brought home.

It might well have been argued that as the report of a practice which was only constructively and not personally committed by a candidate, and not known or consented to by him, would be foreign to the object of the section, the rota judge must have meant that the corrupt practice which he reported was one of the nature of those he was directed to report, namely, personal bribery. Whether such an argument would have been used or not if counsel had been heard in support of the disqualification, which happened not to be the case, we cannot say. If it had it would probably have been met by the same observation which Grove, J. made when disscussing the report. "It may be," he said, "that the learned judge had in his mind when he found as he does that the said Albert Grant was guilty of a corrupt practice at the said election within the true intent and meaning of the Corrupt Practices Prevention Act, 1854, that he had been personally guilty, but he does not find so, he does not use the words of the Act of Parliament, nor does he use words which unambiguously and necessarily involve a finding according to the Act of Parliament."

I am unable to distinguish that case in principle from that before us, unless I misunderstand it and the statute under which it was decided. The report was simply futile, as it could have no effect at all unless it affected some one personally. That consideration, however, was not sufficient to cause it to be treated as stating, for the purpose of disqualifying the candidate, anything more than what plainly appeared on its face.

In my opinion the petitioner failed to prove any corrupt practice committed by or with the knowledge and consent of the respondent at the election of February, 1883, which would avail him at the election of January, 1884, under section 158 and 166 ; and also failed to prove such a report as would disqualify the respondent under section 161, and this appeal of the respondent should therefore be allowed with costs ; the petitioner's appeal dismissed, with costs ; and the petition dismissed, with costs.

Osler, J.—An election was held in February, 1883, for the Electoral Division of the South Riding of Renfrew, at which the respondent was returned as duly elected. He was afterwards unseated on petition, on the ground of corrupt practices committed by him in paying, or consenting to the payment of, the travelling expenses of certain voters. The trial of that petition took place before the Chancellor (Boyd) and Mr. (now Chief Justice) Cameron.

Judgment was delivered on the 19th November, 1883, and the certificates or reports of the Trial Judges were transmitted to the Clerk of the Legislative Assembly on the 29th

December, 1883. A new election was immediately held on the 11th and 18th of January, 1884, at which the respondent was again elected. A petition against that return was filed on the 14th of February, 1884, which was tried before my brothers Burton and Galt on the 20th August, 1884. The respondent was again unseated, on the ground that the result of the former trial was to disqualify and incapacitate him from being a candidate, the judges not having concurred in relieving him from disqualification under sec. 162 of the Election Act.

What we have to determine on this appeal is:—

(1) Whether on the report of the Trial Judges upon the former election petition it was sufficiently found that a corrupt practice had been committed by or with the actual knowledge or consent of the respondent, so as to impose upon him the disabilities mentioned in section 161, the judges not having concurred in relieving him from them under section 162.

(2) Assuming that such disqualification existed at the time of the last election, and the filing of the petition in the present suit, whether it was removed by anything in the Election Law Amendment Act, 1884, passed on the 25th March, 1884.

Mr. Bethune contended that there should have been one joint report of the Trial Judges upon the former election petition under the hands of both judges, and that they had no authority to make a report and certify separately, even though they concurred in avoiding the election or in finding that a corrupt practice had been committed.

I do not think this argument is entitled to prevail. The Act of 1884, sec. 10, no doubt now expressly requires (following the English Act of 1883) that, in case of a trial before two judges every certificate, and every report sent to the Speaker, shall be under the hands of both judges, but as the law stood when the first petition was determined, I think it is impossible, looking at the loose and inaccurate way in which the expressions "Report of a Judge," sec. 158, ch. 10; "Report of the Judges," sec. 161, ch. 10; "His or their Report," sec. 59, ch. 11; "Report or Reports, if any, of the Court Judge or Judges," sec. 60, are used, to say that their joint decision under sec. 38, or their finding under sec. 161, might not be evidenced by two reports, each under the hand of one of the Judges. There is more room to argue that the certificate under sec. 55 of the result of the trial should have been a joint one under the hands of both. I consider, however, that this objection is not open to the respondent who, by becoming a candidate at the election now in question, must be taken to admit that the former election was on some ground or other regularly set aside. But whatever view may be taken as to the certificate, I think that the Judges were at liberty to make separate reports. These reports ought to be read and taken together. We should not criticise and dissect them as if they were special pleadings, but should endeavour to ascertain what meaning is fairly attributable to the language employed.

By reading them what do we find?

The 161st section of the Election Act provides that where it is found by the report of the judges that any corrupt practice has been committed by or with the actual knowledge and consent of any candidate, or at an election, certain results shall follow.

The Trial Judges at the former election concurred in avoiding it, and, as I think it necessarily appears from their reports, for the same act, namely, the payment by the respondent of the travelling expenses of certain voters. Mr. Justice Cameron certified that he and his colleague differed as to whether the respondent was guilty of a corrupt practice under sec. 161—and I may say here that I cannot quite agree with an observation in the judgment of Mr. Justice Burton, that the reference to that section is inaccurate. It is plain that what is meant is that they differed as to whether the respondent was guilty of a corrupt practice committed with his actual knowledge and consent, that is committed in such a way or in such circumstances as sec. 161 speaks of. The next clause of the report shows the nature of the corrupt practice, viz., the paying or consenting to the payment of the travelling expenses of the voters. The learned judge there certifies that the respondent was proved guilty of such corrupt practice, which is to my mind clearly described as one of those prohibited by sec. 154 of the Election Act.

I now turn to the Chancellor's certificate which I think describes quite as distinctly as the former the offence and its personal character. He finds that the respondent com-

mitted an illegal act under sec. 154 in sanctioning, which is equivalent to authorizing, ratifying or confirming, the payment of voters' travelling expenses at the election—language which is quite inconsistent with the idea that the offence was committed by an agent, or otherwise than with actual knowledge and consent. The other or excusatory part of his report also shows that he was dealing with a personal act.

It was useless to try to escape from the consequence of that finding by calling it an illegal act, when the law calls it a corrupt practice, and so the learned Chancellor felt when he gave effect to it as such by avoiding the election. He says, however, that he differed from his colleague as to whether the respondent was guilty of a corrupt practice under, that is as I have pointed out, within the meaning of section 161. But the other part of his report shews that he meant to say that though compelled to find the respondent personally guilty of what the law calls a corrupt practice, and therefore to avoid the election, he did not think the disabilities attaching to such act under sec. 161, should be affixed to it, because (since) it was committed under the circumstances mentioned in section 166.

I cannot agree that the respondent is now at liberty to contend that the expressions made use of by the learned Chancellor in what I have called the excusatory part of his report, are to be looked at shewing that he was not in fact guilty of a corrupt act. The judgment or decision that he was guilty of it is still in full force and unreversed, and has been accepted and acted upon by the Legislature and by the respondent.

If the reasons given by the Chancellor for thinking that he ought to be relieved from the consequences of the act are to be accepted for the purpose of shewing that he had not really committed it, the judgment avoiding the election was wrong. If the respondent had appealed, it might have been reversed, but on the appeal it might also have appeared from the evidence that the judgment was right, though the reasons were wrong or non-existent.

So I think that we cannot look at anything which the learned Chancellor has unnecessarily said about the corrupt practice or his reasons for giving the respondent the benefit of section 166.

I am therefore of opinion, adopting the language of Grove J., in Grant *v.* Overseers of Pagham, 3 C. P. D. 80-5, that the reports of the trial judges at the former election "unambiguously and necessarily involve a finding according to the Act of Parliament," that a corrupt practice had been committed by or with the actual knowledge or consent of the respondent, and as they did not concur in relieving him from the consequences which attach to such finding, he was in point of law disqualified to be a candidate and incapable of being elected at the last election.

I think that the case of Grant *v.* Pagham, supra, is entirely distinguishable from the present case for the reasons mentioned in the judgment of the learned trial judges, and by my lord.

The next question is whether the respondent has been enfranchised by the recent act. I agree with Mr. Bethune that unless the disqualification is removed as regards the last election it still exists.

The 48th section is relied on, but it cannot be said to have fulfilled the professed object of its existence, which is, to remove doubts. It declares that it has been and is the policy of the Election Law, and the intent and meaning of the several statutes in that behalf, that no candidate is disqualified for any corrupt practice without the concurrent judgment to that effect of the two judges by whom the election petition is tried. It is argued that this shews that the judge must pronounce, and should always have done so, a concurrent judgment of disqualification, and not merely find the existence, etc., of corrupt practice. But the declared intention and meaning are quite repugnant to the language of the Legislature, for by no statute are the judges or either of them authorized or required to pronounce a judgment disqualifying the candidate. They can only find and report as to the commission of corrupt practices, and it was always necessary that they should concur in doing that. This part of the section seems, as Mr. Justice Burton observes, to have been penned by some one unfamiliar with the existing state of the Election Law. The last clause of the section which deals with another subject, is more accurately phrased, and speaks of corrupt acts set up and proved, and so adjudged by the two judges as by law

to involve disqualification, etc. Section 30, amending section 166, also shews that what is meant is a finding as to the acts charged, not a judgment of disqualification. Taken as a whole it is impossible to say, particularly as the doubts intended to be removed are not indicated, that in this respect the section attributes any other intention and meaning to the existing statutes than that which their language has hitherto always been taken to imply, namely, that there must be a concurrent finding or report that a corrupt practice has been committed. The following passage from Maxwell on Statutes, 2nd Ed. pp. 305, 306 is peculiarly applicable to this and some other sections in the act in question :—

It has been asserted that no modification of the language of a statute is ever allowable in construction except to avoid an absurdity which appears to be so, not to the mind of the expositor merely, but to that of the Legislature, that is when it takes the form of a repugnancy. In this case the Legislature shews in one passage that it did not mean what its words signify in another, and a modification is therefore called for and sanctioned beforehand as it were, by the author. But the authorities don't appear to support this restricted view. They would seem rather to establish that the judicial interpreter may deal with careless and inaccurate words and phrases in the same spirit as a critic deals with a corrupt text when satisfied on solid grounds from the history or context of the enactment or from the injustice inconvenience, or absurdity of the consequences to which it would lead, that the language there used, does not really express the intention, and that his amendment probably does : Maxwell, 2nd ed., 305, 306.

7 C. B., N. S. 558; L. R., 6 C. P. 371; 15 C. B. N. S. 809; 7. Q. B., 178.

The respondent is therefore not rehabilitated by the earlier part of the section. The next clause provides that this—that is the concurrent judgment of the two judges—applies to sec. 162 of the Election Act, and the conditions and circumstances therein mentioned, as well as to other matters on which corrupt practices or their consequences in any way depend. I do not see how this clause aids the respondent. The concurrent judgment of both judges was always necessary, as well to find corrupt practices proved, as to relieve from their consequences, and here the judges did not agree to do the latter. The clause is declaratory of the existing law, but seems inconsistent with sec. 29 of the same Act which amends sec. 162 by providing that *one* judge may relieve from disqualification.

The last clause of the section has been incidentally alluded to for another purpose, but I refer to it again as it is relied upon as being specially applicable to the respondent. Reading it with the first part, it declares the law to be that in case of an election being set aside and a new election had to the same Legislative Assembly (which is the case before, as though it occurred before the Act was passed) the new election cannot be avoided by setting up corrupt acts, etc., of the candidate in or during the former election, or affecting the same which were not set up and proved at the former trial, and so adjudged by the two judges or by the Court of Appeal before the subsequent election as by law to involve such disqualification, etc.

It follows from what has been already said that this clause cannot apply to the respondent, as the corrupt practices for which the new election has been avoided were set up, and were so adjudged, as I have held, as by law to involve disqualification.

It is worth noticing that while this clause is prospective in its terms, and speaks of disqualification resulting from the decision of the Court of Appeal, sec. 10, sub-sec. 6 of the same Act enacts that there shall be no appeal from a decision of the judges finding that a candidate has not been guilty of corrupt practices.

I am therefore of opinion that the respondent has not been enfranchised by the recent Act, and that his appeal should be dismissed.

As regards the petitioner's appeal, I am very much disposed to think that we are, in effect, saying that notice of disqualification can only be effectually given by giving it to each voter as he comes up to the poll. Yet, looking at the large majority obtained by the respondent, one ought to be morally convinced that the notice was brought home to the knowledge of the voters before venturing to seat the minority candidate. I cannot say there is some doubt on that point, and therefore do not see my way to differ from the view

taken by the trial judges and by the other members of this Court (my Lord). The petitioner's appeal should also be dismissed.

11. MORRISON, J., concurred.

7. COPY OF DOMINION ACT.

47 VICTORIA, CHAPTER 14.

AN ACT respecting the Independence of Parliament Act, (1878, 41st Victoria, chapter five.)

[*Assented to 19th April, 1884.*

HER MAJESTY by and with the advice and consent of the Senate and House of Commons of Canada, enacts as follows:—

1. The first section of the Act passed in the forty-first year of Her Majesty's reign, intituled "An Act further securing the Independence of Parliament," is hereby amended by adding thereto a sub-section to be numbered four, as follows:—

"(4) Provided further, that nothing in this section shall render ineligible any person holding any office, commission or employment of the nature or description mentioned in paragraph (*a*) of sub-section one of this section, as a member of the House of Commons, or shall disqualify him from sitting or voting therein, if by his commission or other instrument of appointment it is declared or provided that he shall hold such office, commission or employment without any salary, fees, wages, allowances, emolument, or other profit of any kind that may be attached thereto."

2. And whereas the Honourable Sir Charles Tupper, K.C.M.G., while Minister of Railways and Canals and member of the Parliament of Canada for the County of Cumberland, in the Province of Nova Scotia, accepted the office of High Commissioner for Canada, created by the Act passed in the forty-third year of Her Majesty's Reign, chapter eleven, under a commission containing an express provision that such office shall be held without salary, and has performed the duties of such office without receiving any such salary, and has since the said acceptance of office sat as a member of the House of Commons of Canada, it is hereby, for the quieting of doubts, declared and enacted;

That the said Sir Charles Tupper is hereby indemnified and exonerated from all liability to any penalty, or other responsibility, and from any suit, demand or judgment, which may have been, or may be hereafter brought, or rendered against the said Sir Charles Tupper, with respect to any such penalty or responsibility for sitting or voting, as aforesaid, while not otherwise disqualified.

3. This Act may be pleaded as a bar and discharge to any action or suit pending, or which may be brought against Sir Charles Tupper, for any matter, cause or thing, mentioned in this Act, and shall also be a discharge of any judgment for any such penalty as is mentioned in the next preceding section, and any costs on such judgment.

4. The following words are hereby added to paragraph (*c*) of section nine, of the Act hereby amended:—"And any pay or remuneration allowed him for the care of arms or for drill instruction," and shall be construed and have effect as if they had formed part of the said Act and paragraph at the time of the passing thereof;

And any member or members of the House of Commons, or any person whosoever, being or having been such member, is hereby indemnified, and exonerated from all liability to any penalty or other responsibility, and from any suit, demand or judgment, which may have been or may be hereafter brought or rendered against him with respect to any such penalty or responsibility for sitting or voting in the House of Commons, while not otherwise disqualified than by reason of his having received any pay or remuneration for the care of arms, or for drill instruction, while an officer of the militia or militiaman; and this Act may be pleaded as a bar and discharge to any action or suit pending, or which may be brought against any member of the House of Commons or any other person, as aforesaid, for any matter, cause or thing mentioned in this Act, and shall also be a discharge of any judgment for any such penalty as is mentioned in this section, and any costs on such judgment.

REPORT

OF THE

COMMISSIONER OF CROWN LANDS

OF THE

PROVINCE OF ONTARIO,

FOR THE YEAR 1884.

To His Honour the Honourable JOHN BEVERLEY ROBINSON,
Lieutenant-Governor of the Province of Ontario:

MAY IT PLEASE YOUR HONOUR,

I have the honour, in accordance with the Act for the Sale and Management of the Public Lands, to submit to Your Honour the following account of the transactions of my Department for the year ending the 31st December, 1884.

CROWN LANDS.

The arrears due on former sales having been largely paid, causing diminished collections from this source, and the setting apart of so large a portion of the Public Domain under the Free Grants and Homestead system, together with the liberal terms given to actual settlers in many of the townships, have caused a considerable diminution of the revenue arising from our Public Lands.

There were sold, however, of the Crown Lands during the year, 61,189 acres. The sales amount to $49,949, and the collections to $55,173. (*See Appendix No. 3, page 4.*)

CLERGY LANDS.

The Clergy Lands having been chiefly sold, and the arrears due on the sales of former years being chiefly paid, the revenue derived from this source, as might be supposed, is diminishing from year to year.

There were sold, however, of the Clergy Lands during the year, 3,669 acres. The sales amount to $3,826, and the collections to $13,739. (*See Appendix No. 3, page 4.*)

COMMON SCHOOL LANDS.

There were sold of the Common School Lands during the year 337 acres. The sales amount to $874, and the collections to $22,537. (*See Appendix No 3, page 4.*)

GRAMMAR SCHOOL LANDS.

There were sold of the Grammar School Lands during the year 730 acres. The sales amount to $776, and the collections to $2,302. (*See Appendix No. 3, page 4.*)

COLLECTIONS AND REVENUE.

The total collections of the Department during the year amount to $570,305. (*See Appendix No. 4, page 5.*)

DISBURSEMENTS.

The gross disbursements of the Department during the year amount to $264,973. (*See Appendix No. 6, page 7.*)

WOODS AND FORESTS.

The depression in the lumber trade noted in my report for 1883, as prevailing during that year, has continued throughout the season just closed, and will no doubt be felt until an improvement takes place in business generally in Britain and the United States.

The production from the Crown Domain in 1883-'84 falls short of that of the preceding year, and it is anticipated that the cut of the present winter will be somewhat short of that of the last. The decrease in operations may be taken as indicating that those engaged in lumbering in Ontario are prudently husbanding their timber instead of throwing large productions on a weak market.

The accruals for timber dues, ground rents, etc., during the year amount to $421,485, and the total collections on account of timber dues, ground rents and bonuses, amount to $464,530. (*See Appendices Nos. 7 and 9, pages 10, 12 and 13.*)

FREE GRANTS.

At the date of my last report there were open for location, under the Free Grants and Homestead Act, 124 townships, to which three townships have been added during the year, viz., Calvin, Ferris and Bonfield, in the District of Nipissing, making a total of 127 townships now open for location.

There were 1,157 locations made during the year on 161,964 acres of land, and 5,809 acres were sold to 125 locatees.

During the same period 635 lots, located in former years, were resumed for non performance of the settlement duties, and 609 patents were issued to Free Grant locatees. (*See Appendix No. 10, pages 14, 15, 16 and 17.*)

Several townships have been recently surveyed along the line of the Canada Pacific Railway, of which the townships of Calvin, Ferris and Bonfield have been opened for location under the Free Grants and Homestead Act, and the townships of Widdifield, Springer, Caldwell and McKim have been opened for sale, subject to immediate and continuous settlement, at fifty cents per acre, one half cash and the balance in two annual instalments with interest, reserving the pine timber.

The country along the line of railway from Mattawa westward, although generally rough and rocky, contains a fair proportion of land capable of settlement. Settlers have gone in during the year and taken up locations along the line, and somewhat large settlements have been formed on both sides of Lake Nipissing, and from Sturgeon Falls westward, while villages of more or less importance are springing up at the principal railway stations along the line.

CROWN SURVEYS.

The undermentioned surveys have been performed during the year, that is to say: The townships of Bishop, Cameron and Lister in the District of Nipissing, have been sub-divided into farm lots of one hundred acres each; and the townships of Grant, Merrick, Mulock and Phelps in the District of Nipissing, and the townships of Balfour, Baldwin, Creighton, Denison, Drury, Fairbank, Lorne, Louise, Morin, Nairn and Rayside, in the District of Algoma, principally on the line of the Canadian Pacific Railway, into lots of 320 acres each.

The returns of the above named surveys, so far as they have been received, have been examined and closed.

The returns of survey of the township of Boyd, in the Huron and Ottawa Territory, not having been closed at the date of my last report, have been examined and closed during the year.

The outlines of a few timber berths on the north shore of Lake Huron have been run, and a few minor surveys have been made.

The particulars in relation to these surveys will be found in *Appendices Nos. 15 and 16, pages 22 and 23.*

The Surveyors' Reports in relation to the surveys, so far as they have been received, will be found in *Appendices Nos. 22 to 37, and pages 37 to 56 inclusive.*

MUNICIPAL SURVEYS.

Two municipal surveys have been confirmed during the year, consisting of the planting of monuments at the angles of certain lots in the townships of Pickering and Scugog.

Instructions were issued for eight municipal surveys during the year. The particulars relating to these surveys will be found in *Appendices Nos. 13 and 14, and pages 20 and 21.*

MINERAL SURVEYS.

Patents have been issued during the year for 3,548 acres for mining purposes, principally near White Fish Lake, in the District of Thunder Bay, the purchasers having furnished to the Department surveyors' plans, field notes and descriptions of the survey of the locations, as required by the General Mining Act. (*See Appendix No. 17, pages 24 and 25.*

MINES AND MINERALS.

Gold and Silver.

There does not appear to have been much progress made in mining for the precious metals during the year. It is alleged, however, that some exceedingly rich deposits of silver ore and native silver have been discovered at and near Rabbit Mountain and White Fish Lake on the south side of the Kaministiquia river in the District of Thunder Bay, and that the silver-bearing vein has been traced in a south-westerly direction across the Pigeon river into the State of Minnesota.

It is also alleged that gold has been discovered in the neighbourhood of the Lake of the Woods, in the western part of Ontario.

A considerable number of silver mining locations have been taken up near White Fish Lake during the year for mining purposes.

PHOSPHATES.

The depressed state of the market during the year has tended greatly to discourage Phosphate mining, and the consequence is a decreased production.

There have been shipped, however,

From Loughboro' and Storrington during the year	988 tons.
" North Burgess.....	1,147 "
Total quantity shipped.....	2,135 "
To which may be added the quantity lying at the mines ready for shipment	1,150 "
Total quantity mined during the year	3,285 tons.

IRON ORE.

The great depression in the iron trade noted in my report for the year 1883, has continued during the whole of the year just closed, thereby causing a curtailment of mining operations during the year.

There have been shipped, however, from the counties bordering on the Kingston and Pembroke railway, the Brockville & Ottawa railway, and the Rideau canal, the undermentioned quantities, that is to say:

From the Wilbur mine, township of Lavant	9,200 tons
" " Zanesville mine, " Bedford.....	4,700 "
" and through the Rideau Canal	617 "
" the Calabogie mine, township of Bagot.....	577 "
Total quantity shipped.....	15,094 "
To which add quantity mined ready for shipment at Boyd Caldwell's mine	3,000 "
Total quantity mined during the year.....	18,094 "

GALENA.

There were mined in the township of Fitzroy during the year 293½ tons of Galena, which having been smelted at Kingston produced 155½ tons of pure lead.

MICA

Deposits of Mica have been discovered in the Townships of Miller, South Burgess and Loughboro'. Those in Miller are said to be of superior quality. The mine in Loughboro' is said to have produced during the year about ten tons which were disposed of in the American and Canadian markets.

The particulars with reference to the mines situated easterly from the Madoc division will be found in the lucid report of R. McPherson, Esquire, in *Appendix No. 20, Pages 28, 29 and 30.*

The particulars with reference to the Madoc Division will be found in the excellent and exhaustive report of W. Coe, Esquire in *Appendix No. 21, Pages 30 to 36 inclusive, which is worthy of a careful perusal.*

COLONIZATION ROADS.

The total expenditure on Colonization Roads during the year amounts to $149,176, the particulars of which will be found in the Superintendent's report in *Appendix No. 38 Pages 57 to 80 inclusive.*

Respectfully submitted,

T. B. PARDEE,

Commissioner of Crown Lands.

Department of Crown Lands,

Toronto, 31st December, 1884.

Assistant Commissioner.

Department of Crown Lands,
Toronto, December 31st, 1884.

APPENDIX No. 18.

STATEMENT of Work performed in the Survey Branch, during the year 1884.

No.

1.—22 Instructions and Letters of Instructions for Surveys prepared and entered.

2.—19 Crown Surveys examined, completed and closed.

3.—19 Surveyors' Accounts for Surveys audited and closed.

4.— 8 Reports to Council relative to Municipal Surveys drawn up and entered.

5.— 8 Instructions for Municipal Surveys prepared and entered.

6.— 2 Municipal Surveys examined and confirmed.

7.—33 Plans of Mining Locations examined.

8.—161 Plans of Private Surveys examined.

9.—581 Plans compiled and copied.

10.—50 Plans to accompany Instructions.

11.—688 Letters relative to Surveys prepared, written, and entered.

12.—149 Letters relative to Mining prepared, written, and entered.

13.—1950 Pages of Field Notes copied.

14.—24 Railway Plans and Books of Reference examined and certified.

15.—1312 Patents issued during the year ending 31st December, 1884

NOTE. The foregoing Statement does not account for the time spent in furnishing information to parties applying personally at the Survey Branch, who are unable to obtain the information they require without assistance; much careful research into the old correspondence, plans, field notes and other documents, being necessary in order to ensure reliability in the information given, which is frequently used as legal evidence in Courts of Law in disputed cases.

THOS. H. JOHNSON,

Assistant Commissioner.

GEORGE B. KIRKPATRICK, P.L.S.,

Chief Clerk in Charge.

DEPARTMENT OF CROWN LANDS,

TORONTO, 31st December, 1884.

APPENDIX No. 19.

STATEMENT of the Names of Candidates who have passed their Examinations before the Board of Examiners of Land Surveyors for Ontario, during the year 1884.

PRELIMINARY CANDIDATES PASSED.

Frederick Fraser Miller.
William Charles Kirkland.
Nelson Thomas Ritchie.
Robert Stratton Latimer.
Aaron Loughead.
Allan Ross Davis.
Robert Thornton Johnson.

FINAL CANDIDATES PASSED AND SWORN IN AS PROVINCIAL LAND SURVEYORS.

John Arbuthnot Cadenhead, Fergus.
Duncan MacPherson, Ottawa.
George Alphonso Mountain, D.L.S., Ottawa.
Walter Stanley Davidson, Arkona.
Harry Freeman Bray, D.L.S., Oakville.
William James Deans, Oshawa.
James Hobbs, London.
Robert Alexander Wilson, D.L.S., Cornwall.

The Board of Examiners of Land Surveyors, for Ontario, meets at the office of the Commissioner of Crown Lands, on the first Monday in each of the months of January, April, July, and October, in every year, unless such Monday be a holiday (in which case it meets on the day next thereafter, not being a holiday.) Section 6, Chapter 146, Revised Statutes of Ontario.

PRELIMINARY EXAMINATION.

All persons, before they can be apprenticed to a Provincial Land Surveyor, must pass a satisfactory examination before the Board of Examiners in the following subjects, viz: Vulgar and Decimal Fractions, Extraction of Square and Cube Root, Practical Geometry, Euclid, Plane and Spherical Trigonometry, Mensuration of Superficies, and the use of Logarithms; correct Spelling and good Writing required.

FINAL EXAMINATION.

Final Candidates, before obtaining a License to practise, undergo a strict and searching examination before the Board of Examiners as to their proficiency in Euclid; Plane and Spherical Trigonometry; Calculations of Areas by means of the Traverse Tables, etc.; Laying out and dividing up of Land; the adjustment and use of the Transit or Theodolite; Astronomy, including the calculations necessary to determine the latitude by meridian altitude of the sun, moon, or stars, or by double altitudes; Method of determining Time; of finding the time when any star passes the Meridian, with the time of its Elongation; Azimuth Angle, and Variation of the Compass; the Method of Keeping Field Notes; Drawing up Descriptions by Metes and Bounds for insertion in Deeds; taking Affidavits in the matter of Disputed Boundaries; the Law regulating Surveys; Geology; and also as to their proficiency as Draughtsmen.

THOS. H. JOHNSON,
Assistant Commissioner.

GEORGE B. KIRKPATRICK, P.L.S.,
Chief Clerk in Charge.

DEPARTMENT OF CROWN LANDS,
TORONTO, 31st December, 1884.

APPENDIX No. 20.

CROWN LANDS AGENCY,
KINGSTON, 26th January, 1885.

SIR,—I have the honour to report for your information the following in regard to mines and minerals in the counties of Frontenac, Lanark, Carleton and Renfrew, for the year 1884, viz. :—

PHOSPHATES.

From Loughboro' and Storrington Townships	988 tons.
" North Burgess	1,147 "
Total shipped	2,135 tons.
Quantity now lying at mines in Burgess Township	700 "
" " Oso Township	450 "
Total output	3,285 tons.

Shipments of above were made as follows, viz. :—

To Europe	1,312 tons.
" Philadelphia	623 "
" Chicago	150 "
" Brockville Superphosphate Works	50 "
Total	2,135 tons.

Owing to the low price of phosphates (say from $10 to $12 per ton free on board), this interest has not been pushed during the past year.

IRON ORE.

From Wilbur Mine, Lavant Township	9,200 tons.
" Zanesville Mine, Bedford Township	4,700 "
" Ottawa District, via Rideau Canal	617 "
" Calabogie Mine, Bagot Township	577 "
Total shipped to United States	15,094 tons.
Quantity mined at Boyd-Caldwell Mine, not forwarded	3,000 "
Total output of Iron Ore	18,094 tons.

On account of the depressed state of the iron markets, the mines in Eastern Ontario have been worked to a very limited extent during the past two years.

GALENA.

From Fitzroy Township, County of Carleton ..... $293\frac{853}{2000}$ tons.

This was manufactured into lead at the Kingston Smelting Works, yielding 2,883 pigs, or $155\frac{2296}{2000}$ tons pure lead. New crushers and other machinery are now being put into working order at the above-named lead mines (situated about seven miles east of Arnprior), which will largely increase the output, and it is hoped the Kingston Smelting Works will be kept constantly working from April next.

MICA.

A superior quality of mica has been discovered recently in the Township of Miller. One of the mines in this township has been sold to W. E. Brown, of Ottawa, for $4,000.

and is to be largely worked. There is also one adjoining the above, or in close proximity to it, owned by Messrs. Richardson & Sons, which has been worked to a limited extent, and found to be of excellent quality. In South Burgess there is a good show of mica, but the mines have not yet been developed.

About ten tons of mica have been mined in Loughboro' Township during the past year and disposed of in the American and Canadian markets.

Zanesville Iron Mine.

This mine is four miles from Bedford station of the Kingston and Pembroke Railway, with branch line into the mine, which is situated on the shore of Thirteen Island Lake, with shaft sunk to the depth of 200 feet. The machinery is driven by steam, with air compresser, capable of driving fifteen drills. The hoist loads ore direct from the shaft on Kingston and Pembroke Railway cars. Value of machinery, $10,000. Owing to the depression in the iron market there were only from ten to fifteen men employed during the past year, whereas if the machinery were worked to its full capacity 100 men would be required.

Robertsville Iron Mine.

The Robertsville Mine, in Township of Palmerston, on line of the Kingston and Pembroke Railway, with shaft sunk to a depth of nearly 200 feet, has machinery valued at $8,000. Very large quantities of ore have been taken from this mine in past years, but during 1884 it has not been worked to any extent.

Wilbur Iron Mine.

This mine is in the Township of Lavant, and on the line of the Kingston and Pembroke Railway—worked by the Bethlehem Iron Company—and the ore forwarded to their works in Pennsylvania, for the manufacture of Bessemer steel. The shaft is sunk to a depth of about 200 feet, mine opened about 350 feet in length underground, has all necessary machinery for successful mining, including 40-horse power boiler, with air compresser, two portable 15-horse power boilers and Ledgewood hoist. This machinery is capable of 3,000 tons output per month, if worked to full capacity. Quality of ore say 55 per cent. metallic iron.

Boyd-Caldwell Iron Mine.

This is adjoining the Wilbur Mine, and on same vein, sunk to a depth of about 200 feet; has been worked with steam drills, by a 15-horse power boiler. Hoist lands the ore on platform of Kingston and Pembroke Railway. No ore has been forwarded from this mine during the past year, but there is an output of about 3,000 tons ore ready for shipment.

Caldwell and Gildersleeve Iron Mine.

This mine is a half-mile distant from Flower station, Kingston and Pembroke Railway, Township of Lavant, and has been worked with drills by a 25-horse power boiler. Shaft sunk to a depth of eighty feet, but no mining has been done during 1884.

Radenhurst Iron Mine.

The Radenhurst Mine is about three-forths of a mile from Flower station, and believed to be the same vein as the Caldwell-Gildersleeve Mine; is sunk to a depth of eighty feet. Drills worked by two boilers of 10-horse power each.

Calabogie Mining Company.

There are three shafts sunk on east side of Grassy Bay, at Calabogie Lake, Township of Bagot, about one-fourth, one and a-half, and one and three-fourth miles respectively from Kingston and Pembroke Railway track. This mine has not been worked to any appreciable extent, not having any machinery.

WILSON-MARTELLE IRON MINE.

This mine is also on east side of Grassy Bay, Calabogie Lake, one mile from Kingston and Pembroke Railway. Shaft sunk to a depth of thirty feet; no steam-power used up to the present. Vein about 1,100 feet in length, as indicated by survey with magnetic needle, and lies in low land, covered with about ten feet of soil. The indications point to an improvement of the ore and decrease of silica as the shaft goes down.

ANALYSIS OF ORE taken from near the surface, by J. Blodgett Britton, 339 Walnut street, Philadelphia:—

Pure metallic iron		60.72
Oxygen with the iron		23.14
Water		.97
Silica		11.78
Sulphur		none
Phosphoric Acid	Phosphorus, 0.64 / Oxygen 0.84	0.148
Alumina		1.09
Lime		1.23
Magnesia		0.31
Oxide of Manganese		0.27
Undetermined matter and loss		0.342
		100.000

All of which is respectfully submitted.

I have the honour to be, sir,
Your obedient servant,

R. MACPHERSON,
Crown Lands Agent.

The Hon. T. B. PARDEE,
Commissioner of Crown Lands, Toronto.

APPENDIX No. 21.

MADOC, 22nd January, 1885.

SIR,—I have the honour to forward you a statement of the operations for the past year of the Company with which I am connected, and a few observations which I have to offer on the iron ore business, both of which I trust will be interesting to your Department as well as the general public.

The greater part of the ore from the Coe Hill mine has been shipped to Cleveland, Ohio. This ore was then tested as to its suitability for the manufacture of steel rails. The usual test made is to allow for five defective rails out of every one hundred and twenty turned out, but I am glad to state, that the proportion on using this ore was only one in every one hundred and seventy-two. The test made proved it so satisfactory for this purpose, that a considerable quantity of the ore sold was placed to this use, but owing to slackness of orders for steel rails in the depressed state of the iron market during the past season, and the consequent curtailment in their production, one establishment used this ore entirely for making crucible steel—which is the higher grade of steel for making cutlery. We have many assurances that on the renewal of business we can place every ton of ore taken from this mine in good hands at paying prices.

DESCRIPTION OF THE DEVELOPMENTS OF THE COE HILL MINE.

The excavations already made on the surface of this deposit are a thousand feet long and from twenty to sixty feet wide.

There are now three shafts on the vein. Number one shaft is seventy-five deep, and is opened eighteen feet wide at the bottom from the hanging wall. There are no signs yet of the foot wall, and from all appearances this part of the deposit will prove to be of immense width. Everything taken out of this shaft has been ore of the finest quality—not a single load of rock has been separated from it. On the west end of the shaft and fourteen feet below the top or surface there is a drift driven thirty-eight feet. Close to the bottom of the shaft, there is another drift driven the same direction as the one above, and communication opened from it to the first drift by means of a wenze or small shaft. This has been done for the purpose of being better able to mine the ore, as also affording a pillar in end of shaft, for protecting the shaft from the blast of the holes, as well as keeping the foot and hanging wall in a firm position.

Number two shaft is 105 feet deep and is developed by means of drifts or tunnels in each end of shaft, also communication opened to the drifts by means of wenzes or small shafts, thus leaving pillars fourteen feet in thickness and from eighteen to thirty feet high, for the same purpose as number one shaft. This shaft is located 500 feet from number one, and shows a width of sixty-five feet of ore. We tested this part of the property with the diamond drill to the depth of 240 feet before sinking the shaft, and got at that depth sixty-five feet of ore.

Number three shaft is ninety-three feet deep and is also developed by means of drifts east and west of main or hoisting shaft, with pillars in each end of shaft the same as number one and two. Number three is situated 400 feet from number two.

First Operations Commenced.

The ore was first taken out of the mine by means of open cuttings on the side of the hill, and across the deposit, when the shafts were started, and it was found necessary to go below the bottom of the cuts, the ore was then raised to the surface by means of horse derricks and buckets; very soon steam power was procured and a twenty-five horse-power engine, with two hoisting drums, took the place of the horse power derricks to a very great advantage. After twelve months of constant work with this little engine, the chances for enlarging our staff of men began to increase, and the little engine was found to be inadequate for the work, and a larger plant of machinery was contracted for and bought. We have now a 24 by 36 inch cylinder engine from the Globe Iron Works, Cleveland, Ohio, with Webster's camp and Lane's band friction hoisting drums. The engine is 275 horse-power, and there are two new steel boilers 312 inches long by 54 inches diameter. The drums are supplied with $1\frac{1}{8}$ inch steel wire rope; at the end of this rope is an iron skip or tram car which holds 4,500 pounds of iron ore. This skip being let down the shaft by means of a brake on the drum, is loaded or filled by another tram car dumping its contents into it; then it is raised to the surface or top of the shaft by the engine, and dumps its contents into a shoot leading to railroad car, or into another tram car to be placed on stock tile, as convenient.

Employees and Horses.

The past season we have employed 150 men, but we purpose having 250 at work the coming season, as the developments we have lately made and are now preparing will afford room for the latter number to be at work and constantly employed the year round.

The engine and boiler houses are connected, the former being 62 by 34 and the latter 51 by 21. These were erected by Messrs. Rathbun & Sons, of Mill Point, under contract, and display unusual good material and workmanship. We have laid out a town plot into building lots, and have erected comfortable and attractive homes thereon for the miners and workmen in our employ. These are occupied by twenty-seven different families. They are double houses, and cost the company $1,900 per pair. Outside parties are buying lots from us and erecting stores and dwellings thereon. We donated to the municipality an acre, on which they have erected a township hall the past season. The timber is now being got out and lumber provided for the building of a church the coming season. I should mention that we have barn-room for ten teams.

We have until the close of navigation been running the mine night and day, and

purpose soon using the electric light for illuminating our shafts and lighting up our buildings. It is necessary that we should do this, as a preventative to accidents happening to miners passing over and to and from the different shafts, and it will, we think, pay us to use this light, as it will give the men better facilities for working in the shafts in the night time. We have a post-office established here, known as the Coe Hill P.O. We shipped about 30,000 tons of No. 1 ore the past season, and have besides in stock about the same quantity of No. 2 (mostly surface and selections from No. 1 ore out of the different shafts), which we contemplate manufacturing into charcoal pig. We have expended up to the last of the year in actual labour on this property the sum of $94,000.

Arthur Mine in Chandos.

We have done considerable work in opening up the Arthur mine. We have about eight miles of railway to build to get to this property. This is contemplated being done the coming season. We have made three different borings with the diamond drill, in all about 500 feet, on this deposit, and find from these the ore to be in great quantity, while its quality is excellent.

Cleveland Mining Company's Mine.

We have been very fortunate in making a new discovery of iron ore in Tudor. This is a large deposit, and has the advantage of being situated very near to the railway. An analysis of the ore shows sixty-four per cent. of metallic iron, no titanium and faint traces of sulphur and phosphorus. This analysis is made from an outcrop of surface ore.

We have this day started work here with the diamond drill. This will be followed up by clearing about ten acres for the purpose of building up a location the same as at Coe Hill. Our engineer has been over the ground, and located a branch from the main railway into the mine. The work of chopping out the right of way will be proceeded with at once. We intend working the mine vigorously the coming season, and expect to make large shipments from it.

The Baker Mine.

We have leased this mine, situated in the Township of Tudor, to some Cleveland gentlemen. Owing to the lateness of the season when they commenced work, little could be done besides stripping and making other preparations on the surface for active work the coming spring.

The Orton Mine.

This mine is situated on the Free Grants in the Township of Tudor. We have just removed our diamond drill from this mine, where it has been at work for a month past. This has proved an immense deposit, but contains a percentage of titanium. We hope to be able to sell a considerable amount per year of this ore, in small quantities, to large consumers to be mixed with other varieties of ore.

General Remarks.

The depressed state of the iron trade the past year has caused us to slacken operations in opening up new properties, but we hope that soon confidence in manufacturing circles will be restored and business activity again prevail.

There are now lying on the different docks of the United States upwards of a million tons of ore that was mined for last year's furnace supply which have not been used. This fact keeps the iron ore market in a very depressed state.

However, in looking over American statistics we have every reason to congratulate ourselves on the progress we have made in the iron ore trade.

On comparing the results of our business with the whole of the Marquette section—the great iron-producing district of Lake Superior—we find that the shipments there from 1852 to 1857 inclusive amounted only to 86,319 tons, an average of a little over 17,000 tons per year, while our first season's operations show shipments of 30,000 tons from one mine.

It may be interesting to you to know how the iron ore business from small beginnings has developed into such magnitude as it has now attained in the United States.

I will give you the figures for the Marquette district, which, as you see above, only produced in five years 86,319 tons. Following this the production was :—

From	1857 to 1862	346,013	tons.
"	1862 " 1867	1,064,754	"
"	1867 " 1872	3,288,614	"
"	1872 " 1877	4,983,426	"
"	1877 " 1881	7,873,317	"

The total contribution of Lake Superior ore to the close of 1881, produced by fifty-six different corporations, has been 17,642,443 tons, having a market value of $138,592,275. The product of 1882 will bring the grand aggregate up to 20,000,000 tons.

The capital employed in the Marquette district in the iron ore business is	$33,000,000
In the Menominee district	18,000,000
	$51,000,000

The Marquette district employs 9,000 men ; the Menominee district employs 5,000 men ; both mining districts support 50,000 people.

You will perceive from the above the great number of men employed in this business. From the first blow with the pick, the first handling of the hammer and the drill, all is labour. The work of mining the ore, placing it on the cars, thence on the vessels, employs an immense number of people. The wages paid out are represented by the happy homes in prosperous villages near the mining enterprises in the woods and forest, where schools and churches instruct and enliven a population of a section of country which but for this business would be nothing but bleak and barren hillside, and silent forest.

The results above enumerated are such as certainly must astonish every thinking man, but they are none the less true. From small beginnings it has grown to produce magnificent results. I hope to see the same increase take place in our own country, both as to the capital invested, the number of mines opened, as also in the employment of skilled and unskilled labour in this industry. A few years will certainly disclose a marked change, and if the progress made shows anything like the same results as the Lake Superior district has done, it will be highly gratifying and become a great factor in the future prosperity of Ontario. Our ores are eagerly sought after by the Americans, and the competition of Canadian ores with their own product is now engaging the attention of mine owners, who, however, cannot give the furnace proprietors an article as free from impurities and as cheap as we are able to do, and consequently will not be able to hold this market as soon as the facts become known.

I must also draw your attention to the fact that in the Lake Superior section there are three railroads leading from the mines to the ports of shipment. The capital now in use in the ore business by these are as follows :—

The Marquette, Houghton and Ontonagan	$4,500,000
Chicago and North-Western (Penn. Div.)	12,000,000
Detroit, Mackinaw and Marquette	2,825,000
	$19,325,000

The capital in the movement upon the lakes by vessels and steamers, on the basis of the production of 1881, is estimated at	$6,000,000

We will now add to the above results the ore business of four of the roads only, leading inland to furnaces from the harbours of Cleveland, Ashtabula and Erie :—

The N. Y., P. and O. R. R. uses capital in the business	$1,212,000
The Cleveland and Pittsburgh R. R.	2,048,000
The Ashtabula, Youngstown and Pittsburgh R. R.	1,241,602
The Erie and Pittsburgh R. R.	651,237
	$5,152,839

RECAPITULATION.

Mining	$51,000,000
R. R. transportation above	19,325,000
Lake transportation	6,000,000
R. R. transportation below	5,152,839
	$81,477,839

The beginning of the utilizing the mineral deposits of this section was made thirty years ago. The business shows signs of great prosperity, each year growing larger and larger, until now we see it using $81,000,000 capital and employing thousands of men yearly. I have brought forward these figures as not only shewing the importance of this business, but the possibilities in connection with its prosecution in a single section in Ontario.

The imports of iron ore into the United States from various countries were as follows during the respective years :—

In 1879	284,141	tons.
" 1880	493,408	"
" 1881	782,887	"
" 1882	589,655	"
" 1883	490,875	"

Canada being much nearer than other countries furnishing these ores, it may be safely presumed that she will be able to sell as cheap, if not cheaper, than they can, the ores required by American furnacemen, and thus get the greater share of this trade in the future, now that it has once been opened up.

We may look forward to this the more confidently, as our iron ore, owing to its being low in phosphorus, is peculiarly fitted for the manufacture of Bessemer steel rails, an industry which has grown into such prominence during the past four years, having almost entirely superseded the manufacture of iron rails.

The following is a summary of this production during the past five years :—

Year.	Iron Rails.		Bessemer Steel.	
In 1879	420,160	tons.	683,964	tons.
" 1880	493,762	"	954,460	"
" 1881	488,581	"	1,330,302	"
" 1882	227,874	"	1,438,155	"
" 1883	64,954	"	1,286,554	"

The production of Bessemer steel in the United States reached the highest point in 1882, when 1,696,450 net tons of ingots were produced. In 1883 the production amounted to 1,654,627 net tons, or 41,823 tons less than in 1882. This was the first decrease that has occurred in the history of the Bessemer steel industry.

The miscellaneous forms in which Bessemer steel is used now embrace steel for bridges and structural purposes generally, car and locomotive springs, angles and other shapes for shipbuilding, agricultural implements and machinery, plates and sheets, wire rods and nails.

Furnaces.

It has been my ambition to get a furnace into operation, by which we could smelt at home a considerable portion of our iron ore. In fact, the building of a furnace is a necessity in our business, as we have in sorting our ores to lay aside such grades as will not pay for shipment. The cost of mining, hoisting, and sorting these ores would be lost entirely were we not to use them; they amount to about fifteen per cent. of the whole quantity mined. These ores cost just as much as No. 1 ore, and while the metallic iron itself they contain, is just as rich as No. 1, they are too lean to pay the cost of transportation, not usually averaging over fifty per cent. In every mine we open there will be at least 20,000 tons of this material, and a considerable quantity yearly thereafter. Now it is to our interest to make use of these just as well as other or best quality of ore, and to do so we must have furnaces to smelt them. The question will be asked, why have you not done so? In answer I may say, for two reasons: Our time has been occupied in opening up mines and making freight for the railway, and doing a variety of work which is preliminary to every mining enterprise, such as constructing pockets for the ore, building up our location, and other matters comprising a variety of details which it is almost impossible to enumerate. Another reason is, that the iron trade has been in a very depressed state, values have seriously fallen with large stocks on hand, which it would be ruinous to try and compete against. Confidence has been seriously impaired, and even enterprizes based upon sound principles, backed with immense capital, have been compelled to move with great caution. Under the circumstances we have been compelled to do what, if we had consulted our own desires rather than the commercial outlook, we would have preferred not to have done, to defer for a period the erection and using of a charcoal furnace in connection with our business. But there has been no time lost in this matter, as we consider it very necessary to have a large accumulation of ore on hand before starting a furnace; our estimate for a furnace being based upon the No. 2 ore production of five mines.

Railway.

I shall now proceed to consider the question of the Ontario Central Railway, which was built in order to develop the mineral resources of the section of country through which it passes, as well as for the accommodation of the general public; but will first illustrate the way similar enterprizes have been treated in the United States.

The Marquette, Houghton and Ontonagon Railway is a line about ninety miles in length, including its branches. This was the pioneer line in the famous iron fields of Marquette County, Lake Superior. A large land grant subsidy both from the general Government and the State of Michigan was given to the road, and by which the road was aided more than three million dollars. The North-Western Railway also received large aid in the way of land grants. The Detroit, Mackinaw and Marquette Railway, which now reaches these iron mines, likewise received a large land grant.

The Duluth and Iron Range Railway, completed last summer from Two Harbours, on the north shore of Lake Superior, to Vermillion Lake Iron Mines, a line about seventy-five miles in length, received a land grant from the State of Minnesota, the pine alone from which was more than sufficient to pay the entire expense of the road; a sum considerably in excess of two millions of dollars, all the mines being given as well to the company. We lay down our ore on the docks at Cleveland, beside the product of these subsidized companies and pay a tariff charge of seventy-five cents per ton to the United States Government for the privilege of doing it. In marked contrast is the policy of the United States in developing these great natural storehouses of wealth, to that pursued towards our company in attempting to develop a similar enterprize. We have not received one dollar of aid from Government, municipality or individual, but fault has been found with us for buying less than one-tenth the amount of lands given to any one of the companies named, for which the Government had never been able to find a purchaser. How can it be hoped that enterprizes of this kind in their infant state can flourish without the fostering aid of the Government, similar to that given like enterprizes in adjoining countries. A railway has never been built nor works like ours attempted to be prosecuted,

outside our own company, without assistance of some kind. If the Government desire the success of this and kindred enterprizes, we feel it ought to treat us, as all other enterprizes of this kind, which have succeeded, have been treated both in this country and in the United States. The money paid for these lands is paid under a feeling of protest, as we think the Government is exacting outside pay for what it could and should freely give us. If the results indicated by the figures above given are more desirable than the stale barren rocky ridges in their natural state, through which our road passes, and in which our mines are located, we hope that the Government will indicate its appreciation of them by giving such aid as is easily within its power, by refunding the money paid for these lands.

THE MINERAL BELT OF ONTARIO,

extending from Lake Nipissing to the Ottawa River, comprises ten times the area of any known mineral territory in the United States, but there is this difference, in our country the process of development has only commenced, while in the States the minerals have been opened out and the mining industry long since passed the experimental stage. The building of the Central Ontario Railway has done a great deal to encourage enterprize on the part of prospectors and mine owners in the section through which it passes by providing means and facilities for the ready transportation of ore and supplies. There is a necessity for similar roads every thirty miles distant between Nipissing and Ottawa, and there would be a business similar to that now done by the Central Ontario for each of these roads when built. I believe if the interior of the country was opened up by lines of railway branching from the Canada Pacific Railroad they would not only pay but prove an immense feeder to that road, which would then be the backbone of a system running into and developing the great mineral belt of the interior, the products of which would thus find an outlet to the markets of the world, and the results would soon show themselves in the marked increase of Ontario's wealth and population.

It is a subject which will eventually attract public attention, and when the magnitude and importance of the interests involved are fully known, it will be a matter of surprise that these opportunities should have been so long neglected and unimproved. Before concluding, I may say that the import duty now paid by shippers to the American Government on iron ore is a serious drawback to the successful carrying on of this trade. I should like very much to see reciprocity in natural products established between the two countries, which would remove this embargo and put us on more equal terms with the ore-producing interests of the Lake Superior sections.

I cannot but again advert to the facts, that the iron ore business gives a new employment to a large and very desirable element in any country, as the miners are for the most part a hardy, frugal and industrious class, and also, that this business employs a large capital, which, when once invested, remains invested permanently.

Very truly yours,

W. COE.

Hon. T. B. PARDEE,
Commissioner of Crown Lands,
Toronto

SURVEYORS' REPORTS.

(Appendix No. 22.)

DISTRICT OF NIPISSING.

Township of Bishop.

Fenelon Falls, Ontario,
15th November, 1884.

Sir,—I have the honor to report that in compliance with your instructions dated the 23rd day of May, 1884,—I have made a survey of the Township of Bishop, in the District of Nipissing, into farm lots of one hundred acres each, and beg leave to submit the following report, together with the plan and field notes thereof.

I commenced the survey by measuring one hundred chains east on the south boundary from the south-west angle of the Township, to establish the line between lots five and six; and after taking an observation on the night of the 8th of July, I ran this line to that between concessions two and three, on the astronomical bearing given in my instructions. I then moved my camp to near this point and ran the line between those two concessions, as per instructions, to the west boundary and east to the line between lots ten and eleven, and also produced the line between lots numbers five and six to the line between concessions four and five, then moving my camp east to side line ten and eleven. I ran this latter line to the north boundary, moving my camp along it to the line between concessions twelve and thirteen, finishing all the work as I went, as far east as the shore of the Petewawa waters, thence moving east on that line to the line between lots number thirty and thirty-one. I moved south on this latter line finishing the survey at south-east corner of the Township.

As in all countries where the formation is Laurentian, the surface is very undulating, there being only small tracts of level land; but although it is nearly all rolling, there are not many high hills or mountains, very few having an elevation of more than forty or fifty feet above the water level.

About twenty-five per cent. of the land is fit for agricultural purposes, the greater portion of it being in concessions four, five, six and seven, and along the north boundary. A small portion of the township near the west boundary and south of White Pine Creek, also a strip along part of the west shore of White Trout Lake, has been burnt over a number of years ago; all the balance of it is covered with a dense growth of timber, that on the east side of the waters of the Petewawa being chiefly hardwood, maple and birch predominating, except a small tract in the south-east corner and along and extending a short distance inland from the water, where there is or rather has been a large quantity of pine; on the west side of the river, and north of White Pine Creek, the prevailing timber is white pine of a large and sound quality, especially west of Red Pine and Burnt Lakes, and will make a valuable timber limit. South of White Pine Creek the timber is mostly hardwood, mixed with hemlock and balsam, with cedar, tamarac and spruce in the swamps, with scattering of white pine all through it. In this part of the township there has been a large quantity of both square timber and saw-logs taken off a number of years ago. It has been cut in a very careless and extravagant manner, the best trees only having been taken out, while there are hundreds of saw-logs and many pieces of large square timber now lying rotting at the stumps or on the skidways. On the east side of the river the pine has been almost all removed, a considerable quantity having been cut last winter by McLachlin Brothers of Arnprior.

About one-eighth of the township is water, but although it forms such a large percentage of the whole, there are fewer small lakes than I have found in any of the town-

ships in that district, Lake Shippagew on the west and Lake La Muir on the east of the Petewawa being the only two of any size off the river.

The township is intersected from south to north by the Petewawa River, which is here composed of a chain of lakes, with only a few chains of river between. White Trout Lake on the south boundary is a beautiful sheet of water, extending east and west from lot number six to lot number thirty, and north a short distance into the fifth concession. At its outlet there is a new dam, built last spring by McLachlin Brothers, on lot number twenty in the fifth concession, evidently for the purpose of saving water, as there are only a few feet of a fall. At the foot of the small pond, and below the dam, there is another short rapid and a few feet of fall, which empties into Long Lake, immediately opposite the mouth of White Pine Creek. This lake extends northerly to near the line between concessions eight and nine, and is on lots seventeen, eighteen and nineteen, where it narrows down to a stream a little over a chain wide, with two or three small ponds and two short rapids before entering Red Pine Lake on lot number twenty-one, in the tenth concession. This lake is all on the eighth, ninth, tenth and eleventh concessions, and extends east to lot twenty-eight. At its north end there is a short narrows a few chains wide, when we entered Burnt Lake, a beautiful sheet of water extending in a number of picturesque bays as far west as lot number eighteen and east to lot number twenty-six, and across the north boundary into the township of Osler, whence after keeping a north-east course for a short distance it bends towards the south-east, and cuts off a few acres of the north-east corner of the township of Bishop. Lake La Muir, which lies in the sixth, seventh and eighth concessions, and from lot twenty-five to and some distance across the east boundary, is also a fine sheet of water emptying into the Petewawa River. The lakes are all beautiful deep, clear water, abounding with the finest variety of fish.

It is a matter of surprise that so few tourists and seekers after romantic scenery visit the head waters of the Muskoka—Petewawa and Madawaska Rivers. They are only a short distance from the settlement and easily accessible by canoes, and the portages on the Muskoka are of a trifling character, while every bend of the river unfolds some new beauty of mountain, forest or stream; while the lakes, though not so long as those further down, are unrivalled for beauty of scenery, and it may literally be called a sportsman's paradise, the woods abounding with moose and red deer, bears, wolves, and the various fur-bearing animals, the lakes and large creeks with the largest and most palatable varieties of speckled and salmon trout, which can be had in abundance either by fishing with the hook and line, or by setting a night line.

The only means of access to the township at present is either by the Muskoka or Petewawa Rivers.

I have the honour to be, Sir,
Your obedient servant,

JAMES DICKSON,
Provincial Land Surveyor.

The Hon. T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 23.)

DISTRICT OF NIPISSING.

Township of Lister.

Sarnia, Ontario,
September 24th, 1884.

Sir,—I have the honour to report that in compliance with your instructions, dated May 23rd, 1884, I have completed the survey of the Township of Lister into farm lots of one hundred acres each.

After taking an observation of Polaris, at the south-west corner of the township, on

the 11th day of June, I ran the south boundary N. 69° 08″ 20′ E. astronomically, making it the base of the survey; thence laying off the various side lines and concession lines in accordance with the instructions and projected plan.

I may here observe that in running the south boundary I experienced considerable difficulty with drowned lands, caused by a dam at the foot of Catfish Lake, from lot 14 to 18, the water being from four to six feet deep amongst the timber at this point. I found it necessary to offset the line a distance of about seven chains north in order to plant the posts for the lots on the first concession.

About two-thirds of the area of this township was burnt over at different times, and is now covered with a dense growth of scrub pine, balsam, white birch, poplar and cherry.

The largest tract of green timber is found in the south-eastern part of the township, from lot number fourteen to lot number thirty-six, concessions one to four. Although hilly the soil is a good sandy loam, well suited for agricultural purposes. The timber is maple, beech, birch, pine, balsam and hemlock. Another good tract of green timber is found between the Petewawa and the Nipissing rivers, east of side line twenty-five and twenty six; this is so far the best tract of land in the township, being very level, with a good sandy loam soil, well suited for farming purposes. The timber is principally hardwood, with some very good pine.

That portion lying to the north of the Nipissing River, and east of side line fifteen and sixteen, is broken and rocky, with mostly green timber, with occasional burnt patches, the timber being principally white and red pine of a very good quality. That portion lying to the west of side line fifteen and sixteen is a level burnt country with scarcely a swamp or stream, the soil being coarse sand full of boulders.

This township is well watered by numerous lakes and rivers. The Petewawa river enters it near the south-west corner, and flowing north-easterly, expands into Catfish Lake, thence with numerous rapids and falls it flows into Cedar Lake on lot number thirty-six in the ninth concession.

The Nipissing is a stream of considerable size, varying in width from one to four chains, with a strong current, and so shallow that in most places we had no difficulty in chaining over it.

These waters are well stocked with abundance of trout, pickerel, and whitefish, and the woods abound with moose, red deer, bear, and small game. There is scarcely a lot in the whole township on which we did not find traces of lumbering; some very old and some as late as last winter.

Thistle and Carsley's depot and farm on lots numbers thirty-five and thirty-six, concessions twelve and thirteen, is the centre of a large lumbering district.

I saw no traces of valuable minerals. The geological formation is the usual Laurentian prevailing in this region.

There are no settlers in this township.

I have the honour to be, Sir,
Your obedient servant,
(Signed) THOMAS BYRNE,
Provincial Land Surveyor.

The Honourable T. P. Pardee,
Commissioner of Crown Lands,
Toronto.

(*Appendix 24*).

DISTRICT OF NIPISSING.

Township of Boyd.

Peterboro', Ontario,
January 28th, 1884.

Sir,—In obedience to your instructions, dated 17th May, 1883, to survey the Township of Boyd, I have the honour to report that I have performed that service in accordance

therewith, and now beg to submit the returns, all of which may, I trust, be found satisfactory.

Having made up my party and got the necessary supplies into the township, I commenced the survey on the 28th August.

On that day I took an observation of the sun for ascertaining latitude, azimuth, etc., at the south-west angle of the township, the calculations for which will be found elsewhere.

I may here state that during the progress of the survey, several other astronomical observations were made for correcting variation, etc., but this example of the mode pursued will, I presume, suffice.

The concession lines of the township are run out from the point established last year for the corresponding concessions on the east boundary, of the adjoining Township of Pentland, and on the same bearing, viz., N 69°, 08' 20" E., astronomically, and the side lines on the bearing N. 20° 51', 40" west, astronomically.

Having got through considerably more than half the westerly parts of the township, by proceeding northwards and eastwards simultaneously, in the order of the lines; on reaching the south-east angle of the Township of Papineau, I adopted that point for the survey of the east boundary southwards running out to it the various concession lines, and carrying out at the same time the remaining side lines, until the completion of the survey at the south-east angle.

Within the township are the extreme head waters of the Petewawa River, flowing south-easterly, also tributaries of the Mattawan River flowing in the opposite direction. Forming to some extent, the dividing ridge of these two water sheds, the township is naturally somewhat broken in surface, though not to so great an extent as might be expected from the position.

The water chains of Cauchon Lake, flowing south-easterly into Cedar Lake and Petewawa River, is well and sharply defined along its shores, which are for the most part rock and stone, of gradual descent to the water, which is deep and clear.

Hurdman's creek, the only other stream of any importance, flows south-easterly a little west of the centre of the township. It follows a winding, marshy valley. There is but little water, which, however, when husbanded by means of dams, etc., is found sufficient for the driving of all logs made in its vicinity.

Commencing at the west boundary, concessions numbers one, two and three, east to Cedar Lake, on lot number twenty-five, contain a stretch of fairly good land, generally level. The soil is composed of a mixture of clay and sand loam, in almost equal proportions. It is of a dark brown colour, and apparently of average depth and fertility. Some scattered surface stone are met with but not in such quantities as to materially interfere with the ordinary process of cultivation.

This tract is chiefly covered with a growth of maple, black birch, beech and ironwood of medium size, intermixed with balsam, spruce, etc.

The remaining parts of these three concessions to the east boundary have been overrun by fire and are more or less bare and rocky.

Originally the timber was principally pine of average size and quality, and although some charred and standing green trees yet remain, the timber on the whole is not of much value.

The tract comprising the parts of concessions number four, five and six, lying at either side of Cauchon Lake, extending easterly to lot number twenty-five, is broken and rocky, and covered with a small growth of mixed timber principally made up of white birch, poplar and spruce.

This portion of the township is wholly unfit for cultivation.

The balance of these concessions is of a sharply rolling character covered with a thin growth of mixed timber of no commercial importance.

Concessions numbers seven, eight and nine, extending nearly through the township, and concessions numbers ten, eleven and twelve, partly through it, occupy a tract of rolling country chiefly covered with a medium growth of hardwood, but frequently interspersed with small patches of swamp and mixed timber.

Through it is also scattered small red and white pine, a large portion of which is of marketable value.

Considerable areas of burnt land, windfall, and beaver meadow flats are met with over this section.

The land is rolling and in places tolerably stony, but capable nevertheless of yielding fair root crops and of being turned into profitable pasture land.

The remainder of the township, embracing the northerly six concessions, east to side-lines five and six, is mostly of a broken character, yielding mixed timber. From this line to the east boundary, the country is considerably broken, and is almost one continuous brule, with the exception of occasional isolated patches of standing charred timbers, forming but a small proportion of the primitive growth.

The proportion of arable land is not large, yet from the fact of its being partially cleared of its timber, would remunerate any labour bestowed upon it for the production of grass and root crops.

The soil is a strong clay loam, and although rough and stony, would, when once put into a fair state of cultivation, retain its strength for a long time. The township has for several years been lumbered over by Messrs. Hurdman & Co., and in the south part by Messrs. Thistle & Co.

The fire which so desolated the township occurred about nine years ago, destroying much valuable pine timber. Fish and game of the usual kinds are in abundance. Several mineral indications, especially of the ores of iron, were noticed.

Of the whole land area of the township, I am of opinion that forty per cent. might be found fit for ordinary cultivation, while a considerable proportion of the remainder might be rendered suitable for grazing and other purposes.

I have the honour to be, Sir,
Your obedient servant,

(Signed) J. W. FITZGERALD,
Provincial Land Surveyor.

The Honourable T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 25.)

DISTRICT OF NIPISSING.

Township of Phelps.

Haliburton, Ontario,
October 1st, 1884.

Sir,—I have the honour to submit the following report of the survey of the Township of Phelps, surveyed under your instructions, dated May 23rd, 1884.

Proceeding by the Midland, Grand Trunk, and Canadian Pacific Railways to Thorncliffe, near Lake Nipissing, I crossed the portage to Trout Lake, and thence by canoe to the south-east angle of the Township of Widdifield, being the point of commencement, and the south-west angle of the Township of Phelps.

After retracing the east boundary of the Township of Widdifield to the post between concessions B and C of that township, I commenced the survey of Phelps by running the front of concession C east, astronomically, from said post, the lots being laid out forty chains in width, from west to east, from lot number seventeen to number one, and concessions eighty chains in depth from south to north, as per sketch and instructions furnished me; the concession lines were run east and west, astronomically, and alternate side lines north and south, astronomically; the east boundary was run south, astronomically, from post planted at north-east angle of township. Astronomical observations were taken as the work progressed, and the variation of the magnetic needle was found to average seven degrees fifteen minutes west.

The greater part of this township is hardwood land, the soil generally a good loam, but sandy in places, and all more or less stony, with considerable areas of granite rock. The surface of the township is hilly, some of the hills being of considerable altitude notably in the southerly and easterly parts.

The south-east corner of the township has been burnt, and is now growing up with cherry, poplar, white birch, etc.

The timber on the high lands is chiefly black birch and maple, with a few beech, ironwood and basswood; but all kinds are found, hemlock, balsam and pine on the slopes of hills; cedar, spruce and tamarac in the valleys and swamps.

The best of the pine has been taken out by lumbermen. There is considerable scattering pine through the township yet, but not very valuable as a timber limit.

The township is well watered by streams, North River and Balsam Creek being large enough for driving purposes.

Trout, Turtle and Talon Lakes, abound with fish of various kinds, with the Mattawan River forming its southern bound. Game is plentiful.

The geological formation is granite, but no indications of minerals were met with.

About one-half of the township is fit for settlement, and is accessible from the Canadian Pacific Railway running a few miles south of it.

There are no settlers in the township. There are a couple of old clearings, one of them occupied by Messrs. Bronsons & Weston as a lumbering depot.

Herewith I send field notes and plan of survey, with timber, maps, etc.

I have the honour to be, Sir,
Your obedient servant,

(Signed) A. NIVEN,
Provincial Land Surveyor.

The Honourable T. B. PARDEE,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 26.)

DISTRICT OF NIPISSING.

TOWNSHIP OF MULOCK.

BROCKVILLE, ONTARIO,
1st November, 1884.

SIR,—I have the honour to submit the following report on the survey of the Township of Mulock, in the District of Nipissing, in accordance with your instructions of the 23rd day of May, 1884.

I proceeded to the township by way of North Bay, and thence through the Township of Widdifield, to the south-west corner of the Township of Mulock, where the survey was commenced by chaining the south boundary, and posting it for the front of the first concession from the east. I then ran side-line eight and nine to the north boundary, making it a base from which the concession lines were run west and east. In running the north boundary of lots numbers twelve, eleven, ten and nine of concession six, the distances from intersection of side-line ten and eleven west and east, to the west boundary and to the side-line eight and nine, were found to be less than eighty chains, but as side-line eight and nine had been run carefully with a Theodolite and bearing checked with an observation taken at front of fifth concession,—I did not think I would be justified in altering the intersections. These lines were left as shown on plan and in field notes. In other respects the survey was conducted closely in accordance with the instructions. The work was then proceeded with easterly, then southerly, closing on the south boundary. The closing errors were only ten links in departure and fifty-two links in latitude, which last was divided between first and second concessions. This township is mostly rolling,

with very few abrupt or broken hills. Rock exposures were seldom met with, all seen being of Laurentian gneiss.

The highest hills are along the south boundary; on the east boundary, concession two, south-east of the lake, in concessions four and five on lots numbers four, five and six, and on lots numbers nine, ten and eleven, concessions five and six.

Except these last, which were more broken, all were well timbered with maple and birch, with a few ironwood, balsam and spruce. The broken hills were timbered with hemlock, pine, birch and balsam, with few maple.

In the large swamps the timber was mostly spruce and tamarack, while on the ground intermediate between the hills and low swampy levels were balsam, birch, cedar, with occasionally ash and elm. No beech or oak was seen.

Scattered pine of good quality was found all through the township, but except in the sixth concession there was not enough to offer any inducements to lumbermen.

In concession one a large swamp extends from lot number nine to lot number four, drained by a stream flowing south-easterly into the township of Widdifield in lot two. Three small lakes are found in this depression. Another swamp, the largest in the township, extends southerly from lots number two and three on the north boundary, through all the concessions nearly to the first concession. This swamp is in places nearly a mile wide and is drained by a large stream that flows north, crossing the north boundary near the north-west angle of lot number two, concession six; about twenty chains south of this point it is joined by another stream of about the same size, which drains the greater part of the west half of the township.

Where the stream crosses the boundary it is about fifty links wide and five feet deep, with a strong current, but whether it was a branch of the Jocko or of the Antoine I was unable to ascertain.

On each of these branches, at about two miles above their junction is a lake of about four hundred and fifty acres area, each surrounded with marsh or swamp. These were the only large lakes met with in the township.

The soil is generally a light sandy loam, often stony and sometimes graduating into a fine sand. Heavy clay was only met with in very few places.

If a colonization road should be made from North Bay to Lake Temiscamingue, this township would no doubt soon be fairly settled. As yet no squatters' improvements have been made in the township.

I have the honour to be, Sir,
Your obedient servant,

(Signed) WILLIS CHIPMAN,
Provincial Land Surveyor.

The Honourable T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 27.)

DISTRICT OF NIPISSING.

Township of Merrick.

Ottawa, Ontario,
November 4th, 1884.

Sir,—I have the honour to report to you the completion of the survey of the Township of Merrick in conformity to your instructions to me dated 23rd day of May, 1884, and to submit to you the following remarks on the general physical features of the country embraced in the survey.

Arriving at North Bay by rail I proceeded north through the Township of Widdifield and began the survey as directed at the south-east corner of the Township of Merrick, by retracing thence the north boundary of the township of Widdifield, westward six miles,

and at the termination of each mile I started the side-lines north astronomically, which were thus carried through the township a distance six miles, eleven chains and fifty links; all the concessions have a depth of eighty chains except the sixth which has a depth of ninety one chains, fifty links.

Taking each concession successively, the first concession from lot number one to lot number twelve of the west boundary of the township is composed of rolling lands; from lot number one to lot number eight, thence to lot number twelve, less rolling, almost level and covered throughout with a mixed hardwood bush of first growth: a few white pines are found on lots numbers six, seven, eight, nine, ten, eleven and twelve. Between the rolls or ridges of hardwood, spruce and tamarac swamps intervene, in which occasionally small cedars are found. The soil on the hardwood ridges is sandy loam to sandy with boulders, nearly all of which is fit for cultivation.

Concession number two—from lot number one to lot number twelve the country is rolling and covered with mixed hardwood bush, prevailing in the following order, viz., yellow birch, maple, spruce and balsam. White pine is met with on lots numbers one, six, seven, eight, nine ten and eleven. Soil and adaptability to cultivation similar to first concession; a brule or burnt country is crossed on lots numbers two and three.

Concession number three is, generally speaking, level, timbered mostly with mixed hardwood. Some white pine is met with on lots numbers one, four, six, eight, ten and eleven; soil is rather inferior to concessions one and two, being more sandy.

Concession number four, with the exception of lots numbers one, two and three, is level, these being more or less rolling. The timber is the same as in the preceding. A brule is crossed on lot number two; white pine is met with on lots numbers one, three, seven, eight and eleven; soil the same as the last.

Concession number five is rolling, the timber the same as the last. White pine is met with on lots numbers two, three, four, five, six, seven, eight, ten, eleven and twelve. The soil is sandy with boulders, and is fairly adapted to cultivation. Pine Water Lake or Kawashaganiok (Indian name) is crossed on lots numbers four and five. It is the source of the south branch of the Jocko Creek.

Concession number six is slightly rolling, timbered the same as the last. White pine is met with throughout this concession on lots numbers nine and ten; it is of superior quality and is the predominating timber, and extends beyond the north boundary. It is in fact the only really valuable timber met with in this township, the remainder being very scattered and of a very rough quality.

There are no prominent geological features; the few rock exposures met with were granitic, with numerous quartz veins without any apparent stratification.

This township is the height of land or source of several waters, and consequently the creeks are all small and unimportant as waterways, the creeks in the south part flowing into Lake Nipissing, on the north-west part into a branch of Sturgeon River, and on the north-east part into the Jocko Creek, discharging into the Ottawa River at Seven League Lake.

This township, on account of its proximity to the Canadian Pacific Railway, will at some time form part of an important colony which will extend from Lake Nipissing to Lake Temiscamingue, and the best way to promote such a colony would be to make a colonization road from North Bay to Temiscamingue Lake, which is a fine stretch of navigable water, and touching as it does some very fine land for colonization purposes, particularly at the head or northern extremity of the lake, where at least four townships of excellent land equal to any in the County of Renfrew, could be found.

With these remarks I beg to close my report of the Township of Merrick.

I have the honour to be, Sir,
Your obedient servant,

(Signed) GEORGE RAINBOTH,
Provincial Land Surveyor.

The Honourable T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 28.)

DISTRICT OF NIPISSING.

Township of Grant.

Toronto, Ontario,
November 5th, 1884.

Sir,—I have the honour to submit the following report of the survey of the Township of Grant, District of Nipissing, under instructions bearing date the 23rd day of May, 1884.

Access to the township was obtained in the month of June last, by way of the Sturgeon River, and the survey commenced at the south-west angle of the township, that being the most accessible point, as per instructions. The old posts were found and the concessions laid off one mile in depth from south to north, and lots one half mile in width from west to east.

The concession lines were run due east and west, astronomically, and the side-lines run due north and south, astronomically, as per instructions.

The east and west boundaries were retraced and reblazed.

The easterly three quarters of the township have been burnt over, leaving only dead trees, the rock being exposed in many places for long distances, the western part being covered with mixed timber and the soil slightly better.

The surface generally is rocky and hilly, with light sandy soil in the valleys.

There are numerous swamps, some of them covering large areas. There is not any large tract of good land in any one place. The water in the lakes is deep and clear, containing numerous fish of various kinds, such as black bass, pike and pickerel. Over all the burnt land, the surface is covered with a dense second growth of poplar, birch, spruce, etc., from one to six inches in diameter.

The rocks are generally granite and sand stone. No minerals of any value were observed in this township. The magnetic variation was found to be 6° 45′ west.

The Tomiko river, flowing through the central part of the township, is quite a large stream, from one to three chains wide, for the first three miles from its mouth, being also very deep and of a dark brown colour. The Sturgeon River runs through the south-west corner of the township. Excellent water power could be utilized at the Smoky Falls.

The plan, field notes, with timber map of the township, accompanies this report.

All of which are most respectfully submitted.

I have the honour to be, Sir,
Your obedient servant,

(Signed) S. JAMES,
Provincial Land Surveyor.

The Honourable T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 29.)

DISTRICT OF ALGOMA.

Township of Denison.

Ingersoll, Ontario,
October 23rd, 1884.

Sir,—I now have the honour to submit to you my report of the Township of Denison, in the District of Algoma, surveyed according to your instructions bearing date the 23rd day of May, 1884.

From Collingwood I proceeded by boat to Algoma Mills, thence by hand-car along the Algoma Branch of the Canadian Pacific Railway until I reached the west boundary of the Township of Graham, from this I followed it southerly until I came to the post planted for the south-west corner of the Township of Graham, which post you instructed me would be the south-east corner of my township. At this corner I took an astronomical observation and immediately ran out my south boundary westward, using it as a base line and laying out the lots forty chains in width until I came to lot number twelve, which according to your instructions would be somewhat wider than the others. P. L. S. Johnston, who was surveying the Township of Drury, being the next township west of mine, having chained the south boundary of his township, and my south boundary being also carefully chained, there was found an overplus of thirty-five chains and 32 links between the south-west corner of the Township of Graham and Salter's meridian as instructed, taking half of this I planted a post for the south-west angle of my township, being a distance of six miles seventeen chains and sixty-six links from the south-west angle of the Township of Graham, and putting all this overplus into lot number twelve as I did, making it forty-seven chains and sixty-six links wide. After running out my south boundary as stated, I returned to the south-east portion of the township in order to survey the interior, then working chiefly northward and westward until the survey was completed.

In running my line between lots numbers two and three, which I ran as carefully as I could, I found the chainage to the west boundary of Graham decrease a little from south to north. After running the line northerly between lots numbers two and three, I ran this portion of my concession lines until they struck the posts on the west boundary of the Township of Graham, making lot number two forty chains in width and lot number one a little narrower than this, decreasing in width from south to north, in all cases my lines join with the posts on the west boundary of the township of Graham, with one exception. In running the line between concessions four and five easterly from my post planted between lots numbers two and three it struck one chain to the south of Graham, this jog I have shown on plan and notes. As the township of Louise had not been surveyed when running my south boundary, I am unable to show the intersections of the side-lines of this township, and with the outlines of my township. I made a careful survey of all waters within my limits, there being several small lakes, one of them on the sixth concession being somewhat larger than the others. I also made an accurate survey of that portion of the Vermillion River within my township; there are a number of creeks mostly of a small size. The greater portion of the township has been overrun by fire, some of it the second time, and the timber nearly all destroyed. There are a good many standing dead pines in some parts, which might be utilized for various purposes, but not in sufficient quantities or of such quality as to be of much consequence commercially. The only green bush in the township is a strip or portion along the west boundary, being about three lots wide at the south, very narrow at the centre and about two lots wide at the north. There is also a small portion of green woods, consisting chiefly of birch, maple and elm, in the sixth concession, about the centre of the township. In the portion of green wood along the west boundary there is a considerable amount of good pine, but as the extent of territory covered by it is small it would not be likely to pay for the taking of it out, and unless it was taken with the timber in the township west of mine, which I believe is altogether green bush, containing a great deal of pine. The remainder of the timber consists chiefly of tamarac, balsam, spruce and maple where the fire has not passed over the second time, there is a good deal of second growth poplar and birch. That portion which has been burned twice is pretty clean, being covered only with small shrubs and bushes. I saw no valuable minerals, excepting traces of bog iron ore in the north-easterly portion of the township, samples of which I send to your department.

On the whole the township is rough and broken with rocky ridges, but along the Algoma Branch of the Canadian Pacific Railway there is some good land on lots numbers one, two, three, four, five and six, concessions one and two, and on lots numbers two, three, four, five and six, concession three, lots numbers two, three, four, five and six, concession four and lots numbers four, five six and seven, concession five. There is also good land suitable for farming purposes, and in some places level and consisting of a clay

loam. Throughout the township there are a great many clay flats, which although good land, can hardly be available for farming purposes on account of their isolation. The rocks are all of a granite formation. The township will be easily accessible by the Algoma Branch of the Canadian Pacific Railway, which runs through it in the first and second concessions.

I found no squatters in my township, nor Indians, the nearest settlement of Indians being at White Fish Lake.

I have the honour to be, Sir,
Your obedient servant,

(Signed) W. R. BURKE,
Provincial Land Surveyor.

The Honourable T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 30*).

DISTRICT OF ALGOMA.

Township of Drury.

Whitby, Ontario,
November 4th, 1884.

Sir,—I have the honour to submit to you, the following report of the survey of the Township of Drury, in the District of Algoma, surveyed according to instructions from your Department, dated May the 23rd, 1884.

I proceeded to the work by way of Collingwood and the Spanish River, to the point where the Algoma Branch of the Canadian Pacific Railway crosses the Spanish River; thence by the railway into the township.

After having found the south boundary line run by P. L. S. Burke, and having taken the necessary observations, I produced this line, connecting with Salter's twelve mile post on his second meridian line, which I found standing marked as described in my instructions. I found the overplus for the two townships to be thirty-five chains and thirty-two links, making an overplus of seventeen chains and sixty-six links for each township. I laid out the township in the usual way, giving the lots a width of forty chains and a depth of eighty chains. I divided the overplus equally between lots eleven and twelve.

There is not much good land in the Township of Drury, the country being very rocky and hilly; and the soil mostly sandy. There is some clay loam soil, but it is in isolated patches. The part of the township lying to the left of the Spanish River is, however, very fair land.

The timber is mixed, with considerable good pine scattered throughout along the west side of the township; and extending for about a mile and a half to the east is a belt of very good pine land.

The country to the south of the Spanish River has been burnt and the timber mostly destroyed.

There has been surveyed a mining claim on lot number one of the second concession, the deposit being, I believe, copper pyrites.

In many places in the township I saw several quantities of iron pyrites and of copper pyrites. There were also some slight traces of galena.

There were no settlers in the township; and other than the lake touching the north-east corner of the township, there were no lakes. Around this lake there was some very fine hardwood bush, but the land was inclined to be stony.

The Algoma Branch of the Canadian Pacific Railway runs across the south-east corner of the township, and the Spanish river cuts off the south-west corner.

The railway has been apparently abandoned for the present and is in very bad condition.

I have the honour to be, sir,
Your obedient servant,

(Signed) W. O. JOHNSTON,
Provincial Land Surveyor.

The Honourable, T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 31.*)

DISTRICT OF ALGOMA

Township of Lorne.

Collingwood, Ontario,
November 24th, 1854.

Sir,—I have the honour, in accordance with instructions dated May 23rd, 1884, to submit the following report on the survey of the Township of Lorne, in the District of Algoma.

I proceeded up the Spanish River to the mouth of the Vermillion River, intending to gain access to the south-west angle of the township by means of the latter, but finding the difficulties of navigating this river very great, owing to two long rapids not far from its mouth, and having been informed that these could be avoided by making a portage across to the Vermillion River from a point further up the Spanish River, I determined to make the attempt, and proceeded with my supplies up to the third falls on this river. This brought me very near my west boundary, a little over a mile south of the north-west angle of the township. I found, however, that it would be impossible for me to gain the Vermillion River in the way proposed, and that I would be obliged to retrace my route and proceed up the Vermillion River from its mouth, in the way at first proposed. Before doing so, however, I retraced the west boundary from the post at the north-west corner of the township to within a short distance of the Vermillion, and also ran the lines in this part of the township and traversed the part of the Spanish River which runs through it.

I found while here that the north boundary had been already run by Mr. Johnston, who was here engaged on the survey of the Township of Drury to the north. I then returned to the mouth of the Vermillion River, and after considerable difficulty I reached the west boundary near the eastern shore of a large lake, which touches the township near the south-west.

I then continued the line already begun south to the south boundary, which I ran due east from the old post at the south-west corner. I ran the east boundary due south from the post planted at the south end of the boundary, between the Townships of Drury and Denison, to its intersection with my south boundary. In order to have the concessions in the adjoining Township of Louise the even eighty chains from the south, I chained this line from the south to the north, and connected the posts on the line between lots two and three, in the Township of Lorne, with these posts.

In addition to the Spanish River already referred to, the township is cut from east to west by the Vermillion River. The latter stream contains numerous rapids in its course through this township, which render its navigation, even for canoes, rather difficult. There are also several lakes in the township, the largest of which are Ella and Beaver Lakes, the former south of the Vermillion River and the latter north of this stream. In Ella Lake, as well as in the river itself, fish are numerous, consisting principally of bass and pike.

The surface of the township is very broken with hills, with very little covering of soil. A great part of the township has been burnt over, thereby destroying a large quantity of valuable pine.

In the south-west and also in the north-east, however, a considerable quantity of a very good quality has escaped its ravages.

The Canadian Pacific Railway runs through the north west part of the township, following near the south side of the Spanish River.

No settlers have yet located in this township.

I have the honour to be, Sir,
Your obedient servant,

E. STEWART,
Provincial Land Surveyor

The Hon. T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 32.)

DISTRICT OF ALGOMA.

Township of Louise.

Collingwood, Ontario,
November 24th, 1884.

Sir,—I have the honour in accordance with instructions, dated May 23rd, 1884, to submit the following report on the survey of the Township of Louise, in the District of Algoma.

Having completed the survey of the adjoining Township of Lorne, on the west, I adopted the posts previously planted on its east boundary, as starting points for my concession lines, and worked easterly across the township.

I ascertained before leaving the work, that a portion of the east of the township, as projected, had been included by P. L. S. Abrey in his survey of an Indian Reserve for the Whitefish Lake band, and in order to be able to locate the part claimed by the Indians, provided the Department agreed to allow what they claimed. I took sufficient measurements to be able to show it, and have done so by marking it Indian Reserve on the plan, and have not returned the field notes of the lines which I ran through this portion. I have made the Indian Reserve the east boundary of this township, though, as surveyed, this line was run due south from the south-east angle of the Township of Denison. The change adds a very small triangle marked "A" in the north-east corner, and cuts off about four thousand acres from the south-east.

The Vermillion River flows through the township from the north-east to the line between concessions three and four on the west boundary, though a couple of rapids are met with in this distance. It offers fewer difficulties to the canoemen than the portion of this stream flowing through Lorne.

Lake Penage touches the township near the south-east, and Rat Lake lies wholly within the township, as originally projected. Besides these there are a number of smaller lakes.

The country is generally hilly and rocky, but in some parts, especially south of the Vermillion River, land of good quality is met with, the soil being principally clay, but it would be difficult to find a sufficient extent of it in any one locality to form a good agricultural settlement.

A large portion of the township has been swept by fire, and is now covered with a small second growth of birch and poplar. The north-west part of the township by some means seems to have escaped the fire, and some very good pine is met with. A small

quantity of very good quality is also to be found near the south and west of the Indian Reserve.

No economic minerals were met with, either in this township or in Lorne.

The variation of the magnetic needle was about four degrees west, with occasional disturbances from local attraction.

I have the honour to be, Sir,
Your obedient servant,

(Signed) E. STEWART,
Provincial Land Surveyor.

The Honourable T. B. PARDEE,
Comissioner of Crown Lands,
Toronto.

(Appendix No. 33.)

DISTRICT OF ALGOMA.

TOWNSHIP OF CREIGHTON.

TORONTO, ONTARIO,
December 3rd, 1884.

SIR,—I have the honour to report that in obedience to your instructions dated May 23rd, 1884, I have surveyed the Township of Creighton, sub-dividing it into lots of a normal area of three hundred and twenty acres each.

The plans and field notes I beg to submit herennto.

The survey of the Township of Fairbank by Provincial Land Surveyor Francis Bolger had been comp'eted before my survey began, and my west boundary was therefore already established.

Provincial Land Surveyor Salter's six-mile-post, designated in my instructions for the north-west angle of the Township of Creighton, could not be found, having, no doubt, been consumed in the fire which converted a large area in that neighbourhood into a brulé several years ago.

As will be seen from the timber plan, a considerable area at the west side of the township has been overrun by fire, the ground in many places being encumbered with the fallen trunks of the old forest, which has been succeeded by a thick growth of young white birch, poplar, willow, etc.

There is a tract in the interior of the township which shows traces of an ancient forest fire, in the general absence of decayed fallen timber and the occasional occurrence of charred wood.

Judging from the number of "rings" seen in cross sections of the larger trees, the fire dates back fifty or sixty years.

In the green woods the timber is of the kind common to that region, viz., white pine, red pine, balsam, spruce, tamarac, cedar, white birch, poplar, black ash, maple, willow, alder, etc.

Pine occurs in greater or less abundance over the whole township almost, and in considerable quantity in some places. It is of medium size generally, and of fair quality for that region. The other kinds of timber do not need special remark. There is a maple bush extending north east and south-west across lots numbers six and seven, etc., on the fifth and sixth concessions.

The surface of the township is rolling for the most part, the eminences being rocky, the depressions containing the soil. There is some rough broken country in concessions numbers one and two, adjoining the Vermillion River. In the south-east quarter of the township the land is level or gently rolling.

About one-fifth of the township probably would make arable land, and two-fifths grazing land.

The largest areas of good land occur on the Vermillion River and Levey River, and on concession six, on lots numbers nine, ten, eleven and twelve.

The soil is clay loam, sandy loam, or clay. The good land in the other parts is comprised in detached areas, occupying the depressions between rocky ridges occurring in a desultory manner generally.

The geology of the township is soon described. The rock, it is well known, belongs to the Laurentian formation, and consists of ordinary gness, the beds having a strike north-east and south-west.

Crossing the south-east quarter is a belt of fine grained grey coloured rock, apparently composed of dark horublende and light coloured feldspar. It is of a tough, compact texture. It evidently contains considerable quantities of disseminated magnetic iron oxide as shown by the disturbance of the magnetic needle in working with the compass on these strata.

A narrow band of slate crosses the Vermillion River at the falls, on lot number ten, concession six. No veins or seams of any economic mineral was seen.

Vermillion River is a stream with an average width of about four chains, and a moderate current at the time of our visit, flowing between banks of clayey loam, which rise but a few feet above high water mark. There are falls or rapids on lot number ten, concession six, and on lots ten and eleven, concession one.

Levey River, connecting White Water Lake with Vermillion River, is for the most part a sluggish stream, with an average width of about fifty links and depth of three or four feet. The banks and bed consist of clayey black loam. It has a very tortuous course, and much encumbered with driftwood, although navigable to canoes since it was partially cleared out a few years ago in the interest of the C. P. R. survey. There are three portages between White Water Lake and the Vermillion, the two most westerly ones being very short. With a moderate outlay this stream could be made available for running saw-logs during the early part of the season, at the east.

As regards Natural History, it may be remarked that beaver are still found in considerable numbers, and no doubt the other aquatic fur-bearing animals also. There are a few moose and red deer, and black bears of course.

All of which is respectfully submitted.

I have the honour to be, Sir,

Your obedient servant,

JOHN McAREE,
Provincial Land Surveyor.

The Hon. T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(Appendix 34).

DISTRICT OF ALGOMA.

Township of Fairbank.

Penetanguishene, Ontario,
31st October, 1884.

Sir,—I have the honour to inform you that I have completed the survey of the Township of Fairbank under instructions from your Department, dated 23rd day of May, 1884, and have to report thereon as follows:

Leaving Penetanguishine on the 7th day of July, I proceeded to my township *via* Killarney and White Fish river. I arrived at my starting point—the south-east angle of the township, on the 22nd day of the same month.

I commenced my survey according to instructions at the place indicated above, and

having obtained an observation of Polaris, on east elongation, I started my work by running out the south boundary on a course astronomically west, planting all necessary posts for the corners of the lots.

That portion of Fairbank lying south of Vermillion Lake, is very inferior, bush fires having made a clean sweep of every vestige of timber, the land being in many places burnt away, leaving the rock exposed.

The part to the north of the lake, comprising about a sixth of the township, is fairly good agricultural land and well timbered. The land consists of a sandy loam; the timber is of excellent quality, consisting of beech, maple, white oak, spruce and pine. The latter is rather scarce and is found on lot number nine in the sixth concession, and on the west boundary from the line, between the fifth and sixth concessions to the north boundary. The best farming lands are found in the valley of the Vermillion River. This is a stream of considerable size; it forms the outlet to the large lake bearing the same name. It is very tortuous in its course, crossing my east boundary at three points. It has an average width of about three chains, with a velocity of one mile and one half an hour, the average depth about seven feet. It is very much obstructed by rapids and water-falls.

Vermillion Lake is a large body of water, occupying nearly the whole of the fifth concession. Its general direction is N. 80 E. An abundance of herring, black bass and pike are found in it.

There is a large lake in the south-west corner of the township which also is well stocked with fish.

There were very few creeks met, and only one of any size, on the south boundary; it is a wide and deep creek with a scarcely perceptible current; it forms the outlet to the large lake alluded to above.

No economic minerals of any kind were found.

The prevailing rocks are granite and gneiss, veins of feldspar and quartz were frequently met with.

The latitude of the south boundary I assume as north 46° 27'. The variation of the needle was 4° 25' west.

Astronomical observations were frequently taken during the progress of the survey.

The Canadian Pacific Railway line, which is not more than six miles to the north of the township, will give easy access to the township.

There being no squatters or improvements, no inspection returns will be required.

The proportion of available land, to the total land area I estimate at sixteen per cent. The water area about twenty-five per cent.

I have the honour to be, Sir,
Your obedient servant,

(Signed) FRANCIS BOLGER,
Provincial Land Surveyor.

The Honourable T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 35.*)

DISTRICT OF ALGOMA.

Township of Rayside.

Berlin, Ontario,
21st October, 1884.

Sir,—I have the honour to report under the instructions received from your office, dated May 23rd, 1884. I have made a survey of the Township of Rayside, in the District of Algoma, and beg to submit the following report, field notes, and plan of the survey of the same:—

On the morning of the 5th of July I left Berlin for Algoma District, and arrived at Sudbury Junction via the Canadian Pacific Railway on the following Tuesday morning. After having been delayed here for several days, I proceeded by rail to the south boundary near the south-east angle of the Township of Rayside, took an observation of Polaris on Saturday evening in order that I might be able to begin work on Monday, July 14th. I commenced the survey by running the east boundary north and retracing the south boundary working westward, north and south of the railway to the western limit of the township, thence working northward and eastward.

In comparing the Township of Snider with the Township of Rayside, the contrast is extremely great. The Township of Snider is very rocky and hilly, whereas the Township of Rayside is generally level, with only a few rocky ridges here and there. The only rocky ridges of any account are on the south-east and north-west corners. The lower half of the township is rather low, and wet but the northern portion is for the most part exceedingly dry and sandy. The soil in lots numbers four, five, six and seven, on concession one, touching White Water Lake, is very rich, and the portion of country through which the Canadian Pacific Railway runs is quite fit for cultivation. The sixth concession and part of the fifth concession is almost bare and is of very little use for agricultural purposes. The branch of the Spanish River, a stream about forty feet wide, runs nearly due east; its bed and banks are very sandy. The district through which the river runs is very dry and sandy, and pine is the chief timber upon it. There is a good deal of valuable timber in the township, consisting chiefly of pine, cedar, and tamarac.

There is no lake other than White Water, in the township, except a small one on the east boundary.

I have the honour to be, Sir,
Your obedient servant,

(Signed) ISAAC L. BOWMAN,
Provincial Land Surveyor.

To the Honourable T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 36*).

DISTRICT OF ALGOMA.

Township of Balfour.

Sarnia, Ontario,
September 13th, 1884.

Sir,—I have the honour to submit to you my report of the survey of the Township of Balfour, in the District of Algoma, surveyed according to your instructions, bearing date the 23rd May, 1884.

I commenced my survey at the south-east angle of the township, by retracing the meridian line as surveyed by Provincial Land Surveyor Salter in 1857, and at the distance of eighty chains from said south-east angle ran due west, astronomically, for the front of my second concession planting durable posts at their proper places, and in a similar manner continued to survey the several concessions and side lines as indicated by the red lines on the projected plan.

For the south, I retraced P. L. S. Salter's Base line, ran the same year above mentioned. This I found somewhat difficult after proceeding three miles west, as nearly all trace of the line was here obliterated.

Succeeding, however, in tracing it, I failed to find the post marked VI miles, which you instructed me would be the south-west angle of my township. After making diligent search with my men, I concluded to plant a post at my sixth mile, which I took for the south-west angle.

I found the six mile post on the meridian line all right.

About one-half of this township is composed of good farming land, viz: that portion lying south of the Canadian Pacific Railway, the soil being generally clay or sandy loam, broken only in a few places by narrow ridges of rock.

This part of the township has been nearly all burned over, and is generally covered with a dense growth of small poplar, birch, balsam and tamarac.

North of the third concession, and for a couple of miles west of the eastern boundary the country is totally unfit for settlement, being a mass of bare rocks.

To the west of this, although very rocky, there are a few small patches of available land. This part of the township is well timbered with balsam, spruce, tamarack, cedar, birch, poplar, and in a few places good pine; notably in the sixth concession and adjacent to the Vermillion River, which is the only stream of any importance in the township. It enters the township on lot number six, flows in a south-westerly direction, averages about three chains wide, has a swift current and is quite shallow for the first couple of miles.

On lot number twelve in the fourth concession there is a splendid mill site in close proximity to the crossing of the Canada Pacific Railway.

I saw no indications of any valuable minerals; the principal rock being gneiss.

As will be seen by the map, and as already indicated, the main line of the Canada Pacific Railway crosses the township, also there is a station and siding on lot number two, fourth concession, called Chelmsford.

The variation of the needle was uniform throughout, being 5° west.

Trusting this brief report with accompanying field-notes and plans may be found satisfactory to the department,

I have the honour to be, Sir,
Your obedient servant,

(Signed) JOSEPH De GURSE,
Provincial Land Surveyor.

The Honourable T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(Appendix No. 37.)

DISTRICT OF ALGOMA.

Township of Morin.

Belleville, Ontario,
November 7th, 1884.

Sir,—I have the honour to report, that in accordance with your instructions, dated May 23rd, 1884, I proceeded to the Township of Morin, in the District of Algoma.

I reached the township by the Government road which leads from the Bruce Mines to within less than half-a-mile of the south west corner of Morin.

From this point the settlers have made a trail which runs along the south boundary of Morin to the south-west corner of lot eight, thence north through lot eight to about the middle of the second concession.

Camping on the south boundary, I commenced operations by retracing that line across the township, and starting from the post at the north-east angle of the Township of Galbraith, I chained westward, making each lot forty chains in width, planting all the posts for the front of the first concession.

Having laid down a meridian at the point where the side line between lots eight and nine starts, I commenced this line and ran it north a couple of miles.

Finding it impossible, owing to the intervening mountains, to move my camp east along the south boundary, I resolved to run the line between concessions one and two, eastward from the side line between lots eight and nine.

Calculating, from the bearing I had taken on the south boundary, that by making the first concession seventy-eight chains and fifty-five links deep on the side line between lots eight and nine, it would come out the even mile on the eastern boundary, as instructed, I accordingly started the concession line at that distance on the side line between lots eight and nine, and ran eastward four miles. Finding this line also too rough to move camp along, I cut out a portage road along the valley of Woods Creek to lot four, in the first concession, and moved my camp there. I then proceeded to run the eastern boundary northwards, and found I intersected my first concession line at seventy-nine chains instead of eighty chains, as I expected, but concluded to leave the concession line as it was, as I did not think it would be necessary to move it north for one chain. I then ran the eastern boundary and the several side lines within reach of my camp northward, and the concession lines westward ; and, moving my camp further north, I ran all the lines in the eastern half of the township, except the north boundary.

I then proceeded to a point on lot nine in the third concession, and from it took up the remaining side lines from the south, and continued the concession lines westward to intersect the western boundary.

Having run the line between concessions five and six to the western boundary, I chained north along that boundary to the north-east corner post of the Township of McMahon.

I then ran my north boundary in the course N. 88° 37' E., and intersected my eastern boundary so as to make the sixth concession the even mile on that boundary.

I then completed the survey by intersecting this north boundary with the several side lines, planting posts for the same.

This township is very mountainous, and in some places broken and rocky in the extreme, interfering materially with the progress of the work, as a large portion of time was consumed in hunting up and cutting out suitable portages. There are some excellent flats of good clay land, along the valleys of all the streams, especially along the valley of Woods Creek, which is a large branch of the Thessalon River, and here the soil is a strong rich clay, and in many places very free from stones.

There are several settlers in this vicinity who are making extensive improvements.

There are also large tracts of fine hardwood bush on the slopes of the mountain, where the soil is of excellent quality, but generally very stony.

Some intending settlers prefer this high hardwood land, even though stony, to the rich clay of the valleys, on account of the greater freedom from summer frosts.

When the Government road, before alluded to, is carried into the interior of this township a large percentage of the land will be settled.

The timber in this township is of the most luxuriant growth, there being some very fine white pine scattered throughout, and the black birch and maple are very large and thrifty.

In the extensive valleys bordering on the Thessalon River and Woods Creek the timber is chiefly spruce, poplar and balsam.

Springs are abundant in this country, in fact the water in all the streams, the Thessalon included, is all clear, cold spring water, and speckled trout are to be found in almost every creek.

Mountain ranges traverse the face of the country parallel with all the water courses, the highest being those adjoining the main branch of the Thessalon ; the valleys in the watersheds being hundreds of feet below the surrounding high lands.

The rock in these mountain ranges is of various descriptions, conglomerate rock, clay, clayslate, slate, and quartzose rock being most noticeable.

I saw several small exposures of specular iron ore, and I think red hematite also exists in the township, but I do not think magnetic ore is present.

There are numerous water powers on the streams, especially on lot five, concession two, where there is a fall of over two hundred feet in a mile; also on lot nine, concession three, there is a fall of sixty or seventy feet.

I have the honour to be, Sir,
Your obedient servant,

THOMAS O. BOLGER,
Provincial Land Surveyor.

The Hon. T. B. Pardee,
Commissioner of Crown Lands,
Toronto.

(*Appendix No. 38.*)

REPORT

ON

COLONIZATION ROADS

FOR THE YEAR 1884.

To the Honourable T. B. Pardee,
Commissioner of Crown Lands,
Ontario.

Sir,—I have the honour to submit the account of expenditure upon Colonization Roads for the year 1884.

There have been about 210 miles constructed and 436 miles repaired upon the various roads, with some 29 bridges of different lengths and value, and the works of the season have been very satisfactory.

As regards the amount paid on account of balances of the previous year, I may explain that, as the season of '83 was an unfavourable one, and the works numerous, it was impossible to fully examine and settle a number of accounts in time for publication in that year; but this season being a good one for road-making, the Department has been able so to close matters as to leave only some $2,000 due and payable as balances of 1884.

With reference to the total expenditure given, I have to state that there is due the Department $1,500 on account of the building of Severn River Bridge; and if the grant of $1,000 offered by the Dominion Government towards the construction of Barrie Island Bridge be obtained, the expenditure shown would be reduced by the sum of twenty-five hundred dollars or thereabout.

The works are the following:—

NORTH DIVISION.

1. Batchewaning Road.

Work was commenced at the end of last year's operations and continued westward to the Batchewaning River (omitting the bridging of Chippewa River), a distance of six miles and 22 chains.

The overseer in his report says that of the whole length, the third mile, and first half of the fourth mile, was very rough and difficult to construct.

The road was chopped out 60 feet wide throughout, and, the overseer says, graded in a superior manner.

The Dominion Government, as in previous years, contributed $1,000 towards the annual expenditure, and it may here be stated that the road is now opened to within about 3 miles of the end of the surveyed route, excepting the bridging of Chippewa and Batchewaning Rivers.

2. Barr River Work.

This was the blasting of a rock near the mouth of the river, which caused an annual overflowing of the Government road in that vicinity.

The result was highly satisfactory, the cost being $50.

3. Bruce Mines Road,

lying north of Otter-tail Lake, was subject to flooding from the rise of a small lake. The expenditure of $150 was for the purpose of constructing a drain to conduct the water to the lower level of the Thessalon River, which was satisfactorily accomplished. The length of the drain was 270 yards, and in addition, about half a mile of the road was repaired.

4. Barrie Island Bridge.

This structure, which was in part built last year, is now fully completed, and is said to be an excellent bridge and most serviceable.

Having described it generally in last year's report, it is not deemed necessary to again repeat details, farther than correct the estimated length of 1,050 feet previously given, and now state its actual length as given by the inspector, which is 1180 feet.

5. Coffin Additional Roads.

The main portion of this work was the construction of a road on the road allowance between concessions 3 and 4 of Coffin, from lot 4 of Coffin to lot 8 of Coffin Additional, 4 miles. In addition to this, some repairs were made on the old road, between lots 10 and 11, the latter work costing some $50.

6. Day 2nd Concession Road.

This road is from Day Mills, south, on the line between lots 3 and 4 of Day Township to the boundary line between the Townships of Day and Bright. About one mile of new road, and costing $203.90.

7. Grand Portage Road

leaves the main road in Kirkwood, and follows the line between lots 4 and 5 northward 2 miles, and thence north-easterly through lots 1 and 2 of Bridgland, a total distance of 4½ miles.

8. Goulais River Bridge.

Repairs which were reported by the Indian Department at Ottawa as necessary for the protection of the structure, and at the same time offering to pay one-half the necessary outlay. The work was satisfactorily done at a cost of $728.75, of which the Dominion Government paid, as agreed upon, $364.37, so that the Departmental outlay was $364.38.

9. Gosses Creek Bridge

is on the old Thessalon Road, about 6 miles north of Thessalon, and was renewed throughout.

It is 395 feet long, and is now a pile structure; $540 paid on account; $100 was spent in repairs upon the road.

10. Indian Peninsula Road.

This is the main road from Colpoy's Bay to Lion's Head, in the Indian Peninsula of the County of Bruce.

It was very satisfactorily repaired from about 3 miles north of Colpoy's Bay P.O. to within 1 mile of Lion's Head, a length of 18 miles.

11. Korah Road.

The Municipality of Korah let a contract to cover a long dilapidated crossway on the above road, about 4 miles from Sault Ste. Marie, and, according to agreement, the Government gave $200 towards the payment of $375, the amount of the contract.

12. Kirkwood (Extension) Road,

to connect with Day Mills Road, was begun on lot 8, concession 4 of Day Township, and continued from thence south-easterly to the 3rd concession, between lots 2 and 3: 2¼ miles.

13. Lake Shore Road

leaves the Town Plot of Thessalon on the west side of the river, running northward 3½ miles; and from this point west to McBeth's Bay, a distance altogether of 4¾ miles, which was chopped, cleared and levelled, and a bridge built across the inlet of McBeth's Bay.

14. Mississaga River Bridge and Road.

It was found desirable to delay the completion of this bridge till the formation of ice upon the river, which will very much facilitate pile driving and the work of erection; so that up to the present time the amount of money paid on account of the work is but $1,194.37 and is largely for material.

The bridge when completed will be 336 feet long, and will have one main span of 66 feet. The bottom of chords will be about 16 feet above low water. It will be a pile structure composed of bents having 16 feet centres.

The sum of $1,036.29 was spent in opening up a road to the bridge site, and without which it would not be available when built.

The road work was begun at the west boundary of Gladstone Township, between the 2nd and 3rd concessions, from whence it was continued east to lot 8; thence south, between lots 7 and 8 to the concession line between 1 and 2, and from thence east to the river, a distance of 4¾ miles.

It is not a first-class road throughout, but can be made so with a very moderate additional grant.

15. Manitoulin Island Roads

are as follows, namely:—

Bidwell Branch Road, commenced on lot 25, concession 5, Bidwell, and from thence westerly partly across lot 26; thence south-westerly to the east town line of Billings on lot 1, concession 4, 2 miles made as a good winter road at a cost of $275.

Burpee Road (6 and 7 concession line) was opened to the mill at Campbell's Bay. This sum—$50—was given to supplement an equal amount contributed by the municipality; the whole $100 being spent under their management.

Clover Valley Road is one which was chopped out between lots 30 and 31, concession 6 of Assignack, 1⅛ miles, and cost $120. It connects the Clover Valley settlement with the Village of Manitowaning.

Campbell Road (25 side line) was improved through concessions 5 and 6 at a cost of $60.

Gore and Providence Bay Road.—A hill at the north end of the road, which was very steep, was very much improved by an expenditure of $100.

Gordon Bridge is one over a valley between the 4th and 5th concessions, and opposite lots 9 to 11 of the Township of Gordon, and towards which $50 was contributed, with an equal amount from the municipality.

Lake Wolsley Road.—Of this road 2⅛ miles were made anew in Burpee, from lots 31 and 32 on the blind line between concessions 6 and 7, north to Campbell's Bay, and past the saw mill to the line between concessions 7 and 8, and from thence westerly to lot 25. This work cost $225. Again the sum of $794.74 was spent in repairing from the 6th concession of Gordon to the 7th concession of Mills, 6½ miles.

This same road was extended 1¾ miles into the Township of Robinson, at a cost of $595, by beginning between lots 20 and 21, concession 10, and producing it south to the 7th concession, and from thence east to lot 18.

Lake Mountain Portage, a low piece of ground near Lake Manitou, which was graded and ditched for 150 rods at a cost of $90. There was also $136.21 spent in reducing the gradient of a hill on the town line between Howland and Bidwell, opposite lot 19; the road being known as Little Current and West Bay Road.

Mindemoya 6th Line Road, is on the 6th concession line of Carnarvon, from the shore of Lake Mindemoyna easterly 1¼ miles. The expenditure in this case was $385, and the work new throughout.

Mudge Bay Hill, or the cutting down of a very steep hill, and grading of a swamp about a mile in length on what is called locally the "Allan Line," or Gore and Mudge Bay Road; cost $120.

Manitou Bridge, between Sandfield and Tehkummah, opposite lot 16, was built by the municipality at a cost of about $200; the Government contributing half its cost, $100, a bridge 201 feet long composed of 13 bents and average height of 5 feet.

McKay's Mountain Road is on the town line between Howland and Bidwell, beginning on the line between lots 4 and 5 of Bidwell, and extending south and west one and-a-half miles, connecting with the Bidwell 10th side road between the Mountain and Pike Lake, and costing $448.14.

Providence and Gore Bay Road.—This is an extension of the road 6½ miles, commencing between lots 15 and 16, concession 2, Township of Campbell, and extending south-easterly to Kagawong Lake; thence along the shore generally to lot 7, concession 6; thence south to the 7th concession, and west to about the centre of lot 9, concession 7: thence south and west to join the old road on lot 10, concession 10. Expenditure, $1,300.

Sandfield and Big Lake Road is one on the line between lots 6 and 7 of Sandfield, extending through concessions 6 to 9, both inclusive, 2½ miles, which, for an expenditure of $300, was cut out and grubbed through a rough and heavily timbered country.

Sucker Creek Road is a mile and a quarter in length, being on the road allowance between lots 15 and 16 of the Township of Howland, and through concessions 5 and 6, the work costing $280, and the result, the opening of a way for settlers in the south-west portion of the township to Little Current.

South Bay Road. Repairs over 4 miles, beginning at Michael's Bay. A good deal of heavy ditching was done, the road being low and the land flat and swampy: cost, $595.

Sandfield and West Bay Road. $80 expended in ditching and grading a very low swamp on the town line between Carnarvon and Billings, opposite lots 29 and 30 of Carnarvon; half a mile of work.

Ten-Mile Point Road. Repaired from Sheguiandah village easterly and southerly over the road, 8½ miles: the work consisting of grubbing, grading, repairing culverts and other repairs, costing altogether $555.

Ten Side Road (Bidwell.) This job was on the 8th concession of Bidwell, and was plowing, scraping and forming the road through a beaver meadow, the sum expended being $95.

Tehkummah (5 side-line) Road. Seventy rods of crossing through a very bad swamp in concession 1, to give settlers a passage to Sandfield Mills. Expenditure $85.

Town Line Bridge, between Sheguiandah and Assignack, and the last work to report of the Manitoulin Island operations, is a small bridge opposite lot 20, and south end of 10-Mile Point Road, towards the construction of which $25 was given, and, with an equal amount, was expended by the Municipality.

16. Port Finlay Road.

The work this season was commenced at the Great Northern Road, with the expectation of finishing the road fully to where it ceased last year, but, the route proving less favourable than was anticipated, the expenditure was insufficient to do more than cut out and grub the whole length of 4½ miles, completing the first two, and leaving the remaining two and-a half for ditching and other improvements, at a later date.

It leaves the Great Northern Road on section 10 of Macdonald, and is from thence southward.

17. St. Joseph Island Roads.

The works on this Island were as follows :—

Centre, or Tenby Bay Road, follows the road allowance between lots 5 and 6, the work of this season commencing at concession "T., and ending on that between concessions 4 and 5, 3¼ miles. The work was heavy, embracing a considerable length of swamp; outlay, $1,175.

Huron Line Road.—On this road a bridge was burnt early in the season, which was rebuilt, and some further improvements made upon the road, costing altogether about $130.

Kaskawan Road.—This work began at the intersection of the Milford Haven with the Tenby Bay Road, a point locally known as Cooper's Corners. From this point the road is easterly on the road allowance between concessions 9 and 13 to that between concessions 9 and 11 ; thence southerly, along the last named concession line to the road allowance between lots 5 and 6; thence westerly along the last named road to that between concessions 9 and 10, and from thence southerly, following the last mentioned concession line to Milford Haven, and line between lots 7 and 8, a distance of over 2 miles made for an outlay of about $750.

Lines Mill Road, made on the blind line between concessions G. and H. through lots 1 and 2, and from thence in a right line through lot 3 in G. concession to the bridge at Lines Mill. This expenditure was some $275, and the length of road made three-quarters of a mile.

Tenby Bay Road, is more properly the "U" Concession Road, and is now so-called, but in 1879 and '80, when first formed it was named as above, Tenby Bay Road. This season the work was from Centre Road, easterly across lots 6 to 11 inclusive, 1½ miles of practically new work, which cost about $500.

W and 14 Concession Road, was wrought over from lot 6 to lot 16, concession 14. The cost of the work was about $900, and length of road made 2½ miles.

18. Thunder Bay District Roads.

The work in this district was chiefly the repairing of and completion of the road to Kakabeka Falls. A full report has not yet been forwarded.

19. Tarbutt and Port Lock Road.

Beginning at Port Lock Road, and south-east angle of lot letter N. of Johnson, this road runs west to lot 1 on the boundary line between Tarbutt and Tarbutt Additional, a length of about 3½ miles, which has been well made.

Three bridges were built on the line of road over each, Port Lock, Walker and McDonald creeks, with spans of 30, 30 and 25 feet respectively.

20. Thessalon and Bright Road.

The portion constructed was begun about 2 miles east of Thessalon, from whence it was made east to the boundary between Day and Bright, and angle of the four Townships of Bright, Gladstone, Thessalon and Bright Additional ; from thence south 1 mile ; thence east 1 mile ; thence again south ¼ mile to the centre of lot 10 in Bright. The overseer in his report says, on the whole we made a good road ; 8¼ miles furnished this season.

WEST DIVISION,

1. Armour Bridge.

This is a bridge built over the north branch of the Maganetawan River on the 10th and 11th concession line of the Township of Armour.

The work was given as a contract and is said to have been well carried out.

2. Axe Lake Road.

It was intended to expend $500 upon this road this year with the expectation of completing it, but the overseer of the work, and whowas also overseer of the McMurrich Road, was allowed to spend a share of this grant in order to complete a certain swamp on the latter road, hence only $100 has been spent on this road, and about one mile of the distance made.

3. Alsace Road.

This road, the construction of which has been in progress for some 3 years, has this season been produced easterly to lot number 8 of Nipissing Township, following as before the road allowance between concessions 2 and 3. This distance is $2\frac{1}{8}$ miles, and there was also built $\frac{3}{4}$ of a mile southerly from this road through lot 10 to connect with a portion of the Muskoka Road, which was made last year from the Gurd Road northerly; a total length therefore of $2\frac{7}{8}$ miles was built.

4. Burk's Falls Road.

In addition to repairs upon the portion made last year, $1\frac{1}{2}$ miles have been made easterly over the road allowance between concessions 8 and 9 of the Township of Armour.

5. Baysville and Huntsville Road.

Five miles repaired of this road from Baysville northerly. Last year this road was repaired from Huntsville southerly, over $2\frac{1}{2}$ miles, and there remains a portion of road between these repairs reported as still requiring an outlay to improve it.

Baysville Bridge may be reported with this work, as having received repairs upon it to the extent of $195.33.

6. Bethune Road

is on the 10th and 11th side-line of Bethune Township, and was made from concession 12 to concession 8, 3 miles. The first $1\frac{1}{2}$ miles is made a good road, chopped 60 feet wide; the remaining portion being a cheaper class of road, cut out only 30 feet wide.

7. Baxter Road.

Six miles of new road have been made, and two miles repaired. The repairs were over portions of the road made two years ago, and of the new work, one mile is the production of the Baxter Road proper to Pine Point on the Georgian Bay, and the remaining 5 miles is a new road from lot 29 of Baxter, in a north-easterly direction to 'Go Home' Bay on the Severn River, and from thence northerly.

8. Baysville and Gravenhurst Road.

Repairs begun about lots 17 and 18, concession 6, and terminating on lot 31, in concession 10 of the Township of Draper, a distance of about 4 miles, and well reported of.

9. Carling Road

is described in last year's report. This season the work was continued northwesterly, crossing the boundary of the old survey on lot 51, and from thence again in the same

course through lots 16, 17 and 18, in concessions 1 and 2 of the "New Survey." Length constructed, $2\frac{3}{4}$ miles.

10. Conger and Port Cockburn Road.

A new road to connect Port Cockburn with the Carling Road.

It begins on lot 29, concession 5 Humphrey, and runs from thence across lots in the 9th concession to the Port Carling Road, a distance of 3 miles of new road.

11. Christie and Parry Sound Road.

Another new road, connecting the Christie with the Parry Sound Road.

Its commencement is on lot 94 of the Parry Sound Road Survey, from whence it is made northerly to strike the Old Junction No. 2 Road on lot 20, concession 14, Humphrey. $2\frac{1}{2}$ miles of new road throughout.

12. Commanda Road

has this season been produced north-westerly to the side line between lots 20 and 21, in concession 3 of the Township of Patterson. 3 miles of well-made road.

13. Christie Road.

Five miles very permanently repaired from the Parry Sound Road, easterly.

14. Carrington Road.

This is a road which in 1877 was made from Parry Harbour southerly into Foley, and approximately on the line between lots 30 and 31 of that township. The present season, $315 was spent in making a deviation of about half a mile near the Parry Harbour end ; other portions were repaired, and the road produced southerly one mile. The Boyne River at the end of the road was also bridged. The entire work may be stated at one mile of new work, and one mile of repairs.

15. Chapman Road.

A road commencing on lot 27, concession 4 of Chapman and within about 4 chains of the 4th and 5th concession line ; thence easterly, crossing lots 26 and 28 to the aforesaid concession line ; thence again easterly, and, with slight diversions on lots 23 and 24, and again on lots 18 and 19, continuing on the said 4th and 5th concession line to lot number 13, a distance of about 4 miles. A cheap road through a somewhat rough district, but withal, advantageous to settlers.

16. Doe Lake Road.

An old road from the Monteith and Perry Road northerly to the Ryerson Junction Road, via Beggsboro' and Doe Lake P.O. The road was reported as impassable, and is yet far from a first-class road, but the expenditure of $100 has improved it considerably.

Its whole length is about six miles, and has been more or less repaired throughout.

17. Distress River Road.

Two and three-eighths miles of this road were constructed, namely, from lot 23 concession 9 of Strong Township, easterly to the line between lots 27 and 28, and to a point 45 rods north of the blind line between concessions 9 and 10, and from thence easterly, and northerly, crossing the line between lots 28 and 29, 5 chains south of the 10th and 11th concession line, and from this latter point easterly to the line between lots 30 and 31.

Repairs were made over the old road in the Township of Chapman, amounting altogether to about 2 miles of work.

18. Eagle Lake Road,

repaired from Mecunoma easterly, 6 miles. This will be one of the leading roads from the Rosseau and Nipissing Road to the railway now under construction, and should be further improved.

19. Fish Bay Road.

A short line from the Nipissing Road to Fish Bay steamboat landing on Lake Nipissing.

The road is through lot 13 in the 10th, 14 in the 11th, and 15 in the 12th concessions of Nipissing, about 2 miles in all, of which ¾ of a mile was made new, and the balance of the road repaired at the small cost of $91.

20. Gravenhurst and Ryde Road.

This road has been opened 2½ miles, beginning on lot 11, at the south boundary of Draper, and working westerly to lot 3, where the road turns northerly to connect with last year's work.

21. Golden Valley Road.

But one mile of this road has been made, but it has been located betwen the Northern and the Mills Road, its course being as follows :—

Commencing on lot 9, concession 5, of Pringle ; thence northerly through concessions 6 and 7 to lot 7 ; thence north-westerly, crossing the road allowance between lots 5 and 6 about the blind line, between concessions 7 and 8 to lot 4 on the road allowance between concessions 8 and 9 ; thence westerly on the last named road allowance to lot 9, concession 5 of Mills Township ; thence northerly around "Milton Lake ;" thence westerly, about the centre of concession 9 to lot 20 ; thence north-westerly to Mills Road on lot 23, about 15 chains north of the blind line between concessions 9 and 10, some 10 or 11 miles.

The work this season was upon the first mile of the road.

22. Himsworth Road and Bridge.

This road was chopped out in 1882 through concessions 7 to 16, inclusive, and on the road allowance between lots 20 and 21 of the Township of Himsworth.

This season 1¾ miles have been made travelable, and a bridge has been built over East River upon the same road ; span 54 feet, and total length about 100 feet.

23. Harrison Lake Bridge.

A small bridge on the Lorimer Lake Road, given as a job at the end of last season, the work being a necessity, as the former bridge had been destroyed entirely.

24. Joly Bridge.

Built over the south branch of the Maganetawan River on the road allowance between concessions 4 and 5 of the Township of Joly ; length 52 feet ; main span 30 feet.

Five-eighths of a mile of road was also made for the total sum of $253.79.

25. Junction No. 2 Road.

This was a job let for the building of a bridge on lot 18, concession 12 of Christie, and some repairs upon a dangerous flat.

The work is reported as very satisfactorily performed.

26. Long Lake Road.

A road begun last year and this season continued from lot 11, between concessions 2 and 3 of Perry, westerly to lot 4, a length (new road) of 2 miles.

27. Macaulay Road.

In the first instance about $100 was spent upon the side road between lots 25 and 26, in concessions 10, 11, and portion of 9, in making a mile and a half of road, and the balance in repairing the main road between Bracebridge and Baysville, over about two miles; the work being from the east boundary of Macaulay eastward.

28. Medora Road.

A road from Mortimer's Point, in the Township of Medora, to connect with the Government road.

It is laid out from lot 28, concession C., crossing lot 28 to the line between lots 28 and 29; thence north to the line between E. and F.; thence west to line between 25 and 26; thence north on or near this line to intersect the Port Carling Road on concession 3.

Half a mile of new road made and a log bridge built 350 feet long.

29. Muskoka Road.

Repairs were made between Utterson and Huntsville over some 6 or 7 miles, and again, 8 miles were repaired north and south of Berriedale.

The road was then produced northerly 4½ miles, terminating in the 2nd concession of Machar, the work being generally on the road allowance between lots 15 and 16, while farther to the north 2 more miles were made from lot 8, concession 9 of Nipissing, southerly to the 6th and 7th concessions, and on the side road between lots 5 and 6.

The total amount of work therefore has been 6½ miles constructed, and about 14 miles repaired.

30. McDougall and Foley Road.

Two and three-quarter miles of road made, 1¼ being north, and 1½ south of the Christie Road.

Southerly the road ends on lot 9, about the blind line of concessions 7 and 8 of Foley, and northerly the work dated from the Christie Road, both portions being well done.

31. Monteith and Perry Road.

The first portion of this work is upon a relocation of a section which it was found impossible at any moderate cost to form into a good, or even passable road.

It is from the east side of lot 8, concessions 10 and 11 of Perry, to lot 9 on the same concession line of McMurrich, 4¼ miles, less about forty rods of crosswaying on lot number 5, which should be made during winter weather. A bridge was built over the outlet of Star Lake, at a cost of some $65, and 3 miles of the section from Emsdale easterly were repaired.

32. Muskoka and Bobcaygeon Road.

Repairs continued from end of last year's operations, lot 16, concession 14, Franklin to Dwight P.O., 4 miles.

A new bridge was built over Goldie's Creek—lot 11, concession 10—length 380 feet, including approaches.

33. McMurrich Road.

This is a continuation, westerly, of a road begun last year from the Stisted Road, and upon the 8th and 9th concession road allowance.

Last year 1¾ miles were constructed, and this season a similar length was made; but, being through an almost bottomless muskeg the work was very expensive, costing much more than the appropriation of $600, as will be seen in the summary of expenditure.

34. Maganetawan Road.

With the appropriation for this road nearly 4 miles were constructed, and two bridges built over the Maganetawan River.

The work commenced on lot 24 of Strong and south town line (end of last year's work), and continued easterly on the town line to and across the river, when the first bridge was built. From thence the road was made northerly on the road allowance between lots 30 and 31, 2 miles, where the same river was again bridged. The first bridge is 72 feet, and the second 74 feet long, each with main span of about 40 feet.

On this same road, at the Distress River flats, near the Village of Maganetawan, the water had flooded and destroyed the roadbed, making it impassable. This work, therefore, became necessary, and was an additional expenditure to that first contemplated. About half a mile of the road was raised some 3 feet, costing the sum of $708.21.

35. Mills Road.

Repairs were made over the greater length of this road, 16 miles, and the money said to have been well expended.

36. Musquosh Bridge.

Some necessary repairs to hand-rail, replacing decayed plank, etc., and costing $14.

37. Nipissing Road.

This road was made from lot 32, concession 13 of Himsworth, north-easterly 2⅜ miles, 5 miles of repairs were made from South-east Bay towards Nipissing Village.

38. Northern Road.

Repairs were continued from near the Maganetawan River, northerly, to Deer River, 3½ miles.

The bridge over the Maganetawan River was repaired and largely rebuilt, as it was found to be in a dangerous condition.

Other bridges south of Dunchurch have been renewed or repaired, as were also two bridges on the Parry Sound Road, near the south end of this Northern Road with, at the same time, repairs upon a rough, rocky hill, some 2½ miles north of the Parry Sound Road.

39. North Cardwell Road.

A road continued from lot 27, between concession 12 and 13, easterly, to lot 21, and thence northerly through the last-named lot, and terminating about the centre of concession 13—2 miles constructed. This road was commenced last year, and 2½ miles made that season.

40. Naiscootyong Bridge.

As intimated in last year's report upon the North-West Road, this bridge was built during the winter of 1883 and spring following. The difficulty in getting timber to the site of the bridge made its cost somewhat large, but this was unavoidable, and the North-West Road without this structure was at that point useless.

41. Orange Valley Road.

In 1881 this road was begun, and two miles made, as stated in that year's report.

This season 3½ miles were added to its length, commencing on lot 35 of Spence; thence northerly, touching upon lot 1, concession 5, McKellar, at its north-east angle, and again upon the town line, to within a short distance of the road between concessions 6 and 7 McKellar; thence westerly, parallel generally with the last named line, but crossing into the 7th concession on lots 5 and 6, and again bending southerly along or near the line between lots 6 and 7 to about the blind line, between concessions 5 and 6, and again southerly and westerly, ending near Broadbent's Mills.

42. Oakley Bridge.

Repairs to this structure, in order to secure it from falling away from the abutments, cost $60.

43. Perry (*4th and 5th Concession*) Road.

Was chiefly the crossswaying of swamps from the Muskoka Road, westerly.
The length of work is over a mile, and is said to be well done.

44. Poverty Bay Bridge and Road.

A bridge was first built over the Maganetawan River on the line of the road location, costing about $550, and the balance of the appropriation, some $900, spent upon the road, with which sum 4 miles were constructed, 2 miles of which were well made, and the balance, for want of money, was only chopped and grubbed as a winter road.

Its course is as follows:—Beginning on lot 11, between concessions 8 and 9 of Croft, and thence south-westerly to the Maganetawan River, and from thence westerly to the intersection of the Ah-mic Road at Ah-mic Harbour.

This last named road was, from the Harbour to Ah-Mic P.O., in such bad condition that $100 extra was allowed for its partial repair.

45. Port Vernon Road.

Work was begun on the north boundary of Stisted, between lots 30 and 31.

From this point the road follows the said boundary eastward to the same township's eastern boundary, from whence it turns north-westerly, crossing Fisher's Creek, where a substantial bridge 135 feet long was built, and crossing lots 1 and 2 terminates on the 2nd and 3rd concession-line of McMurrich Township. 2 miles have been well made and 2½ opened as a winter road.

46. Pool Lake Road.

A road on the 2nd and 3rd concession line of Strong from the Muskoka easterly, and passing between Stony and Pool Lakes. 1½ miles of the road was wrought over.

47. Peterson Road,

Improved from Prospect Lake in the Township of Draper, easterly some 4 or 5 miles.

48. Powassan Bridge,

on the Himsworth Road, over the South River, is a work now in hand, to be completed during the winter.

It will have a main span of 80 feet, and total length of about 100 feet, to be built according to plan furnished.

49. Rosseau and Nipissing Road.

Three sections were improved; number 1 being between Rosseau and Spence; 2, between Spence and Maganetawan, and number 3 between Mecunoma and Commanda.

On the first section 3¾ miles were very thoroughly repaired, and in addition 47 culverts were renewed, and crossways and bridges repaired over 18 miles of the road.

Between Spence and Maganetawan 6 miles were repaired, and on section 3, 12 miles, of which 4 were very permantly repaired.

50. Ryerson Junction (or Missionary) Road.

At the Rosseau Road end 95 rods of crossswaying were laid, besides repairing many of the existing crossways and culverts, together with about half a mile of bush work; while from the Muskoka Road end 3½ miles were repaired westerly.

This will become a leading road to the railway when the latter is completed.

51. Ryerson Centre Road.

A bridge built upon this road last year but not entirely completed for want of funds has been satisfactorily finished, together with some 100 yards of grading for the sum of $196.75. The road was fully described last year.

52. South Armour Road,

begun upon the Armour Road, on the west line of lot 16, and between concessions 2 and 3 of Armour Township, and continued southerly round the south end of "Three Mile Lake," to again meet the concession line before named on lot 24. 2¾ miles constructed.

53. Strong (*6th and 7th Concession Line*) Road,

being chiefly the crosswaying of a swamp on the line named, and opposite lots 10 and 11, is about half a mile of work.

54. South River Road.

On the 2nd and 3rd concession line of the Township of Machar is this road, and locally named as above.

Opposite lot 17, occurs a swamp about the width of the lot, which was crosswayed, and about 60 rods of grubbing done besides.

55. Sinclair and Bobcaygeon Road.

Repaired from lot 8 to lot 2, between concessions 4 and 5 of Sinclair; 2 miles.

56. Shawanaga Road.

A short road begun at the Lorimer Lake Road, on lot 37, "North Road Survey," and extended to the north of Shawanaga Lake; 2¼ miles. A bridge was also built over a creek on lot 5, concession 5 Hagerman, 118 feet long.

57. Stisted Road.

Repaired over 10 miles, between the Muskoka Road and the Port Vernon, or Hoodstown Road.

58. Stisted No. 2 Road.

This is on the road allowance between lots 10 and 11 of Stisted.

It was produced 1¾ miles northward, and to within about 2 miles of the Cardwell Road, which it is intended to intersect.

Included in this expenditure is the completion of a bridge over Black Creek, begun last year; it is 421 feet long and said to be a good structure.

59. Severn River Bridge.

By agreement with the County Council of Simcoe to pay one-half the cost of rebuilding this bridge, which is on the Muskoka Road, at the Severn River Crossing in the Township of Morrison, plans were prepared and the bridge built in accordance therewith.

The estimated cost, $3,000, was exceeded in consequence of the necessity for a temporary floating bridge, and repairs which were made to the old bridge. The half cost has not yet been received from the county, but it is expected daily; so that the sum spent by the Government, will be reduced one-half when the county has paid its share.

60. Sinclair Road.

Work commenced at the Perry and Monteith Road and continued southerly, on the road allowance between lots 25 and 26 of Bethune, one and a half miles; of which the last quarter mile has only been chopped and logged. It is entirely new work.

61. Sinclair and Chaffey Road.

A work begun last year and stopped in consequence of the weather.

The repairs this season are between Grassmere and East River, amounting to 3 miles.

62. Utterson Junction Road

is one 4 miles long, connecting the Muskoka with the Parry Sound Road, and is in the Township of Stephenson.

The expenditure this year was for the purpose of making a deviation about a mile in length to avoid some rocky hills and to complete a floating bridge, towards which latter the township gave assistance. The whole road is now reported a very fair one.

63. Whitestone Valley Road.

This is a road begun, and its course and object fully indicated in last year's report.

Two and one-half miles were constructed this year, beginning on lot 13 and ending on lot 23, and being on the road allowance between concessions 2 and 3 of McKenzie Township.

64. Watt and Cardwell Road

is one which has been located from the Parry Sound to the Cardwell Road, beginning on the line between lots 40 and 41 to lot 45 of the first named road survey; thence north-easterly into the Township of Cardwell, along or near the line between lots 15 and 16 to lot 14 in the 2nd concession; thence northerly to the Cardwell Road at the 6th and 7th concession line.

Two and one-half miles were well made this year, reaching to lot 14, con. 2.

65. Westphalia Road.

A road to open a way to a good German settlement.

Its commencement is on the Rosseau and Nipissing Road on the line between lots 170 and 171 of the road survey, and is produced along the said line south-easterly to lot 2, con. 4 of Gurd Township—1¼ miles of new work reported as fairly done.

EAST DIVISION.

1. Addington Road.

Repaired this season from about 5 miles north of Cloyne, northerly to the end of Massanoga Lake, 6 miles, and now reported as in splendid condition.

Again, repairs were commenced at the town line between Brudenel and Lyndoch, and extended southerly five miles: the former repairs costing $1,190.30, and the latter $685.47.

2. Anstruther Road.

Work done in two sections: the first being repairs over 3 miles of its length, dating from last year's operations; and the second work was commenced at the south-west angle of lot 38 in the 12th concession of Anstruther, and continued to the Burleigh Road on lot 10, con. 4 of Cardiff. 5 miles chopped out 50 feet wide, and partly grubbed for use as a winter road.

3. Admaston Road.

Four and a half miles repaired, between Admaston and D'Acre.

4. Algona and Hagarty Road.

This road is on the road allowance between lots 15 and 16 of the Township of South Algona.

The road is new, extending from the south end of the 9th concession southerly, on the aforesaid side line, about $1\frac{1}{2}$ miles. It is reported by the overseer as a very heavy and expensive piece of work.

5. Bobcaygeon Road.

Repaired from Kinmount northerly towards Minden, $7\frac{1}{2}$ miles, and from Silver Lake in Galway, northerly towards Kinmount, 5 miles. Total repairs $12\frac{1}{2}$ miles.

6. Burleigh Road.

Seven and one-half miles repaired from Apsley northerly, and 2 miles of the southern portion, making $9\frac{1}{2}$ miles repaired for the expenditure.

7. Bancroft and Dungannon Road.

The County Council of Hastings contributed $100 to assist in the repair and construction of these roads, two in number; the first of which (Bancroft Road) is from Bancroft south-westerly to lot 11, con. 10 of Faraday, some 4 miles of repairs or improvement of a road previously opened; and the second, the Dungannon Road, leading from the Hastings Road easterly on the 2nd and 3rd concession line of Dungannon to lot 32, is three miles of work, chopped as a winter road.

8. Barrie Road (No. 2.)

A road under construction and improvement for some years.
This year three-quarters of a mile was made for the expenditure, $303.40.

9. Buckhorn Road.

Repairs from about 2 miles north of Buckhorn, northerly, 8 miles.

10. Brudenel Road,

extends from Free Grant lot No. 296 on the Opeongo Road, northerly. 5 miles of the road were put in excellent order.

11. Bagot and Opeongo Road,

repaired from the Opeongo Road southerly to the Township of Bagot, $4\frac{1}{2}$ miles; and again from Holliday's creek easterly, $2\frac{3}{4}$ miles.

12. Black Bay Road.

This work is on the south side of the Petewawa River in the Township of Petewawa.
One portion of the road was made through lots 5 to 13, both inclusive, in the 8th concession, when $2\frac{1}{2}$ miles were chopped out 30 feet wide and the road levelled.
Again, work was commenced on lot 13 between concessions 5 and 6, and the road made along the said concession line for 2 miles, chopped 40 feet wide and graded in the centre.

13. Cavendish Road.

Repairs begun on lot 10, concession 11 of Galway, and extended westerly 2 miles.

14. Chalk River Bridge.

In 1882 a grant of $500 was made for Chalk River Road, and in 1883 a similar sum was voted for Chalk River Bridge.
The report for 1882 mentioned the outlay of $500 without any particulars as to the location of the road, the report at that time not having reached the office; I therefore now record its position, which is as follows:
Commencing at the post between lots 3 and 4 on the 8th and 9th concession road

allowance in the Township of Wylie : thence on the said concession line to the side road allowance between lots 5 and 6 ; thence on the last named side road to the line between concessions 9 and 10 ; thence upon lot 6, to the 10th and 11th concession line. Two other short roads were made through lots 7 and 8 to give settlers an outlet to the main road.

The bridge is built over Chalk River on the 5th and 6th line of Buchanan, is 120 feet long and the approaches 150 yards.

15. Carlow Road.

Two miles of the portion last year chopped out and partially made, have been properly graded and fully opened up, while the grant was not sufficient to complete the whole work. There remains yet a mile to be finished in order to complete the contemplated job.

16. Chandos Road.

Repairs began at Apsley and extended easterly 10 miles. Several deviations were made to avoid rocky hills.

17. Callender Station Road,

is from Callender Station on the Canadian Pacific Railway (lot 10) south-easterly on the road allowance between concessions 8 and 9 to the line between lots 18 and 19, all in the Township of Bonfield.

The road is cut 40 feet wide, and grubbed and graded 16 feet wide in its centre—Its length is two miles.

18. Dummer Road.

The Government Grant was expended upon that portion of the Dummer Road which is in the 8th and 9th concession lines of Dummer Township, from lot 20 to lot 27, some 3 miles of repairs.

It is understood that the Township of Dummer first spent $200 with some 140 days' gratuitons labour, and the County Council $100 upon the same line of road.

19. Douglas and Admaston Road.

Four miles of repairs and 1½ miles of new road made.

This latter work enables settlers to reach a mill on Constant Creek on lot No. 8, Township of Grattan.

20. District Line Road.

This work was done in two sections, the one being 1¾ miles of road constructed on the "District Line" between the Townships of Bromley and Wilberforce, from the south side of lot 15 northerly, with some repairs upon the portion constructed. The second work was repairs begun on Range II. of the Township of Alice, extending to lot No. 10, and again from lot 10, concession 5 Stafford, to lots 6 and 7, in all about 3 miles of repairs and 1¾ of construction.

21. Eganville and Foy Road.

Repairs over 14 miles, nearly the whole length of the road.

22. Eganville and Round Lake Road.

Improvements over a mile and a half of this road, commencing at the point of ending last year, and ending on lot 31, con. 13 of the Township of Wilberforce.

23. Ferris and Widdifield Town Line Road.

This was ditching through a low portion of the road allowance between the two townships from Lake Nipissing easterly, about 300 yards in length.

24. Faraday and Bancroft Road.

This grant was made for the purpose of opening up a road from lot 12, con. 16 of Faraday, to Bancroft, through lots 9, 10, 11 and 12.

25. Frontenac Road.

Seven miles of repairs from the Missisippi Road northerly.

26. Frontenac Junction Road.

Five miles of repairs from the east end of the road westerly.

27. Grattan (13th con.) Road.

Work commenced on lot 22, con. 13, and extended to lot 33 along the said concession road. $2\frac{3}{4}$ miles of repairs.

28. Glastonbury Road.

Three miles of repairs from the Addington Road. Two bridges were also constructed with spans of 25 and 30 feet respectively. This road was first repaired in 1881.

29. Gull River Bridge.

This bridge is on the Bobcaygeon Road near the Village of Minden, and the expenditure was from a portion of the grant made upon the road.

The repairs were extensive, amounting largely to a renewal of the structure, which is 165 feet long. Some repairs were also made upon the road near the bridge.

30. German Road,

commences at the intersection of the Eganville and Round Lake Road with the road allowance between lots 20 and 21 in con. 12 of the Township of Wilberforce, and ends on lot 22 in the 12th concession —$2\frac{1}{4}$ miles. The work was general repairs over the above distance.

31. Harvey Road.

Improved from lot 20, con. 9, to lot 21, concession 13—3 miles.

32. Hastings Road.

Two sections repaired; the first, from Thanet (30 miles north of Madoc) northerly 15 miles. The second, from Maynooth southerly 4 miles, to what is known as Selby's Hill. 19 miles were therefore repaired, and it is said the improvements are of a very permanent nature.

The sum of $58.32 was also spent in repairing the York River Bridge.

33. Horton and Ross Road.

This work is on the road allowance between concessions 8 and 9, lot No. 16 of the Township of Ross, and was the filling in to form a road over three gullies or ravines, one being 320 feet wide; No. 2,170 feet, and No. 3,200 feet. A heavy piece of work.

34. Hyde's Chute Bridge.

This work was the construction of a pier and boom for the protection of the bridge from danger of injury by the passage of timber and logs during spring freshets.

The pier is 20 feet wide, 22 feet high, and 21 feet long, well made and framed, and filled with stone.

The planking and hand-rail of the bridge were also repaired.

35. Jones' Falls and Battersea Road.

The road was commenced at Jones' Falls, on the Rideau Canal, in the Township of South Crosby, and extended in a south-west direction to the boundary line between the above named township and Storrington, intersecting the same in the 13th concession of the latter township —4½ miles of repairs.

36. Kaladar Road.

Commences at the Addington Road upon lot 10, con. 7, Kaladar; thence westerly on lot 9, con. 7, lot 8, con. 6, lot 8, con. 5, lots 6 and 7, con. 4, and thence to lot 3, con. 3.

It is on the south side of the Ontario and Quebec Railway, and was repaired over 6 miles.

37. Lavant and Snow Roads.

The Lavant Road was repaired from the east boundary of Lavant westerly, 11 miles.

The Snow or Mississippi Road was repaired from its east end westerly, but the chief work was the filling in of a low swampy portion with stone and other solid material.

38. Lonsdale and Bridgewater Road.

This season two miles of road were made, extending through the 6th concession of the Township of Hungerford, the road itself being on the line between lots 24 and 25.

39. Mud Creek Bridge.

The bridge is situate upon lot 9, between concessions 2 and 3 of the Township of Stafford, and over Mud Creek. Its length is 50 feet and main span 25 feet.

Besides the construction of the bridge about 50 rods of a low marsh were filled in with stone and covered with clay, and was necessary as an approach to the bridge.

40. Mud Lake Road.

From Eganville westerly along the Bonnechere River, was repaired over 1½ miles. A large number of pine stumps removed.

41. Mattawa Bridge.

This bridge was too low, endangering the safety of the structure.

It was raised throughout its entire length of 696 feet, 2 feet 4 inches, and planked anew with 3 inch planking.

It is now supposed to be good for 10 years.

42. Mattawa and Tamiscamingue Road.

This road commences at Mattawa and extends in a north-westerly direction along the south side of the Ottawa River.

Five miles were made this season, the first three being over a very rough and strong section, requiring some 50 stone culverts for water drains.

The work is reported as having been done in a very permanent manner, the road throughout well supplied with off-lake drains and culverts.

43. Mount St. Patrick Road.

Repaired from the Opeongo Road southerly, 3½ miles.

This road is now reported as in good condition throughout.

44. Methuen Road.

Eight miles of repairs, one being north, and seven south of the Chandos Road.

Several improvements were made in the location of the road and a bridge built over a stream known to the poetic settlers as "Stinking Creek."

45. Monck Road.

Repaired from the boundary between Glamorgan and Monmouth to within about one and a half miles of Cheddar; about 14 miles in all of road repaired.

46. Moore's Falls Bridge and Road.

Extensive repairs were made to this bridge, which is over Gull River, on the Cameron Road, and in addition the road itself was repaired from the bridge northerly about 10 miles.

47. Mississippi Road.

There were 14½ miles of this road repaired, 6½ in the County of Hastings, and 8 in the County of Addington. The first mentioned were from the east boundary of the Township of Mayo, westerly, and the second from about 4 miles from the east end of the road westerly.

48. North Bay and Tamiscamingue Road.

is an entirely new work begun at the Canada Pacific Railway section at North Bay of Lake Nipissing, and constructed northerly on the road allowance between lots 20 and 21, through concessions B and C of Widdifield Township, a distance of about 1¾ miles, where it meets an old lumber road leading to Trout Lake.

The work was very heavy and therefore expensive, but is reported as very well done. It is chopped 50 feet wide and grubbed 12 feet.

49. Osceola and Douglas Road.

Situate between lots 9 and 10, and in concessions 3 and 4, Township of Bromley.

One and a quarter miles of repairs.

50. Parham and Arden Road.

This grant was made to finish a crossway begun but not completed last year.

It is 67 rods long and is situated on lots 6 and 7 in the 11th concession of Kennebec.

Besides the above, repairs were made on the town line between Oldham and Kennebec, between lots 1 and 6, 1½ miles.

51. Portage Du Fort Road.

A road lying between Portage du Fort on the Ottawa River and Haley's station on the Canada Pacific Railway.

Two miles were improved this season from Haley's station westward.

52. Peterson Road.

The portion repaired this season was in very bad condition, but now reported as a good road.

Work was commenced some 12 miles east of the Hastings and continued easterly 6½ miles. The sum of $176.06 was spent in repairs upon the Combermere Bridge on the above road.

53. Perrault Settlement Road.

Repairs from the road allowance between lots 20 and 21, concession 10, of Grattan, northerly along the said road allowance to concession 17, 5¼ miles of repairs and three quarters of a mile of a new road made through concession 16.

54. Pembroke and Mattawa Road.

In the Township of Papineau, from Mattawa easterly, received 4 miles of repairs.

55. Pembroke and Alice Road.

Commencing on the concession line between 10 and 11 at the line between lot 30 and concession B (Township of Alice), the road was repaired southerly one and a half miles.

56. Pole Church Road.

A road from the line between lots 30 and 31, concession 4, of the Township of Hagarty, south-westerly to lot 33 in the same concession.

It is a new road one and a quarter miles long, chopped and cleared 35 feet wide.

57. Petewawa Bridge.

The renewal of a bridge constructed some 20 years ago and slightly repaired in 1879. It will be 260 feet long, having 3 spans of 55 feet each and 1 of 35.

It is not yet examined and finally reported upon, but being in the hands of a good mechanic and bridge builder, will no doubt prove satisfactory. An additional grant is required to pay the balance due, the sum first voted being quite insufficient.

58. Pembroke and Barrie Bay Road.

A road commenced last year and only a portion of the grant expended.

This year a road 7½ miles long, and of a somewhat cheap character, was opened from near the south-west corner of the Township of Fraser, easterly, to meet last year's work.

The first 2½ miles are fairly made, and the balance formed as a winter road.

59. Perth Road.

Repairs from lot 1, concession 12, to lot 11, concession 14, in the Township of Storrington; 3½ miles.

60. Round Lake Road.

Repaired from lot 24, concession 1, Hagarty, easterly 1 mile, and southerly 2 miles.

Again, beginning on the 3rd concession-line of Brudenel, repairs were made southerly between lots 15 and 16, 1½ miles, giving a total of 4½ miles.

61. Renfrew and Douglas Road.

Five and a half miles of this road were repaired from Douglas, southerly, towards Renfrew, and a bridge built at Moore's Falls, some 3 miles south of Douglas, 50 feet long, resting on two piers and two abutments.

62. Ross and Bromley Road.

Last year a portion of this road was made and other portions repaired.

This season one and a quarter miles were constructed, and the road now ends on lot 15, concession 1, of Bromley.

63. Sharbot Lake Road.

The grant was made to assist in opening the road from a floating bridge, built last year. For this outlay of $300, of which $254 has been paid, about a mile and a quarter was made through lots 10, 11 and 12, in concession 1, of the Township of Oso.

64. Stafford Road.

Commencing on lot 23, concession 1, of Stafford, this road was repaired to lot 26, in the same concession; 2 miles.

65. Snowdon Bridge.

A bridge over Burnt River, 218 feet long, and valued by the inspector at $325.

It was built under the directions of the Municipality of Snowdon, the agreement being that the Government would pay $200 towards its construction, upon the report of the inspector that the bridge was properly and satisfactorily completed. This report has been obtained.

66. Snowdon and Minden Road.

Work commenced from the Bobcaygeon Road, lot No. 2, concession A, Minden, and 11 rods north of the line between lots 1 and 2; thence in an easterly course through concession A, across lots 1, 2, 3, 4, and 16 rods in upon lot 5. The whole length made and repaired is 2¼ miles, which is mostly construction, as the parts repaired were little more than a trail.

67. Sheffield Road.

Repaired from lot 15, concession 9 of Sheffield, southerly to lot 6, and from thence to lot 1, concession 14, or south boundary of the Township. Five and a half miles of repairs.

68. Tudor Road.

In 1882, as then reported, this road was made from lot 15, concession 16 of Cashel, to lot 24 in the 7th concession of Mayo. The following year some three miles of the same portion were repaired.

This year the work was continued southerly to the town line, between Mayo and Cashel, 5 miles, and thence to lots 16 and 17, between concessions 12 and 13 of Cashel, 4 miles, making 9 miles of road which is called new work as it had only been roughly chopped out previously.

The road now ends at the Mississippi Road.

69. Trout Lake and Folger Road.

A road leading from Trout Lake, in the Township of South Canonto, to Folger Station, on the Kingston and Pembroke Railway, about 3 miles north of Lavant Road.

The work consists of one mile of new road, and three miles of repairs upon what was an old lumber road.

The work is well reported of both as to quality of work performed, and also as to the value of the road to the settlers.

70. Victoria Road.

These repairs were from the Monck Road, intersection, northerly to Black River, about 8 miles. A bridge was built over a creek about 3 miles north of Monck Road, 160 feet long.

71. Vennachar Road.

This road, which in the report of 1881, is described pretty fully, was this season repaired over 5 miles of its length, and reported in a good state for travel.

72. Wollaston Road.

A road two miles long, as mentioned last year.

The whole length was graded and levelled this year, and a good and useful road secured to the settlers in Chandos.

73. West Mountain Road.

Four miles of repairs, commencing on lot 3, concession 13, and ending on lot 12, concession 14, of the Township of Brougham.

74. Wilberforce (*5th and 6th Concession*) Road.

As the name suggests, this road is on the concession-line between 5 and 6 of Wilberforce. It extends from the Bonnechere River northerly 1½ miles. It is new work.

75. Wylie Road.

A new road, from the boundary between Wylie and Rolph at lot 5, concession 15, of Wylie, and extended south-easterly one mile and a-quarter.

HENRY SMITH,
Supt. Colonization Roads

Department of Crown Lands,
Toronto, 31st December, 1884.

(No. 31.)

Return shewing in detail all sums paid or claimed for specimens of minerals or other products of the District of Algoma during the past year, for exhibition in Ontario or elsewhere, with the names of all persons by whom and to whom such payments were made, or by whom such claims were made, together with all papers, documents or communications conferring upon any person or persons authority to collect such exhibits, and all reports or communications made to the Government or any member or officer thereof by such person or persons. (*Not printed.*)

RETURN

To an Address to His Honour the Lieutenant-Governor, praying that he will cause to be laid before the House, copies of all correspondence between the Government of Ontario and the Government of the Dominion, respecting the Dominion Liquor License Act of 1883.

Presented to the Legislative Assembly by command of His Honour the Lieutenant-Governor.

By Command,

ARTHUR S. HARDY,
Secretary.

Provincial Secretary's Office,
Toronto, February 17th, 1885.

RETURN TO AN ADDRESS TO HIS HONOUR THE LIEUTENANT-GOVERNOR, PRAYING THAT HE WILL CAUSE TO BE LAID BEFORE THE HOUSE COPIES OF ALL CORRESPONDENCE BETWEEN THE GOVERNMENT OF ONTARIO AND THE GOVERNMENT OF THE DOMINION, RESPECTING THE DOMINION LIQUOR LICENSE ACT OF 1883.

GOVERNMENT HOUSE,
TORONTO, 12th May, 1884.

SIR,—I have the honour to call your attention to the 26th section of 47 Vic. cap. 32 (Dominion) entitled an Act to amend "The Liquor License Act, 1883" which provides that for the purpose of having the question of the competency of the Federal Parliament to pass the Liquor Acts therein mentioned, determined, His Excellency the Governor-General in Council may refer the question to the Supreme Court of Canada for the hearing and determination thereof, and that the Lieutenant-Governor of any of the Provinces may, with the consent of the Governor in Council, become a party to the said case, and in that event shall be entitled to be heard by Counsel in the argument thereof.

With reference to the above mentioned provision, I have the honour to inform you that I desire to be a party, on behalf of the Province of Ontario, to any reference which may be made to the Supreme Court of Canada under the said section.

The 4th clause of the said 26th section of the Act, to which I have called your attention, also declares that the judgment of the Supreme Court shall be final, unless at the request of the Governor in Council, or Lieutenant-Governor of any Province who may have been a party to the case, Her Most Gracious Majesty may be pleased to refer the matter of the said case and the decision of the Supreme Court thereon, to the Judicial Committee of Her Majesty's Privy Council.

It is submitted that this enactment is beyond the jurisdiction of the Federal Parliament, and that on a constitutional question that Parliament has no power to say what decision shall or shall not be final as against the Provinces.

This clause of the section of the Act has probably been introduced by oversight, and I desire to call your attention to it in order that it may not be assumed that my Government acquiesces in the jurisdiction of the Federal Parliament to pass such an enactment.

I have the honour to be, Sir,
Your obedient servant,

JOHN BEVERLEY ROBINSON,
Lieutenant-Governor of Ontario.

The Honourable
The SECRETARY OF STATE,
Ottawa, Ont.

DEPARTMENT OF THE SECRETARY OF STATE,
OTTAWA, 19th May, 1884,

SIR,—I have the honour to acknowledge the receipt of your despatch of the 12th instant, informing me that you desire to be a party on behalf of the Province of Ontario,

to any reference which may be made to the Supreme Court of Canada, under the 26th section of 47 Victoria, chapter 32, entitled "An Act to amend 'The Liquor License Act, 1883.'"

I have the honour to be, Sir,
Your most obedient servant,

G. Powell,
Under Secretary of State.

To His Honour,
The Lieut.-Governor of Ontario,
Toronto, Ont.

Department of the Secretary of State,
Ottawa, 30th May, 1884.

Sir,—I have the honour to acquaint you, for the information of your Government, that His Excellency the Governor-General in Council, has been pleased to order, with reference to the 26th section of the Act 47 Vic., chap. 32, intituled, "An Act to amend the Liquor License Act, 1883," that

1st. The annexed case be referred to their Lordships the Chief Justice and Justices of the Supreme Court of Canada, for hearing and determination.

2nd. That His Excellency consents to their Honours the Lieutenant-Governors of the several Provinces constituting the Dominion becoming parties to the case, and invites them so to become parties thereto.

3rd. That authority be given to take all necessary steps for obtaining an early decision of the questions so referred.

I am to add that their Lordships of the Supreme Court of Canada have been informed that, in view of the authority granted in the last-mentioned paragraph, and of the importance of obtaining an early decision on the case, the Government will be glad to have the Court name as early a day as possible for hearing the case, allowing a reasonable time for counsel to prepare for the argument.

When their Lordships shall have named the day for hearing the case, you will be duly notified thereof.

I have the honour to be, Sir,
Your obedient servant,

M. Bowell,
For the Secretary of State.

His Honour
The Lieut.-Governor of Ontario,
Toronto.

IN THE SUPREME COURT OF CANADA.

Case.

The following questions are referred by His Excellency the Governor-General in Council to the Supreme Court of Canada for hearing and determination, in pursuance of the provisions of the 26th section of 47th Victoria, chapter 32, intituled "An Act to amend the Liquor License Act, 1883":

I. *Question.*—Are the following Acts, in whole or in part, within the Legislative authority of the Parliament of Canada, namely:

(1) The Liquor License Act, 1883.
(2) An Act to amend "The Liquor License Act, 1883"?

II. *Question.*—If the Court is of opinion that a part or parts only of the said Acts are within the legislative authority of the Parliament of Canada, what part or parts of said Acts are so within such legislative authority?

DEPARTMENT OF THE SECRETARY OF STATE,

OTTAWA, 31st May, 1884.

SIR,—With reference to the letter to you of the 30th instant, and to its enclosures respecting the Act to amend the Liquor License Act, 1883, and the case relating thereto, I am directed to acquaint you, for the information of your Government, that an intimation has been received at this Department from His Lordship the Chief Justice of the Supreme Court of Canada, to the effect that the earliest possible day upon which the Court can meet to hear such case will be Thursday, the 26th of June next, on which day, at 11 a.m., the the Court will sit, if counsel for the Dominion and the several Provinces are then ready to proceed with the argument.

I have the honour to be,

Sir, your obedient servant,

G. POWELL,
Under Secretary of State.

His Honour
The LIEUT.-GOVERNOR of Ontario,
Toronto.

GOVERNMENT HOUSE,

TORONTO, 6th June, 1884.

SIR,—In reply to your despatches of the 30th and 31st ultimo, with reference to the 26th section of the Act 47, cap. 32, intituled "An Act to amend the Liquor License Act, 1883," I have the honour to state, for the information of your Government, that I accept the invitation of His Excellency the Governor-General to be a party to the proposed submission to the Supreme Court of Canada of the question as to "The Liquor License Act, 1883," and "The Act to amend the Liquor License Act, 1883," being either in whole or in part within the legislative authority of the Parliament of Canada, as set out in the printed case transmitted in your despatch of the 30th ultimo.

I desire to request that there be added to the case to be submitted to the Supreme Court a statement that "The Lieutenant-Governor of the Province of Ontario, on behalf of the said Province, has become and is a party to this reference." This request is made in order that the possibility of any objection being raised in the Most Honourable the Privy Council that the Province is not technically a party to the case may be avoided if the case should be carried to the Privy Council.

It is impossible, at the present moment, to say whether or not counsel will be able to argue the case at the date named; but as soon as this fact is ascertained, communication thereof will be made to your Government. My Government would have been pleased had a later day been named, as they fear that the time allowed is too short to permit of united action by the Provinces.

I have the honour to be, Sir,

Your obedient servant,

(Signed) JOHN BEVERLEY ROBINSON,
Lieutenant-Governor of Ontario.

rable
ECRETARY OF STATE,
Ottawa, Ont.

DEPARTMENT OF THE SECRETARY OF STATE, CANADA,
OTTAWA, 10th June, 1884.

SIR,—I have the honour to acknowledge the receipt of your despatch of the 6th instant, informing me, for the information of this Government, that you accept the invitation of His Excellency the Governor-General, to be a party to the proposed submission to the Supreme Court of Canada of the question as to "The Liquor License Act, 1883," and the "Act to amend the Liquor License Act, 1883," being either in whole or in part within the legislative authority of the Parliament of Canada, as set out in the printed case transmitted to you in my letter of the 30th ultimo, and requesting that there be added to the case to be submitted to the Supreme Court a statement that "The Lieutenant-Governor of the Province of Ontario, on behalf of the said Province, has become and is a party to this reference."

I have the honour to be, Sir,
Your obedient servant,
G. POWELL,
Under-Secretary of State.

His Honour
The LIEUT.-GOVERNOR of Ontario,
Toronto.

DEPARTMENT OF THE SECRETARY OF STATE, CANADA,
OTTAWA, 24th June, 1884.

SIR,—With reference to previous correspondence on the subject of the Act to amend "The Liquor License Act, 1883," and the case relating thereto, to be agreed before the Supreme Court of Canada, I have now the honour to acquaint you, for the information of your Government, that an intimation has been received at this Department that their Lordships the Chief Justice and Judges of that Court, have postponed the hearing of the said case until the 23rd day of September next, at eleven o'clock a.m.

I have the honour to be, Sir,
Your obedient servant,
G. POWELL,
Under-Secretary of State.

His Honour
The LIEUT.-GOVERNOR of Ontario,
Toronto.

THE SUPREME COURT OF CANADA,
OTTAWA, 16th January, 1885.

The Honourable A. S. HARDY,
Provincial Secretary, Province of Ontario,
Toronto.

SIR,—I have the honour to enclose, for the purpose of being laid before His Honour the Lieutenant-Governor, the opinion of the Supreme Court of Canada on the special case referred to the Court by His Excellency the Governor-General in Council, respecting "The Liquor License Act, 1883," and "An Act to amend 'The Liquor License Act, 1883.'"

I am, Sir,
Your obedient servant,
ROBT. CASSELS,
Registrar.

[L.S.] In the Supreme Court of Canada,

Monday, the twelfth day of January, 1885.

Present:

The Honourable Sir William Johnstone Ritchie, Knight, Chief Justice;

The Honourable Samuel Henry Strong, J.;
" Telesphore Fournier, J.;
" William Alexander Henry, J.;
" Henri Elzear Taschereau, J.

A special case containing the following questions having been referred by His Excellency the Governor-General in Council to the Supreme Court of Canada for hearing and determination, in pursuance of the provisions of the 26th section of 47th Victoria, chapter 32, intituled "An Act to amend the Liquor License Act, 1883":—

1st Question—Are the following Acts, in whole or in part, within the legislative authority of the Parliament of Canada, namely:—

(1) "The Liquor License Act, 1883;"

(2) "An Act to amend 'The Liquor License Act, 1883.'"

2nd Question—If the court is of opinion that a part or parts only of the said Acts are within the legislative authority of the Parliament of Canada, what part or parts of said Acts are so within such legislative authority?

And the said case having come before the court for hearing on the 23rd day of September last past, whereupon, and upon application of Mr. Bethune, Q.C., one of the counsel representing the Dominion of Canada, the said case so referred was amended, by stating that, in pursuance of section twenty-six, sub-section three, of the said Act forty-seven Victoria, chapter thirty-two, "An Act to amend 'The Liquor License Act, 1883,'" the Provinces of Ontario, Quebec, New Brunswick, and British Columbia, had become parties to the said case; and the said case having been subsequently further amended, by stating that the Province of Nova Scotia had also become party thereto. And the said case so amended as aforesaid having come on for hearing before this court, in presence of counsel for the said Dominion of Canada and for the said Provinces, on the twenty-third, twenty-fourth, twenty-fifth, twenty-sixth, and twenty-seventh days of September last past, whereupon, and upon hearing what was alleged by counsel aforesaid, this court was pleased to reserve the said case for consideration, and the court, having duly considered the same, do now certify to His Excellency the Governor-General in Council, in answer to the questions submitted for the determination of the said Court by the said case, that, in the opinion of the said Court, the Acts referred to in the said case, namely, "The Liquor License Act, 1883," and "An Act to amend 'The Liquor License Act, 1883,'" are, and each of them is, *ultra vires* of the legislative authority of the Parliament of Canada, except in so far as the said Acts respectively purport to legislate respecting those licenses mentioned in section seven of the said "The Liquor License Act, 1883," which are there denominated vessel licenses and wholesale licenses, and except also in so far as the said Acts respectively relate to the carrying into effect of the provisions of "The Canada Temperance Act, 1878."

The Honourable Mr. Justice Henry being of opinion that the said Acts are *ultra vires* in whole.

By the Court.

(Signed) Robert Cassels,
Registrar.

TORONTO, 17th January, 1885.

SIR,—I have the honour to acknowledge the receipt, for the purpose of being laid before His Honour the Lieutenant-Governor, of the opinion of the Honourable the Supreme Court of Canada on the special case referred to the Court by His Excellency the Governor-General in Council, respecting "The Liquor License Act, 1883," and "An Act to amend 'The Liquor License Act, 1883.'"

I have the honour to be, Sir,

Your obedient servant,

G. E. LUMSDEN,
Assistant Secretary.

R. CASSELS, ESQ.,
Registrar, Supreme Court,
Ottawa.

THE SUPREME COURT OF CANADA,
OTTAWA, January 19th, 1885.

SIR,—Owing to the hurry of preparing the copies of the opinion of the Supreme Court in the License case, an error was made in the copy sent you on Friday last, Mr. Justice Taschereau's name having been inserted therein instead of the name of Mr. Justice Gwynne. I send herewith an amended copy.

I am, Sir,

Your obedient servant,

ROBT. CASSELS.

The PROVINCIAL SECRETARY,
Toronto.

[L.S.] IN THE SUPREME COURT OF CANADA,
MONDAY, the twelfth day of January, A.D. 1885.

Present:

The Honourable Sir WILLIAM JOHNSTONE RITCHIE, Knight, Chief Justice;

The Honourable SAMUEL HENRY STRONG, J.;
" TELESPHORE FOURNIER, J.;
" WILLIAM ALEXANDER HENRY, J.;
" JOHN WELLINGTON GWYNNE, J.

A special case containing the following questions having been referred by His Excellency the Governor-General in Council, to the Supreme Court of Canada for hearing and determination, in pursuance of the provisions of the twenty-sixth section of forty-seven Victoria, chapter thirty-two, intituled "The Liquor License Act, 1883."

1. *Question.*—Are the following Acts, in whole or in part, within the legislative authority of the Parliament of Canada, namely :

(1) The Liquor License Act, 1883 ;
(2) An Act to amend "The Liquor License Act, 1883"?

2. *Question.*—If the Court is of opinion that a part or parts only of the said Acts are within the legislative authority of the Parliament of Canada, what part or parts of said Acts are so within such legislative authority?

And the said case having come before the Court for hearing on the twenty-third day of September last past, whereupon and upon application of Mr. Bethune, Q.C., one of the counsel representing the Dominion of Canada, the said case so referred was amended by stating that in pursuance of section twenty-six, sub-section three, of the said Act forty-seven Victoria, chapter thirty-two, "An Act to amend 'The Liquor License Act, 1883,'" the Provinces of Ontario, Quebec, New Brunswick, and British Columbia had become parties to the said case, and the said case having been subsequently amended by stating that the Province of Nova Scotia had also become a party thereto.

And the said cause so amended as aforesaid having come on for hearing before this Court, in presence of counsel for the said Dominion of Canada and for the said Provinces, on the twenty-third, twenty-fourth, twenty-fifth, twenty-sixth and twenty-seventh days of September last past, whereupon and upon hearing what was alleged by counsel aforesaid, this Court was pleased to reserve the said case for consideration, and the Court, having duly considered the same, do now certify to his Excellency the Governor-General in Council, in answer to the questions submitted for the determination of the said Court by the said case, that in the opinion of the said Court the Acts referred to in the said case, namely : "The Liquor License Act, 1883," and "An Act to amend 'The Liquor License Act, 1883,'" are, and each of them is, *ultra vires* of the legislative authority of the Parliament of Canada, except in so far as the said Acts respectively purport to legislate respecting those licenses mentioned in section seven of the said "The Liquor License Act, 1883," which are those denominated Vessel Licenses and Wholesale Licenses, and except also in so far as the said Acts respectively relate to the carrying into effect of the provisions of "The Canada Temperance Act, 1878."

The Honourable Mr. Justice Henry being of the opinion that the said Acts are *ultra vires* in whole.

By the Court.

(Signed) Robt. Cassels,
Registrar.

Toronto, 20th January, 1885.

Sir,—I have the honour to acknowledge the receipt of your letter of the 19th instant, enclosing an amended copy of the opinion of the Honourable the Supreme Court in the License case, an error having been made in the copy sent on Friday last, by substituting for the name of Mr. Justice Gwynne that of Mr. Justice Taschereau.

I have the honour to be, Sir,
Your obedient servant,

G. E. Lumsden,
Assistant Secretary.

R. Cassels, Esq.,
Registrar Supreme Court,
Ottawa.

(No. 33.)

Order in Council commuting the fees of His Honour Judge Dean of Victoria. (*Not printed.*)

BINDING SECT. AUG 2 3 1967
